American Railroad Journal.

Saturday, April 8, 1871.

Stock Exchange and Money Market.

The Money market has shown more activity, since our last, due, in part, to speculative manipulations of the supply funds, with a view to the depression of values at the Stock Exchange. Rates on call loans have been quoted higher, and quite irregular, the range having been from 4@7 per cent., with the bulk of the negotiations on the basis of 5@6 per cent. per annum. In the discount line, the business has been comparatively moderate at 6@7 per cent. per annum, on the best grades of commercial paper. The City Bank movement, since our last, has been against ease in Money, but as the usual April inquiry for currency for the country has now been fully answered, it is not improbable that the course of the exchanges with the interior will soon be reversed, and the balances so continue in favor of the City, through the remainder of the Spring, and also through the Summer months. The city banks, in their last weekly statement, exhibited a further reduction of $3,636,207 in their deposit line, $1,641,315 in their specie reserve, and $1,922,865 in their legal tender average. The y contracted their loans $31,893, and their circulation $7,609. The banks now hold $7,817,764 of specie and legal tender notes, in excess of the 25 per cent. of their liabilities required by the national banking act. The U. S. Sub Treasury at this port, last week, increased its currency reserve, $281,089, and its coin balance $2,094,131. The receipts of the office were $5,700,090, in coin, and $7,569,916 in currency; payments $3,605,960 in coin, and $7,288,827 in currency. The office received $3,616,000 in coin or its equivalent, from customs; and disbursed $338,000 of coin interest.

The Sub Treasury receipts from all sources in March were $55,026,029, including $15,651,969 from customs; payments, $50,204,265, including $4,042,915 of coin interest. The latest dealings in Money on Wednesday indicated an easier movement for borrowers.

Under the revised April programme of the Treasury Department, Government will buy in, during the month, ten millions of Five-Twenties, as follows: April 5, Wednesday, $3,000,000; April 12, Wednesday $2,000,000; April 19, Wednesday, $3,000,000; April 26, Wednesday, $2,000,000. And will sell eight millions of Gold, as follows: April 6, Thursday, $2,000,000; April 13, Thursday, $2,000,000; April 20, Thursday, $2,000,000; April 27, Thursday, $2,000,000.

The subscriptions to the new refunding Five per cent. Loan now amount to about 55 millions. The prospect for the successful negotiation of this loan now seems quite encouraging.

The U. S. Sub-Treasury, on Thursday morning of this week, held a balance of $7,807,307 in currency, and $69,375,926 in coin against a balance a week previous of $9,728,063 currency, and $66,853,569 coin.

The U. S. Sub-Treasurer retired, last week, $3,120,158 of coin certificates, received for customs.

Government revenues have been up to a fair average, since our last. The Excises yielded about 1⅞ millions. The customs at the port of New York, last week were $3,497,159; and at the outports, equal to about 1⅛ millions more, all in coin, or coin certificates. The internal revenue yield thus far in the current fiscal year beginning with July 1, 1870, has been $111,538,870.

Gold has been quoted a fraction higher, under the operations of the *short* interest, which was disappointed by the limitation of the Government sales for April to two millions a week, while the customs at this port alone will yield during the month, equal at least to three millions a week, to the Treasury. The speculative demand has been more active. The customs call has been good; and the export drain moderate. The range of the price has been from 110⅛@110¾; and the closing quotation on Wednesday was 110⅛ against 110⅜ the preceding Wednesday. The outflow of of specie from this port last week reached only $742,831; on Tuesday, $60,000; and on Wednesday of this week, it amounted to $245,000.

The coin reserve of the Treasury Department on the 1st inst. was $105,697,800, including $25,261,460 represented by outstanding certificates; and the currency balance was $18,686,247.

The customs at this port on Wednesday were $409,000.

The Gold Exchange Bank clearances on Friday of last week were $30,531,000; on Monday of this week $18,682,000, the extremes since our last. On Wednesday they amounted to 20⅞ millions.

The export drain was $742,831 last week, against $206,952, same week preceding year. The shipments since July 1, 1870, have been $55,523,683, against $23,243,875 same time in 1869–'70.

The customs demand for Gold last week, averaged $602,667 a day; thus far, this week, it has averaged $534,500 a day, or equal to a weekly aggregate of $3,207,000. The arrivals of specie from Europe, Havana and other foreign ports last week were $28,629, and since Jan. 1, 1871, $2,777,007, against $5,818,954 same time in 1870. The total customs revenue of the Government, in coin, at this port, since July 1, 1870, has been $112,053,979, against $99,948,666 same time in 1869–'70.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt since July 1, 1870, $66,600,604 against $69,992,304 same time in 1869–'70.

Foreign Exchange has been in more demand and quoted a shade firmer. Bankers' sixty day bills on London closed on Wednesday at 109⅞@110; sight bills on London, 110@110⅛.

The produce exports from this port, week ending with April 4th, were to the currency value of $5,525,810.

Government securities have been quite active and have advanced in price, on free purchases largely on investment account. The satisfactory progress of the New Loan negotiation, and the further liquidation of over eleven millions of the public indebtedness in March, have tended to strengthen confidence in values and to stimulate purchases.

On Wednesday, Government bought in three millions of Five-Twenties from the single firm of Messrs. Leonard, Sheldon & Foster at 109 85, ex interest. The amount of bonds offered on 28 proposals was $10,901,950.

U. S. sixes of 1881 closed here on Wednesday of the current week at 116¼@116⅜; U. S. Five-Twenties of 1862, 112¾@112⅞; U. S. Five-Twenties of 1864 at 112⅝@112¾; U. S. Five-Twenties of 1865, 112⅝@112¾; U. S. Five-twenties of 1865 consolidated, 111⅛@111⅜; U. S. Five Twenties of 1867, 111⅛@111⅜; U. S. Five-twenties of 1868, 111¾@112; U. S. Ten-forties at 108¾@109; U. S. Six per cent. currency bonds, 115⅜@115½.

State bonds have been in fair request at firmer prices.

Railway bonds have been selling more freely at stronger prices. Central Pacific Sixes have been in good demand, closing at 95¼@95¾. The Chesapeake and Ohio R. R. First Mortgage six per cent. gold bonds are selling freely at 90 per cent. and accrued interest. Union Pacific Sixes closed at 83⅝@83⅞.

Railway and miscellaneous share property has been in very brisk speculative demand, and generally higher and buoyant in price, notwithstanding the increased activity and firmness in Money. The latest dealings indicated a less confident temper in the speculative movement. Union Pacific stock closed at 25¾@25⅞.

General business has been more active since our last. In the line of foreign goods, the movement has been extraordinarily heavy; the week's imports having been up to $11,930,286, including $4,625,725 of Dry Goods and $7,304,561 of general merchandise. Values have been fairly sustained. Domestic produce has met with a rather freer sale, but at irregular prices. Middling upland cotton closed on Wednesday at 15 cts. per lb. The receipts at all the ports, since Sept. 1, have been 3,315,265 bales, against 2,362,819 bales same time last year; exports 2,268,237 bales, against 1,562,339 bales same time last year; stock at the ports at latest dates, 614,695 bales, against 406,918 bales same date 1870.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	March 22.	March 29.	April 5.
Consols	92¼	93	92 15/16
U.S. 5-20's of 1862	92 3/16	92 5/16	92 11/16

" 1867	90¾	91 5/16	91¾
" 10-40s	89	89	89¼
Erie	18⅛	19	18⅞
Ill. Central	110½	110½	....
At. and Gt. West.	35	38	....

At the Live Stock markets, Beeves have been in rather more demand at 10@15½c.; Veal Calves in moderate request at 8@11½c; Sheep, at 6@8½c., and Swine, at 7@7¼c. per lb., all live weight. Milch cows, quiet at $40@$100, each. The week's receipts were 6,523 Beeves, 74 Cows, 1,846 Veal Calves, 24,477 Sheep and Lambs, and 14,132 Hogs.

In the line of ocean freights, the movements have been fair, and rates have been quoted rather stronger. For Liverpool, cotton at ¼@11/32d. by sail and 5/16@⅜d. by steam, per lb.; flour at 2s.@2s. 3d. by sail, and 2s. 6d.@2s. 9d. by steam, per bbl.; grain at 5½d.@5¾d. by sail, and 6¾d.@7d. by steam. per bushel; and heavy goods at 15s.@27s. 6d. by sail, and 25s.@40s. by steam, per ton.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Toledo, Wabash and Western 1st mort., St. L. Div., 85; Central of New Jersey new bonds, 101⅜; Ohio and Mississippi consol. bonds, 90; Long dock bonds, 85½; North Missouri 1st mort., 84; do., 2d mort., 59; Hannibal and St. Joseph 8s, conv., 103; Great Western 1st mort., 1888, 89½; Buffalo, N. Y. and Erie 1st mort., 88½; Quincy and Toledo 1st mort., 83; Cleveland and Pittsburg consol. bonds, 93; Am. Dock and Imp. 7s, 95½; Chicago and Milwaukee 1st mort., 95; Long Island R. R., 57; Joliet and Chicago R.R., 90; Miss., Kansas and Texas R.R., 30; St. Louis and Iron Mt. R. R., 55; do. 1st mort., 89½; Albany and Susq. R. R., 87; New Jersey R. ☞ ELIZABETHTOWN AND PADUCAH RAILROAD.—The well known Bankers, Messrs. NORTON, SLAUGHTER & CO., of 41 Broad Street, Messrs. WM. ALEXANDER SMITH & CO., of 40 Wall Street, and Messrs. HALLGARTEN & CO., of No. 28 Broad Street, New York, recommend, after a thorough investigation into the affairs of the Company, THE EIGHT PER CENT. FIRST MORTGAGE BONDS OF THE ELIZABETHTOWN AND PADUCAH RAIL ROAD COMPANY of Kentucky, as a very safe and desirable investment. They are only authorized to offer a limited amount of these securities at 87½ and accrued interest. The Bonds offered are on the completed portion of the Road, which is now in successful operation.

☞ TEXAS PACIFIC RAILROAD COMPANY.—Notice is hereby given, that, pursuant to the Act of Congress, entitled "An Act to Incorporate the Texas Pacific Railroad Company, and to aid in the Construction of its Road, and for orther purposes," approved March 1, 1871, the persons named in the first section of said Act, who are by said Act constituted a Board of Commissioners, known as the Texas Pacific Railroad Commissioners, will meet at the Office of the Southern Transcontinental Railroad Company, on the north-east corner of Warren and West-sts., in the City of New York, on the 15th day of April, 1871, at 12 o'clock, noon, of that day, for the purpose of opening Books of Subscription to the Capital Stock of the said Texas Pacific Railroad Company, of receiving Subscriptions to said Stock, and electing a Treasurer in pursuance of the said Act.—Dated New York, March 27, 1871. J. C. Fremont, Marshall O. Roberts, Henry D. Cooke, John W. Forney, E. L. Fancher, Luther R. Marsh, Richard C. Parsons.

NEW LOAN OF THE UNITED STATES.

PROGRESS OF SUBSCRIPTIONS.

PRIVILEGE STILL OPEN FOR $200,000,000 FIVE PER CENTS.

The department has advised by telegraph that the subscriptions to the loan to Thursday, March 30, amount to $50,600,000. The Secretary has also authorized the notice that the unconditional privilege of subscribing to the first class of bonds, five per cents, to the extent of $200,000,000 remains open until further advice.

The proposed loan comprises three classes of bonds, namely:

First. Bonds to the amount of five hundred millions of dollars, payable in coin, at the pleasure of the United States, after ten years from the date of their issue, and bearing interest payable quarterly in coin, at the rate of five per cent. per annum.

Second. Bonds to the amount of three hundred millions of dollars, payable in coin, at the pleasure of the United States, after fifteen years from the date of their issue, and bearing interest, payable quarterly in coin, at the rate of four and a half per ce nt. per annum.

Third. Bonds to the amount of seven hundred millions of dollars, payable in coin, at the pleasure of the United States, after thirty years from the date of their issue, and bearing interest, pay able quarterly in coin, at the rate of four per cent. per annum.

Subscriptions to the loan will have preference in the following order, namely:

First. Subscriptions that may be first made for five per cent. bonds to the amount of two hundred millions of dollars; of which there will be reserved, for twenty days one half for subscribers in this country and one half for subscribers in foreign countries.

Second. Subscriptions for equal amounts of each class of bonds.

Third. Subscriptions for equal amounts of bonds bearing interest at the rate of four and a half per cent., and of bonds bearing interest at the rate of five per cent.

Fourth. Subscriptions for any five per cent. bonds that may not be subscribed for in the preceding classes.

When a subscription is made, the subscriber will be required to deposit two per cent. of the amount thereof in coin or currency of the United States, or in bonds of the class to be exchanged, to be accounted for by the Government when the new bonds are delivered; and payments may be made either in coin or in bonds of the United States known as Five Twenty bonds, at their par value.

The coin received in payment will be applied to the redemption of Five-Twenty bonds, and the debt of the United States will not be increased by this loan.

The bonds will be registered or issued with coupons, as may be desired by subscribers. Registered bonds will be issued of the denominations of $50, $100, $500, $1,000, $5,000 and $10,000; and coupon bonds of each denomination except the last two. The interest will be payable in the United States at the office of the Treasurer, any Assistant Treasurer, or designated depositary of the Government, quarterly, on the first days of February, May, August and November, in each year.

The bonds of the several classes aforesaid, and the interest thereon, are exempt from the payment of all taxes or dues of the United States, as well as from taxation in any form by or under State, municipal or local authority.

After maturity, the bonds last issued will be first redeemed, by classes and numbers, as may be designated by the Secretary of the Treasury.

The bonds will be issued at the United States Treasury, but the agents for the negotiation of the loan in Europe are authorized to make arrangements with subscribers for the transmission of the bonds to the agents through whom subscriptions may be received.

Subscribers in the United States will receive the new bonds of the agents with whom the subscriptions are made.

In the United States the National Banks are authorized to receive subscriptions, and subscriptions may also be made at the office of the Treasurer of the United States, or of any Assistant Treasurer, or the designated depositaries at Buffalo, N. Y.; Chicago, Ill.; Cincinnati, Ohio; Louisville, Ky.; Mobile, Ala., and Pittsburg, Pa.

HARVEY FISK. A. S. HATCH.

OFFICE OF FISK & HATCH, BANKERS,
No. 5 NASSAU STREET,
NEW YORK, March 27, 1871.

THE FIRST MORTGAGE SIX PER CENT. GOLD BONDS OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY—of which about $6,000,000 have already been marketed—are secured upon an East and West Trunk Line of Road, 427 miles in length, the greater part of which (227 miles) is in profitable operation, and the remainder rapidly building. When completed it will establish a short, economical and favorite route between tide water navigation and the chief railroad and river cities of the West.

Besides the immense volume of through traffic between the East and West which this Road can command by its superior advantages in distance, grades, fuel and unfailing navigable connections, this road must convey enormous quantities of the superior smelting, cannel and bituminous coals of the Kanawha Valley, and the iron ores of Virginia and West Virginia, which are in demand at both ends of the line.

The value of the property, the certainty of a large and profitable business, the established reputation and credit of the Company, and its able and honorable management, give to these securities an assurance of superior value and safety.

They may be had in *Coupon* or *Registered* form, and in denominations of

$1,000, $500, and $100.

Price, 90 and accrued interest from Nov. 1.

We have prepared pamphlets showing the agricultural, mineral and manufacturing advantages of the adjacent territory, and the traffic facilities and financial prospects of the Road, which will be furnished on application.

FISK & HATCH, Financial Agents.

☞ Surveys have been commenced by S. L. Minot, chief engineer, for the new railroad from Monument on the Cape Cod Railroad to Woods' Hole.

☞ The President of the Milwaukee, Nashua and St. Joseph Railroad informs the Marshall *Times* that he has twenty miles of his road located and contracted, and is confident that the road will be built.

Journal of Railroad Law.

RAILROAD COMPANIES—LIABILITY OF COMMON CARRIER FOR GOODS MIS-SENT—WHEN CHARGEABLE WITH KNOWLEDGE OF FACTS KNOWN TO SOME OF THE AGENTS.

The facts in the recent case of Congar and ano. *vs.* The Chicago and North Western Railway Company (24 Wis. 167) are as follows: viz. The plaintiffs shipped by defendant's road trees and other nursery stock from Whitewater, in this State, directed to "Juka, Iowa," the consignees being resident in a village of that name in Tama County, Iowa. At Chicago, the goods were shipped by defendant's agents by the Chicago, Burlington and Quincy Railroad Company, and at Quincy, were transferred to the Quincy and Missouri Railway, by which they were transported to Juka, in Keokuk County, Iowa. In consequence of this mistake, they are alleged to have become worthless, and this action was brought to recover damages.

The following is the able opinion of the court delivered by

DIXON, CH. J.—The decision of the court below, as shown by the written opinion of the learned Judge found in the printed case, turned upon the point that, for the purpose of charging the company with negligence in shipping the goods over the wrong road, notice to any of its agents was notice to the company. In other words the court held, that the knowledge of the agents residing in the State of Iowa, and transacting the business of the company there, of a place in that State named Juka, and that goods destined for that place were to be deposited at the nearest station on the line of the company's road, called Toledo, was the knowledge of the company, so as to make the company responsible for any injury resulting for the mistake of its agents residing and transacting its business at the City of Chicago, in the State of Illinois, in forwarding the goods from the latter place by another railroad, instead of over the company's own road, although such mistake occurred without any negligence whatever on the part of the agents making; but, after they had taken reasonable and proper care to ascertain the route by which the goods should be forwarded, and had forwarded them in accordance with the information so obtained. This, we think, was an erroneous application of the doctrine that notice to the agent is notice to the principal. Such notice to be binding upon the principal, must be notice to the agent when acting within the scope of his agency, and must relate to the business, or, as most of the authorities have it, the very business, in which he is engaged, by authority of his principal. It must be the knowledge of the agent coming to him while he is concerned for the principal, and in the course of the very transaction which is the subject of the suit, or so near before it that the agent must be presumed to recollect it. Story on Agency § 40, and 2 Kent's Com. 630, and note and cases cited. Notice, therefore, to the agents in Iowa, distant some two or three hundred miles from the City of Chicago, who had distinct duties to perform, and were not at all concerned in the business of forwarding the goods from Chicago, was not such notice as will bind the company in relation to that business, the same having been transacted by other agents, who had no such notice. This seems very clear, when we consider the reason and ground upon which this doctrine of constructive notice rests. The principal is chargeable with the knowledge of his agent, because the agent is substituted in his place, and represents him in the particular transaction; and it would seem to be an obvious perversion of the doctrine, and to lead to most injurious results, if, in the same transaction, the principal were likewise to be charged with the knowledge of other agents, not engaged in it, and to whom he had delegated no authority with respect to it, but who were employed by him in other and wholly different departments of his business.

The complaint charges that the place called Juka, in Tama County, Iowa, to which the goods were intended to be sent, was known to the agents of the company residing and doing business along the line of its road in the State of Iowa, and that the station where such goods were to be deposited was Toledo. The answer alleges that the same place was unknown to the officers and agents of the company at Chicago; that they were informed that said Juka was situated in Keokuk County, in the State of Iowa and near the line of the Burlington and Missouri Railroad; that they examined a map of Iowa used by shippers, and kept in the office of defendant, for the purpose of ascertaining where said Juka was situated; and that said map represented said Juka as being in Keokuk County aforesaid. The answer further alleges that the goods were directed to "C. E. Cox, Juka, Iowa" without giving the name of the County, or other directions to indicate to what part of the State, or to what railroad station in the State, the same were consigned, or by what line of railroad the same were to be forwarded. It appears to this court, therefore, upon the pleadings, that no cause of action for negligence is stated against the company, but that if there was negligence on the part of any one, it was upon the part of the plaintiff in not having marked the goods with the name of the County or otherwise with that of the railway station or with the line of road by which they were to be sent. The demurrer to the answer should therefore have been overruled; and the order sustaining it must be reversed and the cause remanded for further proceedings according to law.

So ordered.

Pittsburg, Ft. Wayne and Chicago Railroad.

At the annual meeting of the stockholders of this company in Pittsburg on the 15th ult., the following gentlemen were elected directors to serve in the place of those whose term of office had expired by law, viz: Hon. John Sherman, of Ohio; Kent Jarvis, of Ohio, and Thos. A. Scott, of Pennsylvania. The Annual Report of the President which was read by the Secretary, is as follows:

To the Stockholders and Bondholders of the P. Ft. W. and C. Ry. Co:

Your Board of Directors, in submitting this their first report, after your road and property had been a full calendar year in the charge of the lessee is gratified at being able to give you the assurance of a satisfactory management of your property. The roadway, track and bridges are in good condition.

The bridge over the Beaver river (single track) has been completed, and the double track has been finished and brought into use to the summit of Beaver hill—a distance of thirty-seven miles

from Pittsburg—making the whole length of the double track forty-three miles.

The rolling stock of all kinds has been kept in good repair, without, however, any increase in quantity. The new passenger coaches, built to replace those which were no longer serviceable, are of a better standard of excellence than we have heretofore had. Many of the station buildings, both passenger and freight, need repair, and some need rebuilding, and at other points buildings are required where none have ever been erected.

It is the expressed purpose of the lessee to do all that is now needed in the way of buildings, excepting at Chicago. The hope is still entertained that several of the railway companies whose roads terminate at Chicago will unite in erecting a passenger station for common use.

Within the year the lessee has obtained by lease the Erie and Pittsburgh railroad, from New Castle to Erie, which insures the traffic between Pittsburg and Erie to use a portion of your road.

The Massilon and Cleveland railroad, in which your company is a shareholder, has been completed and brought into use, being worked by the Cleveland, Mt. Vernon and Delaware railroad company.

The Grand Rapids and Indiana railroad has also been completed to Paris, two hundred miles north of Fort Wayne, during the year, and is equipped to a capacity to earn eight hundred thousand dollars this year. The road is worked by the organization which manages for the lessee the P. Ft. W. and C. railway, the whole being under the general supervision and control of J. N. McCullough, Esq. Economy in management and entire harmony between the main line and this important auxiliary is by this arrangement assured. The advantages to be derived by your road on the completion of the Grand Rapids and Indiana railroad, which were anticipated when you decided to promote the building of it, are already in part realized.

The lessee reports the result of the year's business as follows:

MAIN LINE.

Gross earnings		$7,782,623 13
Operating expenses		4,228,054 98
		$3,554,568 15

NEW CASTLE AND BEAVER VALLEY BRANCH.

Gross earnings		$251,038 32
Operating expenses	$83,852 10	
Paid stockholders of the N. C. & B. C. R.R. Co.'s.	100,415 33	
		184,067 48
		$66,970 89

LAWRENCE BRANCH.

Gross earnings		$123,767 05
Operating expenses	$60,280 45	
Paid stockholders of the Lawrence Railway Co.	49,506 82	
		109,787 27
		$13,979 78

SUMMARY OF EARNINGS.

Main line	$3,554,568 15
N. C. & B. V. R. R	66,970 89
Lawrence R. R	13,979 78
	$3,635,513 82

From which deduct—

Rental, under the lease, including U. S. tax and divid'ds.	$2,530,102 27	
Amount expended on road in addition to the ordinary operating expenses	255,619 31	
Less amount paid to the C. & P. R.R., under contract	38,332 90	
		2,824,554 48
Balance		$810,964 34

The income from the passenger and freight fell off $189,480 48 last year, while a large diminution in the cost of working the road made the result more favorable to the lessee than was the business of the previous year to your company. The increase of local tonnage for the year was 85,074 tons, while the foreign tonnage decreased 4,800 tons. The number of local passengers increased 147,954, while the number of foreign passengers decreased 16,016. The two facts explain in part the falling off of the gross income, and confirm the statement in our last report, that the lessee had diminished the through business on your road by causing the whole of the west and southwest business to be thrown over their lines passing through Columbus, Ohio. The lessee being the owner of the profits of traffic by both lines, it is perhaps a wise economy to thus manage the traffic within reasonable limits.

The closing up of the business of this company since its organization to the date of the lease of its railway and property, involves much more time than was anticipated by our board at the date of the lease. All the nonlitigated business has been practically closed, but that in litigation has been but slightly diminished during the year, owing to the law's delay and the instituting of new suits, some of them touching the relations of this company to the old corporation.

The number of suits now pending in the counties in which the road lies in the four several States in which this corporation has legal existence, is eighty-five, involving, by the declaration of the parties, over $150,000 in money. In not a single case does this company acknowledge any liability; but that the company may yet be required to pay large sums of money is possible; and indeed it is quite improbable that the company can escape adverse judgments in all the numerous suits pending.

The payments to this date have been very largely in excess of what was anticipated at the time the lease was executed. In taxes alone—Federal, State and municipal—it has amounted to about $200,000, arising partly from a misapprehension as to the property as to the date of the lease, and partly from taxes demanded by the Federal government and the State of Pennsylvania that were believed to have been adjusted and settled. The assets, at their par value, now in the hands to meet the obligations which may arise under the obligations just stated, is about $500,000.

In view of the manifest uncertainty of the extent of the demands which may be enforced against the company, and the inability of your board to do more than to resort to the extent of the law, it is believed to be the duty of the board for the present to make no distribution of assets to the stockholders. Even were there no known unadjusted and undischarged obligation of the company, your board are of the opinion that there ought to be reserved for some years at least $100,000 as a contingent fund, to meet any unexpected liability that might arise, and thus avoid a contingency of infringing on the dividend fund.

Respectfully submitted,
GEORGE W. CASS,
President.

PITTSBURG, March 15, 1871.

☞ The Newburyport city railway, running from a point near the junction of the Boston and Maine and Eastern roads, across the city around to the wharves, has been leased to the Eastern road for twenty years, at six thousand dollars per annum. The road will be in operation in July next.

☞ It is expected to complete the St. Paul and Sioux City Railroad through from St. James, the present terminus, to Sioux City, by July, 1872. Thirty miles at the Sioux City end will be graded this season.

☞ UNION PACIFIC LAND GRANT BONDS

OFFICE OF MORTON, BLISS & CO., BANKERS,
NEW YORK, March 20, 1871.

The undersigned offer for sale the balance of the Land-Grant Bonds of the Union Pacific Railroad Company. The road has been in operation about twenty months. It is complete in all respects, and its earnings have averaged $8,000,000 per annum. These bonds bear seven per cent. interest, coupons payable April and October. The following summary of the financial condition of the Company is from the address of Col. Thomas A. Scott to the stockholders, upon his accepting the Presidency, at the annual meeting in Boston, March 8:

LAND DEPARTMENT.—Bonds, seven per cent. currency, $10,400,000.

Land Sales, 292,900 acres; proceeds, $1,806,566; average price per acre, $4 46.

On account of these sales the Company has received and redeemed land grant bonds to the extent of	$736,000
For the remainder the Company holds land notes maturing in one, two and three years, with accruing interest	576,650
Total	$1,312,650

The condition of the Land Department may, therefore, be stated thus:

Bonds	$10,400,000
Principal reduced by bonds redeemed	$736,000
Land notes on hand	576,650
Showing an absolute reduction of	$1,312,650
The Company is entitled, under the grants from Government, after deducting total lands pre-empted before passage of the act, to	12,080,000 acres.
From which deduct amount heretofore sold	292,883 acres.
Leaving on hand as an asset	11,787,117 acres.

—which, at an average value of two dollars per acre, being twenty per cent. below the minimum Government price for adjoining lands owned by it, should yield the gross sum of $23,574,234. So much thereof as may be required to be applied to the payment or redemption of the land grant bonds, and the balance to go into the Treasury. The average land sales amount to about $75,000 per month:

From present indications it would seem reasonable to estimate the gross receipts of the coming year at a minimum of	$9,000,000
With a cost of maintaining and operating the line on this increased earning of not exceeding, say	4,500,000
Leaving as net receipts to be applied to interest and dividend, exclusive of the operations of the Land Department of	$4,500,000

The operations of the line for the first twenty months of its existence as a completed road show net earnings sufficient to meet the interest upon its entire bonded debt.

This result cannot but be deemed, by all practically versed in the history of new railway lines, as indicating a successful future. The yearly increase of traffic, costing but little additional to transport and therefore yielding a large percentage of net revenue, must soon give a value to your property not readily appreciated at present.

MORTON, BLISS & CO., No. 30 Broad-st.

Commerce of New York.

The foreign imports at New York for the month of February, 1870 and 1871, are officially stated as follows:

	1870.	1871.
Entered for consumpt'n.	$13,739,351	$16,995,041

Do. exclusive of specie.	24,833,312	37,577,618

The exports (exclusive of specie) from New York to foreign ports for eight months ending with February 28, were:

	1870.	1871.
Six mos. ending Jan. 1.	$109,954,573	$107,654,919
In January	12,893,166	18,837,876
In February	11,940,146	18,739,742
Total produce.	$134,787,885	$145,282,537
Add specie	21,534,203	47,522,152
Total exports	$156,322,088	$192,754,689

☞ At the annual meeting of the stockholders of the Chicago and Alton Railroad Company at Chicago, on the 3d inst., T. B. Blackstone and John B. Drake, of Chicago, and D. Willis James, of New York, were unanimously elected directors for the ensuing three years.

☞ Peter Berkey has been elected President of the St. Paul, Stillwater and Taylor's Falls Railroad Company.

Southern Pacific Railroad.

On the 1st of November, 1870, a trust mortgage was made between the Southern Pacific Railroad Company and D. O. Mills of San Francisco, and P. C. Calhoun, of New York. The document states that the company desires to complete the construction and equipment of its railroad running from San Francisco through the counties of San Mateo, Santa Clara, Monterey, Fresno, Tulare, Kern, San Bernardino and San Diego, to some point on the Colorado river, in the southeastern part of California, a distance of about seven hundred and twenty miles, and to that end is about to issue its first mortgage bonds upon the road, its rolling stock, fixtures and franchises.

At a meeting of the Board of Directors of the company, October 12th, a resolution was passed directing the issuance of the first mortgage bonds upon the railroad to the number of 41,000, 23,000 of which to be for the sum of $1,000 each, 8,000 for the sum of $500 each and 10,000 for the sum of $100 each, all bearing date on the first day of November, 1870, payable on the first day of October, 1901, bearing interest at the rate of six per cent. per annum from the first day of April, 1871, payable semi-annually on the first day of October following, and on the first day of April and October in each year thereafter, both principal and interest payable in United States gold coin, in the City of New York. The Board also directed the form and manner of drawing up the bonds. The bonds amount, in the aggregate, to $28 000,000.

If default shall be made in the payment of sums of money specified in the bonds, or in payment of the interest coupons, or of either of them, or any part thereof, and if the same shall remain unpaid for six months from and after the time when the same should have been paid according to the terms of the bonds, then the parties of the second part, may, upon request of the holders of not less than 500 of the bonds on which the interest or principal shall be in default, take possession of a part or the whole of the premises and property of the company, and operate the railroad and receive the income, receipts, profits, &c., out of the pay. The mortgage is signed by C. Crocker, President of the Southern Pacific Railroad Company, and J. L. Willcutt, Secretary of the company. It has been filed in all the counties through which the road will pass. The date of the record in San Francisco is March 15th.—*San Francisco Bulletin, March* 29.

☞ The New England and Oswego Railroad, reaching from Oswego to the State line at Hampton, Washington county, was organized at Glens Falls, N. Y., on the 29th ult., by the election of the following gentlemen as directors: Gilbert Mollison and A. S. Page, of Oswego; C. H. Cross, of Pulaski; R. T. Hough, of West Lyden; J. A. Cowles, of Osceola; W. R. Tanner, of Boonville; A. Sherman, W. McMahon, D. McGregor, S. Brown and E. H. Rosekrans, of Glens Falls; Z. Van Dusen, of Queensbury; and T. McOmber, of Dey. The road which this company propose to construct is a connecting link in the Portland, Ogdensburg and Chicago Railroad.

☞ The Frederick (Md.) *Union* says that the people of Middletown and its vicinity are still industriously at work, and succeeding beyond their most sanguine expectations, in raising subscriptions for the construction of a railroad between Middletown and Frederick. The estimated cost of this work is about $150,000.

☞ The Pittsburg *Chronicle* says the Directors of the Pittsburgh, Virginia and Charleston Railroad Company at a private meeting on the 1st inst., determined to call in the first assessment, to put a part of the line under contract and urge the work forward.

South and North Alabama Railroad.

The following is a copy of an act passed by Congress entitled "An Act to renew certain grants of land to the State of Alabama:"

Be it enacted, etc., That the grant of lands made to the State of Alabama by the act of Congress approved June three, eighteen hundred and fifty-six, entitled "An Act granting public lands, in alternate sections, to the State of Alabama, to aid in the construction of certain railroads in said State," to assist in the building of a railroad from the City of Montgomery, Alabama, to some point on the Alabama and Tennessee State line, in the direction of Nashville, is hereby revived and renewed for the use and benefit of the South and North Alabama Railroad Company, subject to all the conditions and restrictions contained in the act referred to, and subject to the further limitation, that if the said railroad is not completed within three years from the passage of this act no further sale shall be made for the benefit of said road, and the lands unsold shall revert to the United States: *Provided*, That the lands granted by the act hereby revived, except mineral lands, shall be sold to actual settlers only, in quantities not greater than one quarter section to any one purchaser, and for a price not exceeding two dollars and fifty cents per acre.

Section 2. That the right, power, and authority is hereby given to the company building the aforesaid railroad to take from the public lands, adjacent to the lines of said railroad, earth, stone, and other materials for the construction thereof; and the right of way is hereby granted to the extent of one hundred feet in width on each side of said railroad where it may pass over the public lands, including all necessary grounds for stations and structures connected therewith, not exceeding forty acres at any one station.

Approved March 3, 1871.

☞ The Boston *Journal* say it is proposed to commence the work of building the Massachusetts Central Railroad the present Spring, a contract having already been made. It will extend from Northampton to the Stony Brook Station on the Fitchburg Railroad, and will pass through a large number of towns which now enjoy only partial railroad facilities.

☞ A letter received from Bridgeport, Bedford county, Pa., on the line of the Pittsburg and Connellsville Railroad, states that bridges Nos. 1 and 2 have been swung, and that Mr. Bollman and his men are now working on bridge No. 3. The officers of the road contemplate opening the line about the 15th of April. The workmen and track layers are now within ten miles of each other.

☞ A surveying party from Utica have been looking over the route from Carthage to Philadelphia. The old route, which was run some twenty years ago, and which is nearly all graded as far as Sterlingville, will probably be followed with few exceptions. The line from Sterlingville to Philadelphia is very easy, with but slight excavations or filling. The distance is 12¼ miles.

☞ The receipts of the Grand Trunk Railway Company of Canada were increased $150,000 in the five weeks ending March 11, principally from a rise on rates. The line has been improved by steel rails, which are now very popular. The English houses have orders for a year ahead at £11 10s to £12 a ton.

☞ Extensive railroad improvements are being made in New Zealand. The New Zealand Government proposes to send its mails to England via San Francisco and New York, over the Pacific Railroad.

Steel Rails.

We hear that every steel rail manufactory in the country is now full with orders for the next two years, and that the price of the best Bessemer steel rail is some £12 per ton.

The difficulty now appears to be not to pay for steel rails but to get them. This great demand for them arises from the marked economy in their use. Considerable savings are being made by our railway companies in the maintenance charges, due to steel rails. Thus experience has already supported theory as to the great advantage of steel rails.—*Herapath.*

☞ Messrs. Woods, Harris & Mead, the contractors, have begun work on the Essex (Mass.) Branch Railroad. The road is five miles long, and joins the Eastern Railroad at Wenham station. The town of Essex subscribes to the stock to the amount of $50,000. The road is to be completed, ready for trains, by November, 1871.

☞ The St. Cloud *Journal* says that work will be commenced in the spring on the branch line of the Northern Pacific Railroad, running from that city north-westerly to Otter Tail City. Also, that the branch on the east side of the river will be extended to Crow Wing, and thence to the crossing of the main line at Brainard.

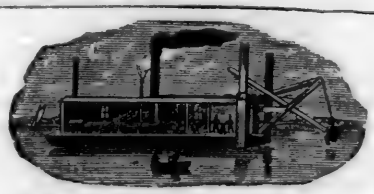
To Contractors.

PROPOSALS will be received at the Engineer's Office, Keyport, N. J., until noon on MONDAY, April 17, 1871, for the building of the Monmouth County Agricultural Railroad, length about 14 miles.

Proposals will be received for the whole work of grading, masonry, bridging, docking, and furnishing and laying ties and rails, for the whole distance or for sections.

Proposals will also be received for grading, masonry, bridging, docking, and furnishing and laying ties and rails separately.

Plans and profiles can be seen at the Engineer's Office, Keyport, N. J., on and after March 27, 1871.



The right is reserved to reject all bids not deemed advantageous to the Company. Address all communications to

A. WALLING, Jr., Chief Engineer.

Keyport, N. J., March 16, 1871.

To Contractors.

PROPOSALS will be received at the Engineer's Office of the Delhi and Middletown Railroad Company, Delhi, N. Y., until April 25, 1871, for the grading and masonry of this Road. The Road consists of 31 one-mile sections, extending from Margaretville to Delhi, in Delaware, Co. Maps and profiles on exhibition at this Office. Estimates, specifications, and other information will be furnished on application to J. P. GOULD, Chief Engineer, Delhi, N. Y.

TO CONTRACTORS.—Superior Steam Dredges, Steam Hoisting Derricks, Upland Excavators, Stationary and Marine Engines, and all kinds of Machinery made to order by the POUND MANUFACTURING CO., Lockport, N. Y.

Established 1851.

Williams' New Patent Coal Oil Head Light,
WITH BRAZED SAFETY BURNER,

Which will not take *fire* or *explode,* and is adapted to any make of Head Light Chimney. These Head Lights are either of Cylindrical or Square Form, and of first class workmanship. The Silver Plating on the Reflectors is warranted for fifteen years. They are acknowledged by all to be the best Head Light manufactured and are used on nearly all principal Railroads in the country.

I. A. WILLIAMS, Patentee.

THE WHARTON
Safety Railroad Switch.

☞ **BOTH RAILS of the main track absolutely immovable, continuous and unmutilated.** ☜

This Switch provides perfect safety for both the main track and the side track, besides removing all switches from the main track as effectually as if there were no sidings on the whole line.

They have been in use on various important Railroads for over two years, and have repeatedly saved passenger trains from destruction, when running at high speed, (from 30 to 45 miles per hour,) at places where by accident the Switch had been left set for the siding.

NOTICE
To Contractors and Bridge Builders.

DEPARTMENT OF SURVEYS,
224 S. Fifth St., Philadelphia.

SEALED PROPOSALS will be received at the Department of Surveys until 3 o'clock P. M. April 15, 1871, for the CONSTRUCTION OF A BRIDGE over the river Schuylkill, on the site of the Suspension Bridge at Fairmount, and its approaches, to extend from Twenty fifth and Spring Garden streets, in the Fifteenth ward, to Thirty-second and Bridge streets, in the Twenty-fourth ward, a length of about 2,730 feet.

Proposals will be received for the Bridge superstructure over the river, including all materials, workmanship and erecting ready for use. It will be 340 feet span, of wrought iron, and also two trusses for Thirtieth street, 80 feet span, of wrought iron. Detail plans of these bridges, conforming to specifications, to accompany proposals.

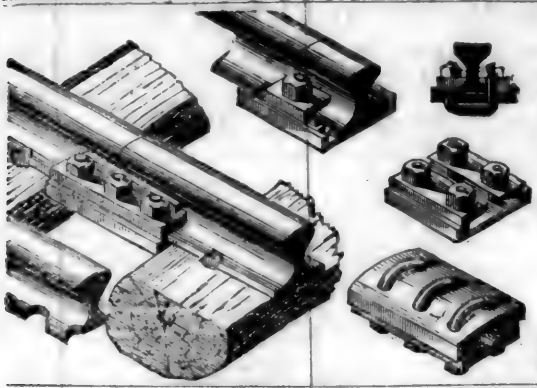
Proposals for all the iron work on *approaches* will be accepted separately, to be erected complete for use, as per plans and specifications.

And separate proposals for the graduation and masonry, to include curbing and paving, as per specifications and plans.

Each bid must be made upon blanks prepared, otherwise they will not be accepted, and every bidder must submit the names of two persons of undoubted responsibility, who will be bound with them as security for the faithful completion of contract. The city reserves the privilege of rejecting any and all bids that may not be satisfactory.

Payments will be made monthly in bonds of the city of Philadelphia, or in cash, at the discretion of the Mayor.

Each bid must be accompanied by a certificate from the Law Department that a proper bond, for the sum of five hundred ($500) dollars, has been filed there, in accordance with the ordinance approved May 25, 1860.



The contractor or contractors, in making their proposals, shall do so with the understanding that if their proposal shall be accepted, that every dispute or difference which may arise incident thereto shall be decided by the Chief Engineer and Surveyor, from whose decision there shall be no appeal.

All bidders are invited to be present at the opening of proposals offered on said day, at 3½ o'clock. Plans may be seen and examined at the Department of Surveys, where specifications and blank proposals may be obtained on and after the 16th inst.

STRICKLAND KNEASS,
Chief Engineer and Surveyor.

Steamers leave 15th and 30th each month, except when those days fall on Sunday, then the day previous.

April 15, steamer OCEAN QUEEN, Capt. A. G. Gray, will leave Pier No. 42, North River, at 12 o'clock noon, for Aspinwall, touching at Kingston, Jamaica, and connecting at Panama with steamer COLORADO, Capt. Parker, touching at Punta Arenas, San Jose, Guatemala, Acapulco, Manzanillo and San Diego, Cal., and also connecting for all Central American and South Pacific ports.

Freight for last-named ports received until 4 P. M. of 13th April.

Steamer AMERICA will leave San Francisco May 1, for Japan and China.

For rates of passage, freight and all further information, apply at the Company's office on the pier, foot of Canal street.

Rolling Mill Property
FOR SALE,
OPPOSITE NEW YORK CITY.

The well-known North River or Durbin Rolling Mill, situated at Prospect and North 5th St., Jersey City, New Jersey. The Real Estate consists of sixteen city lots, 25x100 feet each, with two large Dwelling Houses, well built and in good order. Also a large building occupying two lots, suitable for a Machine Shop or other purposes, a Stable, &c.

The Rolling Mill was built for the manufacture of Locomotive and other descriptions of Boiler Tank and Plate Irons, contains a heavy Roll Train, Engines, Furnaces, Machinery, &c. to suit, in good order. It can be seen running, and has been successfully run from its establishment in 1855. Situated near the Hudson River, a short and nearly equal distance from all the New Jersey Railroad Depots and Ferries, the Erie Depots and Ferries and the Hoboken or Delaware & Lackawanna Depots and Ferries, from its proximity to the New York Market, the large Locomotive and Railroad Shops of the City and Paterson, the facilities for forwarding to all points by water or railroad, it cannot be surpassed.

The Real Estate is rapidly increasing in value the vast R. R. Interests and dock improvements mentioned having taken up almost the entire River front and space below the mill property from the Cortland St. to Hoboken ferries. The reputation and business established. The Proprietor intends retiring from the business, and for further particulars can be addressed or seen daily at the

Office, 140 HUDSON STREET,
Jersey City N. J.,
In the First National Bank Building.

Propositions for Lease or Selling the Machinery for removal entertained.

Map can be seen and General Information may be obtained also of Wm. H. Wallace & Co., Corner of Liberty and Washington Streets, N. Y., City Agents; and R. R. Chrisman, Supt. Central Iron Works, Harrisburgh, Pa. (formerly a Proprietor.)

RAILROAD IRON.

THE undersigned, agents for the manufacturers are prepared to make **CONTRACTS FOR RAILS** delivered free on board at ports in England, or exship at ports in the United States.

Railroads in Texas.

There is now in contemplation and process of construction between five and six thousand miles of railroads across the State of Texas, in the hands of reliable capitalists, all of which promise to be finished within five or six years. Among the great enterprises are the "Southern Pacific," "The International," making connection with the "Cairo and Fulton Railroad;" "The Missouri and Kansas," "The New Orleans, Mobile and Chattanooga," and the "Houston and Great Northern." The only company, so far, receiving aid from the State is "The International," in the shape of bonds to the amount of $10,000 per mile built. In speaking of this subsidy the Governor, in his recent message to the Legislature, remarks: "The subsidy or donation was remarkably liberal, and ought to insure exact compliance on the part of the Company with the spirit and intent of the charter. Should the Company comply in that form, the State ought on her part to keep equal faith, though the terms exacted may seem extravagant. With States, as with individuals, the very worst disposition to make of a debt or engagement is to attempt to repudiate it. But I trust that your body will agree with me as to the advisability of going no further in that direction. Let us set our faces determinedly against all further propositions to pledge the aid of the State to the furtherance of private schemes, whether under the guise of internal improvements, or other specious garb. Not one dollar or cent more, in any shape or form, is the only safe policy."

The Legislature, now in session, proposes to submit an amendment to the constitution, opening the public domain of the State, amounting to ninety (90) million acres, to donation to railroads, instead of lending the credit of the State. This form of aid will be far more acceptable, and causes no burdens to be imposed upon the people.

Wisconsin Railroad Legislation.

The following railroad charters were granted at the recent session of the Wisconsin Legislature:

To incorporate the Milwaukee and Northwestern railroad, extending from Milwaukee to Fond du Lac; also the Wisconsin State Line railroad, extending from Milwaukee south to State line; the Chester and Stevens Point railroad, extending from a point near Kilbourn City to Steven's Point; the Rock Prairie railroad, running from Clinton Junction northward to Fort Atkinson; the State Line and Union railroad, running from Evansville southward in direction of Freeport; the Sparta, Galesville and Winona railroad; the Sparta and Neilsville railroad; the Neilsville and Humbird railroad; the Galesville and Trempeleau railroad; the Green Bay and Superior railroad; the Prescott, River Falls and Northern railroad; the Iowa and Richland railroad, extending from Mineral Point northward; the Red Wing and Menominee railroad; the Dunlieth, LaCrosse and St. Croix River Shore Railroad, and to allow towns to aid the same; the Eastern, Lafayette and Mississippi railroad, running west from Monroe, and to allow towns to aid the same; to extend the railroad west of Superior City; to extend the Sheboygan and Fond du Lac road and to allow towns to aid the same; to extend the Green Bay and Pepin railroad to Milwaukee; to allow Madison to aid the Madison and Portage, and the Baraboo air line railroads; to allow Milwaukee to aid the Oshkosh and Ripon railroad; to allow towns to aid the Milwaukee and Northern railroad, by way of Cedarburg; to authorize the Northern Wisconsin to build branch lines, running from Elkhorn to Fox river, and allow towns to aid the same; to incorporate the Winona and Osseo railroad; and to revise the charter of the Wisconsin Valley railroad.

In addition to the above, the West Wisconsin railroad was prohibited from consolidating with or making exclusive running connections with other railroads. The Esterly, or general railroad bill, was amended so as to allow towns to vote aid to roads before lines are definitely located.

Hempfield Railroad.

The charter of this company whose road was recently purchased by the Baltimore and Ohio Railroad Company, gives the right to construct a railroad from Wheeling, West Virginia, to Greensburg, Westmoreland county, Pennsylvania. The road was completed from Wheeling to Washington, Pa., and has been in operation for several years, and considerable grading has been done on the eastern end of it. The probabilities now are that it will be completed at an early day to a point where it intersects the Pittsburg and Connellsville Railroad, near West Newton.

Cattawissa Railroad.

The annual meeting of the stockholders of this company was held in Philadelphia on the 4th inst. Mr. Wm. P. Chandler acted as chairman, and Mr. Edward Johnson as secretary. The President of the Company, Mr. M. P. Hutchinson, presented the Eleventh Annual Report, showing that the total receipts during the past year amounted to $665,812 35, and the expenses to $431,179 54. The report also states the capital account to be $3,700,000, less $19,500 in first mortgage bonds cancelled. There remains unissued $101,000 in preferred stock and $18,850 in common stock, making the total capital of $3,799,850. The extension of the road to Williamsport is expected to be completed by the first of September next. Nothing has been done in reference to the construction of a branch road in the Black Creek coal region. The completion of the Nesquehoning Valley Railroad has added considerable to the

traffic of the road, besides enabling the Company to command a larger supply of rolling stock than before. The report also refers to the decease of S. V. Merrick, Esq. After the adoption of resolutions thanking the President, Directors and Superintendent, the meeting adjourned.

Philadelphia, Wilmington and Baltimore Railroad.

The earnings of this road for the years ending October 31, 1869 and 1870, were as follows:

	1869.	1870.
From passengers	$1,508,612 30	$1,530,240 69

Deduct for an account standing previous to the year 1864, now valueless		4,235 05
Leaving balance to credit of revenue, October 31, 1870		$434,578 09

The receipts and expenses of the year, vary but very slightly from those of the preceding year. The partial failure of the peach and other crops of the Peninsula, prevented any profit from operations of the Delaware Railroad, and its lateral feeders.

All depreciation in your property has been counterbalanced, by laying steel rails to replace worn out rails, and by making a liberal outlay for new bridges, rolling stock, and buildings.

The stockholders were informed by a circular, issued under date of December 7th, 1870, that this Board had ordered the construction of a new road between Gray's Ferry and Chester; as a substitute for the existing road. That circular explained the reasons which decided your directors to make this outlay. The work of construction of this new road is being pushed as rapidly as is consistent with economy. Although this enterprise did not come to the knowledge of the public until quite recently, a large advance in the price of real estate upon the new line has taken place already. Several Building Associations have been formed, and there is good reason to expect that as a consequence of this change of line, this company will enjoy the receipts from a large local business on the route between Chester and Philadelphia, soon after the completion of the work.

Your Directors believe that the condition of your road is sound, and its prospects good.

The earnings of the New Castle and Frenchtown Turnpike and Railroad Company were:

	1869.	1870.
Passengers	$22,875 73	$22,986 53
Freight	53,912 46	44,284 22
Mail	1,048 42	881 24
	$77,836 61	$68,151 99

The company have 58 locomotives, of which 50 are coal burners are 8 wood burners. The number of miles run by coal burning engines, including service on Port Deposit Branch was 995,284. Miles run on Delaware railroad line, between Wilmington and Delmar, by coal burning engines, 32,351; by wood burning engines, 204,433.

The car equipment consists of: 5 twelve-wheel passenger, and 2 twelve-wheel chair, 78 eight-wheel passenger, 8 passenger and baggage, 3 compartment, 4 chair, 16 baggage, 7 baggage and mail, 17, express, 2 post-office, 3 milk, 1 pay, 538 house, 66 stock, 207 platform, 117 dump, 63 truck, and 11 wreck, etc, cars.

President.—Isaac Hinckley.

Vice President.—Enoch Pratt.

Directors.—Isaac Hinckley, Samuel M. Felton, William Sellers, Samuel Welsh, Jesse Lane, Joseph Bringburrst, Samuel Harlan, Jr., Thomas Kelso, Enoch Pratt, Thomas Donaldson, Thomas Whitridge, Samuel M. Shoemaker, Jacob Tome, Nathaniel Thayer, William Minot, Jr.

Secretary and Treasurer.—Alfred Horner.

Union Railroad and Tunnel.

The contract for building the tunnel of the Union railroad through the northeastern section of the city has just been awarded to Messrs. Dull, Wiley & Andrews, at their bid. Their contract, it is understood, includes the building of the whole Union railroad, as well as the tunnel at Greenmount Cemetery, which extends under "Gallows hill," terminating near Belair avenue. The cost of the tunnel, it is estimated, will be about $600,000. Mr. Wiley, one of the contractors, has been doing the work at Bolton and in the vicinity of Greenmount Cemetery. It is understood there were about sixteen bids for the work now awarded to Messrs. Dull, Wiley & Andrews. The contract includes tunneling, grading and masonry from Charles street to tidewater at Canton, and is one of the most extensive works given out in this city for many years. It is understood that the contractors are prepared to go to work at once.—*Baltimore Sun.*

Flint and Pere Marquette Railroad.

The following is a copy of an Act passed by Congress, entitled "An Act to extend the time for the reversion to the United States of the lands granted by Congress to the State of Michigan to aid in the construction of a railroad from Pere Marquette to Flint, in said State, and for other purposes:"

Be it enacted, etc., That the time specified in the fourth section of the act of Congress, approved June third, eighteen hundred and fifty-six, entitled "An act making a grant of alternate sections of the public lands to the State of Michigan to aid in the construction of certain railroads in said State, and for other purposes," for the reversion to the United States of the lands granted by said act to aid in the construction of a railroad from Pere Marquette to Flint, and for the completion of said road, be, and the same is hereby, further extended for the period of five years from and after the passage of this act.

Section 2. That the State of Michigan may authorize the sale of sixty sections of the land granted to aid the construction of said railroad

from Pere Marquette to Flint, whenever and as often as the governor of said State shall certify that ten additional miles of said railroad is completed and in running order as a first class railroad; *Provided*, That said lands authorized to be sold as aforesaid shall include only lands situated opposite to and coterminous with the completed sections: *And provided*, That in case said railroad shall not be fully completed from Flint to Lake Michigan within the time as extended by this act, all the lands included in said grant to which the right to sell shall not then have attached shall revert to the United States.

Approved March 3, 1871.

Allegheny Valley Railroad.

The earnings of this road for the years ending January 31, 1870 and 1871, were as follows:

	1870.	1871.
From passengers.....	$336,074 69	$394,242 88
" freight	851,125 68	1,286,429 94
" express	7,200 00	11,600 00
" mail	6,585 00	6,555 00
" rents	2,375 87	3,571 75
" miscellaneous..	1,415 78	2,633 81
	$1,204,777 02	$1,705,033 38
Expenses, viz:		
Conducting transp....	$183,065 44	$242,996 01
Motive power.....	175,203 86	240,347 09
Maintenance of way..	180,456 73	261,179 23
" cars..	38,138 56	65,736 12
General expenses.....	116,987 75	62,823 56
	$693,852 34	$873,082 01
Net earnings	$510,924 68	$831,951 37

The gross earnings of 1871 show an increase of $500,256 36, or 41.5 per cent., over those of 1870; with an increase in expenses of $179,229 67 or 25.8 per cent—making the increase in net earnings, $321,026 69, or 62.8 per cent.

The expenses of working the road were 51.2 per cent. of the gross earnings, against 57.6 per cent. in the previous year—a decrease of 6.4 per cent. The expenses include all taxes, in which is $15,163 65 paid the State in December last in full settlement of claim for tax on tonnage from April 1, 1865, to March 31, 1870.

The earnings per mile of road in 1870 were $9,196 77; and in 1871, $12,916 92—increase, $3,720 15. Expenses per mile of road in 1870, $5,296 48; and in 1871, $6,614 16—increase, $1,317 68. Net earnings per mile of road in 1870, $3,900 19; in 1871, $6,302 66—increase, $2,402 47.

The number of barrels of crude oil transported 1,016,701 against 726,080 barrels in the previous year—an increase of 290,621 barrels.

The number of barrels of refined oil moved was 709,970; in the previous year, 508,899—increase, 201,071.

Bituminous coal carried northward, 153,949 tons, an increase of 72,564. Do. carried southward, 210,756 tons, an increase of 7,564.

The entire tonnage of the road was in 1871, 893,625, and in 1870, 667,821, an increase of 225,804. The total tonnage is equal to 43,298,884 tons carried one mile. The through tonnage shows a decrease of 15,521 tons; and the local an increase of 241,325 tons.

The whole number of passengers transported in 1871 amounted to 506,342, and in 1870 to 465,338—showing an increase of 41,004, or over 8 per cent. The total passenger mileage is equal to one passenger carried 11,311,323 miles. The mileage of passenger cars was 1,123,797.

Two locomotives were built during the year at the company's shop, two were bought from the Pittsburg Locomotive Works, and six contracted for with the Baldwin Locomotive Works, to be delivered early in 1871.

The cost per mile run for repairs, fuel, oil and waste was only 12.64, and for wages of engineers, firemen and cleaners 7.83, or a total of 20.47.

Four passenger cars, were purchased during the year. Four first-class coaches and two baggage cars should be added to the passenger equipment the ensuing year. The "Miller Platforms, Buffers and Couplers" are being placed on the passenger coaches—adding greatly to the *comfort* and *safety of travelers*. The "Westinghouse Air Brake" is being attached to the passenger coaches of the company, and is probably the greatest safeguard that can be attached to a passenger train. In reference to the construction of Bennett's Branch, the President in his report says:

Of this road we have eighteen miles graded complete. The bridge and arched culvert and masonry is all completed for a double track. About six miles, or one-third of the eighteen already finished, the road-bed is graded for double, the remainder for single track.

In June, 1870, a location was made from New Bethlehem to the mouth of the Mahoning, rising a maximum grade of 26 feet per mile, ascending eastwardly. It was found that even with this grade, which the cost of construction and nature of the line was such as to make it undesirable and if adopted we should be compelled to introduce a grade of 52 8 10 feet for about three miles and still have every expensive work, including a tunnel 3,300 feet long, extending between Mahoning and Red Bank.

Attention was then turned to the Redbank Line, and an experimental survey was made from New Bethlehem to the mouth of Redbank, following by a preliminary location, which proved that a good line with reasonable cost could be had by that route. This requires the building of about six miles more of new road to reach the main line of the Allegheny Valley. It is estimated, however, that it can be constructed for $600,000 less than the other, (such is the difference in the nature of the work) and what is even more importance, no gradient of over sixteen feet per mile is required. The result is that a good line with comparatively light work has been secured from Benezette eighteen miles west of Redbank, a distance of about ninety-four miles, making the distance from Driftwood to the Allegheny river about 112 miles.

It having been decided late in the fall to change the grade, a location became necessary, which was tedious, owing to the inclement weather. The location is now completed, and the line as determined upon has a maximum ascending grade westward of eighteen and one-half feet per mile from Driftwood to a point five miles east of the summit, where a grade of thirty-seven feet per mile, for a distance of five miles, is used to reach the summit. From this point westward, a very favorable line has been secured, with no ascending grades westward, and a maximum of only sixteen feet to the mile eastward, from the mouth of Redbank to the summit.

Your board hope to be able to put under contract early in April the line from the north of Redbank to the summit, as well as the tunnel at that point, and all of the heavy work eastward.

The construction and equipment expenditures are set forth in detail in the General Superintendent's report:

For construction.....	$244,146 70
For car equipment.....	253,896 67

It is exceedingly gratifying to state that your road has been as usual almost entirely free from accidents during the year, no passengers having received serious injuries.

The bonded and other indebtedness on the 31st of January, 1870, was as follows:

First mortgage.....	$146,000 00
Second mortgage.....	39,000 00
General mortgage	3,785,000 00
Bonds paid to the commonwealth of Pennsylvania in exchange for Sunbury and Erie bonds.....	3,500,000 00
First mortgage bonds "Bennett branch"	59,000 00
Floating debt	531,118 77
Bond for real estate.....	21,564 73
	$8,081,678 50

The bonded and other indebtedness on the 31st of January, 1871, was as follows:

First mortgage.....	$112,000 00
Second mortgage.....	28,000 00
General mortgage.....	3,823,000 00
Bonds paid the commonwealth of Pennsylvania for "Sunbury and Erie Bonds"	3,500,000 00
First mortgage bonds, "Bennett branch"	48,000 00
Floating debt	573,768 90
Bond for real estate.....	34,564 73
	$8,119,333 63

The increase of the floating debt has been owing to the demands of the company for new rolling stock.

The General Account of the company January 31, 1871, is as follows:

Cost of railroad, equipments, &c..	$10,234,814 42
Stock of supplies on hand.....	25,827 19
Miscellaneous assets	859,223 54
Cash on hand	8,378 88
Jefferson county bonds.....	90,000 00
Stock in Brady's Bend Bridge Co.	10,000 00
Total.....	$11,227,744 03

President.—Wm. Phillips.

Directors.—Wm. Phillips, J. Patton Lyon, Wm. K. Nimick, Wm. M. Lyon, B. J. Jones, Felix R. Brunot and James Park, Jr.

Gen'l Sup't.—J. J. Lawrence.

Ass't Sup't.—T. M. King.

Chief Engineer.—H. Blackstone.

Treasurer.—John Ballantine.

☞ We call the attention of contractors to the advertisement of the President of the Emmittsburg Railroad Company, for proposals for the graduation and masonry of the road, all of which is to be completed by November next. The road is to extend from Emmittsburg to Rocky Ridge, a distance of 7 miles, and intersect the Western Maryland. The necessary amount of stock has been subscribed and the work will proceed without delay to its final completion.

☞ At the recent annual meeting of the Junction Railroad Company, of Philadelphia, Isaac Hinckley, Franklin B. Gowen, John Tucker, J. Edgar Thomson and Asa Whitney were elected directors. Mr. Hinckley was elected President. This is the road running around Philadelphia, and constituting part of the through line between New York and Washington.

☞ The last rail of the Pittsburgh and Connellsville Railroad was laid at Mineral Point, Penn., on the 10th inst.

Boston, Hartford and Erie Railroad.

The following is a statement of the debt of the Boston, Hartford and Erie Railroad Company, exclusive of the floating debt and capital stock:

N. Y. and Boston "Air Line" bonds..	$325,800
B., H. and E. old bonds held in trust by Connecticut State.....	280,000
Boston and N. Y. Central bonds.....	22,000
Charles River Railroad bonds.....	13,000
Norfolk County Railroad bonds.....	3,600
	$644,400
Hartford, Providence and Fishkill railroad bonds.....	$2,055,000
Total amount of first class bonds.....	$2,699,400
Berdell bonds.....	20,000,000
Total amount of bonds outstanding...	$22,699,400

Glen's Falls and Plattsburgh Railroad.

At a meeting of the friends of the proposed Glen's Falls and Plattsburgh Railroad, held in the village of Soroon Lake, on the 29th ult., it was unanimously resolved, that immediate steps be taken to make a preliminary survey of the route, via the valleys of the Schroon, the Boquet and the Ausable Rivers, from the village of Glen's Falls, in the County of Warren, or some point north of that place on the line of the Adirondack Co.'s railroad to Dead Water, in the town of North Hudson and County of Essex, and thence by the valleys of the Boquet and Ausable Rivers to a junction with the Whitehall and Plattsburgh railroad, in the town of Black Brook and County of Clinton, also the Valley of the Boquet River to Elizabethtown, thence to Keesville, and thence to Plattsburgh by the most direct and feasible route. An executive committee was appointed to proceed without delay to make preliminary surveys, and to employ an engineer for that purpose.

Rome, Watertown and Ogdensburgh R. R.

ANNUAL REPORT TO THE STOCKHOLDERS, FOR THE YEAR ENDING 31st DEC., 1870.

The general character and purpose of the annual reports made to the stockholders, contain so much of apparent sameness, that they may seem like a useless repetition, but it can not well be otherwise, since the information intended to be conveyed, requires a partial review of the same general facts, from year to year. The simplest form of words is chosen to present as clearly as possible, in brief space, that which it is believed, will prove of interest to the owners, many of whom are almost entirely dependent upon this source for the knowledge they have in regard to the management, progress, and prospects of their property.

The transactions of the year will be noted, by which comparison may be made with the past, and some intimations given of what may be regarded as the probable indications of the future. No attempt will be made to embellish, or otherwise excite hopes, which are not likely to be realized.

The year, which has just closed, has been in some important aspects, affecting our interests, quite extraordinary. Could the incidents which have given it that character, have been foreseen, we must have looked for results quite different from those now presented.

The extreme and protracted drought, which prevailed over the entire northern section of this and the New England States, as well as Canada, had the effect to dry up the streams, thereby putting an end to the milling, manufacturing and mechanical industries, which form so largely the basis of prosperity throughout this entire region.

The ordinary flow of business to our line has also been essentially diminished by the material decline in quantity of agricultural products offered for transport, in comparison with what might otherwise have been expected.

The falling off in this respect, as shown by the report of the Superintendent to the State Engineer, as compared with the previous year, is 9,291 tons of agricultural products, and 2,380 tons of manufactured articles.

Had the receipts for the last six months been equal to the first, the total, according to established proportions, would have exceeded those of the previous year by more than $100,000.

In addition to the falling off in the earnings, quite a large expenditure became essential to protect the buildings, bridges, fences, and other property of the company from destruction by the frequent and almost continual fires, which were burning around us for weeks, and even months.

It was only by the constant vigilance by night, as well as day, of a large force of men, and by conveying water to exposed places, that we were enabled to save our entire property, with the exception of some few miles of fence, and a few hundred cords of wood, the latter insured and paid for.

Owing in part, perhaps, to the non-action of Congress upon the tariff on iron, the season past has been throughout the country one of less activity in the manufacture of that article, than for many years, thus greatly limiting the demand for the rich and desirable ores of northern New York, and though we have transported perhaps more than in any former year, yet, under other circumstances, we might have expected that the quantity would have been largely increased. As the result of new roads, and, by them, new markets being opened to us in addition to those before supplied, we may expect that this traffic will henceforth become—directly and indirectly—one of the most important and permanent sources of income to our property.

Owing to the combination of unusual and untoward circumstances alluded to, it need not have caused surprise, had the receipts fallen materially short of those of the previous year—that such was not the case, gives at once the evidence, that there are new sources of business within our reach, that can be, and are being developed to an extent, fully equal to any decline that may incidentally occur from similar causes, nor as yet are those resources much more than just beginning to be opened to us. The directors and managers of this property are watching with interest the tendency to our line of a much larger traffic, than that to which we have been accustomed, plainly indicating the importance of early and suitable preparation being made for increased accommodations, to meet the demand likely soon to be made upon us. Several very important lines of road are now nearly completed, and ready to join us, while others are in process of construction, with the same purpose in view, which can not fail materially to increase the importance of our road to other sections, as well as to those through which it extends.

By the "Midland," and also by what are called the coal roads, seeking connection with us, direct traffic will be opened to and from the iron, anthracite and bituminous coal districts of Pennsylvania, to all the net work of railroads extending through that busy region; to tide water, and *via* the Erie and its connections to all parts of the Western country. These localities will also be brought direct to our wealth of ore, lumber, fish, fruits, &c., &c., thus opening a reciprocal trade of great advantage to both sections.

In the original construction of our road, the expectations of business were largely based upon the growing trade between the United States and the Canadian provinces. From that time and up to the late war, under the influence of the reciprocity treaty, this expectation seemed in a fair way of being realized, but since, owing in part to the repeal of that treaty, and the almost prohibitory state of the exchanges, the trade and the intercourse became gradually reduced to quite small proportion. Recent indications, however, point strongly to an early resumption of both, and since the exchanges have become so nearly equalized, there does not appear to be either in fact, or feeling, anything to prevent this consummation of a wish, that is common to both sections.

It is a fact, and so understood, that many of the most important productions of Canada, find their best market in the States; and of equal truth and importance at the present time is the fact, that the better class of people in Canada desire, and by all means encourage the capital, energy, and business enterprise of the Americans to aid them in developing and utilizing the resources of that great country. This has taken place already to such an extent, that in some sections the larger and more important portion of the business transactions are carried on by Americans. Whatever form the political relations of Canada may assume in the future, of one thing there seems to be no doubt, that under the influence of a common interest, the feeling on both sides of the line is steadily, but surely, tending to a closer, freer, and more permanent social and business intercourse with each other.

The business to and from our line with Canada amounted to more last season than at any time since 1862, and already very considerably larger engagements have been made for the coming season. From this source it is believed that the business of this road is to be largely increased, and increasing in the future, beyond any expectations that have yet been formed, with its three terminal points at Oswego, Cape Vincent, and Ogdensburgh, it must share largely in the benefits of reciprocal trade between the States and the Dominion.

Considerable has been done during the last few years to establish and maintain the character of our road as first class in every repect, to prepare for and invite to it a larger traffic in both the passenger and freight departments.

Newer, larger, and a better class of buildings and accommodations have been provided for our patrons at the more important stations on the line; modern, spacious, and more elaborate coaches have been introduced; drawing-room and sleeping-cars, equal to those in use on first class roads elsewhere, have been placed on the line, and from year to year new trains have been added to those, which had hitherto proved sufficient, until it is believed as nearly entire satisfaction is given in those particulars, as is found to be the case on any other roads. It is the desire and intention of the managers to continue on in the same course, keeping equally in view the reasonable rights of the public and of the shareholders, both of whom it is their wish to serve fairly and consistently.

There seems to be no question in respect to the condition of the track, bridges, culverts, and all that relates to the superstructure of the road, that it is, at the present time, in far better condition than at any former period in its history. Fully ten per cent. of the iron in the entire track has been re-rolled and re-laid during the year, in addition to which several hundred tons of new iron, and some steel rails, have been purchased and placed in the track. More than 130,000 new ties have been used in the track this year. Estimating the average life of a tie to be seven years, and the number per mile the same as heretofore used, 75,000 would be the proportion required for one year, more are now being used to the mile than formerly, believing that the advantage gained is more than equal to the additional expense. Experience has shown, that the Cedar ties, procured many years ago from Canada, have shown a durability, as compared with others obtained upon the line, far beyond the difference in the cost, hence more of that character are being obtained for future use.

The late autumn of this season having been unusually favorable for out door work, and not being crowded, as has usually been the case at that season, for cars, we were enabled to continue the working force and the ballast trains much later than in former years, by which a much larger amount of ballasting has been done than

has been our custom, adding, of course, somewhat to the expenses for those months.

It is also equally true, that in every department of maintenance and renewal there has been, to say the least, a full appropriation of labor, material, and expense.

New passenger houses have been built the past season at Mansville, Gouverneur, and Canton, all much needed, and in view of the amount of business at those stations, the company could well afford increased accommodations. New freight houses have been built at Camden and Potsdam junction, to meet the demands of an increased traffic. A new brick office and store-room has been built at Rome, for the use of the master car-builder. A considerable amount has been done during the year in the way of improvements and repairs to buildings at other stations.

One new locomotive has been purchased, and one built in our own shops. Of the thirty-nine upon the road, thirty are now fitted with the best quality of steel tyres, replacing those of iron, and mostly done within the last two years. Including two or three that are new, we have fifteen locomotives fitted for burning coal. The master mechanic asserts with strong emphasis, his belief, that the average condition of the locomotive power of the road is in far better condition than it was one year ago, or at any former period. Two drawing-room cars of large and elegant proportions have been built in our shops; several of the coaches rebuilt and refurnished equal to new. One new 12-wheel Model baggage, mail, and express car has been added, and two overhauled in the most thorough manner. Quite a number each of box, caboose, cattle, and flat cars have been added; and many, of every class, rebuilt in whole, or in part, in addition to which, forty-three entirely new cars have been built, to replace old numbers, and the cost charged in the expense of repairs of machinery.

We have now in yard and in shops a large amount of materials for cars, wholly, or in part, prepared for use, so that we can quickly make considerable additions to our car stock, whenever it is demanded. The style, quality, and appearance of our equipment at the present time, as compared with the past, cannot fail to meet the approbation of all who are interested either as owners or patrons.

It should be remarked, that nearly, or quite all the timber used in the construction of the bodies of our new cars of every class, is the Hard Pitch Pine, obtained from the seaboard of the Southern States. The increased strength and non-decaying properties of this wood, in comparison with that of any other class, renders its use for this purpose much more economical in the end. In the same connection it is also proper to state, that our turntables have been rebuilt with the same class of timber. Orders are also made out for a supply of the same, adapted for use in our bridge structures, several of which will require attention the coming season.

The requisitions already submitted to and approved by the Board for the present year, call for the rolling and relaying of 2,000 tons of our old rails, and the purchase, in addition, of 1,000 tons of iron, or a portion of which may be of steel, for use on some parts of the road, where the wear is greatest. It is perhaps needless to say, that a full complement of new ties will also be laid. About seventy-five miles of our present track is laid with the Howe fish-joint, which will continue to be used in the laying of all new iron. It is not improbable, that the Board may ere long decide to order a double track on the Eastern portion of the line from Rome to Richland, a distance of 42 miles. The time is certainly near at hand, when a single track will not accommodate to advantage the business that must be concentrated upon this portion of the road.

It is now expected that two additional locomotives, and possibly more, will be wanted this season. From 75 to 100, and possibly 150 freight cars of the different classes, will also be required. Two coaches are being rebuilt this winter for use in the spring, which possibly by the rebuilding of the same number during the summer may be made to answer the requirements for this year. Two additional mail and baggage cars will be placed on the road in all this year, which, with the usual amount of rebuilding and repairs, it is thought will answer in this department.

Some new buildings are contemplated, among the rest a freight house and a coach house at Watertown. More than one half the stations on the line have new buildings, most of which have been erected in the last three or four years. By continuing the policy of building some each year, where they are most needed, we will soon be in a condition to require but little more in that line for a long time.

At the December meeting the Board, while considering the future policy of the company in regard to the payment of the bonded debt, and the probable need for further expenditures, on account of the road and equipment, thought best to submit to the stockholders for their approval and assent, the question of a further increase being made to the stock of the company. A meeting was appointed by the Board, and held at Watertown, on the first day of February inst., at which time and place there were represented and voted upon 22,392 shares of the stock, all but three voting in favor of giving power to the Board to increase the stock, if they should think proper for the purposes contemplated. It will be remembered, that the last increase to the stock was made in 1868, to the extent of $500,000, which was sold, pro rata, to the stockowners, at 50 per cent. of its par value, bringing into the treasury $250,000, the whole of which and more has since been applied in paying off the bonds of the company, and for the purchase of the stock and securities of the Oswego road, in order to acquire the same, leaving not a dollar of that money for the use of the road.

Two dividends, one in January and one in July, of 5 per cent. each, and the government tax on the same, have been paid, and one declared subsequently, of four per cent.

The bonded debt has been reduced by the sum of $61,178 62 during the year. The company have no floating debt.

The income account and balance sheet will be found annexed.

Respectfully submitted,

MARCELLUS MASSEY,
Vice President.

Office 136 Chambers St.,
New York, Feb. 10th, 1871.

Secretary and Treasurer.—J. A. LAWYER.

Cairo and Fulton Railroad.

We doubt if the people of Arkansas are aware of the near approach of railroad connection with St. Louis from Little Rock. The Cairo and Fulton road is progressing rapidly from our city toward the border. The first twenty miles have been completed and in running order for several months. Inside of a month the third, fourth and fifth divisions will be graded and tied, ready for iron. This carries the road to within ten miles of Little Red river. The iron is now at New Orleans, and will come forward at once. When this is completed an additional number of hands will be put on the road to rush it through to White river, near Jacksonport. A corps of engineers are at once to begin at Jacksonport to survey the line to the Missouri border, where a connection is to be made with the St. Louis and Iron Mountain Railroad. Work on the latter road is being rapidly pushed, and by fall the cars will be running from St. Louis to the border. This connection will be made somewhere near Pitman's Ferry, in Randolph county. It is the intention to push the Cairo and Fulton road forward so as to make the connection with the Iron Mountain road within one year. This will give us direct communication with St. Louis, almost on an air-line.

The surveying party south are now in the vicinity of the Little Missouri river, and we may not be surprised at any time to hear of the inauguration of work here on the southern division.—*Little Rock Gazette.*

☞ Hon. E. H. Rollins has been elected treasurer of the Union Pacific railroad, in place of J. M. S. Williams, resigned.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterick (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, April 15, 1871.

Stock Exchange and Money Market.

Money has been offered less freely. The supply has been manipulated in the interest of speculative operations opposed to the ruling buoyancy of values at the Stock Exchange. The banks, as well as private lenders, have been less liberal of accommodation. The demand has been more urgent, and rates have been quoted stronger, within the range of from 5@7, generally at 6@7 per cent. per annum, to the best class of borrowers on call. In the discount line, the movement has been less satisfactory to the borrowing interest, and on the best commercial paper, rates have been quoted very firm at 6½@7½ per cent per annum. The city banks, in their last weekly statement, indicated a further general falling off in the averages, the specie reserve having decreased $2,463,506; legal tender item, $2,324,546; and the deposit line, $6,344,488. The loan and discount averages have been reduced $975,057; and the circulation, $5,888. Toward the close, the course of the domestic exchanges was shaping in favor of this port, and the promise was of a prompt relaxation in the Money pinch. The banks now hold $4,617,544 of specie and legal tender notes, in excess of the 25 per cent. of their liabilities required by the national banking act. The U. S. Sub-Treasury at this port, last week, increased its currency reserve, $869,277, and reduced its coin balance $195,068. The receipts of the office were $4,135,727 in coin, and $7,450,771 in currency; payments $4,330,794 in coin, and $7,081,494 in currency. The office received $2,718,000 in coin or its equivalent, from customs; and disbursed $300,996 of coin interest.

Under the revised April programme of the Treasury Department, Government will buy in, during the month, Five-Twenties, as follows: April 19, Wednesday, $3,000,000; April 26, Wednesday, $2,000,000. And will sell Gold, as follows: April 20, Thursday, $2,000,000; April 27, Thursday, $2,000,000.

The subscriptions to the new refunding Five per cent. Loan now amount to about 58 millions. The successful negotiation of this loan is now deemed certain.

The U. S. Sub-Treasury, on Thursday morning of this week, held a balance of $8,222,120 in currency, and $68,958,099 in coin, against a balance a week previous of $7,807,307 currency, and $69,375,926 coin.

The Gold speculation has been devoid of spirit, and the fluctuations in the price through the week have not been important. The customs call has been less urgent, and there has been only a moderate export movement noted. The U. S. Sub Treasury, as well as the city banks, had the specie reserves reduced last week. The foreign exchanges keep up to about the shipping point of Gold, yet the dealings in the latter derive no apparent strength from the circumstance. The week at the Stock and Gold Bonds, as well as in general business, has been a broken one, owing to the intervention of the Easter Holidays, and the German-American peace celebration. The range of the price has been from 110⅛@110⅜; and the closing quotation on Wednesday was 110⅜ against 110⅛ the preceding Wednesday. The outflow of specie from this port last week reached $846,617; and on Wednesday of this week, it amounted to $169,000. The *Aspinwall* steamer delivered here $64,025 in specie on Tuesday.

The U. S. Sub-Treasurer retired, last week, $2,325,599 of coin certificates, received for customs.

Government revenues have been yielding quite satisfactorily, since our last, in both forms, of Customs and Excises. The Excises yielded about three millions. The customs at the port of New York, last week were $2,649,599; and at the outports, equal to about $850,000 more, all in coin, or coin certificates. The internal revenue yield thus far in the current fiscal year beginning with July 1, 1870, has been $114,598,077.

The coin reserve of the Treasury Department on Wednesday was $105,700,000, including $28,200,000 represented by outstanding certificates; and the currency balance was $10,984,000.

The customs at this port on Wednesday were $608,000.

The export drain was $846,617 last week, against $77,500, same week preceding year. The shipments since July 1, 1870, have been $56,870,800, against $23,321,375 same time in 1869–'70.

The customs demand for Gold last week, averaged $463,000 a day; thus far, this week, it has averaged $487,000 a day, or equal to a weekly aggregate of $2,922,000. The arrivals of

specie from Europe, Havana and other foreign ports last week were $10,033, and since Jan. 1, 1871, $2,787,040, against $6,035,703 same time in 1870. The total customs revenue of the Government, in coin, at this port, since July 1, 1870, has been $114,778,792, against $102,946,371 same time in 1869–'70.

The Gold Exchange Bank clearances on Thursday of last week were $20,897,000; on Saturday, $37,047,000, the extremes since our last. On Wednesday of this week they amounted to only about 11 millions.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt since July 1, 1870, $66,901,570 against $67,167,280 same time in 1869–'70.

Foreign Exchange has been quoted strong in price, and has been in fair demand. The offerings of prime bills have been moderate. Bankers' sixty day bills on London closed on Wednesday at 109⅞@110; sight bills on London, 110½@110⅝.

The produce exports from this port, week ending with April 11th, were to the currency value of $3,867,399.

Government securities have been less active and somewhat variable through the price, influenced, in part, by the stringency in Money. Toward the close, the inquiry was more confident, especially on investment account, and values were again quoted firmer, with an upward tendency.

On Wednesday, Government bought in two millions of Five-Twenties at 109 69@109 88, ex-interest. The amount of bonds offered was $7,419,750.

U. S. sixes of 1881 closed here on Wednesday of the current week at 116⅜@116½; U. S. Five-Twenties of 1862, 112¾@112⅞; U. S. Five-Twenties of 1864 at 112⅝@112¾; U. S. Five-Twenties of 1865, 112⅝@112¾; U. S. Five-twenties of 1865 consolidated, 111½@111⅝; U. S. Five Twenties of 1867, 111⅝@111¾; U. S. Five-twenties of 1868, 112@112⅛; U. S. Ten-forties at 108½@108⅝; U. S. Six per cent. currency bonds, 115½@115⅝.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	March 29.	April 5.	April 12.

At. and Gt. West.	38	....	....

State bonds have been in good demand at strong and buoyant prices.

Railway bonds have been more sought after at firmer prices. Central Pacific Sixes have been in lively request, closing at 96¾@97. The Chesapeake and Ohio R. R. First Mortgage six per cent. gold bonds have been selling more freely at 90 per cent. and accrued interest. Union Pacific Sixes closed at 85½@85¾.

Railway and miscellaneous share property has been quite brisk and generally buoyant in price, notwithstanding the activity in Money under speculative manipulations designed to work against financial values. Union Pacific stock closed at 30.

The movements in Produce and Merchandise have been on a moderate scale, having been checked, in part, by the Easter holidays which have been observed more generally this year than usual. Breadstuffs and Provisions have been unsettled in prices. Middling upland cotton closed on Wednesday at 14⅞ cts. per lb. The receipts at all the ports, since Sept. 1, have been 3,386,059 bales, against 2,405,861 bales same time last year; exports 2,370,419 bales, against 1,632,713 bales same time last year; stock at the ports at latest dates, 576,471 bales, against 374,384 bales same date 1870.

Foreign goods have been moderateiy active, and generally quoted firm. The week's imports having been up to $8,543,409, including $4,274,151 of Dry Goods and $4,269,258 of general merchandise.

At the Live Stock markets, Beeves have been in less demand at 10@15c.; Veal Calves in moderate request at 5@11c; Sheep, at 6@8¼c., and Swine, at 6¾@7c. per lb., all live weight. Milch cows, quiet at $40@$100, each. The week's receipts were 6,307 Beeves, 107 Cows, 2,779 Veal Calves, 19,126 Sheep and Lambs, and 9,778 Hogs.

In the line of ocean freights, the movements have been more extensive, and rates have been quoted rather firmer. For Liverpool, cotton at ¼@5/16 by sail and 9/32@11/32d. by steam, per lb.; flour at 2s.@2s. 3d. by sail, and 2s. 6d.@2s. 9d. by steam, per bbl.; grain at 7¼@7½d. by sail, and 8@8¼d. by steam. per bushel; and heavy goods at 15s.@27s. 6d. by sail, and 25s.@40s. by steam per ton.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ ELIZABETHTOWN AND PADUCAH RAILROAD.—The well known Bankers, Messrs. NORTON, SLAUGHTER & CO., of 41 Broad Street, Messrs. WM. ALEXANDER SMITH & CO., of 40 Wall Street, and Messrs. HALLGARTEN & CO., of No. 28 Broad Street, New York, recommend, after a thorough investigation into the affairs of the Company, THE EIGHT PER CENT. FIRST MORTGAGE BONDS OF THE ELIZABETHTOWN AND PADUCAH RAIL ROAD COMPANY of Kentucky, as a very safe and desirable investment. They are only authorized to offer a limited amount of these securities at 87½ and accrued interest. The Bonds offered are on the completed portion of the Road, which is now in successful operation.

A New Coal Route to Albany.

The Delaware and Hudson Canal Company are constructing a railroad from Nineveh to Lanesboro', in Susquehanna County, Penn., 22½ miles. It will cross the Susquehanna River near Harpersville by a bridge 450 feet long, in three spans of 150 feet each. A short distance above this point it will cross the Starucca Creek, directly under the Erie Railway, by a bridge 150 feet long, and 60 feet below the Erie Railway track. Two miles above the viaduct a junction will be made with the Jefferson Railroad, which runs from Carbondale, Penn., where the Delaware and Hudson Company own large mines. The object of this road, which is in reality a branch of the Albany and Susquehanna Railroad, is to shorten the route from the coal mines to the Albany market, which it does by 26 miles, and by a grade no heavier than 30 feet to the mile.

A saving of 40 cents, per ton in the transportation of coal from Carbondale to Nineveh, where the new route joins the main line of the Albany and Susquehanna Railroad, will also be effected. The contractor for the grading of the road is Gen. Diven of Elmira. Six hundred men are now at work, and nearly one-third of the grading has been accomplished. Steel rails, weighing 62 pounds to the yard are to be laid. The road is expected to be completed by the first of October next, and will be used for the coal trade only.

NEW LOAN OF THE UNITED STATES.

PROGRESS OF SUBSCRIPTIONS.

PRIVILEGE STILL OPEN FOR $200,000,000 FIVE PER CENTS.

The department has advised by telegraph that the subscriptions to the loan to Thursday, March 30, amount to $50,600,000. The Secretary has also authorized the notice that the unconditional privilege of subscribing to the first-class of bonds five per cents, to the extent of $200,000,000 remains open until further advice.

The proposed loan comprises three classes of bonds, namely:

First. Bonds to the amount of five hundred millions of dollars, payable in coin, at the pleasure of the United States, after ten years from the date of their issue, and bearing interest payable quarterly in coin, at the rate of five per cent. per annum.

Second. Bonds to the amount of three hundred millions of dollars, payable in coin, at the pleasure of the United States, after fifteen years from the date of their issue, and bearing interest, payable quarterly in coin, at the rate of four and a half per ce nt. per annum.

Third. Bonds to the amount of seven hundred millions of dollars, payable in coin, at the pleasure of the United States, after thirty years from the date of their issue, and bearing interest, pay able quarterly in coin, at the rate of four per cent. per annum.

Subscriptions to the loan will have preference in the following order, namely:

First. Subscriptions that may be first made for five per cent. bonds to the amount of two hundred millions of dollars; of which there will be reserved, for twenty days one half for subscribers in this country and one half for subscribers in foreign countries.

Second. Subscriptions for equal amounts of each class of bonds.

Third. Subscriptions for equal amounts of bonds bearing interest at the rate of four and a half per cent., and of bonds bearing interest at the rate of five per cent.

Fourth. Subscriptions for any five per cent. bonds that may not be subscribed for in the preceding classes.

When a subscription is made, the subscriber will be required to deposit two per cent. of the amount thereof in coin or currency of the United States, or in bonds of the class to be exchanged, to be accounted for by the Government when the new bonds are delivered; and payments may be made either in coin or in bonds of the United States known as Five-Twenty bonds, at their par value.

The coin received in payment will be applied to the redemption of Five-Twenty bonds, and the debt of the United States will not be increased by this loan.

The bonds will be registered or issued with coupons, as may be desired by subscribers. Registered bonds will be issued of the denominations of $50, $100, $500, $1,000, $5,000 and $10,000; and coupon bonds of each denomination except the last two. The interest will be payable in the United States at the office of the Treasurer, any Assistant Treasurer, or designated depositary of the Government, quarterly, on the first days of February, May, August and November, in each year.

The bonds of the several classes aforesaid, and the interest thereon, are exempt from the payment of all taxes or dues of the United States, as well as from taxation in any form by or under State, municipal or local authority.

After maturity, the bonds last issued will be first redeemed, by classes and numbers, as may be designated by the Secretary of the Treasury.

The bonds will be issued at the United States Treasury, but the agents for the negotiation of the loan in Europe are authorized to make arrangements with subscribers for the transmission of the bonds to the agents through whom subscriptions may be received.

Subscribers in the United States will receive the new bonds of the agents with whom the subscriptions are made.

In the United States the National Banks are authorized to receive subscriptions, and subscriptions may also be made at the office of the Treasurer of the United States, or of any Assistant Treasurer, or the designated depositaries at Buffalo, N. Y.; Chicago, Ill.; Cincinnati, Ohio; Louisville, Ky.; Mobile, Ala., and Pittsburg, Pa.

☞ TEXAS PACIFIC RAILROAD COMPANY.—Notice is hereby given, that, pursuant to the Act of Congress, entitled "An Act to Incorporate the Texas Pacific Railroad Company, and to aid in the Construction of its Road, and for orther purposes," approved March 1, 1871, the persons named in the first section of said Act, who are by said Act constituted a Board of Commissioners, known as the Texas Pacific Railroad Commissioners, will meet at the Office of the Southern Transcontinental Railroad Company, on the north-east corner of Warren and West-sts., in the City of New York, on the 15th day of April, 1871, at 12 o'clock noon, of that day, for the purpose of opening Books of Subscription to the Capital Stock of the said Texas Pacific Railroad Company, of receiving Subscriptions to said Stock, and electing a Treasurer in pursuance of the said Act.—Dated New York, March 27, 1871. J. C. Fremont, Marshall O. Roberts, Henry D. Cooke, John W. Forney, E. L. Fancher, Luther R. Marsh, Richard C. Parsons.

Wilmington, Columbia and Augusta R. R.

The Augusta *Chronicle* learns from a gentleman who has lately witnessed the operations on the extension of the Wilmington, Columbia and Augusta Railroad, that the work is progressing finely. The entire route from Wateree river to Columbia has been graded, and the work of laying the track has been commenced. A temporary road has been built from Clarkson's turnout to the main road. It is thought that the work will be completed from the Wateree to Columbia in about two months. The most difficult undertaking, however, is the building of a trestle across the Wateree, the grounds in the vicinity of the river being so low and swampy that the trestle will have to be between three and four miles in length. To construct this, of course, will take considerable time.

☞ The Memphis and Little Rock Railroad has been completed, and will soon be open for business.

Locomotives for Narrow Gauge Railroads.

We have received from M. BAIRD & Co., Proprietors of Baldwin Locomotive Works, Philadelphia, a circular accompanied by photographs of several patterns of locomotives especially adapted to the working of narrow gauge railroads.

The designs shown can all be arranged for a gauge of 2 feet 6 inches, or upwards. For a gauge narrower than 2 feet 6 inches, special patterns or modifications of these plans would be required.

The following table gives the principal dimensions and weights of various patterns and sizes of narrow gauge locomotives, together with the loads which they will haul on a straight track in good condition:

Kind of Locomotives.	Cylinders. Diam.	Cylinders. Stroke.	Diameter of Drivers.	Weight in working order. Total.	Weight in working order. On drivers.	Weight in working order. On each pair of drivers.	Load in gross tons of cars & lading. On a level.	Load in gross tons of cars & lading. On a 40 feet grade.	Load in gross tons of cars & lading. On a 80 feet grade.	Load in gross tons of cars & lading. On a 100 feet grade.

Class 1. Four-wheels-connected tank locomotive.	9	12	30	18,000	18,000	9,000	390	120	70	55
Class 2. Four-wheels-connected with separate tender.	9	12	30	16,000	16,000	8,000	385	115	65	50
Class 3. Six-wheels-connected tank locomotive.	10	16	36 to 40	20,000	20,000	10,000	480	140	75	60
Class 4. Six-wheels-connected with separate tender.	10	16	36	24,000	24,000	12,000	580	170	95	75
Class 5. Four-wheels-connected and one pair of leading wheels.	10	16	36 to 40	28,000	28,000	9,333	615	185	105	85
Class 6. Six-wheels-connected and one pair of leading wheels.	11	16	30	33,000	33,000	11,000	740	225	130	105
Class 1. Four-wheels-connected tank locomotive.	9	12	30	18,000	18,000	9,000	390	120	70	55
Class 2. Four-wheels-connected with separate tender.	9	12	30	16,000	16,000	8,000	385	115	65	50
Class 3. Six-wheels-connected tank locomotive.	10	16	36 to 40	20,000	20,000	10,000	480	140	75	60
Class 4. Six-wheels-connected with separate tender.	10	16	36	24,000	24,000	12,000	580	170	95	75
Class 5. Four-wheels-connected and one pair of leading wheels.	10	16	36 to 40	30,000	25,000	12,500	605	175	95	75
Class 6. Six-wheels-connected and one pair of leading wheels.	10	16	36 to 40	35,000	30,000	10,000	730	220	120	100

The last two patterns can be built with tanks on the boilers to carry the feed water, and boxes for coal or wood on the foot-board, if it is desired to dispense with the separate tender. For runs of any considerable length, however, it is believed that the engine would be more satisfactory with separate tender, and the weight of such tender will be so small as to detract very little from the tractive efficiency of the machine.

SERVICE TO WHICH THE SEVERAL PATTERNS ARE ADAPTED.

Classes 1 and 2 would be suitable for hauling freight at low speeds. For a short run the tank engine (class 1) would answer; for a longer run, requiring more fuel and water to be carried, a tender would be necessary, and class 2 would be preferable.

All four wheeled engines, however, when run at any considerable speed, have a backward and forward rocking or plunging motion on the rails, which is objectionable as injurious both to track and to engine. The other classes (3, 4, 5 and 6) show designs which obviate this objection, and allow of higher speeds.

Classes 3 and 4, by coupling three pairs of drivers, give machines which, while they have no more weight on each wheel than the four wheeled engines of classes 1 and 2, have nevertheless fully 50 per cent. more tractive power. These two classes are adapted to an exclusively freight business.

In Class 5, in order to prevent the rocking motion peculiar to four wheeled engines, as stated above, a single pair of leading wheels is introduced in front of the cylinders. These wheels serve to guide and steady the engine, and prevent the excessive wear of the tires of the front driving wheels which would otherwise result. As they carry only a small portion of the weight of the machine, they do not materially detract from the weight available for adhesion.

It will be apparent that engines of this class are especially suited for passenger business. They can be run at high rates of speed, as will be shown in a subsequent paragraph, and it is believed will occupy the same relative position in the narrow gauge system which the ordinary eight wheeled locomotive with four drivers and truck fills to-day on the full gauge railway.

Class 6 shows an extension of the same principles in a six coupled engine for freight service.

ADAPTATION FOR PASSING SHORT CURVES.

All these machines are designed on such principles as will enable them to pass curves of short radius with ease. The engines of classes 5 and 6 have a single pair of leading wheels with swing bolster and radius bar. By this device these wheels adapt themselves readily to a curve, and the rigid wheel-base of the engines is reduced to the distance between centres of rear and front drivers. Any of the engines described may be run around curves of 100 feet radius or even shorter. Engines of classes 1 and 2 have been run around curves of 30 feet radius.

CHARACTER OF ROADS WORKED BY OUR SMALL LOCOMOTIVES.

We have built a number of engines of classes 1 and 2 for use on roads of 2 feet 6 inches, 2 feet 9 inches, 3 feet, and 3 feet 6 inches gauge, respectively, and are now building locomotives of the last two classes (5 and 6) as the equipment of an important 3 feet gauge line (the Denver and Rio Grande) which will be in operation for a part of its length during the present season.

The Uniao Valenciana Railroad of South America, is worked by engines of our manufacture of the kind designated by class 2, with 9x16 cylinders. The road is 15 miles long; 3 feet 6 inches gauge; has a maximum grade of 169 feet to the mile; and a maximum radius of curvature of 235 feet. It is laid with T rail, weighing 40 pounds to the yard.

Several narrow gauge roads connected with iron furnaces or mining enterprises in this and adjacent States are worked with small engines of classes 1 and 2. These roads, on which are in use engines weighing from 18,000 to 20,000 pounds, (being 9,000 to 10,000 pounds on each pair of wheels,) are laid with rails weighing from 30 to 40 pounds to the yard. Those using the 30 pound rail consider it heavy enough. The joints are made with chairs or fish plates. The chairs cost about 20 cents each. Fish plates 18 inches long with four bolts and nuts for a 30 pound rail can be made for about 45 cents per joint. The spikes are one half inch square, 5½ inches long, and weigh 40 pounds to the hundred. The cross ties are about 5 feet long for a 2½ feet gauge, and 5 to 6 inches face and depth, and are laid from 2 feet to 2 feet 6 inches from centre to centre.

SPEED ATTAINABLE WITH SMALL LOCOMOTIVES.

A narrow gauge locomotive with driving wheels 36 inches in diameter and cylinders with 16 inches stroke, at a speed of 36 miles per hour, develops the same speed of piston as a full gauge locomotive with 5 feet driving wheels, and cylinders with 24 inches stroke, at a speed of 40 miles per hour. With driving wheels 40 inches in diameter and 16 inches stroke of piston, the narrow gauge locomotive develops the same total travel of piston in going one mile as does the full gauge locomotive with driving wheels 60 inches in diameter and 24 inches stroke of piston. It is evident therefore, that equal speeds are attainable on the narrow as on the full gauge. The angle of stability of the narrow gauge locomotive with 3 feet driving wheel is somewhat greater than that of the 4 feet 8½ gauge locomotive with 5 feet driving wheel.

A UNIFORM NARROW GAUGE SYSTEM DESIRABLE.

For narrow gauge lines of any considerable length and intended for both freight and passenger traffic, a gauge of 3 feet seems to have been generally agreed upon. If a system of narrow gauge roads is to be constructed in this country, (and such now seems to be the tendency,) it is manifestly important that a uniformity of gauge should be established. The 3 feet gauge has the decided preference of practical railroad managers and engineers who have given this subject attention, and as this width has very important advantages in the designing of locomotives and other rolling stock, it is believed that its general adoption for the narrow gauge system would be advantageous. We may mention that the Denver and Rio Grande Railway, now in process of construction for 80 miles of its projected length, is to be of 3 feet gauge; and the Pennsylvania and Sodus Bay Railroad, another narrow gauge line 83 miles in length, has also adopted this gauge after careful investigation.

COMPARATIVE WEIGHTS OF NARROW AND FULL GAUGE CARS.

We subjoin as pertinent to this subject, the following table showing the comparative proportions of dead weight to paying load of full gauge and narrow gauge cars:

	Weight of car empty. Pounds.	Capacity. Pounds.	Weight of car loaded. Pounds.	Weight of wheels & axles. Pounds.	Weight on all the wheels. Pounds.	Weight on each wheel. Pounds.	Percentage of dead weight to load.
Full gauge eight wheeled box car.	20,000	20,000	40,000	5,400	34,600	4,325	100
Narrow gauge four wheeled box car.	4,500	8,000	12,500	1,200	11,300	2,825	56¼
Full gauge eight wheeled flat car.	16,000	24,000	40,000	5,400	34,600	4,325	66⅔
Narrow gauge four wheeled flat car.	8,500	9,000	12,500	1,200	11,300	2,825	38⅔
Full gauge four wheeled coal car.	6,000	11,000	17,000	2,300	15,300	3,825	60
Narrow gauge four wheeled coal car.	4,000	8,500	12,500	1,200	11,200	2,825	47

DESIGNS FOR NARROW GAUGE CARS.

Designs for narrow gauge freight cars by prominent manufacturers show four wheeled box, flat, and drop-bottom coal or ore cars. Their weights and capacity are indicated in the above table.

For passenger service, eight wheeled cars with bodies 26 feet long and 6 feet wide are proposed as follows:

Second class cars with longitudinal slatted seats in centre (passengers to sit back to back). Capacity 26 passengers.

First class passenger cars with seats and cushions like horse railway cars. Capacity 30 passengers.

First class passenger cars with two rows of turning chairs with aisle between, etc. Capacity 18 passengers.

First class passenger cars with revolving back seats (double seat on one side of car and single seat on the other, the plan being reversed in the two ends of the car). Capacity 28 passengers.

All these cars have wheels about 24 inches in diameter.

COMPARATIVE COST OF SUPERSTRUCTURE OF THE DIFFERENT SYSTEMS.

The following are comparative estimates of the cost of a mile of single track, properly proportioned for each gauge specified:

1st.—For 4 feet 8½ in. gauge. Rail 55 lbs. per yard.

87 tons of rails, @ $70 per ton	$6,090 00
400 rail splices, @ $1	400 00
5,500 lbs. spikes, @ 5 cts	275 00
2,640 cross ties, @ 80 cts.	2,112 00
2,000 cubic yards gravel ballasting, @ 50 cts	1,000 00
Laying 1 mile of track	500 00
Total	$10,377 00

2d.—For 3 feet 6 in. gauge. Rail 35 lbs. per yard.

55 tons of rails, @ $75 per ton	$4,125 00
340 rail splices, @ 60 cts	204 00
3,520 lbs. spikes, @ 6 cts	211 20
3,520 cross ties, 5 feet long, 5 x 6 in., @ 40 cts	1,408 00
1,200 cubic yards ballasting gravel, @ 50 cts	600 00
Laying 1 mile of single track	350 00
Total	$6,898 20

3d.—For 3 feet gauge. Rail 30 lbs. per yard.

47½ tons of rails, @ $75 per ton	$3,562 50
330 rail splices, @ 50 cts	165 00
3,520 lbs. spikes, @ 6 cts	211 20
3,520 cross ties, 5 feet long, 5 x 6 in., @ 30 cts	1,056 00
1,000 cubic yards ballasting, @ 50 cts	500 00
Laying 1 mile of single track	300 00
Total	$5,794 70

4th.—For 2 feet 6 in. gauge. Rail 25 lbs per yard.

40 tons of rails, @ $75 per ton	$3,000 00
330 rail splices, @ 50 cts	165 00
3,520 lbs. spikes, @ 6 cts	211 20
3,520 cross ties, @ 25 cts	880 00
1,000 cubic yards gravel ballasting, @ 50 cts	500 00
Laying 1 mile of single track	250 00
Total	$5,006 20

5th.—For 2 feet gauge. Rail 20 lbs per yard.

31½ tons of rails, @ $75 per ton	$2,362 50
330 rail splices, @ 45 cts	148 50
3,520 lbs. spikes, @ 6 cts	211 20
3,520 cross ties, @ 20 cts	704 00
750 cubic yards ballasting, @ 50 cts	375 00
Laying 1 mile of single track	250 00
Total	$4,051 20

Comparative cost per mile of each gauge.

4 feet 8½ in	$10,377 00	standard road used.	
3 " 6 in	6,898 20	reduction 33½	per ct.
3 "	5,794 70	" 44	"
2 " 6 in	5,006 20	" 52½	"
2 "	4,051 20	" 60	"

The above figures are submitted to meet the enquiries of many of our correspondents who are interested in the subject of narrow gauge railroads. We shall be pleased to furnish on application any further information in our power.

Respectfully,

M. BAIRD & Co., *Philadelphia.*

Illinois Central Railroad.

The statement of this Company for the month of March, 1871, is as follows:

LAND DEPARTMENT.

Acres Construction Lands Sold	5,465.27 for	$52,349 34
Acres Int. Fund Lands sold		
Acres Free Lands sold		
Total sales during month of March, 1871	5,465.27 for	$52,349 34
To which add Town Lot Sales		100 00
Total of all	4,465.27 for	$52,449 34
Cash collected in March, 1871		$148,263 53

ESTIMATED EARNINGS—TRAFFIC DEPARTMENT.

	In Illinois 707 Miles.	In Iowa 402 Miles.	Total. 1109 Miles.
Freight	$282,476 00	$53,513 00	$335,989 00
Passengers	139,886 97	44,594 15	184,481 12
Mails	6,375 00	3,059 33	9,434 33
Other sources	74,000 00	2 940 67	76,940 67
Tot. Mar.,'71.	$502,737 97	$104,107 15	$606,845 12
Total actual earn'gs, Mar. 1870	$498,803 60	$102,523 30	$611,326 90

Cleveland, Columbus, Cincinnati and Indianapolis Railroad.

The following is a comparative statement of the earnings of this road for January, February and March, 1870 and 1871:

	1870.	1871.
JANUARY:		
From freight	$131,127 07	$205,325 21
From passengers	56,660 22	52,583 10
From mails, exp., etc.	15,281 87	14,917 74
Total	$203,069 16	$272,826 05
Increase for January, $69,756 89.		
FEBRUARY:		
From freight	$151,800 03	$202,444 90
From passengers	60,691 31	50,017 51
From mails, exp., etc.	14,406 22	14,327 30
Total	$226,897 59	$266,789 71
Increase for February, $39,892 15.		
MARCH:		
From freight	$155,069 88	$229,267 25
From passengers	71,245 64	66,393 97
From mails, exp., etc.	17,866 72	17,537 70
Total	$244,182 24	$313,198 92
Increase for March, $79,016 68.		
Tot. for three mos.	$674,148 96	$853,814 68
Total increase for three months, $179,665 72.		

☞ The Flint and Pere Marquette Railroad Company have contracted with the Wyandotte Rolling Mill for 6,500 tons of rails, all to be delivered between May and November, along the line of the Holly, Wayne and Monrose Road, which former corporation have undertaken to build from Holly to Monrose. The contracts for spikes and other material and rolling stock have also been made.

☞ UNION PACIFIC LAND GRANT BONDS

OFFICE OF MORTON, BLISS & Co., BANKERS,
NEW YORK, March 20, 1871.

The undersigned offer for sale the balance of the Land-Grant Bonds of the Union Pacific Railroad Company. The road has been in operation about twenty months. It is complete in all respects, and its earnings have averaged $8,000,000 per annum. These bonds bear seven per cent. interest, coupons payable April and October. The following summary of the financial condition of the Company is from the address of Col. Thomas A. Scott to the stockholders, upon his accepting the Presidency, at the annual meeting in Boston, March 8:

LAND DEPARTMENT.—Bonds, seven per cent. currency, $10,400,000.

Land Sales, 292,900 acres; proceeds, $1,306,566; average price per acre, $4 46.

On account of these sales the Company has received and redeemed land grant bonds to the extent of	$736,000
For the remainder the Company holds land notes maturing in one, two and three years, with accruing interest	576,650
Total	$1,312,650

The condition of the Land Department may, therefore, be stated thus:

Bonds	$10,400,000
Principal reduced by bonds redeemed	$736,000
Land notes on hand	576,650
Showing an absolute reduction of	$1,312,650
The Company is entitled, under the grants from Government, after deducting total lands pre-empted before passage of the act, to	12,080 000 acres.
From which deduct amount heretofore sold	292,883 acres.
Leaving on hand as an asset	11,787,117 acres.

—which, at an average value of two dollars per acre, being twenty per cent. below the minimum Government price for adjoining lands owned by it, should yield the gross sum of $23,574,234. So much thereof as may be required to be applied to the payment or redemption of the land grant bonds, and the balance to go into the Treasury. The average land sales amount to about $75,000 per month:

From present indications it would seem reasonable to estimate the gross receipts of the coming year at a minimum of	$9,000,000
With a cost of maintaining and operating the line on this increased earning of not exceeding, say	4,500,000
Leaving as net receipts to be applied to interest and dividend, exclusive of the operations of the Land Department of	$4,500,000

The operations of the line for the first twenty months of its existence as a completed road show net earnings sufficient to meet the interest upon its entire bonded debt.

This result cannot but be deemed, by all practically versed in the history of new railway lines, as indicating a successful future. The yearly increase of traffic, costing but little additional to transport and therefore yielding a large percentage of net revenue, must soon give a value to your property not readily appreciated at present,

MORTON, BLISS & CO., No. 30 Broad-st.

Imports of Dry Goods.

The imports of foreign dry goods at New York for the month of March, were:

ENTERED FOR CONSUMPTION.

	1870.	1871.
Manufactures of wool	$2,370,754	$3,729,752
" cotton	2,210,847	3,134,697
" silk	2,813,824	4,634,971
" flax	1,276,861	1,356,144

Journal of Railroad Law.

RAILROAD COMPANIES—RISKS OF EMPLOYEE—WHEN COMPANY ABSOLVED FROM RESPONSIBILITY.

The facts in the recent case of Phelan and ano. *vs.* The Albany and Susquehanna Railroad Co., (1 Lansing, 258,) are fully and clearly stated in the following opinion by

PECKHAM, J.—The full statement of this case is its own argument. The plaintiffs, as assignees of a contract with defendant, agreed to do certain things, in a certain time, and to proceed with the work in a certain manner. If they failed so to proceed, the contract, after prescribed notice, might be declared void by the defendant. It was further provided, that if any money was due the plaintiffs, when the contract should be declared void, that no part thereof should be paid until the contract should be completed; and if, in completing the work, the cost thereof should be increased over the contract price, then the sum so due should be applied to the payment of such increase.

The plaintiffs did not perform this contract; confessedly failed. It was declared abandoned and void. This was acquiesced in by the plaintiffs. The contract was then completed by the defendant, at a cost beyond the contract price, largely exceeding the amount due the plaintiffs when the contract was declared void. Then, by the plain, clear terms of the contract, the plaintiffs had no right of action.

It is insisted that the report is right, because the sum reported due, appeared, by the defendant's books to be due to the plaintiffs.

That sum was due to them when the contract was declared void; that is, there was that balance in their favor at that time. But they were bound to fulfil, or when the time for fulfilment had expired, and there had been no extension and no completion there could be no recovery.

Further, in this case, it was expressly provided that this balance should be applied to the payment of any excess of cost in completing the contract over the contract price.

The amount of the balance was some $400, and the amount expended by the defendant to complete the contract, over and in excess of the contract price, was over $4,000.

It is also insisted that the defendant waived the forfeiture of the contract and the benefit of its provisions by paying money after the forfeiture had occurred. But the defendant paid no money on the contract after it was declared void, even if that would, under the circumstances of this case, revive its provisions. Had the defendant paid money on the contract after it was declared void, and the plaintiffs had then insisted upon going on with and completing the contract, it would have presented a very different case, but no such case is here.

The plaintiffs also urge that this contract is very severe and highly penal, and should be very liberally construed with a view to right and justice. To such a construction we agree. But we cannot adopt a construction that nullifies its provisions, as the plaintiff's counsel does not claim or pretend that the contract is void or invalid in any of its provisions.

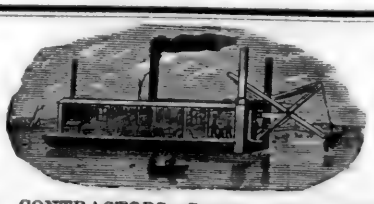
If fairly made (and there is no pretense to the contrary), it must be fairly enforced. There is abundant authority for upholding such contracts, if any were needed. (Hennessey *vs.* Farrell, 4 Cush., 267. Faunce *vs.* Burke, 16 Penn. St. R., 478.)

As to the non-performance of the whole contract defeating a recovery, see Smith *vs.* Brady, (17 N. Y., 173.)

Judgment reversed and a new trial ordered.

☞ The Williamsport *Pilot* says that a very heavy force of hands is at work on the line of the Western Maryland Railroad between Mechanicstown and Smithburg, and that everything is being pushed with commendable zeal and alacrity. It is now thought that the road can be finished to Hagerstown by the first of July.

☞ The following gentlemen have been elected directors of the Columbia and Port Deposit Railroad Company: J. Edgar Thomson, President; Josiah Bacon, J. D. Cameron, Philip Gossler, Maris Hoopes, William J. Howard, C. S. Kauffman, H. J. Lombaert, Wistar Morris, Joseph B. Myers, Thos. A. Scott, Edmund Smith and Jacob Tome.



☞ The earnings of the Central Pacific Railroad Company for the month of March, 1871, were $580,340; for the month of March, 1870, $488,332; increase this year over 1870, $92,008; earnings first three months 1871, $1,602,328; earnings first three months 1870, $1,295,612; increase this year over 1870, $306,716.

☞ The New York and Harlem Railroad Company on the 11th inst. voted, 128,864 shares against 770, to increase its capital by $2,000,000 to meet the expense of the new depot and of the Madison Avenue Railroad. The whole number of shares s 160,000.

☞ The Putnam County *Courier* says Chief Engineer St. John, of the New York and Boston Railroad, is prospecting a route for another new road, which will be known as the Putnam and Dutchess Railroad. It is to commence at Carmel and run north through Ludington to Whaley Pond, where the new company propose using the Boston, Hartford and Erie road bed to Hopewell, thus forming a continuous line from New York to Albany.

☞ The Missouri, Kansas and Texas Railroad Company are laying their track in the Indian Territory at the rate of two miles a day. They will reach the Arkansas river in July, and by early fall will be near enough to the Texas line to control trade.

☞ The engineers on the Augusta and Hartwell railroad are endeavoring to modify and improve the line already run to Broad river. It is said that work on the road will be commenced very soon and pushed forward as fast as possible. A. Grant Childs is Chief Engineer.

TO CONTRACTORS.—Superior Steam Dredges, Steam Hoisting Derricks, Upland Excavators, Stationary and Marine Engines, and all kinds of Machinery made to order by the POUND MANUFACTURING CO., Lockport, N. Y.

Notice to Contractors.

CENTRAL RAILROAD COMPANY OF NEW JERSEY.

PROPOSALS will be received at the Engineer's Office, No. 119 Liberty street, New York, until noon of Thursday, the 20th day of April instant, for the graduation necessary for two additional tracks of rails, one upon each side or both upon one side of the present tracks, as may be directed by the Engineer, between Elizabeth and Bound Brook, except that between Scotch Plain grade and Plainfield the new route will be graded for a double track of rails only. Plans, profiles and specifications can be seen at this office on and after the 12th instant. The engineer reserves the right to reject all bids not deemed advantageous to the company.

JAMES MOORE, Consulting Engineer,
No. 119 Liberty street, New York.

NEW YORK, April 7, 1871.

Notice to Contractors.

PROPOSALS will be received from April 15th to May 1st, inclusive, at the Western Maryland Hotel, Emmittsburg, Md., for the graduation and masonry of seven (7) miles of the Emmittsburg Railroad, from Emmittsburg to the Western Maryland Railroad at Rocky Ridge. The work will be let in sections of one mile or the entire line. It is designed that the road shall be completed by the first day of November, 1871. The profile, plans and specifications can be seen at the hotel above named, at any time after the 8th day of April instant, and bidders will be furnished with blank proposals. The Company reserves the right to reject any bid or bids, and to let the work to one or more parties as they deem best, and will reserve twenty per cent. to secure the completion of the work.

By order of the Board.

JOSHUA MOTTER, President.

JOS. S. GITT, Chief Engineer.

To Contractors.

PROPOSALS will be received at the Engineer's Office, Keyport, N. J., until noon on MONDAY, April 17, 1871, for the building of the Monmouth County Agricultural Railroad, length about 14 miles.

Proposals will be received for the whole work of grading, masonry, bridging, docking, and furnishing and laying ties and rails, for the whole distance or for sections.

Proposals will also be received for grading, masonry, bridging, docking, and furnishing and laying ties and rails separately.

Plans and profiles can be seen at the Engineer's Office, Keyport, N. J., on and after March 27, 1871.

The right is reserved to reject all bids not deemed advantageous to the Company. Address all communications to

A. WALLING, Jr., Chief Engineer.

Keyport, N. J., March 16, 1871.

To Contractors.

PROPOSALS will be received at the Engineer's Office of the Delhi and Middletown Railroad Company, Delhi, N. Y., until April 25, 1871, for the grading and masonry of this Road. The Road consists of 31 one-mile sections, extending from Margaretville to Delhi, in Delaware, Co. Maps and profiles on exhibition at this Office. Estimates, specifications, and other information will be furnished on application to J. P. GOULD, Chief Engineer, Delhi, N. Y.

NOTICE

To Contractors and Bridge Builders.

DEPARTMENT OF SURVEYS,
224 S. Fifth St., Philadelphia.

SEALED PROPOSALS will be received at the Department of Surveys until 3 o'clock P. M. April 15, 1871, for the CONSTRUCTION OF A BRIDGE over the river Schuylkill, on the site of the Suspension Bridge at Fairmount, and its approaches, to extend from Twenty fifth and Spring Garden streets, in the Fifteenth ward, to Thirty-second and Bridge streets, in the Twenty-fourth ward, a length of about 2,730 feet.

Proposals will be received for the Bridge superstructure over the river, including all materials, workmanship and erecting ready for use. It will be 340 feet span, of wrought iron, and also two trusses for Thirtieth street, 80 feet span, of wrought iron. Detail plans of these bridges, conforming to specifications, to accompany proposals.

Proposals for all the iron work on *approaches* will be accepted separately, to be erected complete for use, as per plans and specifications.

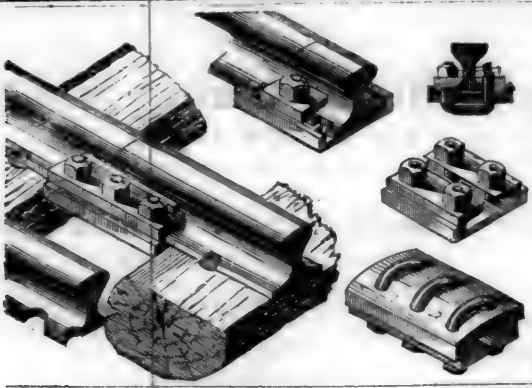
And separate proposals for the graduation and masonry, to include curbing and paving, as per specifications and plans.

Each bid must be made upon blanks prepared, otherwise they will not be accepted, and every bidder must submit the names of two persons of undoubted responsibility, who will be bound with them as security for the faithful completion of contract. The city reserves the privilege of rejecting any and all bids that may not be satisfactory.

Payments will be made monthly in bonds of the city of Philadelphia, or in cash, at the discretion of the Mayor.

Each bid must be accompanied by a certificate from the Law Department that a proper bond, for the sum of five hundred ($500) dollars, has been filed there, in accordance with the ordinance approved May 25, 1860.

The contractor or contractors, in making their proposals, shall do so with the understanding that if their proposal shall be accepted, that every dispute or difference which may arise incident thereto shall be decided by the Chief Engineer and Surveyor, from whose decision there shall be no appeal.



All bidders are invited to be present at the opening of proposals offered on said day, at 3½ o'clock. Plans may be seen and examined at the Department of Surveys, where specifications and blank proposals may be obtained on and after the 16th inst.

STRICKLAND KNEASS,

Rolling Mill Property
FOR SALE,
OPPOSITE NEW YORK CITY.

The well-known North River or Durbin Rolling Mill, situated at Prospect and North 5th St., Jersey City, New Jersey. The Real Estate consists of sixteen city lots, 25x100 feet each, with two large Dwelling Houses, well built and in good order. Also a large building occupying two lots, suitable for a Machine Shop or other purposes, a Stable, &c.

The Rolling Mill was built for the manufacture of Locomotive and other descriptions of Boiler Tank and Plate Irons, contains a heavy Roll Train, Engines, Furnaces, Machinery, &c. to suit, in good order. It can be seen running, and has been successfully run from its establishment in 1856. Situated near the Hudson River, a short and nearly equal distance from all the New Jersey Railroad Depots and Ferries, the Erie Depots and Ferries and the Hoboken or Delaware & Lackawanna Depots and Ferries, from its proximity to the New York Market, the large Locomotive and Railroad Shops of the City and Paterson, the facilities for forwarding to all points by water or railroad, it cannot be surpassed.

The Real Estate is rapidly increasing in value the vast R. R. Interests and dock improvements mentioned having taken up almost the entire River front and space below the mill property from the Cortland St. to Hoboken ferries. The reputation and business established. The Proprietor intends retiring from the business, and for further particulars can be addressed or seen daily at the

Office, 140 HUDSON STREET,
Jersey City N. J.,
In the First National Bank Building.

Propositions for Lease or Selling the Machinery for removal entertained.

Map can be seen and General Information may be obtained also of Wm. H. Wallace & Co., Corner of Liberty and Washington Streets, N. Y., City Agents; and R. R. Cherisman, Supt. Central Iron Works, Harrisburgh, Pa. (formerly a Proprietor.)

RAILROAD IRON.

New York Saturday, April 22, 1871.

Canada Southern Railroad.

EDITOR AMERICAN RAILROAD JOURNAL:

An attempt is about being made to place upon the market a large issue of bonds for another railway in Canada.

Hitherto John Bull has been favored with being *allowed* to subscribe for all the good things in Canada, including the Grand Trunk and its little capital of $80,000,000, which does not return a dollar in the way of dividends. But it appears Wall-street is to be allowed a chance in this new scheme, which bears the name of the Canada Southern Railroad, and is intended to run between Fort Erie (opposite Buffalo) and Detroit, 229 miles, with a branch of 67 miles from St. Thomas to St. Clair.

Between Detroit and Buffalo there are already in operation through Canada two lines of railway, neither of which is worked up to its capacity, and only one of them pays any dividend, and that—the Great Western—only an average of four per cent. per annum.

But independent of this new project, the Great Western Company, some months ago, raised money to build and are busily constructing a road from Buffalo westward, which line will be just alongside of the proposed Canada Southern. In fact, the trains on the two lines would actually be in sight of each other all the way from Detroit to Buffalo.

It will therefore be understood that this proposed line will make a fourth parallel line across Canada, two of the lines belonging to the Great Western, and one to the Grand Trunk, which Company is now at work altering its grade from five feet six inches to conform to the American gauge of four feet eight and one-half inches. The Great Western lines are already four feet eight and one half inches.

On the main line of the 229 miles of the proposed Canada Southern there is only one town of 1,000 inhabitants, and that is St. Thomas, containing 1,800. On the branch line of sixty-seven miles, from St. Thomas to St. Clair, it does not pass through a village of 200 inhabitants.

From this any one will perceive there is a miserably small local business, and with the Great Western Company's Glencoe and Buffalo Air Line running within a stone's throw from the proposed Southern, even this small local business must be divided.

It is quite true that the Great Western now earns nearly half its entire receipts from local traffic, but this is accounted for by the fact that the main line of the Great Western and its branches runs through every large city and town in Upper Canada, viz.: St. Catherines, Hamilton, Toronto, Paris, Brantford, Woodstock, Ingersoll, London, Chatham, Sarnia, Galt and Guelph, where it connects with the great agricultural counties of Wellington, Grey and Bruce.

Now this proposed Canada Southern will not come near any of these places, and will simply have to depend upon the through traffic for existence.

How will it stand for this?

The Great Western, by its air line, will have a line exactly the same length, on exactly the same grade, being close alongside; therefore, as to cheapness, can do the traffic on exactly the same terms. But further than this what connections has this proposed line? We may positively say none, East or West, which we will explain.

The *Lake Shore and Michigan Southern* will never part with its through traffic at Detroit, Trenton or Adrian, while it can use its own line all the way between Chicago and Buffalo.

The *Detroit and Milwaukee* is owned by the Great Western, therefore it can make no through arrangements with that line.

The *Michigan Central* has recently made a binding alliance with the Great Western for a long period of years, under which the two companies are about jointly guaranteeing the necessary capital to construct the great tunnel under the Detroit River to connect their two lines, instead of using their car ferry boat.

So much for connections at Detroit. Now take the connection of the branch at the small hamlet of St. Clair. What connection can they have there? Nothing except the visionary Michigan Midland, of which not a yard is built but which has already been, we may say, amalgamated to death.

With no connection at the West, let us turn to the East:

The New York Central and the Erie connect with the Great Western at Suspension Bridge, and with the new air line of the Great Western and the Grand Trunk Railway at Buffalo.

Then the New York Central have their family connection, the Lake Shore. The Erie also have their Atlantic and Great Western at Salamanca.

Will either of these great lines run the risk of breaking up the harmonious relations existing to aid the new Canada Southern? Certainly not. For it is well known their present connections can give them all the business they can carry by the celebrated Blue, Milwaukee and Red Lines.

The Oswego Midland is not within 150 miles of Buffalo, therefore it cannot help the proposed new Canada line; for it would have to build its Buffalo branch, for 150 miles, alongside the New York Central, and who would lend them money for that?

Therefore, with a very small local business, for all of which it would have to compete with the Great Western, and a through business at the miserably low rates at which such business is now carried, (last year, we believe, less than a cent per ton a mile all round,) what chance could such a line have to earn dividends?

It would be a very nice thing to build a line and get the public to take it at double its cost, but Wall street knows better than to touch such a scheme in a foreign country, alongside three existing railways, owned entirely by the British, who would be very glad to see their money back again.

Moral—Do not bury your money in new railway bonds, in a foreign territory, just yet, but wait till the Britishers realize from their investments in their three roads, two of which are the same length as this proposed line, 229 miles, and run parallel, all the way, to this Canada Southern.

VINDEX.

☞ S. Marsh, Jr., President of the Staten Island Shore Railroad, surrendered the property of the company to C. C. Norvell, Esq., trustee for the bondholders, who has advertised the road for sale.

☞ E. S. Bowen, Esq., has been appointed General Superintendent of the Kansas Pacific Railroad.

Southern Pacific Railroad.

This company filed an amended certificate of incorporation at Sacramento on the 15th inst. The object is to purchase, construct and operate a continuous line of railroad from San Francisco through the counties of San Mateo, Santa Clara, Monterey, Fresno, Kern, Tulare, San Bernardino and San Diego to some point on the Colorado river, distant 720 miles, as near as may be, from a point beginning at the south branch of the road from Tehachepus Pass *via* Los Angelos, to the Texas Pacific Railroad, at or near the Colorado river, distant 324 miles; also, line from Gilroy, in Santa Clara county, passing through Santa Cruz and Monterey counties to Salinas City, or some point near it, for forty-five miles, and such other branches as the directors may hereafter deem advantageous to be established. The directors of the corporation are Lloyd Tevis, Leland Stanford, Charles Crocker, C. P. Huntington, Mark Hopkins, Charles Marsh and Peter Donohue. The capital is $75,000,000.

Camden and Atlantic Railroad.

The receipts from operations of this road for the year ending December 31, 1870, were:

From passengers		$222,069 04
" freight		92,094 38
" express		15,750 90
" U. S. mail		3,000 00
" miscellaneous		1,529 96
		$334,444 23

Working expenses, viz:

Running account	$51,258 36	
Workshop account	27,796 22	
Superintendence account	29,146 55	
Station account	13,238 66	
Construction account	3,608 68	
Repairs to real estate	352 34	
Repairs and renewals of roadway	46,610 69	
Station repairs	2,012 26	
Telegraph account	1,054 45	
		175,078 21
Balance		$159,366 02

In the report of the superintendent the receipts are stated at $334,444 23 for the year 1870, against $321,438 44, in the year 1869—an increase of $13,005 79; and the total expenses in 1870 at $175,215 23, against $221,276 04 in 1869—a decrease of $46,060 81. The per centage of receipts expended in operating in 1870 was 51.14, against 61 in 1869, a decrease of 9.86. The President in his report says:

This being the first report made by the Board of Directors, a slight sketch of the past history of the company would probably be not unacceptable to the stockholders.

The act of incorporation was approved March 15th, 1852, and on the twenty-fourth of June following the company was organized.

The survey was completed during the summer, and the work let and commenced the following fall.

It being supposed that there would be no difficulty in obtaining the necessary land at a reasonable price, the work was contracted for, to be finished by July 1, 1853. This anticipation was not realized, and, after much delay, it was found necessary to have recourse to the appointment of commissioners, under the provisions of the charter, and it was not until the fifteenth of April, 1854, that the last piece of land was obtained, and the road was not opened until July 4th of the same year. For loss and inconvenience caused by this delay, and for damages sustained by the washing away of the embankment across the salt meadows, by a severe storm, in the spring of 1854, the contractor claimed extra compensation, and was allowed the sum of $110,487 66.

The road for one-half to two-thirds of its length, passed through an almost uninhabited country. For this reason but few persons were to be found willing to invest their money in the enterprise. But the few having confidence in its ultimate success, resolved to carry it forward by their individual exertions, and the work was pushed forward as rapidly as the land could be procured.

In March, 1853, the board authorized the issue of seven per cent. first mortgage bonds to the amount of $50,000 00, payable in December, 1872.

In July, 1854, the issue of a like amount of seven per cent. second mortgage bonds, payable October, 1869, was authorized. These last named bonds have been extended to 1879.

The small amount of stock disposed of, and the stringency prevailing in the money market, during the years 1854 and 1855, by preventing the sale of bonds, brought the company into a state of great embarrassment.

In February, 1855, the amount of capital stock paid in was but $240,100 00, while the floating debt had reached the sum of $920,558 49.

To fund this debt, third mortgage bonds to the amount of $750,000 00, payable in 1880, were in January, 1855, directed to be issued in sums of $100 and $500. This attempt to effect a settlement failed; and but few of the third mortgage bonds were disposed of. All of these have since been redeemed and cancelled, with the exception of one bond for $100, which appears to have been lost by the holder.

In February, 1856, a supplement was obtained to the charter, allowing the issue of a preferred stock to the amount of $1,500,000, in payment of debts, and in 1860, an arrangement was made with the creditors, by which they received preferred stock for their claims.

The loss sustained by the company in the sale of its bonds, in procuring money to build and maintain the road, and in the settlement with its creditors amounted to $485,520 86.

The road being located for the greater portion of its length along the water-shed, dividing the waters of Great from those of Little Egg Harbor River, no stream nor swamp of any magnitude is crossed by it. The bridges are therefore small, not exceeding twenty-four feet span, with the exception of the bridge over the Thoroughfare separating Absecon Island from the salt meadows. This is a pile bridge, 531 feet in length, with two openings forty-two feet each, for the passage of vessels.

The country offering neither stone nor brick suitable for railroad structures, the bridges, culverts and drains, were constructed of wood. They have all, however, with the exception of Thoroughfare bridge, the abutments of three small bridges and two culverts, been replaced by stone.

The road-bed of sand and small gravel, is that best adapted to the preservation of ties, and the maintaining of a smooth and permanent track.

The curves are easy, and the gradients light; the former not exceeding 1° 20′, the latter 28.59 feet per mile.

From Winslow to Absecon, a distance of 25¼ miles, the road is straight.

The rail adopted was the ∩ or bridge pattern, weighing sixty-two pounds per yard, the joints laid opposite, and fastened by a five feet splice plate. The iron of this rail, manufactured by Messrs Reeves, Buck & Co., proved to be of very superior quality, none of it requiring renewal until the year 1866; since which time, 12¼ miles have been replaced by a fifty-eight pound rail, of the Erie pattern. This latter was chosen from its less cost, and the greater ease and certainty with which it can be procured. With this rail we now use Reeves' patent joint, which, after a trial of two years has proved the strongest, smoothest, and in every respect the best fastening which has come within the experience of any of our officers.

It was considered necessary to construct a bank across the salt meadows, protected by piles, and sufficiently to raise the track above the tides. But experience has shown that the cheapest, best and most effectual plan is to lay the track directly on the meadows, and allow the storm-tides to flow over it without obstruction.

Before the construction of the road, the entire business between Absecon and Camden was accommodated by a daily two-horse stage and few oyster wagons, and with the exception of the glass works at Waterford and Winslow, and a tavern, and a farm house near the last named place, not a house was to be seen from the line of the road, between Long-a-Coming, sixteen miles from Camden and the coast.

The task which the company then took upon itself was not merely to build up a business, but to bring together the materials out of which a business could be constructed, a result which time only could effect.

For many years the company was compelled to maintain itself on its July and August receipts; the rest of the year not affording sufficient to meet the current expenses, and for such business as did offer no remunerative compensation was received, owing to the policy adopted for encouraging settlement. But to this policy is due in a great measure the change which has already taken place, and the reasonable expectation which is now entertained of a prosperous future.

The older towns and villages on or near the line have been enlarged and improved, while new and flourishing towns have sprung up out of the wilderness, so that there is now scarcely a mile where improvement of some kind is not visible. Haddonfield and Long-a-Coming, (now Berlin,) have been enlarged, and the business from them more than doubled. Near White Horse, an extensive paint and color factory has been erected, marl pits have been opened, and the place has become a station of considerable importance.

The village of Atco, at the junction of the New Jersey Southern and the Camden and Atlantic roads, and within a mile and a half of Jackson Glass Works, and that of Ancora, within a short distance of Winslow, though commenced but a few years back, are rapidly growing in size and consequence. At Waterford Glass Works, a number of houses and several stores have been erected.

Some years after the opening of the road, the settlement of Hammonton, three miles below Winslow, was commenced, principally by families from New England, and grew with great rapidity; inhabitants, about 2,000, houses, 600. About the same time the Germans laid out and settled the town of Egg Harbor, ten miles from the coast. It now numbers over 2,000 inhabitants, 728 houses, and several manufactories. The citizens have graded a railroad through their town, six miles in length, connecting the Camden and Atlantic road with navigation on the Little Egg Harbor River.

Elwood, commenced about the same time with the last two named towns, and which, for several

years, made but little progress, has lately received an impulse through the erection of several paper mills and a shoe factory, and now bids fair to prosper. Many new houses have been erected, and improvements made in the vicinity of Absecon.

Da Costa and Pomona are stations where commencements towards improvement have been made, and whence some business is derived.

The land along the line of road has been found well fitted for farming, trucking and fruit raising. Great quantities of the latter article are annually shipped to the Philadelphia and New York markets. But the chief efforts of the company have been directed to the development of Absecon Island, which, in 1852, contained but four houses.

In the following year the upper portion was laid out as a town. Before the completion of the road, several hotels, boarding-houses and cottages were erected.

In 1854 the town was incorporated as Atlantic City; since which time it has continued steadily to increase in population and prosperity.

It now contains 1,025 permanent residents, forty-two hotels, fifty boarding-houses, 103 private cottages, 175 houses of other description, and has accommodation for 10,000 visitors. The streets are broad and well graveled; a ten feet wide plank walk, one and a half miles in length, extends the entire front of the city.

The bathing is safe and equal to any on the coast, and the atmosphere clearer, and much less moist than any known sea side resort.

An important branch of the passenger business, and one which this company may be said to have inaugurated, is its system of carrying excursions, in which the fare paid the company for each individual, decreases by a regular scale, as the number of excursionists on any particular excursion increases. This has been found highly remunerative, and has been adopted by other roads.

The number of persons annually availing themselves of the low rates thus offered is about 35,000; and for their especial accommodation, a large, handsome and convenient building, in which this company is interested to the amount of $30,000, has been erected.

By contracts, dated October 25th, 1861, and February 16th, 1862, entered into between this company and the Raritan and Delaware Bay Railroad Company, providing for a connection between the two roads, it was agreed that a branch road should be constructed under the charter of this company, from Atsion, a point on the Raritan and Delaware Bay Road, to within four miles of Waterford, on the Camden and Atlantic. The road was to be located and constructed under the direction of the Raritan and Delaware Bay Road, and by contractors named, and with money furnished by it, to be repaid by a certain per centage of the gross receipts from said branch.

The road was not constructed according to contract, and was never accepted by this company.

During its construction, a bill was filed in Chancery by the Camden and Amboy Railroad Company, praying for an injunction against its completion. The injunction was refused, and the road opened for business to Atco in September, 1862. In June, 1863, a Supplemental Bill was filed by the same complainants, praying that the Raritan and Delaware Bay Railroad Company, and the Camden and Atlantic Railroad Company should be restrained from transporting passengers and merchandise over their united roads, between New York and Philadelphia. The injunction was granted by a decree, in Chancery, dated November 16, 1865. This decree was appealed from, but was confirmed by the Court of Errors and Appeals, November 30, 1867; since which period, business over said branch has been suspended.

This business, though at one time offering fairly, was never remunerative to the Camden and Atlantic, and, having ceased, no notice of it is taken in the statement of earnings and expenses hereinafter given to show the gradual growth and development of the road.

In the meantime the contractors for the branch had filed a bill and brought a suit at law against this company, to recover the price claimed by them for its construction. These suits never came to trial; but were by agreement of February 22, 1870, discontinued, the branch itself having been conveyed to the plaintiffs. On the same day all proceedings in the suit by the Camden and Amboy were also by agreement stayed, and claims by the complaints abandoned, and the company is now free from this embarrassing entanglement.

The earnings and expenses of operating the road, excluding renewals—from the year 1856 to 1870, inclusive, together with the per centage of receipts thus expended, are given in the following table:

	Earnings.	Expenses.	Profit.	Per ct.
1856..	$117,889 05	$72,365 57	$45,523 48	61.38
1857..	122,923 84	71,425 11	51,498 73	58.11
1858..	133,222 18	75,257 38	57,964 80	56.49
1869..	152,155 22	85,701 62	66,453 60	56.32
1860..	160,042 87	105 181 44	54,861 43	65.72
1861..	99,432 61	69,356 70	30,075 91	69.75
1862..	114,386 23	79,258 79	35,127 44	54.89
1863..	165,554 26	118,282 15	47,272 11	71.44
1864..	220,337 78	152,650 48	67,687 30	69.28
1865..	266,848 32	178,850 01	88,498 31	66.83
1866..	288,649 95	149,394 54	139,255 51	51.75
1867..	306,972 03	149,926 73	157,045 30	48.84
1868..	325,040 84	174,945 74	150,095 10	53.82
1869..	320,677 65	174,620 02	146,057 63	54.45
1870..	333,514 87	167,083 29	166,431 57	50.09

It will be observed from the above table that the earnings after reaching the sum of $160,042 87, suddenly dropped to $99,432 61. This was in the first year of the war, and was produced by the stagnation in business, caused by that event. From that time there has been a gradual increase, and this increase has been quite as marked in the way as in the through business of July and August, as will be seen by a comparison of the monthly receipts for the years 1862, 1865 and 1869:

	1862.	1865.	1869.
January	$4,897	$8,919	$14,298
February	5,972	8,515	11,127
March	8,749	14,194	15,486
April	7,826	12,830	19,338
May	8,871	15,749	18,429
June	14,377	23,462	28,907
July	27,169	54 393	58,645
August	24,219	66,508	75,212
September	15,393	21,968	32,495
October	9,920	15,195	17,502
November	8,180	12,054	13 886
December	10,030	13,063	15,353

If not deceived by present appearances, the way business will increase more rapidly in the future than it has in the past, as there are evidences of a growing disposition to establish manufactories on the line of the road.

There have already been erected and put in successful operation, several paper mills, an extensive paint and color factory, shoe and carpet factories, several saw, planing, sash and door mills, brick and pottrey factories, &c. And it is now in contemplation to erect several of a similar character, as well as others, of kinds not named.

It will be remarked that in the table of earnings and expenses, no notice is taken of renewals.

Up to 1866, no renewals were required; from that time to the present, there has been expended on this account as follows:

Roadway	$75,615 96
Engines	10,140 39
Freight cars	7,766 50

The increase of the rolling stock since 1855, has been as follows:

Engines	$89,595 51
Passenger cars	75,378 95
Freight cars	16,153 33
Total	$181,127 79

The addition to the construction account, from 1855 to the present time, has been $140,071 73.

In the statement of the cost of road and equipment given in this report, the sum of $485,520 86 loss in sale of bonds and in procuring money, and which has heretofore been included under that head in our reports to the Legislature does not appear.

The receipts for the past year have exceeded those for 1869, by the sum of $12,837 22, while the working expenses were $7,536 73 less.

This growth in the business together with the continual economical working of the road, is a subject for congratulation to the stockholders, and justifies the belief that the company has passed through its days of darkness and depression, and is now rapidly approaching the period when it will take its place among the dividend paying roads of the country.

The company have 8 engines, 19 first-class and 15 second-class passenger, 4 baggage, 2 mail and 89 freight cars. Miles run by engines with passenger trains, 120,760; freight, 32,509, gravel, wood, construction and switching, 10,367—163,636, against 160,166 in 1869, an increase of 3,470.

Narrow Gauge Railroad in New Jersey.

The Narrow Gauge Railway Company, chartered by the last legislature of New Jersey, with the privilege of constructing narrow gauge railways in that state, was organized at Elizabeth on the 15th inst. The following were elected officers: William Bell, president; Alfred W. Jones, vice-president; Hugh L. Cole, treasurer; and George E. Brown, secretary. The directors are William Bell, A. W. Jones, W. G. Thomas, and Courtlandt Parker, of New Jersey; and P. E. Wight, H. L. Cole, and Nicholas Murray, of New York.

☞ The surveyors on the proposed line of the Northern Pacific Railroad report that the snow was seventeen and a-half feet deep at Snoqueline Pass on March 1st.

☞ One hundred miles of the California and Oregon Railroad from the Columbia river, southward, will be completed by the first of May.

South Carolina Railroad.

The earnings of this road for the years ending December 31, 1869 and 1870, were as follows:

	1869.	1870.
From passengers....	$325,180 85	$292 853 35
" freights.....	1,009,067 40	1,148 945 83
" mails.....	30,088 46	26,541 35
" incidentals....	17,830 29	3,680 06
	$1,382,167 00	$1,472,020 59

The expenses in 1870, were:

Conducting transport'n.	$316,528 06	
Motive power.....	216,838 71	
Maintenance of way....	271,150 18	
Maintenance of cars...	58,651 88	
General expenses.....	52,927 04	
		916,095 82
Leaving net earnings.....		$555,924 77

Compared with 1869, the earnings of 1870 show an increase of $89.853 59; with an increase in expenses of only $6,690 39—making the increase in net earnings, $83,163 20. The President in his report says:

The Annual Report of the Board of Directors is respectfully submitted, and with it the Report of the Vice President upon the operations of the Transportation Department, and condition of the property under his control—roadway, shops and equipments—and the Report of the Treasurer, exhibiting the financial situation of the Company, and the movements of the leading accounts during the year just closed.

The business of this year will be found to show, as was the case also last year, a marked increase, and to have attained its full average before the war. It is thus stated:

Gross earnings of road.....	$1,468,340 53
Receipts from other sources.....	16,798 01
Total.....	$1,485,138 54

And has been disposed of as follows:

Road expenses, including renewal of rails.....	$916,095 82
Interest—foreign bonds.....	74,272 35
Interest—first mort., domestic bonds	60,865 00
Interest—domestic 6 and 7 per cents bonds.....	142,621 50
Interest—general.....	45,003 66
Total.....	$1,238,858 83

Whilst it is quite true that these increased earnings appear to have been derived mainly from cotton, and whilst it is equally true that the additional quantity of cotton transported over the road this year is entirely owing to the increased production of our *proper* territory, yet no good reason exists for doubting the ability of the Company to maintain the present figures of their income.

Low prices, and a less liberal use of fertilizing material, may affect, and probably will, the production of another year, and from particular quarters a diminished business may be experienced; but the new sources of supply opened to them within a very recent date, and the very evident disposition in such quarters to establish close relations with us, cause the Board to be without apprehension of any important change.

Indeed, they would not regard it any indication of a supersanguine temper, if they entertained very decided expectations of increased business from the next year. Nor is it to be forgotten, that extraordinary causes have been in operation for the past six months to depress staple values and repress the activity of commercial interchange, to substitute extreme caution for vigorous enterprise, and doubt, and distrust, for that generous confidence which is the very essence of healthy commerce. But for this cause, it cannot be questioned that our income for the year would have reached $1,500,000.

Yet another cause has not been without important influence upon your interests. It has been particularly referred to in the Vice President's report—the extraordinary policy of some of our competing lines, of forcing freight rates down, and insisting upon keeping them down, below the requirements of legitimate business. If such a policy were the expression of a generous liberality—the concession of confident strength to helpless weakness—we could not, if we would, complain. But when we happen to know that these are exceptional cases—that elsewhere the full powers of unrestricted control are exercised, to the extent even of oppressive charges, the Board is compelled to regard the policy it is criticising as directed solely to the end of doing all possible injury to other interests, even at the expense of the lines which practice it. The proper scope of such a paper as this, does not permit us to pursue this subject further. It were otherwise easy to demonstrate that the permanent interests of a community are never so firmly established as when all parties who contribute to its development are fairly compensated for their labor, and never in greater danger than when a powerful combination enfolds it upon the pretence of protection.

The road expenses are stated in the Vice President's report at $916,095 82 or 62 39 per cent. of the gross earnings. This ratio will be found not to exceed that of roads operated under similar circumstances, and does not materially differ from the exhibits in this connection of previous years. It is proper to remark here, that for the purposes of a comparison between this and previous years, it must be borne in mind, that expenditures for "Rail Iron" and "Damages" have not until now been carried to "Current Expenses."

The aggregate, however, is large, and very sufficiently vindicates the Board's disposition to withhold nothing from the Executive Departments, necessary to insure the most perfect safety to persons and property in performing the business of transportation, or to establish and maintain in high condition the track and equipments; but they cannot be insensible to the obligations which they owe to the stockholders to scrutinize with the utmost care the expenses of the road to the end, not only that extravagance should be avoided, but that only fair and reasonable service should be performed. In this direction, doubtless, would be found no small portion of the increased cost of operating railroads in latter years. They have every confidence in the earnest purpose of the head of the operative department to co-operate heartily in every effort to promote these views. Very considerable changes have been made during the year in the accounting branch of the operative department, affecting however, more particularly detail, than principle. The system previously in operation has been greatly expanded, and elaborate details adjusted, looking to a fuller view of the movements of the business of the company the performances of the various agencies in its conduct, and increased accuracy and reliability in the reports and returns from all sources. Elsewhere, it is claimed, similar systems have further contributed to the economic working of railroads. In that expectation the Board yielded their assent to the recommendation of experts. Their experience for a fair period will determine the continuance of these changes, their modification, or a return to the practice of former years.

The net income of the year, after charging up the road expenses and foreign and domestic interest, is.....	$246,280 21
Against this have been charged	
Dividends.....	116,388 00
Leaving a balance of.....	$129,892 21

which has been carried to the "reduction of debt, purchase of locomotives, cars and real estate."

The report of the Treasurer embraces the balance sheet of the company's books, and the usual statements explanatory of the movement and condition of the leading accounts.

The domestic bond debt has been very largely increased by the transfer to that account from the foreign sterling debt, of that portion of the sterling debt which was owned in this country. The exchange was made under a provision of the mortgage deed, for seven per cent. currency bonds, payable here. It is needless to add that a corresponding reduction of the "Sterling Debt" account is consequent upon this increase. The "Domestic Bonds" debt account has also been increased by issues in redemption of the bills of the South Western Railroad Bank, settlement of past due bonds, and purchases of property; and in like manner has occurred the increase of bills payable.

In fact, during the past twelve months the burdens which the Board found themselves forced to assume, with the restricted means at hand, imposed upon them responsibilities equally arduous and perplexing. Some of them were not contemplated at all, and the magnitude of others not fully realized when the Board made their last report.

During the year the exchange of 1st mortgage bonds for the past due sterling and other securities of the company, having reached that point at which a compliance with the resolution adopted by the holders on the other side, could properly be considered as accomplished, to wit: "That the exchange in the United States must first be made, etc., etc." Complete and very full evidences of the fact of exchange here, and of cancellation also, were prepared and sent over to London, and as the company has done all that was required, and, perhaps, more, we are at liberty to anticipate that this protracted negotiation will meet with no further obstacle to its completion. The amount now remaining unexchanged is $1,492,015 64; the holders of which, to a greater amount than is needed to cover the requirements of the mortgage deed, as the stockholders have been already advised, have agreed to exchange, upon the terms and conditions just above referred to.

The connections of the road in all directions have been much improved. Our Sea Line has been strengthened by the addition of a third iron steamship of large capacity, to the New York and Charleston route, to the cost of which the Board has contributed a subscription of seventy-five thousand dollars. This addition renders our communication with New York superior to that of any competing city. The line to Baltimore continues to be maintained in its original efficiency; and that to Philadelphia, with superior ships and more thorough organization, gives promise of much usefulness. With a weekly line to Boston, of which there is much need, the sea connections of the company would be complete.

Westward, the enterprise of the Georgia Railroad has secured for us communication with Montgomery, and the country beyond, upon terms of perfect equality as to rates of freight, and thus furnished not only a field for profitable intercourse, but the means by which Charleston may reunite the bonds of communication long severed by artificial barriers.

The Macon and Augusta Railroad at last is finished. The track was opened to trains on 19th of December last, but the service yet performed is irregular and limited. Very soon, however, it is promised to be in proper shape for general business, and our long looked-for and anxiously-desired connection with the key to Southwestern Georgia satisfactorily established.

In our own State the most cordial relations exist between this company and the highly valuable connections at Columbia and Kingville.

In their last report, the Board advised the purchase of an eligible site for a location on the water. They have since added, by purchase of adjoining lots, to this property, so as now to command with a trifling exception the extensive area bounded—South by Charlotte street, North by the "North Eastern," and extending East from Washington street to the channel of Cooper River. These boundaries will give lines running North and South, 700 feet, and East and West, 1,150.

Beyond the indispensable measure of securing this property for the company, it has not been considered prudent to proceed; but plans for its use, combining in a high degree economy and

convenience, have been prepared, and it is proposed at an early day to arrange for work. This account now stands charged on the books, chiefly however in 7 per cent. bonds at par at $139,236 29.

THE SOUTH WESTERN RAILROAD BANK.

The attention of the stockholders is particularly invited to this institution. The large amount reported last year, as having been advanced in redemption of its bills, has been increased this year, and on the 31st December stood at $851,572 90.

The interest upon this large sum entails a heavy tax upon the earnings of the railroad company, which, if possible, should be diminished at the earliest day. Nor is it easy to see what interest is benefitted by a continuation of the present condition of things. The Board of Directors of the bank do not, it is believed, see any practicable means of resuming business. In such case, we are simply wasting in payments of annual interest, assets which might be reduced to money, and applied to the relief of the road.

The Board in the performance of their duty, feel it necessary to say so much. They withhold the expression of an opinion as to the remedy for this difficulty.

As indicated in the report of 1870, the Board commenced on the 1st of August last, the payment of small dividends out of the earnings of the six months, terminating on June 30th preceding; and they have since declared a further dividend, from the earnings of the last six months, payable on February 1st. It is proposed to continue these payments, and with the present figures of income, the Board regard the purpose quite practicable.

The organization heretofore existing, has, during the year been changed, as follows: the title of General Superintendent has been altered to that of Vice President, and the duties somewhat increased. A Treasurer has been appointed to discharge the duties heretofore devolving upon the Auditor, and the Auditor assigned to the peculiar duties of that office.

From the Report of the Treasurer we learn that the Domestic Bond Debt has been increased during the year by issues to the Southwestern Railroad Bank for the redemption of its notes; for the payment and exchange of past due sterling and domestic bonds, subscription to railroad company stock, and purchase of real estate. Thus:

To Southwestern Railroad Bank		$110,000 00
For supply of materials		22,500 00
In exchange for past due sterling & domestic bonds, coupons, interest, etc		1,106,500 00
Subscription to Macon and Augusta railroad company		40,000 00
Purchase of real estate and interest.		108,684 83
		$1,387,684 83
The amount outstanding 31st December, 1869, was		1,704,519 00
		$3,092,203 83
During the year there have been retired b'ds to the amount of	$139,500 00	
Interest paid—and credited to interest on "past due bonds"	10,470 50	
		149,970 50
Amount outstanding 31st December, 1870		$2,942,233 33
The sterling debt, 31st December, 1869, which stood at		$2,342,882 44
has been reduced during the year by the exchange of bonds		850,816 80
Leaving outstanding 31st December, 1870		$1,492,015 64

Of the past due domestic bonds, there remained unpaid, 31st December, 1870, $34,000.

Bills payable 31st December, 1869, stood at		$295,664 39
During the year 1870 there were issued notes for:		
Loans	$286,343 88	
Cost of locomotives	69,838 86	
Past due bonds, interest and coupons	102 942 75	
Sterling interest	33,400 00	
Rail iron	55,000 00	
Subscriptions to steamships	135,000 00	
Freight exchanges, supply of materials, etc.,	37,369 13	
		719,894 62
		$1,015,519 01
There were retired during the year.		699,218 62
Bills payable 31st December, 1870		$316,340 39

The increase in the indebtedness of the company is represented by an increase of property in lands, locomotives, steamship companies and railroad stock.

There remain in the possession of the company, first mortgage domestic 7 per cent. bonds, to the amount of $450,000, (coupons and principal payable in New York,) provided for under the mortgage deed, and not applicable to the exchange of past due bonds. Could these be disposed of at or near their value, the finances of the company would be relieved by the extinction of the floating debt.

The income of the company from all sources for the year ending December 31, 1870, was $1,485,138 54, and the expenditures, $1,238,858 33—making the net income $246,280 21. From which deduct dividends payable August and October, 1870, and February, 1871, $116,388—leaving a balance of $129,892 21, which has been carried to the reduction of debt, purchase of locomotives and real estate.

The company have 42 locomotives, 21 first class passenger cars, 25 second class passenger, mail and baggage cars, 350 box, 14 stock and 100 platform cars. Miles run by locomotives with passenger trains, 262,333; with freight trains, 457,472; distributing, 76,811; switching, 44,294—total, 840,910, against 801,171 in 1869—an increase of 39,739. The tonnage for the year has been: westward, 133,148 tons; eastward, 105,771 tons—total, 239,919 against 185,965 tons in 1869, an increase of 52,954. The number of passengers transported in 1870 was: first class, 92,520; second class, 94,360—total, 186,880, against 137,911 in 1869—an increase of 48,969.

The ratio of expenses to earnings in 1870 is 62.23 per cent.; in 1869 it was 65.79 per cent. The increase in freight earnings is 14 per cent., and in freight tonnage, 28½ per cent. The decrease in passenger earnings is 10 per cent., and the increase in the number of passengers carried, 35 per cent., while the mileage of engines has increased but 5 per cent.—showing an increased proportion of paying freight to each mile run by engines with trains, and a consequent decrease of empty car mileage.

The renewals of rails amount to 2,069 tons, equal to 24 lineal miles. There have also been used in repairs 6,930 lbs. spike, 7,330 chairs, 1,690 sets splices, 118,163 crosstie, 11 switches and 73 frogs.

The Vice President in his report states that the Steel Headed Rails laid last year on the bridge, and in the yard, have depreciated very fast, under constant use, and should be replaced with entire steel rails at an early day.

President.—WM. J. MAGRATH.

Directors.—Wm. J. Magrath, George A. Trenholm, L. D. DeSaussure, John Hanckel, Andrew Simonds, George W. Williams, Henry Gourdin, Francis J. Pelzer, C. M. Furman, B. H. Rice, H. H. DeLeon, William A. Courtenay, James P. Boyce, Daniel Tyler, James S. Gibbes.

Vice President.—ALFRED L. TYLER.

Treasurer.—J. T. WELSMAN.

Auditor.—J. R. EMERY.

Eastern Ohio Railroad.

The certificate of incorporation of the above Company was filed with the Secretary of State of Ohio some time since. It was organized to construct a railroad from New Philadelphia to Pomeroy, passing through Tuscarawas, Harrison, Guernsey, Muskingum, Noble, Morgan, Perry, Athens and Meigs counties. The capital stock is $1,000,000, in twenty thousand shares. The corporators are J. W. Wood, C. L. Barker, C. L. Hall, George S. Corner, James A. McConnell, C. B. Bozman, Elias M. Stanbery, George Smith, Bennett Rosemond, Francis Rea, Arthur Pond, James M. Rogers, H. Dinsmore, John Ewing, W. Adams, P. Kennedy, Alexander Finley, James K. Jones and Wm. Sherwood.

☞ The officers of the Cincinnati and Rockport Railroad Company, recently elected, are: President, Josiah Kirby; Vice President, E. H. Sabin; Secretary and Treasurer, H. H. Tatem; Attorney, Judge H. E. Debraler.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A dash (—) across the column signifies "nil," and running dots (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal

Saturday, April 22, 1871.

Stock Exchange and Money Market.

The promise of renewed ease in Money indicated in our last has been pretty fully realized during the week. The offerings to responsible borrowers have been quite liberal within the range of from 5@7 per cent. on call, and 6½@8 per cent. per annum in the discount line. The demand for accommodation has been less urgent, and has been mainly for speculative use at the Gold and Stock Exchanges. The city banks, in their last weekly returns, reported an increase of $1,588,146 in the legal tender reserve, and $200,768 in their specie hoard, with a reduction of $1,067,819 in their deposit line. They diminished their loan and discount averages, $4,527,304, and contracted their circulation, $22,774. The city bank exchanges, last week, averaged $106,176,977; and thus far, this week, $141,000,000, daily. The banks now hold $6,669,106 of specie and legal tender notes, in excess of the 25 per cent. of their liabilities required by the national banking act. The U. S. Sub-Treasury at this port, last week, increased its currency reserve, $838,462, and its coin balance $182,224. The receipts of the office were $4,717,830 in coin, and $5,900,474 in currency; payments $4,535,606 in coin, and $5,062,011 in currency. The office received $3,020,318 in coin or its equivalent, from customs; and disbursed $233,008 of coin interest. The latest movement in the Money line on Wednesday indicated some revival of activity in the call for aid.

Under the revised April programme of the Treasury Department, Government will buy in, during the month, Five-Twenties, as follows: April 26, Wednesday, $2 000,000. And will sell Gold, as follows: April 27, Thursday, $2,000,000.

The subscriptions to the new refunding Five per cent. Loan now amount to about 61½ millions.

The U. S. Sub-Treasury, on Thursday morning of this week, held a balance of $8,111,163 in currency, and $69,556,161 in coin, against a balance a week previous of $8,222,120 currency, and $68,953,090 coin.

The U. S. Sub-Treasurer retired, last week, $2,667,318 of coin certificates, received for customs.

Government revenues have been up to a fair average, since our last. The excises yielded about 2½ millions. The customs at the port of New York, last week were $3,020,318; and at the outports, equal to about a million more, all in coin, or coin certificates. The internal revenue yield thus far in the current fiscal year beginning with July 1, 1870, has been $116,657,881.

There has been a more active business in Gold, since our last, and the speculative dealings have carried the price up to 111½ as against 110⅜ on Wednesday of last week. The export drain is increasing, tending to strengthen the upward movement. Last week's shipments were about 1⅝ millions. On Tuesday of the current week, the outflow was $121,000; and on Wednesday, $1,632,423. The customs inquiry was also quite brisk, exceeding a daily average of half a million. The Gold Exchange Bank clearances have been augmented largely, having been up to 64⅜ millions on Wednesday of this week, against 11 millions on Wednesday of the preceding week. The closing quotation of Gold on Wednesday was 111⅜.

The customs at this port on Wednesday were $550,000.

The export drain was $1,690,422 last week, against $421,139, same week preceding year. The shipments since July 1, 1870, have been $58,060,722, against $23,746,722 same time in 1869–'70.

The customs demand for Gold last week, averaged $503,000 a day; thus far, this week, it has averaged $754,336 a day, or equal to a weekly aggregate of $4,424,000. The arrivals of specie from Europe, Havana and other foreign ports last week were $120,627, and since Jan. 1, 1871, $2,907,667, against $6,102,639 same time in 1870. The total customs revenue of the Government, in coin, at this port, since July 1, 1870, has been $117,895,068, against $106,312,085 same time in 1869–'70.

The Gold Exchange Bank clearances on Thursday of last week were $13,810,000; and on Tuesday of this week $55,075,000. On Wednesday of this week they amounted to only about 64⅜ millions.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt since July 1, 1870, $67,124,578 against $67,265,677 same time in 1869–'70.

Foreign Exchange has been strong and buoy-

ant in price, on a good demand for prime bills, which have been offered less freely. Bankers' sixty day bills on London closed on Wednesday at 109⅞@110; sight bills on London, 110⅛@110⅝.

The produce exports from this port, week ending with April 18th, were to the currency value of $3,810,849.

Government securities have been more active and much firmer. The inquiry has been mainly for investment purposes. The offerings of bonds of all the older issues have been less extensive. The market closed strong at the highest figures of the week.

On Wednesday, Government bought in three millions of Five-Twenties at 110 47@110 59/32, ex-interest. The amount of bonds offered was $6,891,000.

U. S. sixes of 1881 closed here on Wednesday of the current week at 117@117¼; U. S. Five-Twenties of 1862, 113⅞@114; U. S. Five-Twenties of 1864 at 113¾@113⅞; U. S. Five-Twenties of 1865, 113¾@113⅞; U. S. Five-twenties of 1865 consolidated, 112⅝@112¾; U. S. Five Twenties of 1867, 112⅝@112¾; U. S. Five-twenties of 1868, 112⅞@111; U. S. Ten-forties at 109⅓@109⅝; U. S. Six per cent. currency bonds, 115⅛@115⅜.

The latest quotations at the London Stock Exchange compare as follows with former returns:

* Ex-May coupon.

State bonds have been in quite active at generally stronger prices.

Railway bonds have been in brisk demand chiefly on investment account, and the more substantial of the old loans have been quoted decidedly firmer in price. Central Pacific Sixes have advanced sharply, closing at 99@99¼. The Chesapeake and Ohio R. R. First Mortgage six per cent. gold bonds have been readily taken at 90 per cent. and accrued interest. Union Pacific Sixes closed at 87@87¼.

Railway and miscellaneous share property has been actively sought after, through the week, and though values have been more or less variable, the general tendency has been upward. The later dealings showed considerable irregularity in prices, though the temper of the market was firm, as a whole.

The transactions in Domestic Produce have been on a moderate scale, since our last, and prices have been fairly supported, in most instances, though Pork, and Lard were lower. Middling upland cotton closed on Wednesday at 14¾ cts. per lb. The receipts at all the ports, since Sept. 1, have been 3,450,351 bales, against 2,448,621 bales same time last year; exports 2,452,886 bales, against 1,687,345 bales same time last year; stock at the ports at latest dates, 557,221 bales, against 355,092 bales same date 1870.

Foreign goods have been rather more sought after at generally firm prices. The week's imports having been up to $5,813,857, including $2,380,178 of Dry Goods and $4,433,679 of general merchandise.

At the Live Stock markets, Beeves have been in quite moderate demand at 10@14½c.; Veal Calves at 5@12¼c; Sheep, at 6@8c., and Swine, at 6½@6¾c. per lb., all live weight. Milch cows, quiet at $40@$100, each. The week's receipts were 5,788 Beeves, 79 Cows, 2,979 Veal Calves, 14,267 Sheep and Lambs, and 9,326 Hogs.

Ocean freights have been moderately active, and quoted firmer. For Liverpool, cotton at ¼@5/16 by sail and 5/16@⅜d. by steam, per lb.; flour at 2s. 3d. by sail, and 2s. 6d.@2s. 9d. by steam, per bbl.; grain at 7½d. by sail, and 8@8¼d. by steam. per bushel; and heavy goods at 16s. 6d.@27s. 6d. by sail, and 25s.@40s. by steam per ton.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ ELIZABETHTOWN AND PADUCAH RAILROAD.—The well known Bankers, Messrs. NORTON, SLAUGHTER & CO., of 41 Broad Street, Messrs. WM. ALEXANDER SMITH & CO., of 40 Wall Street, and Messrs. HALLGARTEN & CO., of No. 28 Broad Street, New York, recommend, after a thorough investigation into the affairs of the Company, THE EIGHT PER CENT. FIRST MORTGAGE BONDS OF THE ELIZABETHTOWN AND PADUCAH RAILROAD COMPANY of Kentucky, as a very safe and desirable investment. They are only authorized to offer a limited amount of these securities at 87½ and accrued interest. The Bonds offered are on the completed portion of the Road, which is now in successful operation.

NEW LOAN OF THE UNITED STATES.

PROGRESS OF SUBSCRIPTIONS.

PRIVILEGE STILL OPEN FOR $200,000,000 FIVE PER CENTS.

The department has advised by telegraph that the subscriptions to the loan to Thursday, March 30, amount to $50,600,000. The Secretary has also authorized the notice that the unconditional privilege of subscribing to the first class of bonds, five per cents, to the extent of $200,000 000 remains open until further advice.

The proposed loan comprises three classes of bonds, namely:

First. Bonds to the amount of five hundred millions of dollars, payable in coin, at the pleasure of the United States, after ten years from the date of their issue, and bearing interest payable quarterly in coin, at the rate of five per cent. per annum.

Second. Bonds to the amount of three hundred millions of dollars, payable in coin, at the pleasure of the United States, after fifteen years from the date of their issue, and bearing interest, payable quarterly in coin, at the rate of four and a half per ce nt. per annum.

Third. Bonds to the amount of seven hundred millions of dollars, payable in coin, at the pleasure of the United States, after thirty years from the date of their issue, and bearing interest, payable quarterly in coin, at the rate of four per cent. per annum.

Subscriptions to the loan will have preference in the following order, namely:

First. Subscriptions that may be first made for five per cent. bonds to the amount of two hundred millions of dollars; of which there will be reserved, for twenty days one half for subscribers in this country and one half for subscribers in foreign countries.

Second. Subscriptions for equal amounts of each class of bonds.

Third. Subscriptions for equal amounts of bonds bearing interest at the rate of four and a half per cent., and of bonds bearing interest at the rate of five per cent.

Fourth. Subscriptions for any five per cent. bonds that may not be subscribed for in the preceding classes.

When a subscription is made, the subscriber will be required to deposit two per cent. of the amount thereof in coin or currency of the United States, or in bonds of the class to be exchanged, to be accounted for by the Government when the new bonds are delivered; and payments may be made either in coin or in bonds of the United States known as Five-Twenty bonds, at their par value.

The coin received in payment will be applied to the redemption of Five-Twenty bonds, and the debt of the United States will not be increased by this loan.

The bonds will be registered or issued with coupons, as may be desired by subscribers. Registered bonds will be issued of the denominations of $50, $100, $500, $1,000, $5,000 and $10,000; and coupon bonds of each denomination except the last two. The interest will be payable in the United States at the office of the Treasurer, any Assistant Treasurer, or designated depositary of the Government, quarterly, on the first days of February, May, August and November, in each year.

The bonds of the several classes aforesaid, and the interest thereon, are exempt from the payment of all taxes or dues of the United States, as well as from taxation in any form by or under State, municipal or local authority.

After maturity, the bonds last issued will be first redeemed, by classes and numbers, as may be designated by the Secretary of the Treasury.

The bonds will be issued at the United States Treasury, but the agents for the negotiation of the loan in Europe are authorized to make arrangements with subscribers for the transmission of the bonds to the agents through whom subscriptions may be received.

Subscribers in the United States will receive the new bonds of the agents with whom the subscriptions are made.

In the United States the National Banks are authorized to receive subscriptions, and subscriptions may also be made at the office of the Treasurer of the United States, or of any Assistant Treasurer, or the designated depositaries at Buffalo, N. Y.; Chicago, Ill.; Cincinnati, Ohio; Louisville, Ky.; Mobile, Ala., and Pittsburg, Pa.

HARVEY FISK. A. S. HATCH.

OFFICE OF FISK & HATCH, BANKERS
No. 5 NASSAU STREET,
NEW YORK, April 20, 1871.

THE FIRST MORTGAGE SIX PER CENT. GOLD BONDS OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY—of which about $7,000,000, or nearly one-half the entire loan have already been marketed—are secured upon an East and West Trunk Line of Road, 427 miles in length, the greater part of which (227 miles) is in profitable operation, and the remainder rapidly building. When completed it will establish a short, economical and favorite route between tide water navigation and the chief railroad and river cities of the West.

Besides the immense volume of through traffic between the East and West which this Road can command by its superior advantages in distance, grades, fuel and unfailing navigable connections, this road must convey enormous quantities of the superior smelting, cannel and bituminous coals of the Kanawha Valley, and the iron ores of Virginia and West Virginia, which are in demand at both ends of the line.

The value of the property, the certainty of a large and profitable business, the established reputation and credit of the Company, and its able and honorable management, give to these securities an assurance of superior value and safety, and enable us to recommend them with the greatest confidence to parties making investments or desiring to fund their Five-Twenties.

They may be had in *Coupon* or *Registered* form, and in denominations of

$1,000, $500, and $100.

Price, 90 and accrued interest from Nov. 1, at which rate they yield 7 per cent. gold, interest on their cost.

We have prepared pamphlets showing the agricultural, mineral and manufacturing advantages of the adjacent territory, and the traffic facilities and financial prospects of the Road, which will be furnished on application.

FISK & HATCH, Financial Agents.

Journal of Railroad Law.

RAILROAD COMPANIES—DEGREE OF CARE REQUIRED IN CITIES AND ALONG PUBLIC THOROUGHFARES—WHEN LIABLE FOR ACTS OF EMPLOYEE—NOT RELEASED, BECAUSE WRONGFUL ACTS ARE AGAINST INSTRUCTIONS.

The late case of The Toledo, Wabash and Western Railway Company, *vs.* Harmon (47 Ill., 298,) was an action to recover for injuries received by Harmon, by the running away of his team, caused by an engineer of the road letting off steam from his engine with a loud noise, just as Harmon was crossing the track.

The jury rendered a verdict for plaintiff, and assessed his damages at $500.

The following is the able opinion of the court delivered by

WALKER, J.—The evidence in this record is conflicting, and was properly left to the consideration of the jury. In such cases this court will not disturb the verdict, unless we can see that it is manifestly against its weight. An attentive examination of the testimony fails to satisfy us that the finding is unwarranted. On the contrary, we think it preponderates in favor of the finding of the jury. If the agents and employees of a railroad company, while in the discharge of their duty, act with such negligence as to occasion injury to others who are not in fault, the company must be held liable in damages for the wrong. The well being of society requires these bodies to employ careful and skillful agents, and that they in the performance of their duties shall have due regard to the safety and rights of other persons. They are held to a high degree of caution and skill while exercising and enjoying their franchises. Negligence, or want of skill by their agents, producing injury, will create liability. And when they locate their stations and depots in populous cities and on thoroughfares, they must, for the protection of the community be held to a degree of care commensurate with the greater danger such a situation involves. When located at such place, they know the hazard that must ensue and must be held to an increased decree of care and diligence equal to the great hazard. The life and property of individuals cannot be lightly or wantonly placed in jeopardy. If that might be done these great instruments of prosperity, and agents in the development of the resources of the country and promoters of its commerce, instead of a blessing, would become a nuisance if not a curse to our citizens. If the lives of men or their property are endangered in the pursuit of their ordinary legitimate business while lawfully passing over our public highways, and no person can be held responsible, then it would be an injury instead of a blessing to the community that they were constructed.

The great object of government is to afford protection to the life, liberty and property of the citizen, and in the pursuit of that object all interests should be protected, and no one branch of business or interest be permitted to injure or destroy others. Although not equally beneficial to the community, the least productive interest or pursuit is nevertheless important, as contributing to the prosperity of the community. And to the person engaged in such a pursuit, it is as important as the vast enterprises of the more favored of his fellow citizens are to them, and he is, under the law, entitled to an equal degree of protection in its pursuit and enjoyment. And the purpose of creating government would be perverted if the great and profitable pursuits were permitted to disregard and trample upon the more humble and less lucrative occupation and callings. And however important and even essential, these great creations of modern civilization and enterprise may be to society, they must be required to regard the rights of others, to the same extent that individuals are held to avoid injury and wrong to them and to each other.

Appellee had the undoubted legal right to travel this public highway in the pursuit of his business, pleasure, or even from caprice. Appellants had no right by their agents, to unnecessarily hinder, obstruct, or endanger him or his property while thus exercising his right to pass and repass over the road, in the modes adapted to their construction; and each is under equal and reciprocal obligation to observe the rights of the other; and never can willfully, wantonly or negligently, endanger, obstruct, or delay the other in the enjoyment of his rights without incurring liability for the injury; and each party in the exercise of his right, must observe the highest degree of prudence, circumspection and skill, to avoid the infliction of injury to others. In this case, there is nothing disclosed by the evidence from which it can be inferred that appellee did not take every precaution which prudence could dictate, to avoid injury. He checked up his team before reaching the road crossing, and avoided not only the passage of the engine, but until it came to rest before he attempted to cross. He says, that while thus waiting, the engine driver looked at him as he passed. And this he must have done, if he was not reckless of his duty; and if he did see that he was waiting to cross the track, he was bound to afford all reasonable facilities for the purpose. And having the control of his locomotive and the steam by which it was propelled, he was required to so use and control them, as to avoid injury to others, acting with prudence and caution. He had no right after he saw appellee start to cross the track, to then put his engine in motion and run it against appellee's wagon and team, nor had he the right to so use the steam from his engine as to frighten appellee's horses. He saw that they were restive and afraid of his locomotive and must have known that the escape of steam would, most probable, produce the result that ensued; and it was his duty to have prevented its escape, and avoid the disastrous result that followed from the noise of the escaping steam, which is highly calculated, as all observation teaches, to alarm cattle and horses. Knowing this, he should have been on his guard and used all necessary precaution to prevent injury. It can make no difference in its result to appellee, whether the escape of steam was the effect of negligence or from wanton and willful purpose. The engine driver does not pretend that there was any necessity nor can we imagine any, for the escape of steam at that time. He had stopped his locomotive and there could be no necessity to start it until appellee had crossed the track, which could have required at most not more than a very few seconds. There could have been no danger of any explosion, nor is it pretended there was. Then why the necessity for the escape of steam, either through the whistle or escape pipes? It must have been the result of gross negligence under the circumstances, or of wanton and willful purpose, in total disregard of the security of the life and property of appellee.

It is, however, contended that if the engine driver did the act wantonly or willfully, it was outside of his authority, and hence the company are not liable for the damages resulting from the misconduct of the engineer. He was their servant, was engaged in the performance of the duty assigned to him, and if, while so engaged, he used the engine put into his possession and under his control, to accomplish the wanton or willful act complained of, why should not the company be held liable? It is said he was not employed for the purpose, nor directed to perform the act; and it is equally true that they do not employ engineers to inflict injuries through negligence or incompetency, and yet these bodies are held liable for such acts of their servants.

In the case of the Chicago, Burlington and Quincy R. R. Co. *vs.* Parks 18 Ill. 460, it was urged that the conductor, in ejecting Parks from the train, did not only an unlawful, but an unauthorized act, and the company were not liable for damages. The law prohibited him from removing or forcibly ejecting a passenger for refusing to pay his fare, except at a usual stopping place, while he put him off by force at a different place. In that case, the agent of the road, did an act prohibited by the statute and outside of his authority, and yet the company were held liable. In the case of the Illinois Central R. R. Co. *vs.* Reedy, 17 Ill. 582, it was said that while trespass might be maintained against the agents of the company for their immediate acts, yet the corporation who employed them would be liable in case for the damage inflicted by their servants, and if authority by the company to perform the act were to be made the test of liability, they would always escape, as they would never authorize their agents to do an unlawful act, or to omit any duty, or to carelessly or negligently perform others, whereby injury would result to individuals.

This court held, in the case of the St. Louis, Alton and Chicago R. R. Co. *vs.* Dally, 19 Ill. 353, that a railroad corporation is liable, in an action of trespass, for an assault and battery committed by an employee of the company on a passenger on the train; and this rule was fully approved in the case of the Illinois Central R. R. Co. *vs.* Read, 37 Ill. 484. It was there said, in answer to the objection to the want of authority in the agent to commit the act, that the company had no power to order a lawful act to be done in an improper mode, or so that it will violate the rights of others, and therefore, such act must be regarded as that of the agent, and not of the company; that such a rule would release railway companies from liability from all affirmative acts violating the rights of others; that in all such cases the ready answer would be, that because such act was wrongful, therefore it was unlawful, and not authorized by its charter, but the individual act of their agents, who exercise its functions. That the result of the position would be, that the company could not be liable for a trespass, because no corporation can be empowered to commit a wrongful act.

There can be no pretense, that where an agent commits an act willfully, or otherwise, while he was not engaged in they performance of his duty to the company, the would be liable for the wrong; or even while so engaged, if he were to personally perform an act not connected with the business of the corporation, they would be liable. But when employed in the discharge of his duty, or while engaged in operating their engines and machinery on the road, if he uses such agencies in an unskillful manner, or so negligently as to occasion injury to another, or even if, while so engaged, he willfully perverts such agencies to the purpose of wanton mischief and injury, the company should respond in damages. They should not be permitted to say, it is true he was an agent, was authorized by us to have the possession of our engines, was engaged in carrying on our business, and while so engaged, he willfully perverted the instrument which we placed in his hands to something more than we designed or authorized, and, therefore, we should not be liable for the injury thus inflicted.

In this case, so far as the record discloses, the engineer was properly engaged in the use of the machinery of the company, and it can make no difference whether the escape of the steam was negligently permitted, or willfully done by the engineer, any more than if he had willfully run his engine against appellee's wagon and team, and thus produced the injury. The question, whether it was negligently or intentionally done, can, we think, make no difference in results. It then follows that the instructions were not improper, and no error was committed by telling the jury that the company were liable if the act was intentional on the part of the engineer. The judgment of the court below is affirmed.

Judgment affirmed.

Union Pacific Railroad.

The following is a copy of an Act passed by Congress, entitled "An Act to authorize the Union Pacific Railroad Company to issue its bonds to construct a bridge across the Missouri river at Omaha, Nebraska, and Council Bluffs, Iowa:"

Be it enacted, etc., That for the more perfect connection of any railroads that are or shall be constructed to the Missouri river, at or near Council Bluffs, Iowa, and Omaha, Nebraska, the Union Pacific Railroad Company be, and it is hereby, authorized, to issue such bonds, and secure the same by mortgage on the bridge and approaches and appurtenances, as it may deem needful to construct and maintain its bridge over said river, and the tracks and depots required to perfect the same, as now authorized by law of Congress; and said bridge may be so constructed as to provide for the passage of ordinary vehicles and travel, and said company may levy and collect tolls and charges for the use of the same; and for the use and protection of said bridge and property, the Union Pacific Railroad Company shall be empowered, governed and limited by the provisions of the act entitled "An Act to authorize the construction of certain bridges, and to establish them as post roads," approved July twenty-five, eighteen hundred and sixty-six, so far as the same is applicable thereto: *And provided*, That nothing in this act shall be so construed as to change the eastern terminus of the Union Pacific railroad from the place where it is now fixed under existing laws, nor to release said Union Pacific Railroad Company, or its successors, from its obligation as established by existing laws; *Provided also*, That Congress shall at all times have power to regulate said bridge, and the rates for the transportation of freight and passengers over the same, and the local travel hereinbefore provided for. And the amount of bonds herein authorized shall not exceed two and a half millions of dollars: *Provided*, That if said bridge shall be constructed as a draw bridge, the same shall be constructed with spans of not less than two hundred feet in length in the clear on each side of the central or pivot pier of the draw.

Approved February 24, 1871.

Texas Pacific Railroad.

Under the act of Congress organizing the Texas Pacific railroad, the corporators met on Saturday, April 15, 1871, in pursuance of notice given in the newspapers of New Orleans, Washington and New York. There was 123 corporators, representing most of the States and Territories of the Union. Of this number over seventy were in attendance. The men of the Pacific slope and of the South were particularly active and energetic, and in addition to these a large number of gentlemen not included in the list gathered to encourage the final organization. Among these men were General Nye, of Nevada, and Mr. Pomeroy, of Kansas, Senators in Congress; General Banks, of Massachusetts; Judge Edwards Pierrepont, of New York; Hon. J. S. Black, ex Attorney General of the United States; General Jefferson C. Davis, of the United States Army; Hon. E. B. Hart and H. G. Stebbins, of New York, and many influential members of the press.

At the hour of twelve, the rooms being crowded, General Fremont, the first named of the corporators in the Texas Pacific bill, assumed the chair and nominated Marshall O. Roberts as the chairman of the meeting. That motion was unanimously agreed to.

Mr. Roberts accepted the honor in the following characteristic remarks:

GENTLEMEN—My object is to build this road across the State of Texas to the Pacific Ocean, and so to condduct the enterprise that no man shall have just cause of complaint, and so that every promise may be faithfully kept. This I cannot do unless you give me the power to do it. I am never able to work out great results unless I can work in my own peculiar way. If I am to be embarrassed at every step I can be of no use to myself or to my friends, and the undertaking will be one of failure and disgrace, instead of honor and success. I know that the difficulties will be great, and that many will arise which cannot be foreseen; and it is now impossible to tell what will be necessary to do in emergencies. I shall not disappoint you in the result if you give me your confidence and the power to gain the ends which we all desire.

The people of Texas have confided in me in a manner which I deeply appreciate. My interests in that State—connected with the Southern Pacific road, the Transcontinental and the El Paso roads, and in other ways—are so great that if I should imperil them by adding the Texas Pacific road, over which I could have no control, the anxiety and the burden would be more than I could bear.

To be of any use in the great enterprise I need associated with me men upon whom I can rely in the trying times which are sure to come; men whom I personally know. To build this road and carry it through with prompt success would be an honor to which I might aspire, but to fail would be a disgrace which I cannot risk.

If you will permit me to subscribe for myself and associates eleven thousand shares of the capital stock, being a controlling interest in the company, I will enter upon the work with my whole heart and endeavor so to manage it as to disappoint no reasonable man; but if that is not desired I wish you all success; but I will be unwilling to assume a burden which I could not otherwise sustain.

In conclusion I beg also to say that I am ready and perfectly willing to advance the ten per cent. required for 2,500 shares of stock for General John C. Fremont.

At the close of the chairman's address, which was received with marked attention, a motion was made to increase the 2,500 shares of stock allotted to General John C. Fremont to 5,000, which was unanimously adopted.

General W. S. Rosecrans, of Ohio, then rose and moved that Samuel Sloan, of New York, be elected treasurer of the company, which was carried unanimously.

Colonel Thomas A. Scott then moved, and the corporation unanimously ratified the proposition, that Mr. Roberts be allowed to subscribe 11,000 shares of the capital stock of the company, being a controlling interest.

A committee of five was then appointed by the Chair, on the motion of Mr. James L. Hodges, to apportion the 4,000 shares of stock pro rata among the corporators present and those who have sent their proxies. This committee consisted of Mr. Hodges, Thomas A. Scott, General W. L. Rosecrans, Samuel Sloan and J. W. Forney.

The stock above referred to was promptly taken by the corporators present during the thirty minutes recess allowed by the Chair. On reassembling the report of the committee was made by Mr. Hodges to the Chair, when the Chairman, Mr. Roberts, announced that the entire two millions having been subscribed and the ten per cent. duly paid in, the stockholders would meet at the rooms on Monday, the 17th inst., to elect the board of directors of the Texas Pacific Railroad.

So the board of corporators was adjourned *sine die*.

European and North American Railway.

The work on this road is being rapidly pushed forward to completion. It is now finished and running to Winn, a distance of fifty-six miles from Bangor. The point to be reached is Vanceboro', on the boundary line, a distance of fifty-eight miles from Winn. The road bed, culverts, &c., on this part of the line are nearly completed, and next September it is expected that passenger traffic will begin, connecting at Vanceboro' with trains for St. John, and Halifax, Nova Scotia. The provincial portion of the road is completed, and trains are running regularly. When the road is fully completed there will be a through, continuous line of railroad from Halifax to Boston and New York. From Halifax by rail to Bangor it will be 458 miles; to Boston 706 miles, and to New York 940 miles. European ocean passengers by landing at Halifax and taking the cars for New York will avoid 700 miles by water, and 70 hours in time. The time occupied in making the trip by rail will be thirty hours, thus making a saving of forty hours. Besides passengers, the European mails for Boston, New York and San Francisco will be conveyed through this new avenue of communication. In Bangor the European and North American Railway connects with the Maine Central Railroad and a union depot is proposed to be constructed for the roads in that city.

Texas Pacific Railroad.

We give elsewhere a report of the proceedings of the Texas Pacific Railroad Commissioners, at their meeting held, according to announcement, on the 15th inst. In accordance with a resolution passed at that meeting, the stockholders assembled at the same place, at noon, on the 17th inst. Marshall O. Roberts, was elected chairman, and J. M. Tebbetts was made secretary.

H. P. Morgan said he understood that the object of the meeting was the election of permanent officers of the company. It was very important that the board of directors should be composed of proper persons, and he did not think it possible that the stockholders could have already carefully decided whom to select. In view of these facts he moved that the election of officers be postponed until such time as the chairman sees fit to call a meeting for that purpose, giving ten days previous notice in the newspapers of this city, Washington and New Orleans.

Colonel Scott seconded the motion, remarking that in order to ensure the success of the railroad it would be necessary to consolidated several other corporations; that this work would require some time, and the chairman, who would be their permanent President, could meanwhile survey the field and decide upon the persons best fitted to assist him in the management of the road.

Upon motion of James L. Hodges, the resolution was amended so as to require the chairman to give notice fifteen days before the meeting, and in the newspapers of Philadelphia and Memphis, as well as in those named by Mr. Morgan. An amendment was also adopted, upon motion of General Negley, requiring the Secretary to likewise notify the stockholders by sending them printed notices. The resolution was then unanimously adopted. The meeting then adjourned.

Mansfield, Cold Water and Lake Michigan Railway.

At a meeting of the stockholders of the Mansfield, Cold Water and Lake Michigan Railway Co., at the office of the company in Mansfield, Ohio, on the 13th inst., it was voted unanimously to accept the articles of consolidation previously agreed upon by and between the directors of that company and the directors of the Ohio and Michigan Railroad Co. After the reading of the articles of association and consolidation by the Secretary, the President of the company, W. S. Hickox, Esq., stated that full and satisfactory arrangements had been made with the Pennsylvania Railroad Company for iron, rolling stock and equipments for the whole line, and that good and bona fide subscriptions of stock had been secured on the line sufficient to grade, tie and bridge the road bed ready for the iron; that two corps of engineers are now at work in Ohio, and that all work will be put under contract as soon as estimates and grades can be completed. The contractors in Michigan, F. S. Rose & Co., have nearly four thousand men at work, and have their grading all done but about fifty-eight miles. They have notified him that in twenty days they will have from eight hundred to one thousand Swedes who can be spared from this end of the line. He has strong hopes of completing the road within the year. He congratulated the stockholders on the progress that had been made in their enterprise, the organization having no less than eight months' existence. He also informed them that arrangements had been agreed upon by which a line running from Tiffin to Toledo would be built in connection with their line, ample means having been secured to complete the same. There was a full representation of the whole line present. Perfect harmony of feeling prevailed. After fixing on the 10th day of May next as the time, and Coldwater, Mich., as the place for holding the first election for Directors of the new company, the meeting adjourned.

Commerce and Navigation.

The following is an abstract of the Report of the Bureau of Statistics, showing the foreign trade of the United States for the calendar year ending December 31, 1870, compared with the corresponding period of 1869:

	1869.	1870.
Imports	$463,424,421	$486,780,018
Domestic exp'ts, specie value	365,458,770	453,905,409
Foreign exports	29,273,229	30,660,116

The proportion of the foregoing shipped in American and foreign vessels respectively during the calendar years 1869 and 1870, was as follows:

1869.	Imports.	Domestic Exports.	Foreign Exports.
American	$146,343,209	$160,910,815	$15,848,408
Foreign	317,081,212	303,963,461	13,424,821
1870.	**Imports.**	**Domestic Exports.**	**Foreign Exports.**
American	$154,912,888	$187,206,426	$14,459,983
Foreign	331,867,130	319,742,088	16,200,133

The proportion of the foreign trade in 1869 and 1870, which consisted of merchandise and specie and bullion, respectively, are shown in the following table:

1869.	Imports.	Domestic Exports.	Foreign Exports.
Mdze	$438,535,994	$324,991,353	$12,954,655
Specie and bullion	24,888,427	40,467,417	16,378,574
1870.	**Imports.**	**Domestic Exports.**	**Foreign Exports.**
Mdze	$461,115,087	$387,812,678	$15,805,708
Specie and bullion	25,664,931	66,096,317	14,854,408

The value of foreign commodities remaining in warehouse December 31, 1870, was $55,620,635, as compared with $51,763,413 in 1869.

It will be noticed that there is a marked improvement in the disproportion between imports and exports in the last as compared with the previous calendar year; the excess of imports in 1869 being $68,692,422, and in 1870 only $2,214,493. An examination of the above tables also shows that over 73 per cent. of our entire foreign trade in 1869, and over 79 per cent. in 1870, were carried in foreign vessels and vehicles.

The entrances and clearances of vessels in the foreign trade during the calendar years 1869 and 1870, were as follows:

	Entered.		Cleared.	
1869.	No.	Tons.	No.	Tons.
American	10,333	3,442,461	10,119	3,471,724
Foreign	19,711	5,704,326	19,472	5,693,056
Total	30,044	9,148,787	29,591	9,164,780
	Entered.		Cleared.	
1870.	No.	Tons.	No.	Tons.
American	10,506	3,578,235	10,335	3,618,572
Foreign	18,701	5,621,161	18,646	5,552,525
Total	29,207	9,199,396	28,981	9,171,097

☞ Engineer Philbrick of the Troy and Greenfield railroad says the two miles of the road from the portal of the tunnel to the town cannot be built in less than two years. Estimated cost, exclusive of land damages, $125,000.

Railroads in Virginia.

The Fredericksburg *Herald* says that the Richmond, Fredericksburg and Potomac road has bought what is known as the Ficklin charter, which was granted by the Virginia Legislature in 1867, and empowers certain parties to construct a road from Alexandria to a point at or near Fredericksburg. With this, and arrangements with another organization, the present Richmond, Fredericksburg and Potomac railroad have a clear title to a track from Georgetown to Richmond, and are not dependent upon any fresh legislation for such right. The indications are that they mean to avail themselves of these privileges, as we observe a meeting is advertised for the stockholders of the "Potomac Railroad Company," to be held in Alexandria at an early day; and besides, notice is given that an application will be made at the May term of the County Court of Prince William for the appointment of disinterested freeholders to ascertain the just compensation to the land owners upon the line of the Potomac railroad within the county of Prince William.

☞ The earnings of the Union Pacific Railroad in March, 1871, were $499,899 12; and the expenses, $275,483 43—making the net income $224,415 69. In March, 1870, the earnings were $539,238 09, the expenses $442,900 61, and the net income $96,377 48.

☞ The earnings of the Cleveland and Pittsburg railroad in March, 1871, were $238,093 29, against $190,581 23 in March, 1870, an increase of $47,512 06.

☞ The earnings of the European and North American Railway in March, 1871, were $20,408 25, against $15,148 66 in March, 1870, and $12,408 79 in March, 1869.

☞ The railroad and wagon bridge crossing the Mississippi river at Keokuk, Iowa, was completed on the 11th inst. Its cost is about one million dollars. The bridge has eleven piers, two abutments, and the longest draw span in the world, being 384 feet in length. In the centre are two spans 250 feet wide, for the passage of rafts.

☞ The Board of Directors of the Emmittsburg Railroad, in addition to the proposals heretofore invited, have concluded to receive proposal, until May 1st, 1871, for the construction and completion of the entire road. Specifications can be seen at the Engineer's Office, in Emmittsburg, Md.

☞ The Boston and Albany Railroad Company have declared a dividend of five dollars per share, payable on Monday, May 15, to stockholders of record at the close of business on Saturday, April 22.

☞ The Connecticut Western Railroad Company has purchased its rails, and will begin to lay them at once.

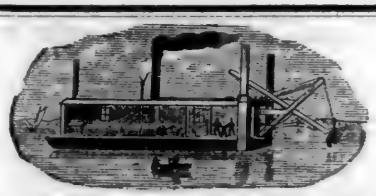
☞ The lease of the Morris Canal to the Lehigh Valley Railroad Company, was signed on the 17th inst.

☞ The Tomah, Wis., *Journal* says that on and after the first of May next, the West Wisconsin Railroad will be managed as an independent line.

Railroads in Iowa.

From a circular recently issued by the Treasurer of Iowa we learn that there were in operation in that State, at the close of 1870, 2,683 miles of railroad, of which 692 miles were laid within the year. The length of the twenty roads in the State is thus given:

	Miles.
Burlington and Missouri	349.60
Cedar Rapids and Missouri River	274.21
Chicago, Iowa and Nebraska	81.84
Dubuque Southwestern	54.76
Dubuque and Sioux City	142.88
Chicago, Rock Island and Pacific	369.85
Des Moines Valley	248.49
Keokuk and St. Paul	42.03
Milwaukee and St. Paul	250.00
Cedar Falls and Minnesota	75.57
Sioux City and Pacific	80.00
Council Bluffs and St. Joseph	54.88
Burlington, Cedar Rapids and Minnesota	144.00
St. Louis and Cedar Rapids	41.37
Central Railroad of Iowa	151.00
Iowa Falls and Sioux City	183.69
Chicago and Sioux City	45.84
Davenport and St. Paul	43.00
Sabula, Ackley and Dakota	20.05
Iowa Midland Railway	30.00
Total number of miles completed	2,683.09



Steel Rails.

George Lowe Reid, Esq., Chief Engineer of the Great Western Railway Company of Canada, in his recent Report to the Directors, remarks that the improvement effected in the re-rolling of iron rails by means of the addition of 25 per cent. of the best brands of American iron in the "top slab" of the rail file is already very decided, and that the new system promises to realize the high expectations formed of it:

"With regard to the steel rails, the experience already obtained on the leading railways of this continent has fully established the great durability and the trustworthy character of Bessemer rails, even in the coldest weather; so that if we only succeed in getting the best quality of steel rails from the English makers, there can be no doubt respecting the vast benefits which much follow from their use. So far as they have yet been tested with us I see no reason to doubt that our steel track will possess great durability, and add materially both to the efficiency and economy of maintenance of our permanent way."

☞ The Pittsburg *Chronicle* says that the short link, only six miles long, connecting the Connellsville with the Allegheny Valley Railroad, will be constructed during the present summer. The road as now located, will leave the main line of the Connellsville road at Nine-mile run, and join the Valley road *via* Negley's run.

☞ Track laying was to have been commenced on the Framingham and Lowell (Mass.) Railroad this week.

TO CONTRACTORS.—Superior Steam Dredges, Steam Hoisting Derricks, Upland Excavators, Stationary and Marine Engines, and all kinds of Machinery made to order by the POUND MANUFACTURING CO., Lockport, N. Y.

THOMAS D. STETSON, Solicitor of American and Foreign Patents, and Professional Expert in Patent Cases. No. Tryon Row, New York.

I. A. WILLIAMS',

UTICA HEAD LIGHT WORKS,

UTICA, NEW YORK.

Established 1851.

Williams' New Patent Coal Oil Head Light,

WITH BRAZED SAFETY BURNER,

Which will not take *fire* or *explode*, and is adapted to any make of Head Light Chimney. These Head Lights are either of Cylindrical or Square Form, and of first class workmanship. The Silver Plating on the Reflectors is warranted for fifteen years. They are acknowledged by all to be the best Head Light manufactured, and are used on nearly all principal Railroads in the country.

Safety Railroad Switch.

☞ BOTH RAILS of the main track absolutely immovable, continuous and unmutilated. ☜

This Switch provides perfect safety for both the main track and the side track, besides removing all switches from the main track as effectually as if there were no sidings on the whole line.

They have been in use on various important Railroads for over two years, and have repeatedly saved passenger trains from destruction, when running at high speed, (from 30 to 45 miles per hour,) at places where by accident the Switch had been left set for the siding.

Address,

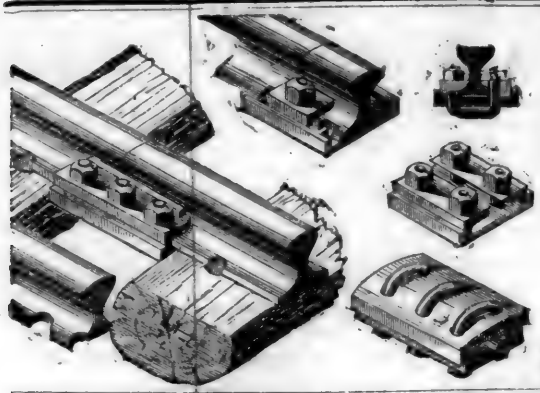
Notice to Contractors.

PROPOSALS will be received from April 15th to May 1st, inclusive, at the Western Maryland Hotel, Emmittsburg, Md., for the graduation and masonry of seven (7) miles of the Emmittsburg Railroad, from Emmittsburg to the Western Maryland Railroad at Rocky Ridge. The work will be let in sections of one mile or the entire line. It is designed that the road shall be completed by the first day of November, 1871. The profile, plans and specifications can be seen at the hotel above named, at any time after the 8th day of April instant, and bidders will be furnished with blank proposals. The Company reserves the right to reject any bid or bids, and to let the work to one or more parties as they deem best, and will reserve twenty per cent. to secure the completion of the work.

By order of the Board.

JOSHUA MOTTER, President.
JOS. S. GITT, Chief Engineer.



To Contractors.

PROPOSALS will be received at the Engineer's Office of the Delhi and Middletown Railroad Company, Delhi, N. Y., until April 25, 1871, for the grading and masonry of this Road. The Road consists of 31 one-mile sections, extending from Margaretville to Delhi, in Delaware, Co. Maps and profiles on exhibition at this Office. Estimates, specifications, and other information will be furnished on application to J. P. GOULD, Chief Engineer, Delhi, N. Y.

Rolling Mill Property
FOR SALE,
OPPOSITE NEW YORK CITY.

The well-known North River or Dubbin Rolling Mill, situated at Prospect and North 5th St., Jersey City, New Jersey. The Real Estate consists of sixteen city lots, 25x100 feet each, with two large Dwelling Houses, well built and in good order. Also a large building occupying two lots, suitable for a Machine Shop or other purposes, a Stable, &c.

The Rolling Mill was built for the manufacture of Locomotive and other descriptions of Boiler Tank and Plate Irons, contains a heavy Roll Train, Engines, Furnaces, Machinery, &c. to suit, in good order. It can be seen running, and has been successfully run from its establishment in 1855. Situated near the Hudson River, a short and nearly equal distance from all the New Jersey Railroad Depots and Ferries, the Erie Depots and Ferries and the Hoboken or Delaware & Lackawanna Depots and Ferries, from its proximity to the New York Market, the large Locomotive and Railroad Shops of the City and Paterson, the facilities for forwarding to all points by water or railroad, it cannot be surpassed.

The Real Estate is rapidly increasing in value the vast R. R. Interests and dock improvements mentioned having taken up almost the entire River front and space below the mill property from the Cortland St. to Hoboken ferries. The reputation and business established. The Proprietor intends retiring from the business, and for further particulars can be addressed or seen daily at the

Office, 140 HUDSON STREET,
Jersey City N. J.,
In the First National Bank Building.

Propositions for Lease or Selling the Machinery for removal entertained.

Map can be seen and General Information may be obtained also of Wm. H. Wallace & Co., Corner of Liberty and Washington Streets, N. Y., City Agents; and R. E. Chrisman, Supt. Central Iron Works, Harrisburgh, Pa. (formerly a Proprietor.)

RAILROAD IRON.

THE undersigned, agents for the manufacturers are prepared to make **CONTRACTS FOR RAILS** delivered free on board at ports in England, or exship at ports in the United States.

The Northern Pacific Railroad.

The route of the Northern Pacific Railroad is as follows: (See map) Starting from Duluth, Minnesota, at the head of Lake Superior, and from St. Paul and Minneapolis on the Mississippi river, the two eastern arms unite in central Minnesota; from the point of junction the trunk line extends westward through central Dakota and central Montana. At a convenient point in Montana the road will again branch, (see map) one arm passing through central Washington to the main Ocean Terminus on Puget Sound—the other following down the valley of the Columbia through Southern Washington and Northern Oregon to Portland, at tide water on the Columbia river. A short line—now building—will unite the two western termini. Still another branch will leave the main line in Western Minnesota, and extend north through the Red river valley to Pembina on the border of British America. Nature has leveled a pathway for the Northern Pacific Railroad from the Lakes to the Ocean. All through the Rocky Mountain region the elevation is some 3,300 feet less on the Northern line than on the Central route. The Cascade or Sierra range which, on the Central, is scaled at a height of 7,042 feet, is crossed by the Northern Pacific nearly at the sea level—through the channel cut by the Columbia river. On the Northern Pacific line no tunnels will be needed, and probably no grade to exceed 50 feet to the mile. It is claimed that the construction of the Northern Pacific Road shortens the distance by rail between the Lakes and the Pacific Ocean nearly 600 miles, and that it shortens the distance by water and rail between New York (or Liverpool) and the ports of Asia some 1,400.

Connections.—At Saint Paul and Minneapolis the Northern Pacific Railroad system connects with the navigation of the Mississippi river, and the various lines of Railroad extending through Chicago to the Atlantic coast; at Duluth with the commerce of the Great Lakes and the St. Lawrence; at Pembina with a thousand miles of river and Lake navigation in British America; at Puget Sound, when completed, with the commerce of the Pacific Ocean and the trade of Asia; at Portland, Oregon, with the coast lines of road, the traffic of the Columbia, and the coastwise trade of the Sea.

At short intervals across the continent the road intersects many navigable streams, such as the Mississippi, the Red, the Missouri, the Yellowstone, the Clark, the Snake, the Columbia, and the Cowlitz—all of which will serve as feeders, or branch lines for the road, bringing to it the trade of a vast and fertile country on both sides of the line.

Rapid Progress of Construction.—Ground was broken in July, 1870. Several thousand men have since been constantly employed on the line. At this time (April, 1871,) the grading is nearly finished for 266 miles from Lake Superior to the eastern border of Dakota, trains are running over 125 miles of completed track; the Mississippi river is bridged at Brainerd and once more joined to the Lakes by rail, and track-laying is rapidly progressing westward. By September next, trains will run to the Red river, and the grading will probably be far advanced toward the Great Bend of the Missouri river in Central Dakota.

In the meantime work has been commenced the present season on the Pacific coast; a force of men is already employed in the valley of the Columbia river, and hereafter the work of construction will be pushed both eastward and westward toward the centre with such rapidity as the best interests of the road may justify.

Including its purchase of the St. Paul and Pacific Road, the Northern Pacific Railroad Company has 413 miles of road now in operation, and before the close of the present season the length of finished track will be at least 500 miles.

THE NEW NORTHWEST.

The Northern Pacific Railroad will centrally traverse and draw its traffic from a fertile belt of country 1,800 miles long and at least 700 in width—stretching from the Great Lakes on the east, to the Pacific Ocean on the west. Taken as a whole, the region thus to be developed by this great highway is not surpassed by any area of like extent on the continent for abundance and diversity of natural resources, and capacity for sustaining a dense population. Besides its wealth of minerals and of timber, it admirably combines the three essentials of a good farming and grazing country, namely: A mild climate, a naturally rich soil, and a fair supply of moisture. The climate of the New Northwest, heretofore much misapprehended, can be best understood by comparing it with that of other better known localities thus: The climate of Minnesota (one of the chief attractions of this great and prosperous State) is like that of New York, without its dampness and chill. From Minnesota westward the seasons grow steadily milder, molified by the warm winds from the Pacific and other influences, so that Dakota has the climate of Iowa, with a drier and more invigorating air; Montana that of Ohio without its winter discomfort and changeableness; Washington and Oregon on the Pacific coast have the climate of Southern Virginia, with more rain and cooler summer nights. At the western terminus of the Northern Pacific Railroad, flowers have bloomed in the open air every month of the past winter, and along most of the fertile belt traversed by the road, cattle readily subsist the year round on the nutritious grass of the plains and valleys. Gov. Potts of Montana, writing to a friend in Ohio, says: "The valleys of Montana are scarcely ever covered with snow. The cattle run at large during the entire year, no grain or hay is fed them, yet they come out in the spring as fat as the best stall-fed cattle in Ohio." The snow fall is much less, and the rain fall much greater along the Northern Pacific route than along the corresponding belt 400 miles further south; and neither will be obstructed by snow. The capacious and land-locked harbors of Puget Sound, the giant timber of Washington territory, the gold and silver mines of the Rocky Mountain region, the mineral wealth and fertile lands of Montana, the wheat and grazing lands of Dakota and the tributary British Provinces, and the farm and timber lands of Minnesota—added to a climate singularly healthful and pleasant—are some of the attractions of this new region that is now fixing the attention of the country.

BUSINESS OF THE ROAD.

The Northern Pacific Railroad will have no rival for the carrying trade of the New Northwest. Other roads across the continent will have an ample field for a prosperous business of their own—the Northern Pacific has a field still more ample. The country tributary to the Northern Pacific

Road would make ten States as large as Pennsylvania, and is wholly unsupplied with railroads. The immense and profitable traffic enjoyed by the Central and Union Pacific line, even during its first full year of operation, is some intimation of what will be the business of the Northern Pacific Road, located as it is on a shorter line with easier grades, under a milder climate, through a country much more productive, and already containing a greater population than that which awaited the building of the Central line.* Some of the sources of the traffic that now awaits the completion of the Northern Pacific Railroad are these:

1. The local carrying trade of the present population of the States and Territories traversed. (The Montana Miners alone paid four million dollars for freighting in 1870.) 2. The transportation of mails, troops, and military supplies—a service which now costs the Government over six million dollars annually. 3. The trade of the important British settlements occupying the fertile valleys of the Red and Assiniboine rivers, the Winnipeg Basin and British Columbia. 4. The immense freighting business of the Hudson's Bay Company, the whole of which will accrue to the Northern Pacific Road. 5. That portion of the large through traffic between the Atlantic and the Pacific Oceans, and between Asia and Europe, which must pass over this line owing to its advantage in directness, shortness, and ease of grades. 6. The bulk of the business now done by the steamers plying on the many navigable rivers tributary to the road. 7. The transportation and distribution of the thousands of settlers already moving to the fertile country through which the Road passes, the carrying of whose supplies and products will furnish a constantly increasing business. 8. The transportation to market of the grain crop of the New Northwest. This region is the home of winter wheat. Minnesota alone exported twenty million bushels in 1870, or enough to load 2,500 railroad trains. 9. The lumber trade of Minnesota and Washington Territory. Last year Puget Sound shipped two hundred million feet by sea, equal to 1,000 train loads. 10. The transportation of ores of the precious metals from the mines along the Road to the smelting works at either extremity. Already 4,000 tons of ores pass over the Union and Central Pacific line monthly; and with improved facilities an increase to 1,000 tons per day is expected. The mines adjacent to the Northern Pacific Road will furnish at least an equal business 11. The shipment of cattle from the natural pastures of the fertile belt to the eastern market. This traffic will at once and permanently contribute a large revenue to the Road.

THE LAND GRANT.

The Land Grant of the Northern Pacific Railroad consists of 12,800 acres to each mile of track through Minnesota, and 25,600 acres per mile through Dakota, Montana, Idaho, Washington and Oregon—the branch to Puget Sound having the same grant as the main line. The average for the whole length of the Road and branch is over 23,000 acres per mile, and the total exceeds fifty million acres. Of the quality of these lands it is enough to say that they lie in the richest portion of that fertile New Northwest above referred to. Of the Company's ten million acres in Montana, Gen. Potts, present Governor of that Territory, says: "The Northern Pacific Railroad will open up the richest country in agricultural and mineral resources on the American Continent. Gov. Stevens, who repeatedly passed over the route, estimates that fully four fifths of the Northern Pacific Railroad grant is good for cultivation or grazing, while much of the remainder is in the mountain belt, and is covered with valuable timber or filled with the precious metals. With the Road built through the midst of these lands, what is their money value? The lands of the Union Pacific thus far sold have averaged $4 46 per acre; the school lands of Minnesota $6 80 per acre; the lands of the Illinois Central Railroad grant, $11 per acre. At even the average of $4 per acre the lands of the Northern Pacific Railroad will pay for its construction and equipment and leave the Road free from debt, and one half the lands unincumbered in the Company's possession. At only $2 50 per acre, Government price, these lands will build and equip the Road, leave it free of debt, and place a surplus of twenty-five million dollars in the Company's treasury.

We are informed that as fast as the Road progresses the Company's lands will be opened to sale and settlement at moderate prices, and on easy terms of payment. The rapidity with which settlers are already moving to the line of the Road, the numerous colonies now forming in various parts of the country with the same object, and the comprehensive plans of the Railroad Company for fostering immigration and hastening the settlement of the country tributary to their Road, gives assurance that the lands of the grant will be absorbed quite as fast as desired.

---

* In six years (including only one of through business,) the Central Pacific has earned ten million dollars net over operating expenses, and nearly six millions over running expenses and interest on its bonds, and sixty-five per cent. of earnings came from local traffic.

☞ A dispatch, dated Toronto, April 25th, says: "An agreement has been concluded between the Great Western Railway of Canada and Michigan Central Railroad Companies for the period of twenty years, under which the entire through earnings are put into a joint purse and then divided. Both companies also bind them-

selves, not to interchange traffic with any new lines across Canada or Michigan. This virtually consolidates the lines and makes them one for through traffic between Chicago and Buffalo and Suspension Bridge. The tunnel to connect the two lines under Detroit River is to be commenced forthwith."

Estimated Cost of Constructing Narrow Gauge Railroads.

The Railroad Committee of the Massachusetts Legislature, of which George A. Parker, Esq., C. E., is chairman, has prepared a Report on the subject of Narrow Gauge Railroads. The following is the Committee's estimate of the cost of constructing and equipping one mile of road with a gauge of two feet nine inches, and that of a road of four feet eight and a-half inch gauge, with similar grades and alignment:

Let us estimate the cost of building and equipping one mile of a cheap railway 25 miles long, of 2 feet 9 in. gauge, where the average depth of cuttings and embankments may be reckoned at four feet. The sectional dimensions, and the bridging, masonry and sidings being deduced and averaged from a surveyed line, and the equipment conformed as nearly as practicable to the recommendation of the India committee, and of practical builders in this country, the prices being actually guaranteed by the latter, viz:

Rails	$4,248
Sleepers	352
Spikes	175
Joint fastenings	400
Laying track	250
Embankment, 6,062 cubic yards	1,513
Cuttings, 5,629 cubic yards	1,480
Rock cutting, 1,611 cubic yards	1,611
Ballast	1,000
Sidings	200
Masonry and bridges	1,140

Rolling stock for the whole road, say:

Engines, 3	$18,000
Passenger cars, 5	5,500
Mail and baggage cars, 2	1,200
Merchandise cars, 35	6,125
Merchandise cars, 25	4,000
	$34,825÷25=1,393
	$13,757

And the estimate of cost of same road with similar grades and alignment, with a gauge of four feet eight and one-half inches, with the usual provision for rolling stock, viz:

Rail	$6,600
Sleepers	924
Spikes	264
Joint fastenings	700
Laying track	325
Embankment, 8,624 cubic yards	2,151
Cutting, 11,703 cubic yards	1,927
Rock cutting, 2,085 cubic yards	2,085
Ballast	2,000
Sidings	334
Masonry and bridges	2,000

Rolling stock for the whole road, say:

Engines, 3	$48,000
Passenger cars, 5	20,000
Mail and baggage cars, 2	2,600
Merchandise cars, 30	30,000
Merchandise cars, 20	16,000
	$116,600÷25=4,664
	$23,974

The difference is that of nearly one to two, and shows that where cheap roads are practicable, the use of the narrow gauge may reduce the cost about one-half, without reducing necessary efficiency.

Lake Ontario Shore Railroad.

At a meeting of the stockholders of this company recently at Oswego, the following gentlemen were elected directors for the ensuing year: F. T. Carrington, Gilbert Mollison, Luther Wright, J. G. Kellogg, A. S. Page, Oswego; George I. Post, Fair Haven; Wm. O. Wood, Red Creek; James Brackett, David F. Worcester, Rochester; Burt Van Horn, Niagara County; Reuben F. Wilson, Wilson, Joseph L. Fowler, Porter; Orlando P. Scoville, Lewiston. At a subsequent meeting of the directors, the following officers were chosen: President, Gilbert Mollison, Oswego; Vice-President, O. P. Scoville, Lewiston; Treasurer, Luther Wright, Oswego; Secretary, Henry L. Davis, Oswego. The object of this company is to build a road from Oswego to the Niagara River at Lewiston, a distance of 143 miles, with a branch to Rochester of 6 miles. The line follows the shore the entire distance, and is favorable both as regards grades and alignment. Between Oswego and the Genesee River 56 of the 69 miles are straight, and 17 are level, while the maximum grade is only 35 feet. From the Genesee to the Niagara, 73 of the 76 miles are straight, with a maximum grade of 26 feet. The estimated cost is $5,000,000, or about $33,000 per mile. At the Directors' meeting it was

Resolved, That it is the sense of this Board that we proceed to put this road under contract to or about the West line of Wayne Co., a distance of about 50 miles from Oswego.

The resolution of the Board to put fifty miles of the road under contract this spring is said to have given universal satisfaction. All the towns between Oswego and the Genesee river have given consents enough to secure their bonding, and as concerns most of them the papers are filed, and they are ready to issue the bonds when called upon. West of the Genesee river but three towns remain to be bonded—Parma, Monroe County, and Carlton and Kendall, Orleans Co. In these towns the most thorough efforts will now be made, and the chances of success are represented to be encouraging.

Fort Scott and Memphis Railroad.

The President of this company, Hon. T. L. Wilson, of Ft. Scott, Kansas, and Col. J. A. J. Chapman, Chief Engineer, recently passed over the proposed route of this road, and pronounce it a most excellent and feasible one. We are informed that this company represents large eastern capitalists, and proposes to put the road under contract as soon as suitable arrangements can be made for a continuous line from Memphis to Kansas City. They expressed themselves highly pleased with the country, and say that their people are very anxious for railroad communication with the southeast.—*Ark. Statesman.*

☞ The Little Rock (Ark.) *Republican* says that A. S. Livermore, Esq., late general superintendent of the Mississippi and Tennessee railroad, has been appointed to that position on the Memphis and Little Rock railroad and will assume the duties of his new position at once. Colonel B. D. Williams, late general superintendent, takes charge of the land department.

☞ The Pennsylvania Railroad Company are pushing forward to rapid completion a third track between Pittsburg and Altoona. For the greater portion of the distance west of Blairsville the road bed has been made and is ready for the rails.

Lynchburg and Danville Railroad.

The directors of this company, after much deliberation, have awarded the following contracts to the parties named: Adams, Hamner & Co., from Lynchburg to Staunton river; Braxton, Mason & Co., of Fredericksburg, from Staunton river twenty miles south; John Lyons & Co., Baltimore, from Danville twenty miles north. From Lynchburg seven miles out the route is not yet determined, and no work will be done on that part of the line until this question is settled. The two last named contracts include that portion of the line between Staunton river and Danville. Messrs. Adams, Hamner & Co., the contractors for building the road from Lynchburg to Staunton river, will, we learn, commence work on Monday next near Vermillions, seven miles from Lynchburg. The contractors for the remainder of the line from Staunton river to Danville will commence operations about the middle of May.

Veneers.

The attention of Railroad Companies and Car Builders is called to the adveptisement of Messrs. A. Parker & Co., Dealers in Veneers, on last page of our paper. Their stock comprises choice French and American Walnut, and Ash Burls, Hungarian and Corrugated Ash, Amboine Thuya, Tulip, and Ebony Veneers, Rosewood, Satinwood, Mahogany and White Holly in Planks. Boards and Veneers, Red Cedar Boards, Birds Eye and Curled Maple Veneers, of fine figure and white. Blister, Mottle, Striped and Plain Black Walnut, Mahogany, and Walnut Crotches, &c. With their experience they can please their patrons, as regards quality and prices, and extend an invitation to purchasers to call and examine their stock. They give special attention to prompt and accurate filling of orders by mail for samples or stock.

☞ The stockholders of the Harlem River, and Portchester Railroad Company have elected the following directors: N. A. Baldwin, of Milford, Conn. (President of the Board); Wilson G. Hunt of New York, E. H. Trowbridge of New Haven, Francis Morris of Westchester, Wm. E. Barnett of New Rochelle, Wm. D. Bishop of Bridgeport, F. G. Clark of Greenwich, George N. Miller of New York, John Schuyler of Pelham, John T. Shelton of Bridgeport, Joseph Park, Jr., of Rye, Abraham R. Van Nest of New York, and John Hunter of Westchester.

☞ A change of gauge on the Cincinnati, Louisville and Lexington Railroad, will be made immediately from four and a half to five feet, to correspond with the gauge of its Northern connections. This makes the Northern and Southern lines terminal at Louisville instead of Cincinnati. When the Newport bridge is completed through cars will run from Louisville, via the short line, to New York and all points east.

☞ The President of the Cincinnati and Springfield Railroad advertises, in Cincinnati, for proposals for the grading, masonry, bridging and cross-ties for the road between Cincinnati and Dayton, the road-bed to be ready for the superstructure by December next.

☞ The Portland and Ogdensburg Railroad will be completed to Fryeburg by June and Conway by August.

Iowa Narrow Gauge Railroad.

A company called the "Iowa Narrow Gauge Railroad Company" was recently organized in Marshalltown, Iowa, for the purpose of constructing cheap railroads from that place into the surrounding country, if, after examination, such roads are found desirable and advisable. The officers, we understand, are expected to first visit and study the narrow gauge roads already in operation in America. The directors are H. E. J. Boardman, F. D. Hager, A. T. Price, R. G. Sleight, W. S. Rice, A. C. Abbott, John Turner, E. C. Rice, W. H. Weatherly, B. F. Frederick, E. Willigrod, Marshalltown; C. B. Rhodes and Geo. Curry, Edenville; D. M. Moninger, Marietta; W. J. Wilbur, Vienna. The officers are John Turner, President; A. T. Price, Vice-President; F. D. Hager, Treasurer, and M. H. Haviland, Secretary.

Louisiana and Missouri River Railroad Bridges.

The following is a copy of an act passed by Congsres, entitled "An Act to authorize the construction of a bridge over the Mississippi river at Louisiana, Missouri, and also a bridge over the Missouri river at Glasgow, in that State:"

Be it enacted, etc., That the Louisiana and Missouri River Railroad Company, a corporation existing under the laws of the State of Missouri, be and is hereby authorized to construct and maintain a bridge over the Mississippi river at the city of Louisiana, in said State of Missouri.

Section 2. That said bridge shall be a lawful structure, and shall be recognized and known as a post route, upon which also no higher charge shall be made for the transmission over the same of the mails, the troops, and the munitions of war of the United States than the rate per mile paid for the transportation over the railroad or public highways leading to the said bridge; and it shall enjoy the rights and privileges of other post roads in the United States.

Section 3. That if the said bridge shall be made with unbroken and continuous spans, it shall not be of less elevation in any case than fifty feet above high water mark, as understood at the point of location, to the bottom chord of the bridge, nor shall the spans of said bridge over the main channel of said river be less than three hundred and fifty feet in length, and the piers of said bridge shall be parallel with the current of said river: *And provided also*, That if the same shall be constructed as a draw-bridge, the draw or pivot shall be over the main channel of the river at an accessible navigable point, and the spans not less than two hundred feet in length in the clear; and the piers of said bridge shall be parallel with the current of the river, and the spans shall not be less than ten feet above high-water mark, to the bottom chord of said bridge; *Provided also*, That said draw shall be opened promptly, upon reasonable signal, for the passing of boats.

Section 4. That the right to alter or amend this act, so as to prevent or remove all material obstructions to the navigation of said Mississippi river by the construction of bridges, is hereby expressly reserved.

Section 5. That all railway companies desiring to use the said bridge shall have and be entitled to equal rights and privileges in the passage of the same, and in the use of the machinery and fixtures thereof, and of all approaches thereto, under and upon such terms and conditions as shall be prescribed by the District Court of the United States for the District in which said bridge is situated upon hearing the allegations and proofs of the parties in case they shall not agree.

Section 6. That a bridge may be constructed over the Missouri at or within nine miles of the town of Glasgow, in Howard county, Missouri, by the said Louisiana and Missouri River Railroad Company: *Provided*, That the said bridge shall be made with unbroken and continuous spans and shall not be of less elevation in any case than fifty feet above high water mark, as understood at the point of location, to the bottom chord of the bridge; nor shall the spans of said bridge over the main channel of said river be less than three hundred and fifty feet in length, and the piers of said bridge shall be parallel with the current of the river; and shall be subject to the same terms and restrictions as contained in this act for the construction of the bridge at Louisiana, Missouri.

Approved March 3, 1871.

Marietta and Cincinnati Railroad.

The earnings of this road for the years ending December 31, 1869 and 1870, were as follows:

	1869.	1870.
Through passengers...	$43,041 11	$74,072 38
Local passengers.....	340,274 92	346,706 95
Through freight.....	247,402 74	284,583 79
Local freight.....	692 199 52	647,693 83
Mail	23,737 44	23,787 44
Express	38,454 09	37,359 91
Telegraph	6,235 83	6,191 25
	$1,391,345 65	$1,420,345 55
Expenses, viz:		
Road department.....	$394,019 62	$431,787 69
Bridge "	97,057 57	94,994 72
Machinery "	380,302 60	439,765 93
Transport'n "	240,403 08	238,357 37
Mileage of cars.....	31,758 41	40,398 90
Telegraph	13,971 29	18,763 17
General expenses.....	86,151 76	78,088 49
	$1,248,664 33	$1,342,156 27
Net earnings.....	$147,681 32	$78,189 28

Compared with the previous year the gross earnings show an increase of $28,999 90, with an increase in expenses of $98,491 94, making a decrease in the net earnings of $69,492 04. The ratio of working expenses is 94½ per cent., an increase, compared with the previous year, of 5½ per cent. The President in his report says:

The greatly improved condition of the track and road bed justified a reduction of time on the fast passenger trains between Cincinnati and Belpre to 7¼ hours, reducing the schedule between Baltimore and Cincinnati to 22½ hours, being one hour less than the shortest time heretofore made.

In September, two Pullman Palace cars were placed upon the line, and subsequently all through passenger trains were so equipped.

The increase of $31,031 27 in excess of 1869 on through passengers, being seventy-three per cent., is the result of these improved arrangements, and it is believed the increase in 1871 will be much more decided. It will be observed that the local passenger business increased $6,432 03.

The increase in through freight traffic of $37,-181 05, being fifteen per cent., is very gratifying.

The stockholders of the Ohio and Mississippi company, at the annual meeting in October, authorized the Board of Directors to change the gauge of the road to 4 feet 9 inches, which will conform to the Marietta and Cincinnati track. It is believed that the consummation of this plan, by which cars can be transported between St. Louis and Louisville and the Seaboard *via* Parkersburg without change will result in a very great increase of through business.

The distance from Cincinnati to Baltimore is 589 miles, or 240 miles less than the average distance from Cincinnati to New York, by the New York Central, Erie and Pennsylvania roads. From St. Louis to Baltimore *via* Cincinnati and Parkersburg the distance is 929 miles, or 210 miles less than the average distance from St. Louis by the same roads to New York. These advantages, affording by the same parallel, the shortest and cheapest as well as the most direct route to the seaboard, will certainly develop an immense traffic between those Western regions and Baltimore, which will prove a source of great profit to the Baltimore and Ohio, and the Ohio and Mississippi as well as the Marietta and Cincinnati Company.

An improvement in the freight business to and from the Indianapolis, Cincinnati and Lafayette road is noted.

The Columbus and Hocking Valley road was completed to Athens in July. A considerable traffic, principally in iron from the Marietta and Cincinnati road, and coal from Nelsonville on the Hocking road has been established. A through passenger car runs daily between Portsmouth and Columbus, furnishing facilities, long needed, for easy communication between Southern Ohio and the capital of the State.

The increase in equipment, made in the autumn, enabled the company to earn during the last quarter of the year larger receipts than for any similar period.

The general depression in the iron trade, affected seriously the prosperity of the furnaces in Southern Ohio; and to this cause the decrease of $36,688, in the transportation of iron, and of $30,-446, in iron ore, is to be attributed.

An increase is shown in the transportation of wheat, corn, lumber, cattle, coal and general merchandise. In the article of petroleum an increase of nearly 100 per cent., as compared with the previous year is exhibited.

In the expenses are included many items properly belonging to "Extraordinary Renewals" or "Construction," which, on account of the difficulty of accurate adjustment in the incomplete condition of the road, have been charged to "repairs."

The policy which had governed the Board for two years previously, of placing the road in superior order as rapidly as the company's resources would permit, was continued in 1870.

The following statements will indicate the large amount expended in improving the condition of the road and adding to its equipment and facilities.

Four thousand six hundred and two tons, or nearly fifty miles of new rails were laid.

One hundred and twenty-six thousand seven hundred and eighty-two cross-ties were used.

Fifty-one miles of road, never ballasted hitherto, were ballasted, and eighteen miles re-ballasted. Five construction trains were run, and a great improvement effected in the surface of the road bed, while a large amount of ditching was also accomplished.

As indicating the large amount of construction and ballasting done during the year, the mileage reports show, that engines on construction and ballast trains were run nearly one half as many miles as the freight trains, which earned $932,-000.

In the statements of receipts, nothing is included for the service of the engines and cars used for construction purposes or for ballasting.

In order to secure a good quality of material, much of this ballast was hauled fifty miles, and it was for this reason and the great expense involved in the work that it was postponed heretofore; but the Board concluded that, with the view of perfecting the line, it was necessary to incur this outlay. Only twelve miles of the main line now remain to be ballasted.

Many of the cuts east of Hamden were widened and new embankments made.

Fifty-five thousand three hundred and one dollars and forty-eight cents were expended in repairing and renewing bridges.

A new iron bridge one hundred and sixty feet in length, was built over the canal at Chillicothe. A superior iron bridge of two spans, each one hundred and twenty six feet in length, at Lee's Creek, and one at Sycamore Creek of one hundred and twenty-two feet, with substantial masonry at both points, were nearly completed at the close of the year, and will be ready for use in January, 1871. The amount expended on these valuable, permanent improvements was $64,934 54.

New water stations were erected at Loveland,

Clinton Valley, Hamden, Russells, Bee Run, and Pioneer, and others received thorough repairs.

Ten locomotives, costing $116,682 54, were purchased and paid for.

106 box, 50 coal, 25 flat and 25 stock cars, costing $135,167 82, were in part built at the company's shops at Zaleski, and in part purchased.

Three passenger cars and three baggage cars were built at an aggregate cost of $23,073 68.

About one and one-fourth miles of sidings were added.

A new station house was commenced at Chillicothe, and $11,934 69 expended on this account. A new station at Loveland was commenced. These buildings will be completed in March next.

A new machine shop was built at Chillicothe at a cost of $16,313 63, and $18,152 86 expended for new and improved machinery.

About 12¼ miles of new fencing were added.

The Ferris' Branch was completed at a cost of $18,863 67.

$160,840 73 was advanced in cash to the Cincinnati and Baltimore road.

FINANCES.

The stockholders having approved the recommendation of the board in regard to a third mortgage for three millions of dollars, the bonds bearing eight per cent. interest were placed upon the market on July 1st, and two millions sold at seventy per cent. net, realizing a much higher rate than the average obtained for the second mortgage bonds.

Upon the commencement of the war in Europe, the bond market at home and abroad became greatly depressed, and it was found to be impossible to dispose of the million remaining without sacrifice. The Board, therefore, continued to carry a considerable floating debt, which, by the assistance of the Baltimore and Ohio Company, it was able to do upon fair terms.

It is hoped that, by the sale of these bonds at improved rates, and of the real estate belonging to the company not required for Railroad purposes, the floating debt can be kept within reasonable limits.

By the former reports of this company, the amount of outstanding or issued capital stock and scrip of all classes appeared to be $14,620,865 92. Of this, 7,000 shares, equal to $350,000, were held in trust for the company to meet certain contingencies which have not arisen; and the occasion for the use of said stock having passed, the Board of Directors have ordered the certificates for said stock to be canceled and a corresponding reduction in the amount of capital stock to be made.

It also appeared, on examination of the books, that $306,887 41 of the common or deferred stock of this company had not, in fact, been issued to parties entitled thereto, but remained with the company, to be issued when called for. The Board, therefore, ordered the correction of the capital stock account so as to show the true amount of outstanding stock, which is $13,963,978 51, and it so appears in the General Balance Sheet published herewith.

BRIDGE AT PARKERSBURG.

It is with great gratification the Board announces the completion by the Baltimore and Ohio Company, at the close of the year, of the great iron bridge at Parkersburg. This splendid structure, one mile and 1,762 feet in length, including the approaches, was erected at a cost of over one million of dollars. It is difficult to estimate the great value of this magnificent work to the permanent interests of the Marietta and Cincinnati Company. The tedious delay, which heretofore attended the transfer of passengers and freight interchanged between the two companies, will be obviated, and the route established as first class in speed, comfort, and safety between Cincinnati and Baltimore.

CINCINNATI AND BALTIMORE RAILWAY.

The litigation in reference to crossing Spring Grove Avenue and Colerain Turnpike, having been decided in favor of the company in June, 1870, the work was renewed with vigor, and the line is nearly completed as far as Harrison Turnpike. It will be finished throughout at the close of 1871.

The company was obliged to pay very high prices for right of way, but has secured all required for the line. The cost of the work will, it is now estimated, reach nearly one million of dollars for a single track road. Negotiations are in progress for the use of the Cincinnati and Baltimore road by the Cincinnati and Springfield road, which, it is expected, will be consummated at an early day. The Marietta and Cincinnati Company has subscribed and paid for $200,000 of the stock of the Cincinnati and Baltimore road, and, to secure rapid progress, has advanced $133,769 73 in cash, additionally.

$124,000 of the bonds, and $258,550 of the stock have been sold, and it is expected that the remainder of the securities will be placed during 1871.

BALTIMORE SHORT LINE RAILWAY.

The improper location of the road between Warrens and Belpre has, since the opening of the road, always been a source of great expense in maintenance and loss in revenue of the company.

It is difficult, at this day, to understand the motives which governed the managers of the road, in its early history, in locating it over ravines, requiring very long and high trestles, and across a most rugged country, while the natural and more economical route, both as to original cost and subsequent maintenance, through the valley of the Hocking, by a line about ten miles shorter than the existing, could have been secured. With the view of remedying this grave error in location, the Baltimore Short Line Railway Company has, during the past year, been incorporated under the laws of Ohio, and proposes, with the assistance of the Marietta and Cincinnati Railroad Company, to construct a road in as direct a line as practicable from Warrens to Belpre. Its completion is regarded as essential to the establishment of a perfect line between Cincinnati and Baltimore.

GENERAL REMARKS.

During the last three years large sums have been expended in extraordinary improvements of the Marietta and Cincinnati road, and in adding largely to its facilities for general business.

The Baltimore and Ohio Company has also expended a heavy amount in arching tunnels, improving the Parkersburg Branch, and in building the great bridge over the Ohio river at Parkersburg. Both companies have been impressed with the belief that this vast outlay was necessary in order to secure a full share of the large and valuable traffic between the West and Southwest and the Atlantic seaboard, and in order to attain that position which their geographical advantages should command. The wisdom of this policy is now apparent. The line is attracting attention as a favorite route for passengers, and the indications are very decided that the receipts of the Marietta and Cincinnati road for the year 1871, will far exceed those of any previous year, while the expenses for extraordinary repairs may now be diminished.

The company have 62 locomotive engines, viz: 19 passenger and 43 freight; of these, 38 are first class, 17 second class, and 7 third class. The engines are all burning coal, and their condition has been fully maintained. The mileage of the engines during the year was as follows: passenger, 617,300; freight, 652,800; construction, 163,100; ballast, 196,400—total, 1,629,600. The average cost was: for repairs, $7.02; for engineers, firemen and wipers, $7.27; for oil and waste, 87 cents—total, $15.16.

The number of through passengers transported during the the year was 15,407; do. local do., 340,184—total, 355,591. Number of tons of through freight, 120,024; do. local do., 272,421—total, 392,445.

This shows an increase in mileage of engines of 221,600; in number of passengers carried, 27,092; and in tons of freight transported, 4,378.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "§."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, April 29, 1871.

Stock Exchange and Money Market.

The Money market has been working more comfortably for the borrowing interests since our last. The available supply of funds has been more liberal both from bank and through private channels. The city banks have been large gainers in their legal tender and deposit lines, having added over four millions to their reserve of greenbacks, and nearly two and a half millions to their deposits. They lost about 1¾ millions of specie, and reduced their loan and discount averages $372,770, and their circulation $57,723. The United States Sub Treasury reported a loss of $2,245,496 of coin, partly through the increased sales of the week, with a gain of $856,044 in the currency balance. The city bank exchanges, last week, averaged $133,443,778; and thus far, this week, $143,000,000, daily. The banks now hold $8,340,366 of specie and legal tender notes, in excess of the 25 per cent. of their liabilities required by the national banking act. The U. S. Sub-Treasury receipts last week were $4,228,292 in coin, and $6,172,685 in currency; payments $6,473,788 in coin, and $5,316,641 in currency. The office received $3,509,864 in coin or its equivalent, from customs; and disbursed $242,487 of coin interest. The rates on call loans on Monday have been from 5@7, and on discounts, 6@8 per cent. per annum. Government having ordered the prepayment of the May coin-interest on the Public Debt, the disbursements were commenced at the Sub Treasury in this city on Monday. At the close, the tendency was to increased ease.

The payments of interest on the bonds of the new loan will be made by checks of the Treasurer of the United States, sent directly to the holders of bonds, and payable to their order.

The subscriptions to the new refunding Five per cent. Loan now amount to about 62 millions.

The U. S. Sub-Treasury, on Thursday morning of this week, held a balance of $10,242,217 in currency, and $67,206,608 in coin against a balance a week previous of $8,111,168 currency, and $69,556,161 coin.

The U. S. Sub-Treasurer retired, last week, $3,138,863 of coin certificates, received for customs.

Government revenues have been quite liberal in the customs form, since our last, though moderate from excises. The excises yielded about two millions. The customs at the port of New York, last week were $3,509,864; and at the outports, equal to about 1½ millions more, all in coin, or coin certificates. The internal revenue yield thus far in the current fiscal year beginning with July 1, 1870, has been $118,568,845.

Gold has been fairly active since our last, within a range of from 110⅜@111¾, leaving off on Wednesday at 110⅝@110¾, as against 111⅜ @ 111½ the preceding Wednesday. The speculation opened confidently, in view of the larger shipments of specie to Europe, and the free customs drain; but it closed tamely, and with less firmness, influenced, in part, by the increased offerings of Gold, and the Treasury disbursements on account of the May coin interest on the funded debt. The exports of specie last week, were $3,332,799; on Tuesday of this week, $500,000; and on Wednesday, $606,488. The customs drain last week was up to about $600,000 a day; and thus far this week, it has been equal to a daily average of nearly half a million. The May interest payments, by the Sub Treasury, on Monday, were $1,600,000, on Tuesday, $1,000,000; and on Wednesday $630,000.

The customs at this port on Wednesday were $444,000.

The export drain was $3,332,799 last week, against $237,983, same week preceding year. The shipments since July 1, 1870, have been $61,393,521, against $23,984,497 same time in 1869–'70.

The customs demand for Gold last week, averaged $601,167 a day; thus far, this week, it has averaged $403,974 a day, or equal to a weekly aggregate of $2,423,844. The arrivals of specie from Europe, Havana and other foreign ports last week were $11,794, and since Jan. 1, 1871, $2,919,461, against $6,121,827 same time in 1870. The total customs revenue of the Government, in coin, at this port, since July 1, 1870, has been $121,597,010, against $109,519,658 same time in 1869–'70.

The Gold Exchange Bank clearances on Friday of last week were $68,735,000; and on Monday of this week $32,275,000, the extremes of the week. On Wednesday of this week they amounted to 25¾ millions.

Government has disbursed through the U. S

Sub-Treasury here, on account of the coin interest on the public debt since July 1, 1870, $67,307,065 against $67,507,239 same time in 1869–'70.

The offerings of prime foreign exchange drafts has been rather more liberal since our last, at the ruling figures, with a fair demand noted. Bankers' sixty day bills on London closed on Wednesday at 109¾@110; sight bills on London, 110⅜@110⅝.

The produce exports from this port, week ending with April 25th, were to the currency value of $5,168,728.

Government securities have been offered very reservedly, and have been strong and buoyant in price, most of the week.

On Wednesday, Government paid as high as 110 79 net for Five Twenty bonds, when Gold was selling at 110 76. Thus, the Five Twenties were at a shade above par in Gold, which was deemed quite a notable feature of the market.

On Wednesday, Government bought in two millions of Five-Twenties at 110 63@110 79, ex-interest. The amount of bonds offered was $7,450,000.

U. S. sixes of 1881 closed here on Wednesday of the current week at 116¾@116⅞; U. S. Five-Twenties of 1862, 113¾@113⅞; U. S. Five-Twenties of 1864 at 113¾@113⅞; U. S. Five-Twenties of 1865, 113¾@113⅞; U. S. Five-twenties of 1865 consolidated, 112⅝@112¾; U. S. Five Twenties of 1867, 112⅝@112¾; U. S. Five-twenties of 1868, 112¾@113; U. S. Ten-forties at 109¼@109⅜; U. S. Six per cent. currency bonds, 115½@115⅝.

The latest quotations at the London Stock Exchange compare as follows with former returns:

* Ex-May coupon.

State bonds have been in more general demand at stronger though variable prices.

Railway bonds have been in active demand for investment purposes, and generally quoted firmer. Central Pacific Sixes closed at 100⅛@100¼. The Chesapeake and Ohio R. R. First Mortgage six per cent. gold bonds have been selling at 90 per cent. and accrued interest. Union Pacific Sixes closed at 88⅞@89.

The market for Railway and miscellaneous share property has been quite brisk and excited, through the week, fluctuating widely toward the close, but leaving off strong and buoyant as a whole, though somewhat feverishly.

General business has been less active, in most lines, and values have been irregular. Breadstuffs and Provisions have been depressed. Cotton has been stronger under speculative purchases, to provide for April contracts. Middling upland cotton closed on Wednesday at 15¼@15⅜ cts. per lb. The receipts at all the ports, since Sept. 1, have been 3,513,244 bales, against 2,488,650 bales same time last year; exports 2,581,698 bales, against 1,743,991 bales same time last year; stock at the ports at latest dates, 527,742 bales, against 328,547 bales same date 1870.

Foreign goods have been held with firmness, as a rule, though the dealings have not been extensive. The week's imports having been up to $7,359,839, including $2,605,632 of Dry Goods and $4,754,207 of general merchandise.

At the Live Stock markets, Beeves have been in pretty fair demand at 10½@15c.; Veal Calves at 5@10½c; Sheep, at 5@9c., and Swine, at 6¾@7¼c. per lb., all live weight. Milch cows, quiet at $40@$100, each. The week's receipts were 6,437 Beeves, 79 Cows, 4,337 Veal Calves, 20,770 Sheep and Lambs, and 11,137 Hogs.

Ocean freights have been less active, and quoted irregular. For Liverpool, cotton at ¼@$\frac{5}{16}$ by sail and $\frac{5}{16}$@⅜d. by steam, per lb.; flour at 2s. 3d. by sail, and 2s. 6d.@2s. 9d. by steam, per bbl.; grain at 7d. by sail, and 7½d. by steam. per bushel; and heavy goods at 17s. 6d.@27s. 6d. by sail, and 25s.@40s. by steam per ton.

Railway Iron and Supplies.

The famous New York Banking House of Messrs. HENRY CLEWS & Co. opened, as is well known, somewhat over a year ago an office in London under the firm name of CLEWS, HABICHT & Co., for the transaction of a mercantile and banking business.

We are pleased to see by their recent announcement, that they have extended their mercantile branch to the purchase of Railway Iron and Supplies. It is eminently fitting that every great American Banking House in London should recognize, as Messrs. CLEWS, HABICHT & Co. have done, the magnitude of the Railway interest of America, and the field afforded for mercantile enterprise in connection with Railway development. Messrs. CLEWS & Co. bring to this new field facilities which are unsurpassed by any of their competitors. MR. HABICHT is well remembered in our community as prominent among the Iron merchants of this city, and his mercantile knowledge joined to the capital and reputation of the parent house will enable the firm to enter the Iron trade in London on most advantageous footing. The parent house is well known as among the largest bankers of this city, and their business has embraced an extensive negotiation of Railway securities and other transactions appertaining to internal improvements. In the other departments of their banking and commercial business the house is too well known to need particularizing. In every branch of their business they stand pre-eminent.

We are confident that buyers of Railway Iron would do well to call either upon Messrs. CLEWS & Co. here, or upon their London house before making contracts for the purchase of their supplies.

☞ We invite attention to the advertisement of Messrs. BILLMEYER & SMALLS, in another column. This firm has given considerable time and attention to the subject of Narrow Gauge Road and Cars, and consider themselves pioneers in the matter of building Narrow Gauge Freight Cars.

NEW LOAN OF THE UNITED STATES.

PROGRESS OF SUBSCRIPTIONS.

PRIVILEGE STILL OPEN FOR $200,000,000 FIVE PER CENTS.

The department has advised by telegraph that the subscriptions to the loan to Wednesday, April 26, amount to $62,000,000. The Secretary has also authorized the notice that the unconditional privilege of subscribing to the first-class of bonds, five per cents, to the extent of $200,000,000 remains open until further advice.

The proposed loan comprises three classes of bonds, namely:

First. Bonds to the amount of five hundred millions of dollars, payable in coin, at the pleasure of the United States, after ten years from the date of their issue, and bearing interest payable quarterly in coin, at the rate of five per cent. per annum.

Second. Bonds to the amount of three hundred millions of dollars, payable in coin, at the pleasure of the United States, after fifteen years from the date of their issue, and bearing interest, payable quarterly in coin, at the rate of four and a half per cent. per annum.

Third. Bonds to the amount of seven hundred millions of dollars, payable in coin, at the pleasure of the United States, after thirty years from the date of their issue, and bearing interest, payable quarterly in coin, at the rate of four per cent. per annum.

Subscriptions to the loan will have preference in the following order, namely:

First. Subscriptions that may be first made for five per cent. bonds to the amount of two hundred millions of dollars; of which there will be reserved, for twenty days one half for subscribers in this country and one half for subscribers in foreign countries.

Second. Subscriptions for equal amounts of each class of bonds.

Third. Subscriptions for equal amounts of bonds bearing interest at the rate of four and a half per cent., and of bonds bearing interest at the rate of five per cent.

Fourth. Subscriptions for any five per cent. bonds that may not be subscribed for in the preceding classes.

When a subscription is made, the subscriber will be required to deposit two per cent. of the amount thereof in coin or currency of the United States, or in bonds of the class to be exchanged, to be accounted for by the Government when the new bonds are delivered; and payments may be made either in coin or in bonds of the United States known as Five-Twenty bonds, at their par value.

The coin received in payment will be applied to the redemption of Five-Twenty bonds, and the debt of the United States will not be increased by this loan.

The bonds will be registered or issued with coupons, as may be desired by subscribers. Registered bonds will be issued of the denominations of $50, $100, $500, $1,000, $5,000 and $10,000; and coupon bonds of each denomination except the last two. The interest will be payable in the United States at the office of the Treasurer, any Assistant Treasurer, or designated depositary of the Government, quarterly, on the first days of February, May, August and November, in each year.

The bonds of the several classes aforesaid, and the interest thereon, are exempt from the payment of all taxes or dues of the United States, as well as from taxation in any form by or under State, municipal or local authority.

After maturity, the bonds last issued will be first redeemed, by classes and numbers, as may be designated by the Secretary of the Treasury.

The bonds will be issued at the United States Treasury, but the agents for the negotiation of the loan in Europe are authorized to make arrangements with subscribers for the transmission of the bonds to the agents through whom subscriptions may be received.

Subscribers in the United States will receive the new bonds of the agents with whom the subscriptions are made.

In the United States the National Banks are authorized to receive subscriptions, and subscriptions may also be made at the office of the Treasurer of the United States, or of any Assistant Treasurer, or the designated depositaries at Buffalo, N. Y.; Chicago, Ill.; Cincinnati, Ohio; Louisville, Ky.; Mobile, Ala., and Pittsburg, Pa.

HARVEY FISK. A. S. HATCH.

FISK & HATCH,

Bankers and Dealers in Government Securities,
No. 5 Nassau-st., New York, April 26, 1871.

The recent advance in the SIX PER CENT. GOLD BONDS OF THE CENTRAL PACIFIC RAILROAD CO. to a premium above par, affords an illustration of the popular demand both in this country and Europe for reliable six per cent. securities having a long and fixed time to run and paying a fair rate of interest on their cost; and it further shows that the first mortgage bonds of honorably managed railroads, when known and appreciated, will command public confidence, and must to a large extent take the place of the Government Five-Twenties (as the latter are purchased or called in by the Government), and thus command higher prices than heretofore.

THE CHESAPEAKE AND OHIO RAILROAD, under substantially the same Financial and Executive management as that which has rendered the Central Pacific so great a success, is being rapidly extended to the Ohio River in response to the demands of commerce for enlarged transportation facilities between the Great West and New York, and other important points on the Atlantic seaboard.

The present successful operation of the 227 miles of completed road, the value of the property upon which they are secured, the certainty of a very large and remunerative traffic for the road, and the very high character of the Company and of its Officers and Directors, commend the SIX PER CENT. GOLD BONDS OF THE CHESAPEAKE AND OHIO RAILROAD CO. to public confidence as a superior, safe, and reliable security.

Price 90 and accrued interest. Interest payable May 1 and Nov. 1. Bonds of $1,000, $500, and $100 each.

We personally recommend them to our friends and customers desiring to make new investments, or to fund their Five-Twenties.

A difference of about 20 PER CENT. may now be realized with entire safety by exchanging Five-Twenties for these Bonds.

FISK & HATCH.

Illinois Railroad and Warehouse Commissioners' Bill.

A bill has recently been passed by the Legislature of Illinois, and approved by the Governor, entitled "A Bill for an Act to Establish a Board of Railroad and Warehouse Commissioners and Prescribe their Powers and Duties." Sections 1 to 5 provide for the appointment of Commissioners, their term of service, compensation, qualification, etc. They shall be three in number, shall be appointed by the Governor within twenty days after the act shall take effect; shall hold office until the meeting of the next Legislature, when their successors shall be appointed, etc., etc., biennially; their term of service to commence with January in the year of their appointment; they shall not be connected with, or directly or indirectly interested in, the stock, bonds or property of any railroad or warehouse, or be in the employ of either; they shall subscribe to the usual oath; shall receive as compensation a sum not exceeding $5,000 per annum; and shall be supplied by the State with an office and its appointments to be kept at the Capital, and a secretary of their own selection, who shall receive not more than $2,000 per annum. They shall also, have the freedom of the railroads when in the performance of their duties. Section 6 reads as follows:

Every railroad company incorporated or doing business in this State, or which shall hereafter be incorporated or do business under any general or special law of this State, shall, on or before the first day of September, A. D. 1871, and on or before the same day each year thereafter, make and transfer to the commissioners appointed by virtue of this act, in Springfield a full and true statement, under oath, of the proper officers of said corporation, of the affairs of their said corporations, as the same existed on the 1st day of the preceding July, specifying:

1. The amount of the capital stock subscribed, and by whom.
2. The names of the owners of its stock, and the amount owned by them respectively, and the residence of each stockholder, as far as known.
3. The amount of stock paid in, and by whom.
4. The amount of its assets and liabilities.
5. The names and places of residence of its officers.
6. The amount of cash paid to the company on account of the original capital stock.
7. The amount of funded debt.
8. The amount of floating debt.
9. The estimated value of the road-bed, including iron and bridges.
10. The estimated value of rolling stock.
11. The estimated value of stations, buildings and fixtures.
12. The estimated value of other property.
13. The length of single main track.
14. The length of double main track.
15. The length of branches, stating whether they have single or double track.
16. The aggregate length of siding and other tracks not above enumerated.
17. The number of miles run by passenger trains during the year preceding the making the report.
18. The number of miles run by freight trains during the same period.
19. The number of tons of through freight carried during the same time.
20. The number of tons of local freight carried during the same time.
21. Its monthly earnings for the transportation of passengers during the same time.
22. Its monthly earnings for the transportation of freight during the same time.
23. Its monthly earnings from all other sources respectively.
24. The amount of expense incurred in the running and management of passenger trains during the same time.
25. The amount of expense incurred in the running and management of freight trains during the same time, and also the amount of expense incurred in the management of mixed trains during the same time.
26. All other expenses incurred in the running and management of the road during the same time, including the salaries of officers, which shall be reported separately.
27. The amount expended for repairs of road and maintenance of way, including repairs and renewal of bridges, and renewal of iron.
28. The amount expended for improvements, and whether the same are estimated as a part of the expenses of operating or repairing the road, and, if either, which.
29. The amount expended for motive power and cars.
30. The amount expended for station-houses, buildings and fixtures.
31. All other expenses for maintenance of way.
32. All other expenditures, either for the management of road, maintenance of way, motive power and cars, or for other purposes.
33. The rate of fare for passengers for each month during the same time—through and way passengers separately.
34. The tariff of freights, showing the change of tariff during the same time.
35. A copy of each published rate of fare for passengers, and tariff of freight, issued for the government of its agents during the same time.
36. Whether the rate of fare and tariff of freights in such published lists are the same as those actually received by the company during the same time. If not, what were received.
37. What express companies run on its road, and on what terms, and on what conditions; the kind of business done by them, and whether they take their freights at the depots, or at the office of such express companies.
38. What freight and transportation companies run on its road, and on what terms.
39. Whether such freight and transportation companies use the cars of the railroads, or the cars furnished by themselves.
40. Whether the freight or cars of such companies are given any preference in speed or order of transportation, and, if so, in what particular.
41. What running arrangements it has with other railroad companies, setting forth the contracts for the same.

Sections 7 and 8 confer upon the Commissioners power to make and propound to the president, directors and officers of every railroad company now existing, and which shall be incorporated or organized in the State, and to every lessee, manager, and operator of any railroad with the State, any additional interrogatories, which shall be answered in the same manner as those specified in the foregoing section.

Section 9 requires every warehouseman to supply at all times such information concerning the condition and management of his business as may be desired by the Commissioners.

Section 10 makes it the duty of the Commissioners, on or before the 1st of December in each year, and oftener if required, to make report to the Governor of their doings for the preceding year, containing such facts, statements and explanations as will disclose the actual workings of the system of railroad transportation and warehouse business, in their bearings upon the business and prosperity of the people of this State, and such suggestions in relation thereto as to them may seem appropriate, and particularly, first, whether, in their judgment, the railroads can be classified in regard to the rate of fare and freight to be charged upon them, and, if so, in what manner; second, whether a classification of freight can also be made, and, if so, in what manner. They shall also, at such time as the Governor shall direct, examine any particular subject connected with the condition and management of such railroads and warehouses, and report him in writing their opinion thereon, together with the reasons therefor.

The remaining sections, 11 to 19, chiefly relate to the penalties prescribed for non-compliance of the companies with the requirements of this act, and the laws of the State now in force, or which shall hereafter be in force concerning them.

Great Western Railway of Canada.

REPORT OF THE DIRECTORS FOR THE HALF-YEAR ENDING JANUARY 31, 1871.

The receipts on capital account during the half-year to 31st January, 1871, amounted to £549,333, as follows:—On account of third instalment of 5 per cent. preference stock, £197,054; remaining instalments on preference stock, in advance, £2,033; amount received on account of issue of £750,000 6 per cent. bonds, £492,450; total, £691,537. Deduct 4 per cent. bonds, due 1st Jan. 1871, paid off, £142,204; leaving the balance of receipts on capital account, £549,333. The total receipts on capital account amounted on the 31st January, to £6,138,736. The outlay on capital account during the half-year amounts to £71,588, of which £45,124 has been expended on account of the Glencoe and Buffalo line. The remaining expenditure includes cost of 44 miles of additional sidings at various parts of the line—increased cost of 3,000 tons of steel rails, as compared with iron rails—additions to station buildings—44 new gravel cars, and 2 baggage cars, being additions to stock—balance of expenditure on 5 new locomotives, &c., the details of which are shown in the engineer's and mechanical superintendent's reports. The total expenditure to 31st January amounted to £5,579,544, leaving a balance of £559,193 at the credit of capital account. The receipts and expenditure on revenue account for the half-year have been as follows:

Gross receipts		£444,349
Working expenses, including renewals and all charges		267,481
		£176,867
From which is deducted—		
Interest on bonds (less interest received)	£42,401	
Discount and charges on conversion of American funds	17,361	
Loss on working Erie and Niagara railway	523	
Amount set aside for renewal of ferry steamers	3,000	
		63,285
		£113,583
Add profit on working Galt and Guelph railway	£1,221	
Amount accruing to this company under agreement with the Michigan Central and Detroit and Milwaukee railroads for division of through earnings during the year ending 31st December, 1870	3,196	
Balance from last half-year	3,303	
		7,720
Available for dividend		£121,302

The dividend for the half-year on the 5 per cent. preference stock amounts to £13,150, leaving a balance of £108,153. From this balance the Directors recommend the payment of a dividend for the half-year on the ordinary shares at the rate of 6 per cent. per annum, payable in London on 26th April, which will absorb £104,372, and leave

a balance of £3,781 to be carried forward to the next half-year. The renewal fund for the ferry steamers amounts to £21,728. The discount and charges on the conversion of American currency for the half-year amounted to £17,361, as compared with £37,156 in the corresponding half-year. The average rate of conversion has been at the rate of 113¼. The average price of gold having been in the same period 116. The amount of assets in American funds at 31st January was $322,584 69, as compared with $220,120 56 at the commencement of the half-year. The following table exhibits the receipts and expenses for seven corresponding half-years :—

RECEIPTS.

Half-year ending	Passengers, mails, and sundries. £	Freight and live stock. £	Rents. £	Total. £
Jan., 1865	154,125	157,874	730	312,730
Jan., 1866	205,131	181,071	837	387,039
Jan., 1867	168,986	161,254	1,273	331,513
Jan., 1868	186,537	213,476	800	400,813
Jan., 1869	183,708	238,764	846	423,312
Jan., 1870	183,741	239,535	907	424,183
Jan., 1871	173,170	270,464	716	444,349

EXPENSES.

Half-year ending	Including renewals. £	Per cent. of gross receipts.
Jan. 31, 1865	168,577	53.91
Jan. 31, 1866	170,003	43.93
Jan. 31, 1867	166,632	50.26
Jan. 31, 1868	193,667	48.31
Jan. 31, 1869	209,752	49.55
Jan. 31, 1870	243,380	57.37
Jan. 31, 1871	267,481	60.19

The aggregate traffic receipts, compared with the corresponding half-year, exhibit a gross increase of £20,357, as follows :

Increase in way passenger traffic	£6,388
" way freight and live stock	5,562
" mails and express	57
" through freight and live stock,	25,366
	37,373
Decrease in through passenger traffic and emigrants	17,016
	£20,357

The following is a summary of the revenue results of the past half-year, as compared with those of the corresponding period of 1870 :

	1871. Cents.	1870. Cents.
Passenger earnings per mile :		
Receipts per way passenger	2,707	2,642
" through passenger	2,304	2,491
Freight earnings per mile :		
Receipts per ton way freight	3,340	3,319
" through freight	1,369	1,471
Average receipts per train mile	$1.90	$2.10
Ordinary working expenses	$1.11	$1.16

The cost of ordinary working expenses per train mile for seven corresponding half-years, is as follows :

	Sterling. s.	d.
January 31, 1865	5	1½
" 1866	4	6¾
" 1867	4	7¼
" 1868	4	5¾
" 1869	4	3¾
" 1870	4	9½
" 1871	4	6½

Following the policy indicated last half-year to maintain the permanent way in a thoroughly efficient condition, the amount expended upon the reconstruction of the track has been £14,141 in excess of the outlay for the corresponding half-year, and for the twelve months £44,077 in excess of that for the corresponding twelve months. All this extra expenditure has been borne by revenue. 3,000 tons of Bessemer steel rails, and 3,325 tons of re-rolled iron rails, of a superior quality, have been put into the road during the half-year. The attention of the Proprietors is called to the fact mentioned in the engineer's report, that during the past 15 months 111 miles of the main line have been relaid with steel rails, or with an excellent quality of iron rails, the cost of which has been charged to revenue, with the exception of the difference in value of the above 3,000 tons of steel rails over iron rails. The engineer also reports that this increased expenditure will be materially reduced during the current half-year ending July 31, 1871. During the past winter a very large traffic has been worked over the line with great regularity and almost entire freedom from casualties. Since the last report was issued, the important policy of changing the gauge from 5 ft. 6 in. to that of 4 ft. 8½ in. has been proceeded with. During the past half-year the third or outside rail has been removed, leaving a single narrow gauge track between Windsor and Komoka, 99¼ miles; Hamilton and Suspension Bridge 43¼ miles. The gauge of the line between Hamilton and Toronto has been narrowed from 5 ft. 6 in. to 4 ft. 8½ in. in 37¼ miles, and the gauge of the Sarnia, Petrolia, and Guelph Branches, 83¼ miles, will be changed as soon as possible, so as to enable the alteration of all the car stock to the narrow gauge. The triple line of rails will for the present remain down between Komoka and Hamilton, 86¼ miles, where the remaining broad gauge engines will be kept employed until they are replaced by narrow gauge. It will be observed that steps are being taken to dispose of or convert the broad gauge rolling stock, and it is proposed that the balance of the cost of altering the gauge, and providing the necessary narrow gauge rolling stock in substitution of the broad gauge, shall be charged to revenue, commencing next half-year and extending over a period of not exceeding five years; meantime the cost will be carried to "alteration of gauge suspense account." The condition of the gauge at present stands thus:—Main line, Windsor to Komoka, 99¼ miles, 4 ft. 8½ in. only; main line, Komoka to Hamilton, 86¼ miles, 4 ft. 8½ in. and 5 ft. 6 in.—by triple line of rails; main line, Hamilton to Suspension Bridge, 43¼ miles, 4 ft. 8½ in. only. Hamilton and Toronto Branch—Hamilton to Toronto, 37¼ miles, 4 ft. 8½ in. only. Galt and Guelph, and Wellington, Grey and Bruce—Harrisburg to Alma, 50¼ miles, 5 ft. 6 in. only; Sarnia Branch, Komoka to Sarnia, and Petrolia Branch, 55¼ miles, 5 ft. 6 in. only. The tripartite agreement between the Great Western, Michigan Central, and Detroit and Milwaukee Railways arranged by the last deputation to Canada, by which all the through traffic of the three companies is divided in certain proportions on the one-purse system, has worked satisfactorily. The Port Huron and Lake Michigan railway is in course of construction by an American Company from Port Huron opposite Sarnia, to Owosso, where it connects with the Detroit and Milwaukee Railroad. It will be 90 miles in length, and will run through one of the best settled portions of the State of Michigan. When completed, this line, in connection with the Great Western, will afford a shorter communication between the west and the east by forty miles. An agreement has been entered into by which the through traffic of this new line is secured to the Great Western. A certain portion of the additional traffic earnings which it will bring over the main line will, under this agreement, be applied to the acquisition of the first mortgage bonds of the new road, similar in every respect to the arrangement sanctioned with the Detroit and Hillsdale and Indiana railroad as mentioned in the report for the half-year to Jan. 31, 1870. On Jan. 21 last a branch line was opened from Suspension Bridge to the City of Buffalo, constructed by the Erie Railway Company, affording a connection eastward by that line, in addition to our present connection by the New York Central railway, which has already produced a very satisfactory addition to the weekly traffic. It has been deemed desirable to revive the project of making a short branch from Harrisburgh station, on the main line, to the town of Brantford, for which enabling powers were granted by the Legislature so far back as 1855. The length of this branch is 7¼ miles, and the cost will be within $150,000, towards which the town of Brantford contributes, as a free gift or bonus, the sum of $75,000. The line will terminate at the canal basin of the Grand River navigation, where the bulk of the grain business of the town is concentrated. Contracts have been let for the works of the Glencoe and Buffalo line for 103 miles of this railway. These contracts have been taken at prices within the engineer's estimates. The arrangements are not quite completed for the additional 46 miles between Canfield and the International Bridge into Buffalo. The result of the account kept of the traffic exchanged between the Great Western railway and the Wellington, Grey and Bruce railway for the last six months, shows that a sum of $7,609 16 can be applied to the acquisition of the bonds of that company, and in like manner a sum of $522 73 for the acquisition of the bonds of the Detroit, Hillsdale and Indiana railway. The receipts and expenditure of the Detroit and Milwaukee railroad for the year ending December 31, 1870, were as follows :

Gross earnings		£292,012
Working expenses, taxes, &c.	£188,609	
Interest on bonds, &c	81,033	
		269,643
		£22,368

The construction of new lines across the Detroit and Milwaukee railroad at several points has caused a large falling off in its local earnings, and the net revenue, after providing for interest on the first and second mortgage bonds of the company, has been expended on capital account, and therefore will not permit of the payment of any dividend on the preference shares held by this company. The freight traffic (both through and local) shows a satisfactory increase since the beginning of the present year. The directors are gratified that the favorable anticipations expressed in the last report are in course of realisation; the most beneficial results are expected when the alteration of the gauge and rolling stock now in progress is fully carried out.

On behalf of the board of directors.

THOMAS DAKIN, *President.*

New York, West Shore and Chicago R. W.

A movement toward the building of a new railroad has been made in this State by the filing of deeds of trust in the Clerk's office of the several counties through which the road will pass, for the New York, West Shore and Chicago Railway Company. The route of the road through the State of New York starts at a point on the west shore of the Hudson river, near the Jersey line, and runs through Rockland, Orange, Ulster, Greene and Albany counties. Leaving Albany, it runs northwesterly to Schenectady, along the south shore of the Mohawk river to Utica, then west to Syracuse. Thence it leads to Buffalo, and has its terminus in this State at a point on the Niagara river, in Erie county, running through the counties of Madison, Onondaga, Cayuga, Seneca, Ontario, Livingston, Monroe, Wyoming, Genesee and Erie, after leaving the Hudson. A route has been selected west from this State, with Chicago as the objective point.

☞ There is a corporation in this State known as the New York, Utica and Ogdensburgh Railway Company, which is authorized to construct an air line route from Ogdensburgh, in St. Lawrence county, to New York city, a distance of 300 miles. The necessary arrangements having been made with other roads already constructed or constructing, among them the Cooperstown Railroad and Black River Railroad. The enterprise is to be advanced at once. This road will connect the great railway system of Canada with New York city.

Journal of Railroad Law.

RAILROAD COMPANIES—LIABILITY OF A RAILROAD COMPANY FOR INJURIES RECEIVED BY AN EMPLOYEE, THROUGH THE CARELESSNESS OR NEGLIGENCE OF A CO-EMPLOYEE.

The facts in the recent case of The Chicago and Alton Railroad Company *vs.* Keefe, (47 Ill., 108,) are fully and clearly stated in the following opinion by.

LAWRENCE, J.—In Homer *vs.* Ill. Cent. R. R. Co., 15 Ill., 550; Ill. Cent. R. R. Co. *vs.* Cox, 21 ib., 20, and Moss *vs.* Johnson, 22 ib., 633, this Court, upon a full examination of the subject, and in conformity with the great current of authorities, held that one servant cannot recover against the common master for injuries resulting from the carelessness of a fellow servant, if the master had used due diligence in their selection. This question can no longer be considered an open one in this Court, and we do not propose to discuss it anew.

The second instruction given for the plaintiff in this case disregards this principle. That instruction tells the jury, if the carelessness of the engineer, in the management of the locomotive, caused the injury to the plaintiff, and if the plaintiff was engaged in an independent branch of the defendant's service, he should recover damages. That the duties of an employee of a railway company may be so entirely distinct from all occupation upon its trains, as to leave him at liberty to pursue the same legal remedies for injuries received while a passenger, may very probably be true. If for example a book keeper in a railway office should be injured, when travelling as a passenger, through the carelessness of the engineer, the reasons upon which the rule above referred to are founded, might be well held to have no application. But the employment of the person injured cannot be considered distinct in any sense, leading to this result, if of a character to make him a part of the force employed upon the train. If his duties attach him to the train, as a part of its personal equipment, then this branch of service is not dependent, in any such sense, as to exempt him from the general rule in regard to co-employees, in case he should be injured through the carelessness of the engineer. This was settled in the cases in 21st and 22d Ill., in the former of which the connection of the plaintiff with the train was the same as in the present case, to wit: that of a laborer, loading and unloading the cars, and the Court held the rule to apply. In the latter case, there was still less connection between the engineer or conductor. In the case before us, the plaintiff was a part of the working force of a construction train, and had been for some weeks, passing with it to and fro, and although his duties were distinct from those of the engineer, yet they were fellow servants of the company, and both engaged in the same general duty, to wit: the operating a construction train, though each worked in his own department. To hold that the rule did not apply in cases of this sort, would be practically to nullify it, as every employee upon a train might claim to have a distinct sphere of duty from that of his fellows. The reasons upon which the rule rests, whether sound or not, apply as fully to the present plaintiff as they would to the brakeman or baggage master of a passenger train when injured by the carelessness of the engineer. The second instruction for the plaintiff should not have been given.

It is urged, however, that the rule does not apply when the injured employee is acting in subordination to the co-employee, through whose negligence the injury has occurred. We do not propose to decide this question, as it is not presented by the record. There is no controversy about the facts in this case. It appears by the record, that while the plaintiff was engaged in unloading railroad iron from a platform car the conductor of the train went up the embankment to watch for an approaching passenger train, and signaled to the engineer to back the construction train in order to run on to a switch. The engineer backed without giving the preliminary whistle, as required by the rules, and the plaintiff was thrown from the platform car where he was at work. The record shows that the train, and all the persons upon it, were under the control of the conductor, and not of the engineer, and that this accident, so far as it is chargeable to the carelessness of any one, was due to that of the engineer who started the train without giving the signal required by the rules. There is no pretense for charging the conductor with negligence, and he was the only person on the train to whom the plaintiff was in subordination. It follows that the first instruction given for the plaintiff submitted an issue to the jury which the evidence did not present, and it should not have been given because calculated to mislead. In place of this the Court should have given the 18th, 14th and 15th instructions asked by the defendant, which are in conformity with this opinion.

The Judgment must be reversed, and the cause remanded.

Judgment reversed.

Testing of Rails.

The paper read at the Institution of Civil Engineers, London, on the 4th instant, was "On the Testing of Rails, with a description of a machine for the purpose," by Mr. James Price, M. Inst. C. E.

The author remarked on the importance of determining beforehand the fitness of rails for their work, so as to avoid the necessity for constant replacements, which were attended with danger, inconvenience to the traffic, and unnecessary expenditure. There were certain causes of increased wear in rails which could be avoided; first, the difference in the forms of rail tops on lines worked as one system, the tyres which ran on one portion not fitting the form of rail-top on other parts; and, secondly, the super-elevation of the outer rail on curves not being properly attended to. To facilitate calculation in the latter case, the author had invented a rule which left out the term radius,—a chord being found, the versed sine of which was the correct super-elevation for any curve. This chord, for a speed of 40 miles per hour, was 64ft. for the English gauge, and 67ft. for the Irish gauge, a chain length (66ft.) being sufficiently near for either. For any speed and any gauge the rule was—

Length of chord whose versed sine equalled super-elevation = ½ velocity in feet per second $\times \sqrt{}$ gauge.

The qualities sought in a rail were fourfold:—1 deg. Strength, as girder, to sustain a moving load; 2 deg. Toughness, to resist sudden strain or impact; 3 deg. Solidity, to resist separation under pressure; and 4 deg. Hardness, to resist wear of the surface.

Strength depended on the form of the rail and on the quality of the iron. The flange or Vignoles rails stood first, as to form, for strength, and the double-headed came next; while the bridge-rail was a bad girder-form, and 30 per cent. of such rails broke before they were worn out. The proper interval for the sleepers was determined by the stiffness of the rail used. It was argued that the deflection of the rail, under its heaviest load, when in the centre between two sleepers, should equal the difference of the depression of each sleeper when the load was in that position, and born equally by two sleepers, and when it was directly over one sleeper. The author, having measured these deflections and depressions, found some rails too stiff for sleepers 3ft. apart from centre to centre, and some too flexible; and he adopted intervals of 3ft. 6in. for a deep-flange rail weighing 76 lb. to the yard. Rails should be tested for strength at a double interval—namely, such as would occur were every alternate sleeper left out.

Toughness might be measured by the amount of extension obtained in tearing asunder strips cut from the rail. The author had obtained from 8 to 9 per cent. of extension when the samples broke with a strain of 21 tons per square inch. Toughness, together with a hard head, could be obtained in a flange rail, but it was doubtful whether both qualities could coexist in a double headed rail. By solidity was meant freedom from particles of foreign matter and perfect welding. Hardness was of most consequence on inclines and at stations.

Existing modes of testing rails might be divided into—[1] Dead weight test, which was valueless as not being analogous to actual work; [2] Falling weight test, which was unfair, serviceable rails being rejected by it, as it went as far beyond the requirements of practice as the other fell short of it. Thus a rail might be bent, over a decayed or badly packed sleeper, by a train moving at the rate of 40 miles per hour,—a velocity only 1-26th part as great as that with which it was struck by a weight falling only 4ft; [3] the examination of fracture to ascertain structure was a matter of too great nicety for general use.

The machine employed by the author for testing rails subjected them to wear analogous to actual use. It consisted of a pair of metal rollers, 5ft. in diameter, 16in. wide, and weighing 2½ tons each, supporting a circular frame or beam weighing 6½ tons, this frame being connected by radii with a centre boss, through which passed a vertical axle. The circle traversed was 40ft. in diameter. One roller bore with 6 tons and the other with 5 tons pressure. Motion was communicated either by shafting and gearing underneath, or by the direct action of a steam engine. The speed at which the machine could be worked was about 20 miles per hour, but it was generally run at a speed of 13 or 14 miles per hour. The rollers were caused to revolve over a ring or polygon of the rails to be tested until the rails were broken or worn out, and they bore with a weight equal to that of the driving wheel of a locomotive. The rule of "speed tons," demonstrated by Mr. Price Williams, M. I. C. E., was adopted as a basis; but it was found that the number of "speed-tons" required to wear out rails was greatly diminished by the weights being concentrated on fewer points. A comparison with a standard was however obtained. The bending of the rail to form a circle, if done at a dull red heat, did not injure the texture of the iron, but a polygonal arrangement was preferred, to equalise the wear on the rollers. In testing iron rails for strength, some gaps were left in the circle, and the rails laid across unsupported for an interval of 6 feet. It was then found that flange rails weighing 76lb. to the yard did not take any set until the flanges were drilled in the centre with two ¾in. holes, and the material cut away from those holes to the edges; and that they did not break until the flanges were cut away so that only ¼in. of iron was left in the centre, showing a good margin of strength. The results of testing the wearing properties of eight samples of rails were given in a table, and six pieces of worn out rails were exhibited.

Out of 427 Bessemer steel rails, of flange pattern, tested for strength, with an interval of 6ft. between the supports, four only broke. The author recommended all steel rails to be tested for strength, as a few brittle ones brought discredit on all, by causing accidents. They could be tested, without stopping the machine, at the rate of from 4 to 5 tons of rails per hour at a single opening, of which their might be three or four in the circle.

A machine of full power, with four rollers pressing with 7 tons each upon the rails, would, if working at a speed of 40 miles per hour, give, per day of twenty-two hours, an effect of 41,395,200 speed tons. A few days of such work would determine the qualities of even very good rails.

☞ The Chesapeake and Ohio Railroad Company announce that the registered and coupon interest on their first mortgage bonds will be paid, free of Government tax, May 1, at the banking house of Messrs. Fisk & Hatch, New York. The transfer books for registered bonds will be closed from the 28th inst. to the 2d proximo.

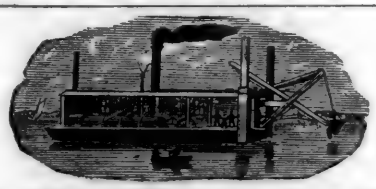
☞ Stephen L. Stephenson has received the appointment of engineer on the extension of the Great Falls and Conway road, through Ossipee to Conway, N. H. It is understood that the road will be located to Conway, and completed at an early day.

YORK CAR WORKS.

ESTABLISHED IN 1852.

Billmeyer & Smalls,

YORK, PENN.



This old established firm continue to build all kinds of Freight Cars to order.

Narrow Gauge Cars

having received their special attention, they are prepared to receive orders and to deliver promptly. A contract has just been made with the pioneer Narrow Gauge Road—3 ft. Gauge—on this Continent—(The Denver and Rio Grande R. W.)—for 100 cars; also for a Georgia Road.

Comparative weights of Narrow and Full Gauge Cars sent by mail free of charge.

Rolling Mill Property
FOR SALE,
OPPOSITE NEW YORK CITY.

The well-known North River or Durbin Rolling Mill, situated at Prospect and North 5th St., Jersey City, New Jersey. The Real Estate consists of sixteen city lots, 25x100 feet each, with two large Dwelling Houses, well built and in good order. Also a large building occupying two lots, suitable for a Machine Shop or other purposes, a Stable, &c.

The Rolling Mill was built for the manufacture of Locomotive and other descriptions of Boiler Tank and Plate Irons, contains a heavy Roll Train, Engines, Furnaces, Machinery, &c. to suit, in good order. It can be seen running, and has been successfully run from its establishment in 1855. Situated near the Hudson River, a short and nearly equal distance from all the New Jersey Railroad Depots and Ferries, the Erie Depots and Ferries and the Hoboken or Delaware & Lackawanna Depots and Ferries, from its proximity to the New York Market, the large Locomotive and Railroad Shops of the City and Paterson, the facilities for forwarding to all points by water or railroad, it cannot be surpassed.

The Real Estate is rapidly increasing in value the vast R. R. Interests and dock improvements mentioned having taken up almost the entire River front and space below the mill property from the Cortland St. to Hoboken ferries. The reputation and business established. The Proprietor intends retiring from the business, and for further particulars can be addressed or seen daily at the

Office, 140 HUDSON STREET,
Jersey City N. J.,
In the First National Bank Building.

Propositions for Lease or Selling the Machinery for removal entertained.

Map can be seen and General Information may be obtained also of Wm. H. Wallace & Co., Corner of Liberty and Washington Streets, N. Y., City Agents; and R. R. Chrisman, Supt. Central Iron Works, Harrisburgh, Pa. (formerly a Proprietor.)

RAILROAD IRON.

THE undersigned, agents for the manufacturers are prepared to make **CONTRACTS FOR RAILS** delivered free on board at ports in England, or exship at ports in the United States.

Regulations for the Transportation of Bonded Merchandise.

The law authorizing the transportation of imported goods without appraisement, passed July 14, 1870, restricted the Secretary of the Treasury to bonding only such routes as could transport goods direct from the point of landing to the place of delivery; consequently the Erie and the Baltimore and Ohio Railroad Companies were excluded from compteing with other lines in forwarding goods under the provisions of that act. To remedy this inequality in the law Congress at its last session amended the original act so as to provide that, in case of difference in width of gauge of connecting railroads, goods might be transferred to the cars of another route, under such regulations as should be prescribed by the Secretary of the Treasury. In accordance with this authority the following was issued by Acting Secretary Richardson, and will go into effect immediately:

TREASURY DEPARTMENT, April 26, 1871.

An act entitled "An act to reduce internal taxes, and for other purposes," approved July 14, 1870, having been amended by an act approved April 20, 1871, by adding to the last clause of the thirty-second section of said act of July 14, 1870, as follows:—"Provided, that in case of difference in width of gauges of connecting railroads the goods may be immediately transferred from one car to another, under the personal supervision of an inspector and such rules and regulations as the Secretary of the Treasury may prescribe." In order to carry out the provision of this amendment to said act the following regulations are hereby prescribed as additional to the requirements for the regulation of the transportation of merchandise without appraisement, of October 1, 1870, under the act of July 14, 1870:

If the merchandise is to be transported by a route which requires a transhipment on account or by reason of break or difference in width of gauge of railways, the manifest required by article eleven of the regulations of October 1, 1870, will be prepared in quadruplicate. The fourth copy will be sent to the inspector at the place of transhipment, who will, on the arrival of the car, personally superintendent the transfer of the goods from one car to another, checking them off by the manifest received and accompanying the goods. He will then certify on both manifests the fact of the transfer and the number and description of the car or cars in which the goods are placed, and adding that the cars into which the goods are so transferred are securely fastened, duly locked and sealed by him, stating all such particulars in respect thereto as are required of ports of first arrival of such goods, which certificates are to be signed by the inspector. The triplicate copies of the manifest provided for by article eleven of the regulations of October 1, 1870, are for the use directed by articles of those regulations. The certificates of the transfer of the goods from one car to another and the particulars in relation to the fastenings, locks and seals will be endorsed on the conductor's copy of the manifest, in addition to the original certificates, and delivered to the conductor of the car into which the goods have been transferred, to be reported and delivered to the collector or other proper officer of the customs at the port of destination, in the manner required by article thirteen of the regulations of October 1, 1870. The additional copy of manifest required by these regulations will be certified by the inspector and enclosed in a sealed envelope and sent by him to the inspector stationed at the place at which the transfer of the goods is authorized to be made, who will, in like manner, endorse his action thereon and keep the same in his possession as a record of the transaction until otherwise directed. The transfer of goods from one car to another, under the provisions of the act of April 20, 1871, will be made only at such points or places and to and from such cars as may be specially authorized by the Secretary of the Treasury, in due and proper written application made to him for that purpose. Under no circumstances must the locks and seals be removed from a car, or access be had to the contents in any manner, except of a duly authorized inspector, to whom alone the custody of the locks, keys and seals to be used at such places of transfer will be entrusted. The owners and proprietors of bonded lines upon which such transfer may be authorized will be required to pay monthly to such collector of the customs as may be designated the compensation of all inspectors stationed or employed for the purpose of making such transfer of goods.

WILLIAM A. RICHARDSON,
Acting Secretary of the Treasury.

The above regulations are regarded as removing the last objection to carrying into effect a measure that has long been contended for by Western merchants, and it is understood that both the Erie and Baltimore and Ohio Railroad companies will without further delay commence forwarding goods without appraisement to Western cities.

Clark, Walcott & Co.

We call attention to the advertisement of the new Banking House of CLARK, WALCOTT & Co., which appears on another page. Mr. CLARK is an old merchant of Boston, and well known in this city. Mr. WALCOTT is a member of the New York Stock Exchange, and Mr. SICKELS was formerly the financial agent of the State of Arkansas and connected with several prominent financial institutions in this city.

Memphis and St. Louis Railroad.

The Western Construction Company, an organization of capitalists and contractors, have filed articles of association in St. Louis Circuit Court and will meet soon for the purpose of taking steps for the immediate construction of the Memphis and St. Louis Railroad. This railroad commences at Helena, Arkansas, and will run up the bank of the Mississippi to the Missouri State line, where a branch is contemplated to connect either with the Iron Mountain railroad or the Illinois roads running north via Commerce, Scott county. The road will be in Arkansas 145 miles in length; the road bed being built first as a levee, to protect the overflowed lands, and 85 miles in Missouri, with a probability of one hundred and forty in Illinois to make the desired connections. The following amounts have been subscribed for the road: Arkansas $3,000,000 and about 1,000,000 acres of swamp and overflowed lands. In Missouri, subscriptions in bond and land amounting

to $500,000. In Ill., county and township bonds amounting to $1,250,000.—*St. Louis Republican.*

Central Railroad of New Jersey.

The Directors of the Central Railroad Company of New Jersey present to the stockholders the following report, for the year ending December 31st, 1870. For convenience of comparison, many of the statements are made to cover the year 1869 as well as the past year.

SERVICE OF THE ROAD AND FERRY.

The service of the road has been as follows:

	1870.	1869.
Miles run by passenger trains..	875,049	827,582
" " merchandise " .	574,208	586,858
" " coal trains.....	828,971	702,592
Total by transpt'n trains.	2,278,228	2,117,032
Miles run by wood, gravel and construction trains...	66,817	98,066
Total miles run by trains....	2,345,045	2,215,098

During the year the ferry boats have made 36,336 trips between New York and Jersey City, against 36,309 trips last year. The ferry to Elizabeth has also been regularly kept up.

PASSENGERS, FREIGHT AND COAL.

A comparison of the passenger business of the year 1870 with the year 1869 gives the following results:

	1870.	1869.
Number of passengers....	3,291,034	2,296,861
Miles travelled by pass....	40,499,888	32,177,945
Equal to through pass....	539,999	429,039

A comparison of the merchandise business of the two years, gives the following results:

	1870.	1869.
Number of tons carried...	702,529	705,611
Tons carried one mile.....	42,792,171	43,257,860
Equal to through tonnage.	570,562	577,239

A comparison of the coal business of the two years, gives the following results—the through tonnage being calculated from Easton to Port Johnston—

	1870.	1869.
Number of tons carried..	2,052,184	1,506 052
Tons carried one mile....	115,304,381	86,509,284
Equal to through tonnage	1,695,653	1,272,195

There was an increase in Lehigh coal of 264,019 tons, and in Lackawanna coal of 232,113 tons.

EQUIPMENT.

The company now own 117 locomotives, of which 106 burn anthracite coal, and 11 wood or soft coal. The condition of engines is reported as follows: 75 in first class condition, 9 in good order; 10 require general and 6 slight repairs; and 17 now in shop under repairs. Two new shifting engines have been added. The car equipment is reported as follows:

84 first class passenger cars; 18 second class passenger; 11 first class combination smoking; 15 baggage and mail; 3 express; 140 eight-wheel box; 16 four-wheel box; 20 eight wheel stock; 146 eight-wheel platform; 108 six-wheel iron and lime; 45 eight-wheel gondola; 697 eight-wheel coal; 924 four-wheel coal; 122 four wheel gravel; 2 eight-wheel caboose; 47 four-wheel caboose; 5 derrick and tool; 1 six-wheel wood rack; 5 four-wheel wood rack cars.

During the year 4 new first class passenger cars, 2 new baggage and mail, and 5 eight-wheel platform cars, were purchased; 2 first class passenger cars converted to combination cars, and one baggage and mail car converted to full baggage car; 15 eight-wheel box, 26 eight-wheel gondola, 10 four-wheel caboose, 25 four-wheel and 12 eight wheel coal cars were rebuilt by contract.

The coal tonnage over the road since the transportation of coal was commenced, has been as follows:

	Lehigh. Tons.	Lackawanna. Tons.	Total. Tons.
1856.....	33,325	98,670	131,995
1857.....	84,841	209,950	294,791
1858.....	122,923	417,726	540,649
1859.....	183 277	455,681	638,958
1860.....	263,906	590,863	854,769
1861.....	254,345	568,869	823,214
1862.....	314,195	502,375	816,570
1863.....	435,927	613,954	1,049,881
1864.....	474,221	675,743	1,149,964
1865.....	509,819	494,687	1,004,506
1866.....	511,076	778,173	1.289.249
1867.....	513,425	855,620	1,369,045
1868.....	765,657	853,188	1,618,845
1869.....	733,485	822,567	1,556,052
1870.....	997,504	1,054,680	2 052,184
Total....	6,197,926	8,992,746	15,190,672

TRANSPORTATION ACCOUNT.

The following is a statement of the ordinary receipts and expenses for the year 1870, compared with 1869.

Receipts:	1870.	1869.
Passengers.....	$1 118,147 20	$957,657 91
Merchandise.....	1,172,870 63	1,180,598 73
Coal.....	1,954,550 56	1,737,991 66
Mail.....	15,772 40	15,772 40
Express.....	23,786 10	50,279 60
Rents.....	80,900 36	41,377 91
Miscellaneous.....	22,486 87	26,343 52
Total receipts....	$4,393,514 12	$4,010,121 73
Expenses:		
Running expenses....	$799,906 85	$742,458 61
Wood consumed.....	47,961 66	75,848 64
Coal consumed.....	240,117 13	289,240 79
Repairs of road.....	405,522 17	453,900 45
Repairs of engines....	216,211 73	260,706 21
Repairs passenger cars	39,657 03	63,452 53
Repairs freight cars..	23.150 99	40,692 01
Repairs coal cars....	40,705 50	76,191 05
Repairs docks, Elizabethport.....	20,262 13	22,046 11
Repairs buildings, bridges, etc.....	175,486 25	146,693 58
Repairs tools and machinery.....	18,875 89	22,023 73
Expense account	103,811 10	99,430 88
Miscellaneous exp...	105,341 58	70,382 95
Ferry running exp...	106,556 33	115,905 47
Ferry boat repairs....	41,995 62	32 207 11
Ferry miscel. expenses	....	483 00
Car service.....	126,654 68	130,500 25
Total expenses...	$2,512,216 64	$2,612,163 37
Balance net earn.	$1,881,297 48	$1,367,958 36

An increase of receipts is here shown of $383,392 39, or 9¼ per cent. The increase in passenger receipts was $160,389 29, or 17 per cent.; and in coal receipts, $216,558 90, or 12½ per cent. There was a decrease in merchandise receipts of $7,728 10, or 1 per cent.

The expenses show a decrease of $129,946 73, or 5 per cent. There has been an increase in running expenses of $55,448 24; in repairs of buildings, machinery, &c., of $23,860 85; and, in general expenses, of $39,338 85. There has been a decrease in repairs of road of $48,378 28; in fuel consumed of $77,010 64; in car service of $3,845 57; in repairs of equipment of $121,316 55, and in ferry expenses of $43 63.

The gross receipts per mile run have been as follows: from passenger trains, $1 28 against $1 16 in 1869; from merchandise trains, $2 04 against $1 90; from coal trains, $2 36 against $2 27. The average receipts per mile run from all trains have been $1 87 against $1 81 the previous year.

The gross expenses per mile run have been $1 07 againts $1 19 the previous year.

The following table shows the receipts, expenses and net earnings, from the beginning of the annual reports to the Legislature, to the present time:

	Receipts.	Expenses.	Net Earnings.
1853.	$349,018	$197,629	$151,389 or 43 p.c.
1854.	378,145	197,349	180,796 or 48 "
1855.	393,729	208,856	184,873 or 48 "
1856.	553,479	258,308	295,171 or 53 "
1857.	682,314	340 502	341,812 or 51 "
1858.	836,934	345,614	491,320 or 58 "
1859.	971 702	385,716	585,986 or 61 "
1860.	1,185,848	475.457	710,391 or 60 "
1861.	1,201,895	522,452	679,443 or 57 "
1862.	1,397,586	623,245	774,341 or 56 "
1863.	1,941,976	814,732	1,127 244 or 58 "
1864.	2,587,185	1 281,554	1,305,631 or 51 "
1865.	3,036,390	1,748,434	1,287,956 or 51 "
1866.	3,581,244	1,963,976	1,617,268 or 45 "
1867.	3,350,398	1,878,022	1 472,376 or 44 "
1868.	3,729,412	2 379,192	1,350,220 or 36 "
1869.	4,010,121	2,642 163	1,367,958 or 34 "
1870.	4,393,514	2,512,217	1,881,297 or 43 "
Tot.	$34,530,890	$18,725,418	$15,805,472 or 46 p.c.

FINANCIAL CONDITION.

The following is a statement of the financial operations during the year:

Credits:	
Balance cash, Dec. 31, 1869.....	$47,773 19
Gross earnings, as per statement...	4,393,514 12
Mortgage bonds of 1890.....	937,000 00
Lands, materials, etc., decrease.....	1,895,125 32
Total.....	$7,273,412 63
Debits:	
Ordinary expenses, as per statement.	$2,512,216 64
First mortgage bonds paid.....	760,000 00
Second mortgage bonds paid.....	346,000 00
Grading.....	18,818 94
Masonry.....	4,236 04
Railway superstructure.....	35,570 59
Bridge superstructure.....	2,623 50
Land damage.....	32,713 43
Engineering.....	10,573 66
Station houses.....	34.369 10
Engines.....	193,000 00
Passenger cars.....	162,090 00
Freight cars.....	51,000 00
Coal cars.....	93,000 05
Interest account for year, balance..	223,387 64
State taxes for year.....	61,660 61
United States taxes.....	37,147 83
Dividends for year, 8 per cent.....	1,200,000 00
Land scrip dividend among stockholders.....	900,000 00
Accounts receivable, increase.....	589,554 63
Balance cash, Dec. 31, 1870..	5,540 02
Total.....	$7,273,412 63

The profit and loss account has been credited:

Gross earnings for the year.....	$4,393,514 12
Undivided earnings.....	550,836 25
	$4,944,350 37

It has been debited as follows:

Ordinary expenses....	$2,512,216 64	
Interest account.....	223,387 64	
Taxes to State.....	61,660 61	
United States Taxes..	37,147 83	
Dividend account.....	1,200,000 00	
Land scrip divided among stockholders	900,000 00	
		4,934,412 72
Balance.....		$9,937 65

The cost of the railroad, double-tracked, with its coal wharves, station houses, shops, and other appendages, stands at $10,630,122 60, and that of the equipment at $2,674,000.

BUSINESS OF THE YEAR.

A very large addition to the coal traffic is the principal feature of the year's business, being an increase of nearly one-third. Part of this increase has been owing to the long continued strike in the Schuylkill region, which left the entire demand for hard coal to be supplied from the Lehigh and Lackawanna regions; but the whole business is rapidly growing, and the increase promises to

hold good. Large additions to the shipping facilities will be required at Port Johnston, and coal wharves and coal yards will also have to be provided at Jersey City. Another extensive and now universal strike makes a bad beginning to the new year, but the large business, at high prices, that will immediately follow the close of the strike will, it is hoped, make up the loss before the end of the year. If it should result in such a settlement as will be just to all concerned, and give a proper basis for all subsequent adjustments of prices, as well as provide for the settlement of disputes by arbitration instead of strikes or lockouts, it will be well worth all the losses, privations, and public inconvenience that it has occasioned.

STEEL RAILS.

The requisite time of experiment having passed, the company have decided to begin at once relaying the main tracks with steel rails, with the intention of continuing the work till such rails have entirely taken the place of iron in all tracks exposed to heavy wear and traffic. As the business of the road has increased, the iron rails, though selected with the utmost care and from the best manufacturers, have been found to fail with still greater rapidity, till the addition made thereby to the expense of keeping the roadway in repair has become a very serious matter. The Board have ordered 5,000 tons for use the present year, partly American and partly foreign, mostly entirely steel, but part steel capped; and hope, within a few years, to see large reductions in the expenses resulting from the substitution.

NEWARK AND NEW YORK RAILROAD.

The heavy cost of this branch, from near Jersey City to Broad Street, in Newark, will make it a tax on the resources of the parent company for some time to come; but it is well built and cheaply run, and the business is constantly increasing, so that a steady improvement in results is to be expected. As is known to most of the stockholders, the road is carried by embankments and iron bridges, over the streets to the heart of Newark. The temporary grade through Bergen Hill is being reduced from 90 feet to 40 feet. The road approaches very nearly to a tangent line throughout its entire length, and is two miles shorter than any existing route.

BRANCH FROM CENTRAL TO NEWARK ROAD.

An accident to the draw of the Newark Bay bridge in October, 1869, and the recurrence of another in December last, each acting as a serious interruption to the business of the road and consequently as a great inconvenience to the public, have demonstrated the necessity of providing some safeguard against the possibility of such interruptions in the future. It has, therefore, been decided to build, forthwith, a branch across the meadows east of Elizabeth, with a view of connecting the main line near Elizabethport with the Newark branch at the earliest practicable time this year. The line is a level tangent, the right of way and the work inexpensive, and the whole can be very speedily completed. When ready, it will give a perfect security to passengers and freighters against detentions, as in case of accident, all the trains can be sent across the meadows by a route but two miles longer than the direct road. The Newark freight and coal business will also be done over this branch, and Newark through passenger cars can be put on to revive a business, once large, which has almost perished under the difficulties it has had to contend with.

DELAWARE, LACKAWANNA AND WESTERN R. R. CO.

Many inquiries have been made about the present position of matters between the Delaware, Lackawanna and Western Railroad Co. and the Central. The contract between the companies is a perpetual one, and binds the bulk of their business of all kinds to this avenue. The lease of the Morris and Essex Railroad by the former has resulted in the diversion of most of the passenger and freight traffic of the Scranton road to that route. As yet the coal business is mainly carried over our road to the wharves at Elizabethport, owned by the D., L. and W. As this transfer is clearly in violation of the contract under which the broad gauge was laid on the Central road exclusively for this business, suit was commenced at the close of the year for damages up to that time, and a fresh suit will have to be brought each year, for ever increasing damages, unless an amicable adjustment is proposed and carried out.

CENTRAL NEW JERSEY LAND IMPROVEMENT CO.

The extensive and valuable lands along the line of the Central road and of the Newark branch, so far as the same were no longer necessary or desirable for the purposes of the railroad, have been transferred, from time to time, to the Central New Jersey Land Improvement Co., under a charter, secured some years ago, for the very purpose of receiving these lands when the time should come for parting with them. All the stock of the Land Company was held by or for this company; and, as it was no longer necessary or desirable to control it, the stock was allotted, at the close of the year, among the stockholders of the Central road, *pro rata*, with $30, or thirty per cent., credited on each share, as a representative of the profits of the year over eight per cent. and of the previous profits of which no division had been made. The remaining instalments, as called by the Land Company, will be paid over to the railroad company, in liquidation of the balance due by the former to the latter on the purchases, and the money will be applied to the purchase of equipment, &c., for which purpose large sums would otherwise have to be raised. The value of these lands is large and rapidly increasing, and will, it is believed, return a good profit to the stockholders.

The lands and water front of the American Dock and Improvement Company are not affected in any way by this transfer, nor does it affect lands used at present, or required prospectively for railroad purposes.

DIVIDENDS.

Two semi-annual dividends, of four per cent. each, have been made during the year; as also the allotment of land scrip, above stated.

BONDS.

The remaining $900,000 of the first mortgage bonds became due on the 1st of August last, and $760,000 have been paid off. Of the $600,000 outstanding of the second mortgage, $346,000 have been anticipated; making a total of $1,106,000 bonds redeemed. Of the mortgage bonds of 1890, $937,000 have been issued at par and interest. The bonded debt therefore is now $3,231,000, or $169,000 less than at the beginning of the fiscal year.

LEHIGH AND SUSQUEHANNA RAILROAD.

Since the close of the year 1870, a most important negotiation has been commenced and perfected for the lease of the Lehigh and Susquehanna railroad and branches. This road extends from the terminus of the Central at Phillipsburg, up the Lehigh Valley, and across the mountain range into the Wyoming Valley; the main road being 105 miles in length, while the branches, sidings and double track, bring the length of track up to 252½ miles. The contract is perpetual, and practically carries the terminus of the road into the heart of the finest Lehigh and Lackawanna coal regions, with a certain command of a steady supply of coal from the extensive coal lands owned or controlled by the Lehigh Company. Printed copies of the lease will be sent to the stockholders. Attention is drawn to the fact that as the Lehigh Coal and Navigation Company receive as rent one-third of the gross receipts, this Company incur no liability except for business actually done. The risk of freshets also is taken by the lessors, and not by this Company. The entire equipment of the road, consisting of 72 engines, 15 passenger cars, 10 baggage cars, 554 freight cars, 19,442 coal cars and 268 other cars is also purchased at valuations amounting to $8,632,750. All this equipment is new or nearly so, uniform in style and make, and corresponds with the Central cars and engines, so that much expense in maintaining will be avoided. Payment for this equipment is made by the assumption of $2,310,000 of the Lehigh six per cent. loan, due in 1897, and of the outstanding balances of the two Lehigh Car Trusts; so that the purchase requires no immediate payment of heavy sums, but can be made to suit the convenience of the treasury.

The road is in excellent order, especially the part from Phillipsburg to Mauch Chunk, which is laid entirely with steel rails, while the masonry and other work are of the first character. Most of the curves on the upper road are also laid with steel rails. The planes at Wilkesbarre for raising the coal from the Wyoming Valley to the top of the mountains are entirely new, a complete success, and greatly reduce the cost of transporting coal from that region. In fact, no expense has been spared by the Lehigh Coal and Navigation Company to make their road as perfect as possible. It is believed to be a contract fair and advantageous to both parties, and likely to work well. It goes into operation on the 1st of April, and this report has been somewhat delayed so as to announce the fact of the lease to the stockholders.

It is proper to add that every care has been taken to avoid injury to the interests of the Lehigh Valley Railroad Company, from this acquisition. It is proposed that each road should take the business legitimately belonging to it; that equitable divisions should be made of business common to both, and that injurious competition (sure to end in combination) should be avoided. In this way it is hoped that the business of the region will be done more regularly and profitably to all concerned, the public included, than has been the case in the few past years.

BALANCE SHEET, JANUARY 1, 1870.

Railroad		$7,764,112 25
Jersey City station		964,448 10
Port Johnston coal station		695,076 01
Elizabethport station		300,146 10
Station houses, shops and water stations		546,035 39
Ferry interest and boats		574,046 10
Engines		1,193,000 00
Passenger and baggage cars		507,000 00
Freight cars		316,000 00
Coal cars		658,000 00
Land, docks, machinery, miscellaneous property, etc.		1,609,807 84
American Dock and Improvement Co. stock		1,500,000 00
Newark and New York R. R. Co.		705,217 17
Chairs, spikes, iron rails and ties, on hand		78,025 61

Cash and accounts receivable including balance due by Land Co.		2,210,056 53
		$19,799,043 35
Capital stock		$15,000,000 00
First mort. bonds, due 1870	$140,000 00	
Second mort. bonds, due 1875	254,000 00	
Mort. bonds of 1890.	2,837,000 00	
		$3,231,000 00
Interest on bonds, accrued, not yet due		90,500 00
Accounts payable		1,467,605 70
Renewal fund		9,937 65
		$19,799,043 35

President.—JOHN TAYLOR JOHNSTON.

Board of Directors.—John Taylor Johnston, John C. Green, Adam Norrie, Sidney Dillon, James Boorman Johnston, New York; Benjamin Williamson, Elizabeth; F. T. Frelinghuysen, Newark; Henry D. Maxwell, Easton, Pa.; Asa Packer, Mauch Chunck, Pa.

Secretary and Treasurer.—SAMUEL KNOX.

Superintendent and Engineer.—R. E. RICKER.

Consulting Engineer.—JAMES MOORE.

Testing Bridge Iron and Car Axles.

The Pencoyd Iron Works, located near Philadelphia, are justly celebrated for the superior quality of their Rolled and Hammered Car Axles, and also Bridge Iron. They have lately furnished a lot of iron for Bridge Bolts on the Extension of the Catawissa Railroad, and send us the tests made on same by A. Whitney & Sons, from which it will be observed the iron stood a tensile strain per square inch of cross section from 64,000 to 68,000 pounds.

They have also erected a drop on plans furnished by the Pennsylvania Railroad Company, for testing Car Axles, and propose to make weekly tests of Axles, both Hammered and Rolled, at their works. They send us a few of those made April 24th.

Philadelphia, December 5, 1870.

Messrs. A. & P. Roberts & Co., 414 Walnut St.

Gentlemen—We report thus on the 3 bars of iron (wrought) sent us with yours of 2d inst:

Bar 1⅝ inch diameter broke at 66,208 pounds per square inch.
" 1¼ " " " 68,481 " "
" 1⅛ " " " 64,940 " "

Record No. 1219.

Yours truly,
A. Whitney & Sons.

Philadelphia, December 20, 1870.

Theodore Thomas, Esq., care of A. & P. Roberts & Co.

Dear Sir—The sample of wrought iron left with us broke at 68,481 pounds per square inch stretching 0.13 in.

Record No. 1227.

Yours truly,
A. Whitney & Sons.

This iron was made for Bridges on Catawissa Extension. A. & P. R. & Co.

Memphis and Little Rock R. R.

Supt's Office, M. & L. R. R. R.,
Memphis, Tenn., Feb. 15, 1871.

R. C. Brinkley, Esq., President:

Sir: I have the honor to submit the following report of the operations of the road in this Department, for the year 1870.

The receipts from both Divisions of your road have been as follows:

From passengers		$100,733 19
From freight		61,179 09
From other sources		7,913 47
Total cash receipts		$169,825 75
For mail service credited on purchase of property from the United States		10,651 76
Total		$180,477 51
The expenditures have been—		
Conducting transp	$55,768 19	
Motive power	52,130 10	
Maintenance of way	81,731 18	
Maintenance of cars	14,578 08	
		204,207 55
Excess of expenses over receipts		$23,730 04

By an examination of the table hereto attached you will find that the losses occurred in the first five months of the year, and while the road was only partially operated. The receipts for the months of January, February, March, April and May, on the Eastern Division, only amounted to $9,537 58; expenditures for same time, $39,224-35. Expenditures over receipts, $29,686 77. Of this amount there was an expenditure of over $20,000 for maintenance of way alone.

I anticipated the completion of the road in July, as per contract with Gentry, Campbell and Co. I therefore increased the forces in the shops and on the track, and purchased a sufficient number of cross-ties to make the road safe. I have put in the track during the year, on the Western Division, 18,620 cross-ties at a cost of $7,278. This has enabled trains to run regularly and with safety from Huntersville to De Vall's Bluff in two hours and thirty minutes.

It has been my earnest desire to be ready to run a through train each way daily for passengers, and one for freight, upon the completion of the road. This I am now ready to do, and can run a passenger train from each end of the road, consisting of two coaches, with new baggage, mail, and express car attached; and also one freight train daily each way.

I have no hesitancy in stating that when the road is completed the daily receipts will be over $2,000.

Much has been said about the overflow on the Eastern Division. No one need apprehend any difficulty from that cause, as it is simply necessary to raise the track in a few places which overflow in extreme high water. I guarantee that with three hundred hands put to work the track can be placed above overflow in five months, and no interruption to the running of trains. The company would have done this long since, except for the importance of first completing the Middle Division.

The receipts on the Eastern Division for seven months, June, July, August, September, October, November and December amounted to $61,195 95; expenditures for same time, $60,502 64; earnings, $593 31. Add for carrying U. S. Mail, $5,851 76; net earnings, $6,544 07.

The repairs of the rolling stock have been very expensive. The handling of freights has cost much more than on any other road running into the city, from the fact that it had to be hauled up from the wharf-boat at Hopefield to the cars on a car drawn up by means of a stationary engine with rope attached to the car.

The road being under contract and in course of construction, at least one third of the whole amount of freight handled by us and carried over the road has been for contractors. Besides,

a vast number of hands have been daily passing to and from the work. All these have been transported without charge and at heavy expense. All the iron and material to lay the road have been delivered at the western terminus of the track without charge by this department.

I can now report that the Eastern Division of your road is in better oreer than ever before; and all the bridges and trestles east of Madison have been thoroughly repaired or made new. From Madison to Brinkley the road is in fine order, and I can say, without fear of contradiction, that no road running into Memphis is superior to it, although it is not ballasted. I am not operating the road west of Brinkley, although there are several miles completed.

Ten engines, four passenger cars, four baggage cars, four stock cars, fifty-six box cars, thirty-five platform cars, seventeen hand cars, nine truck cars, one pile driver car; making a total of one hundred and thirty cars, constitute the rolling stock of the road.

We have no doubt but that the road will be completed and cars run through by the 1st of April. When that time arrives it will cause an entire revolution in the travel to and from Arkansas and the great southwest. Then persons can go to Little Rock in eight hours, whereas it now and has for years taken not less than three days. The country west and south will be attracted to Little Rock as the nearest point from which to make sure and certain connections east. With a good connecting stage line running out into Texas a very large travel can be induced to take this route.

Upon the completion of the road the company will necessarily provide for its river connections. The first of these is the connection at Hopefield. So far as passengers are concerned they can remain over night at Memphis, and crossing the river take the train in good time; but the most important is the freight question. More than half the freight that goes into Arkansas now passes Memphis by water or is re-shipped here. This can be changed by making favorable rates with steamers plying between St. Louis, New Orleans and Louisville, whereby they will receive freights from and land them at Hopefield instead of on this side of the river. This can be easily done and the different packet companies will be glad to make such an arrangement.

To do this will require the building of a large warehouse at Hopefield, and a wharf-boat with sufficient elevation to convey the freights up to the track to be loaded into the cars.

The next important connection will be with White river at DeVall's Bluff. This I regard the most important, and will become the largest shipping point on the road—in fact, but little inferior to Little Rock. Not less than 40,000 bales of cotton are annually shipped out of that stream—three-fourths of which are from DeVall's Bluff and above that place. A like amount of freight is shipped above the same point to supply the wants of the people.

To secure this trade will be the first great object of the company, and my experience justifies me in stating that there is no way to secure it unless arrangements are made with a line of boats that will run daily from DeVall's Bluff above, on the arrival of the trains from Little Rock and Memphis. Some have suggested that a line of boats running from the month of White river to Jacksonport in connection with a line of steamers to Memphis would be the best and surest way to secure this trade. In my opinion that arrangement would be as detrimental to this road as the connections at Grand Junction and Corinth are to Memphis.

Would it not be reasonable to suppose a boat loaded with cotton would take it as cheaply to the month of White river as it would to DeVall's Bluff when that was its destination? But a line of boats running above and connecting at DeVall's Bluff with the railroad would look to the road alone for its business, and would be able to bring cotton from upper White and Black rivers to Memphis on through bills of lading cheaper than they are now bringing through by boat. The same principle would apply to freights going up White and Black rivers. One great advantage to the people on White river will be that their freights will go to them regularly and without detention. So long as the road controls the steamboat connections on White river, both north and south, just so long will it control freights and travel, and no longer.

Little Rock is destined to be the grand distributing point for the road. It connects on the north side of the river with the Cairo and Fulton, and Little Rock and Fort Smith railroads, which will increase both freights and travel.

These roads are being rapidly built, and will be great feeders to our line. South from Little Rock, the Cairo and Fulton road will be rapidly extended to the Texas line, passing near the great hot springs, where large numbers of people are gathered annually in pursuit of health or pleasure. Hot Springs will in a few years become the Baden-Baden of America.

At Little Rock a regular line of steamers should connect with this road to carry freights and passengers to Fort Smith and to the river towns; persons on the south side of the river who cannot reach the Fort Smith railroad will be accomodated in this way. This line of steamers should be swift and light of draught; they will be able to bring down cotton, coal, hides and other freights seeking a market.

The steamboat lines to Little Rock are natural rivals of our road, made so by the nature of things; but very easily overcome if the proper means are used. One of the means should be low rates for freights and passage, and prompt delivery of each at the place of destination.

There is no reason why a railroad cannot take freights one hundred and thirty-one miles much cheaper than a steamboat can take it three hundred and eighty miles—in fact, they can take it much cheaper, and will do so. The railroad can take cotton, when it is worth one dollar per bale from Little Rock to Hopefield, for the insurance charges which are now paid on boats from that place to Memphis, and make money.

When the road is finished the company may look for large business and remunerative returns for their outlay.

LAND DEPARTMENT.

This department has also been under my management. During the last year an increased demand has taken place for lands, and more lands have been sold during the past year than during all the preceding years since the war, and at better prices.

The sales of lands have amounted to 4,506.46 acres, at an average per acre of $4 52; making total sales for the year, $19,299 80; town lots sold at Brinkley, $5,665 00; total lands and lots sold, $24,964 80. Fully one-half has been received in cash and the remainder on one and two years time, with eight per cent. interest.

Much inquiry has been made for lands along the line of the road, and I anticipate a large increase in sales the present year.

Emigration to Arkansas is gradually increasing, and those who are now coming into the State seem to be hardy and thrifty people. They settle in small colonies, and make good improvements, others follow, and in a short time large settlements are formed.

The decline in cotton during the present year has kept many from buying lands; but a general growth of the country is plainly perceptible, and a steady advance in the price of all lands will surely follow.

Handsome towns are growing upon the line of the road, and many thousand bales of cotton are now being shipped from places that at the writing of our last annual report had no existence.

By the act of Congress, of July 28, 1867, this company was entitled to additional lands, and during the past year I have selected all the lands to which the land agent considers that we have a clear title—amounting to 23,274.10 of acres; there are yet some 13,000 acres which I am satisfied should be awarded to the company; the list I am having prepared, and will contest the same at the General Land Office in Washington.

The pine region around Brinkley, 68 miles from the Mississippi river, is attracting the attention of lumber dealers, and already one fine saw mill is in full operation; this place is destined to be the principal lumber depot on the road, besides one of the largest cotton shipping points. The lands are very cheap, but are rapidly advancing in price, and those who wish to get good bargains had better see to it at once.

Madison, Forrest City, Brinkley, DeVall's Bluff, Lonoke, and Huntersville, are the principal towns on the line of the road.

Respectfully, your obedient servant,
B. D. WILLIAMS, General Superintendent.

Kansas City and Ft. Smith Railroad.

We learn that a charter has been obtained for a road, leading from Fort Smith, through the counties of Sebastian, Crawford, Washington and Benton, in Arkansas, and Pineville, Mo., to a point at or near Kansas City, to be known as the Kansas City and Fort Smith Railroad; and that the company is thoroughly organized, and under the most favorable auspices, with State aid pledged, to the amount of one million and a half dollars, that is $15,000 per mile for one hundred miles from Fort Smith. This company has adopted its by-laws. Its board of directors consist of: C. E. Neal, J. N. Sarber, A. N. Rose, James A. Shrigley and John Carnall, and the officers are: C. E. Neal, President; J. A. Shrigley, Treasurer; John Carnall, Secretary.

We believe that the same company has secured a charter for a road to be known as the Fort Smith, Marshall and Galveston Road, so that should they succeed in building the first road, they do not propose to stop here, but proceed to the Gulf, and in what may really be termed, an air line from Kansas City, by Fort Smith and Marshall, to Galveston.—*Ft. Smith Herald.*

Shenandoah Valley Railroad.

At a meeting of the stockholders of this company at Charlestown, West Virginia, on the 18th ult., Col. Thos. A. Scott, of Philadelphia, was unanimously elected President, and Messrs. J. M. Walker, William Painter, George H. Bardwell, B. J. Jemison, of Philadelphia, Hon. A. R. Boteler, W. H. Travers, of Jefferson County, West Va., A. W. McDonald, of the County of Clark, Hon. Wm. Milnes, Jr., Peter B. Borst, M. Spitler and J. W. Ashby, of Page county, Va., were elected directors. A resolution was passed that the work of construction upon the part of the road located within the limits of the County of Jefferson, be begun as soon as practicable; and the meeting adjourned to meet on the second Tuesday in April, 1872, at Front Royal, which point has been selected for the establishment of their office of business.—*Warren (Va.) Sentinel.*

Maine Central Railroad.

The directors of this company are: Richard D. Rice, John B. Brown, Horatio N. Jose, Darius Alden, Geo. M. Patten, Abner Coburn, Amos D. Lockwood, Anson P. Morrill, Geo. L. Ward, Reuben B. Dunn and Lysander Strickland. The officers are: Richard D. Rice, President; Edwin Noyes, Superintendent; L. L. Lincoln, Assistant Superintendent; Albion Hersey, General Freight Agent; Geo. S. Flood, Assistant Freight Agent; John S. Cushing, Treasurer; A. T. Thomson, Assistant Treasurer; Joshua Nye, Financial and Purchasing Agent; J. W. Clapp, General Ticket Agent; F. E. Boothby, Paymaster and Freight Accountant; John W. Philbrick, Master Mechanic.

☞ The grading on the Vermont and Wells River Railroad is completed between Montpelier and Plainfield. The road is to be finished by Nov. 1, 1872.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, May 6, 1871.

Stock Exchange and Money Market.

The Money market has been comparatively easy all through the week on the basis of 4@7, generally 5@6 per cent. on call, and 6@8 per cent. per annum in the di count form. The demand for accommodation has been less urgent, particularly on speculative account; and the tendency has been steadily favorable to the borrowing interests. The offerings of Money have been more liberal, both on private and on bank account, and lenders have been rather less exacting as to price, and collaterals. The preference has been very decidedly for the public funds, on the pledge of which the large dealers have been freely supplied toward the close at the minimum rate of 4 per cent. per annum. There has been an improved inquiry for the better grades of mercantile paper, and all names grading up to strictly prime have been in ready currency at 6@7 per annum. The city banks, last week, gained 1⅝ millions of specie, 3⅞ millions of legal tender notes and 5⅛ millions of deposits. They enlarged their loan and discount averages 2⅜ millions and reduced their circulation $26,475. The city bank exchanges, last week, averaged $134,962,443; and thus far, this week, 138 millions daily. The banks now hold $12,570,692 of specie and legal tender notes, in excess of the 25 per cent. of their liabilities required by the national banking act. The United States Sub Treasury reported a gain of $1,093,785 of coin, with a loss of $746,929 in the currency balance. The U. S. Sub-Treasury receipts last week were $4,344,856 in coin, and $5,490,216 in currency; payments $3,251,071 in coin, and $6,257,445 in currency. The office received $2,903,000 in coin or its equivalent, from customs; and disbursed $5,606,000 of coin interest, of which $4,570,000 prepared on the May account will be charged to the credit of the office in the current week.

The subscriptions to the new refunding Five per cent. Loan now amount to about 63½ millions.

The U. S. Sub-Treasury, on Thursday morning of this week, held a balance of $7,807,565 in currency, and $63,039,034 in coin against a balance a week previous of $10,212,217 currency, and $67,206,608 coin.

The U. S. Sub-Treasurer retired, last week, $3,474,246 of coin certificates, received for customs.

Government revenues have been on a moderate scale, since our last. The excises yielded about 2⅛ millions. The customs at the port of New York, last week were $2,762,246; and at the outports, equal to about $850,000 more, all in coin, or coin certificates. The internal revenue yield thus far in the current fiscal year beginning with July 1, 1870, has been $120,683,278.

On the 29th of April, the amount of United States currency outstanding was $398,712,160.

The U. S. Sub-Treasury receipts at this port in April were $57,307,373, including $12,960,609 from customs; payments, $57,327,484, including $1,036,783 of coin, and $4,710 of currency interest.

Under the Treasury programme for May, Government will sell during the month, through the Treasury office here, at least eight millions of Gold, as follows: Thursday, May 4, two millions; Thursday, May 11, two millions; Thursday, May 18, two millions; Thursday, May 25, two millions. And will buy at least ten millions of Five-Twenties as follows: Wednesday, May 3, two millions; Wednesday, May 10, two millions; Wednesday, May 17, two millions; Wednesday, May, 24, two millions; Wednesday, May 31, two millions.

The Gold speculation has been on a moderate scale, with some show of confidence in the buoyancy of the price. The range of the week has been from 110⅝@111½, and the closing quotation on Wednesday was 111¼ against 110¾ the preceding Wednesday. The export drain has been again liberal, having reached $3,332,498 last week and on Tuesday and Wednesday of this week $519,700. Government disbursed coin interest, last week to the amount of $5,606,000, mainly in prepayment of the May obligations. During the first half of the current week it paid out 1⅛ millions of coin interest, through the New York office. The customs revenue at this port has averaged nearly half a millions a day in coin, since our last.

The customs at this port on Wednesday were $417,000.

The export drain was $3,332,498 last week, against $774,410, same week preceding year. The

shipments since July 1, 1870, have been $65,087,194, against $24,778,297 same time in 1869–'70.

The customs demand for Gold last week, averaged $483,834 a day; thus far, this week, it has averaged $403,000 a day, or equal to a weekly aggregate of $2,418,000. The arrivals of specie from Europe, Havana and other foreign ports last week were $52,432, and since Jan. 1, 1871, $2,971,893, against $6,308,883 same time in 1870. The total customs revenue of the Government, in coin, at this port, since July 1, 1870, has been $124,502,575, against $112,253,662 same time in 1869–'70.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt since July 1, 1870, $67,711,341 against $75,467,522 same time in 1869–'70.

Foreign Exchange has been quoted stronger, though not active. Bankers' sixty day bills on London closed on Wednesday at 109⅞@110⅛; sight bills on London, 110⅛@110¾.

The produce exports from this port, week ending with May 2, were to the currency value of $3,910,936.

Government securities show a further improvement in price, on a reduced offering of bonds and a fairly active inquiry, mostly from investment purchasers. The Public Debt exhibit for May, indicating a further important reduction of the national indebtedness in April, was very favorably received by the business community. Toward the close the market was firm, but very quiet.

On Wednesday, Government bought in two millions of Five-Twenties at 110 98@111 11, ex-interest. The amount of bonds offered was $5,716,350.

U. S. sixes of 1881 closed here on Wednesday of the current week at 116⅞@117; U. S. Five-Twenties of 1862, ex coupon 111@111⅛; U. S. Five-Twenties of 1864 at 119⅞@111⅛; U.S. Five-Twenties of 1865, 110⅞@111⅛; U. S. Five-twenties of 1865 consolidated, 113⅛@113¼; U. S. Five Twenties of 1867, 113¼@113⅜; U. S. Five-twenties of 1868, 113¼@113⅜; U. S. Ten-forties at 109⅝@109¾; U. S. Six per cent. currency bonds, 115⅛@115⅜.

The latest quotations at the London Stock Exchange compare as follows with former returns:

* Ex-May coupon.

State bonds have been in fair demand at firm prices.

Railway bonds have been in good request for investment purposes, and generally quoted strong in price. Central Pacific Sixes closed at 100⅜@100½. The Chesapeake and Ohio R. R. First Mortgage six per cent. gold bonds have been in demand at 90 per cent. and accrued interest. Union Pacific Sixes closed at 89¾@89⅞.

The market for Railway and miscellaneous share property has been less active, in nearly all instances, and prices have been less firm, closing heavily.

There has been less animation in general business. Breadstuffs and Provisions closed weaker in price. Middling upland cotton closed on Wednesday at 14⅞ cts. per lb. The receipts at all the ports, since Sept. 1, have been 3,570,256 bales, against 2,539,996 bales same time last year; exports 2,616,179 bales, against 1,778,145 bales same time last year; stock at the ports at latest dates, 490,613 bales, against 326,498 bales same date 1870.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

THE GREAT NATIONAL LOANS.

☞ NEW FIVE PER CENT. BONDS OF THE UNITED STATES.

The Treasury Department is now able to promise that the registered Certificates of Stock, and a good part of the Coupon Bonds, of the New Loan of the United States, bearing Five per cent. Interest, payable quarterly in Gold, will be ready for delivery early in the present month. The Subscriptions to the Loan now amount to $62,000,000, and it is expected that the Subscriptions and Sales will progress more rapidly when the Certificates and Bonds are ready for market abroad as well as at home. The whole sum of Five per Cents offered to the public generally, and to the holders of United States 5-20 Bonds, without qualification, is $200,000,000. When this amount, to which preference is thus given, is taken up, the remainder of the Five per Cents, $300,000,000, embraced in the New Loan of July 14, 1870, for refunding the Public Debt, will be offered in connection with $300,000,000 Four and one half per Cents, and any part of $700,000,000 of Four per Cents, the one running fifteen years and the other thirty years.

The following is a copy of the New Five per Cent. Bond, under and pursuant to the New Loan Act of Congress:

FORM OF 5 PER CENT BOND.

INTEREST | FUNDED LOAN OF 1881 | 5 PER CENT.

UNITED STATES OF AMERICA

ARE INDEBTED TO THE BEARER IN THE SUM OF

..... DOLLARS.

THIS BOND is issued in accordance with the provisions of an Act of Congress entitled "An Act to authorize the refunding of the National Debt," approved July 14, 1870, amended by an Act approved January 20, 1871, and is redeemable at the pleasure of the United States, after the firs day of May, A. D. 1881, in Coin of the standard value of the United States on said July 14, 1870, with interest in such Coin, from the day of the date hereof, at the rate of FIVE PER CENTUM per annum, payable quarterly, on the first day of February, May, August, and November, in each year. The principal and interest are exempt from the payment of all Taxes or Duties of the United States, as well as from taxation in any form, by or under State, municipal or local authority.

WASHINGTON, ..., 18....

Entered ..... Recorded .....

....

Register of the Treasury.

Registered bonds will be issued of the denominations of $50, $100, $500, $1,000, $5,000 and $10,000, and coupon bonds of each denomination except the last two. The interest will be payable in the United States at the office of the Treasurer, any Assistant Treasurer, or designated depository of the Government, quarterly, on the first days of February, May, August and November, in each year.

The Interest on the Registered Stock of this Loan, it is determined by the Treasury Department, will be paid as conveniently to the holder as on the Coupon Stock, and personal attendance, or attendance by proxy at the Treasury, to draw and receipt for the Interest will be dispensed with, *whenever the check of the United States Treasurer, mailed punctually to the address and order of each holder, on or before every quarter-day, is preferred to such attendance.* This check, payable in Gold Coin at the Treasury in New York, (or such other office as the Stock is registered at,) will be negotiable or collectable on the indorsement of the owner or owners of the Stock. In pursuance of this arrangement, the subscribers to, or purchasers of, the Stock in its registered form (which is a complete protection against theft or other losses incident to Coupon Bonds payable to Bearer) are advised to give their Post-office address in full, and to notify of any change in the address between quarter days.

The whole proceeds of the new loan will be applied to the payment or redemption and cancellation of the 5-20 years six per cent. bonds, and, in addition to these proceeds, the 5-20s are now being reduced by purchase at the rate of $10,000,000 per month.

The entire effect, therefore, of the New Loan, in connection with the existing Sinking Fund process of the Treasury, is to reduce both Principal and Interest of the Public Debt of the United States. *The Loan creates no additional supply of Government Stocks*, while the application of the surplus revenues derived in Gold from Customs is constantly lessening, as it has been doing for two years past, the Funded Stocks bearing six per cent. Gold Interest.

The 1st of May schedule of the Public Debt, which has just been published by the Secretary of the Treasury, shows a reduction in these Stocks since the April schedule of $12,215,700 and a further lessening of the yearly interest charge thereon of $732,942. This leaves the total yearly interest charge in Gold $111,982,034. In the same month the Treasury paid and canceled $4,470,000 of the Three per Cent. Currency debt, reducing the whole of this debt bearing interest to $51,023,000, and the yearly interest charge thereon to $1,537,470.

The proposed further reduction of the annual interest charge upon the Public Debt by refunding is as follows:

By exchange of $500,000,000 United States six per cents for new five per cents of 1861	$5,000,000
By exchange of $300,000,000 United States six per cents for four and a half per cents of 1866.....	4,500,000
By exchange of $700,000,000 United States six per cents for four per cents of 1901	14,000,000
Total saving per annum by refunding.	$23,500,000

The large and rapid accumulation in the last few years of private capital now retired from active business, and of the cash Savings and Life Insurance premiums deposited with or intrusted to the provident institutions of the country—all seeking the most undoubted security, pledged to be kept free of all taxes, under national or local authority, and content, provided this object be assured, with moderate rates of interest—will no doubt ultimately absorb so much of these New Stocks as may not be taken in voluntary conversion of United States 5-20s, or marketed abroad.

C. C. NORVELL,
In charge of United States Loan Advertising.

TREASURY OFFICE, NEW YORK, May 2, 1871.

PROGRESS OF REDUCTION OF THE NATIONAL DEBT.

	Debt of the U. S. less cash in the Treasury.	Decrease of debt during the preceding month.	Total decrease from March 1, 1869, to date.	Monthly interest charge.	Decrease in monthly inter't charge.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business April 30, 1871.

WILLIAM A. RICHARDSON, Acting Secretary of the Treasury.

Commerce of New York.

The foreign imports at New York for the month of March, 1870 and 1871, are officially stated as follows:

	1870.	1871.
Entered for consumpt'n.	$14,447,775	$22,639,471
Do. for warehousing	11,826,891	13,271,955
Free goods	979,288	2,577,244
Specie and bullion	2,441,679	207,394
Total entered at port	$29,695,633	$38,696,064
Withdrawn fr. wareh'use	9,985,981	11,695,478

The foreign imports at New York for the three months from January 1, were:

	1870.	1871.
Entered for consumpt'n.	$40,157,897	$53,804,068
Do. for warehousing	31,284,035	37,376,557
Free goods	2,845,097	8,884,144
Specie and bullion	5,501,977	2,914,681
Total entered at port	$79,789,006	$102,979,450
Withdrawn fr. wareh'se	28,641,834	34,386,994

The foreign imports from New York for nine months ending March 31, were:

	1870.	1871.
6 mos. ending Jan. 1.	$134,708,154	$156,339,208
In January	24,725,375	28,792,062
In February	25,367,998	35,491,324
In March	29,695,633	38,696,064
Total for nine mos.	$214,497,160	$259,318,658
Deduct specie	11,279,179	7,616,866
Total mdse	$203,217,981	$251,702,292

The revenue from customs at New York for nine months ending March 31, were:

	1870.	1871.
6 mos. ending Jan. 1.	$61,552,308 75	$67,729,184 75
In January	9,840,502 99	12,010,020 67
In February	11,750,424 06	12,258,147 69
In March	11,977,323 42	15,305,799 14
Total nine months	$95,120,559 22	$107,303,152 25

The exports from New York to foreign ports in the month of March, were:

	1870.	1871.
Domestic produce	$14,965,213	$21,211,713
Foreign free goods	50,590	121,098
Do. dutiable	927,292	806,521
Specie and bullion	1,521,601	7,569,880
Total exports	$17,464,696	$29,709,212
Do. exclusive of specie.	15,943,095	22,139,332

The exports from New York to foreign ports for three months from January 1, were:

	1870.	1871.
Domestic produce	$37,979,059	$57,842,194
Foreign free goods	160,375	194,315
Do. dutiable	2,636,973	1,680,441
Specie and bullion	6,399,249	13,741,157
Total exports	$47,175,656	$73,458,107
Do. exclusive of specie.	40,776,407	59,716,950

The exports (exclusive of specie) from New York to foreign ports for nine months ending with March 31, were:

	1870.	1871.
Six mos. ending Jan. 1.	$109,954,573	$107,654,919
In January	12,893,166	18,837,876

Total exports	$173,786,784	$222,463,901

☞ The Alexandria (Minn.) *Post* says that Mr. Thomas, Assistant Engineer of the Northern Pacific Railroad, has commenced the survey for that road across Dakota Territory.

Finances of Arkansas.

The following statements with reference to the finances and progress of railway construction in the State of Arkansas are copied from a recent letter of Hon. Henry Page, Treasurer of that State:

The old debt of the State, so far as funded up to the present time and now drawing interest, is $2,750,000. The whole of the old debt, if funded, will amount to $4,430,000. But this total will probably be largely diminished by the amicable adjustment of certain claims held by the State of Arkansas against the United States Government which is the holder of over one million of the unfunded bonds.

The total debt which may be created by the loan of the State's credit to railroad companies is $10,000,000. Of this sum bonds to the amount of $3,150,000 have been issued as follows:

Memphis and Little Rock Railroad	$1,050,000
Little Rock and Fort Smith Railroad	900,000
Little Rock, Pine Bluff and New Orleans Railroad	750,000
Miss., Ouachita and Red River Railroad	450,000

These are the only roads entitled under the law to receive State bonds; and so far as I can discover, the aid heretofore given has been honestly and judiciously expended. Certainly, before this law was voted upon and enacted by the people, the railroads of Arkansas were in a strictly rudimental condition, forty-eight miles of operated road constituting the sum total of the development of her railroad system. And this meagre length of road was all that could be achieved on a line of commanding importance, the completion of which would place the capital of the State in immediate railway communication with all parts of the Union. Now, as reported to me by the officers of the several roads, and as I know also from other official sources, and from personal observation as well, the following is an exact showing of their condition:

	Miles.
Memphis and Little Rock Railroad:	
Completed and in running operation	131
Little Rock and Fort Smith:	
In running operation	80
Graded and ready for track	50
Cairo and Fulton:	
In running operation	20
Graded and ready for track	20
Little Rock, Pine Bluff and New Orleans:	
In running operation	18
Graded and ready for track	62
Mississippi, Ouachita and Red River:	
In running operation	18½
Graded and ready for track	22
Graded but not finished	68

In fact, by the terms of the law, the State bonds can be issued to the railroad companies only as sections of ten miles of road are graded and prepared for the rails; and also upon each successive application of the companies for an issue of bonds a rigid showing may be required of the uses to which the bonds previously given have been applied. With these statutory provisions against a lavish issue and reckless expenditure of the bonds, very different from the free and easy conditions under which bonds have been issued to railroads by the State of North Carolina and one or two other Southern States, Arkansas has secured, as has been shown, and is likely hereafter to secure a full equivalent for every bond so advanced or loaned.

Journal of Railroad Law.

RAILROAD COMPANIES—LIABILITY FOR INJURY TO PASSENGER—CHOICE OF DANGER.

The recent case of Delamatyr and ano. *vs.* The Milwaukee and Prairie du Chien Railroad Company, (24 Wisc., 578,) was an action to recover damages for an injury received by the wife in descending from a train on defendant's road, at Hanover Junction, in this State and alleged to have been caused by defendant's negligence in not furnishing safe and proper means for such descent.

The jury rendered a verdict for plaintiffs for $1,000. The following is the able opinion of the court delivered by

Cole, J.—There can be no doubt that the plaintiffs had a right to be examined on their own behalf, on the trial, without giving notice to the defendant. Chapter 176, Laws of 1868, gives them that right, and repeals the statute of 1869, under which the case of Silsa *vs.* Chicago and Northwestern R. R. Co., (21 Wisc. 370) was decided.

It seems to us that the question of negligence was fairly submitted to the jury, under proper instructions by the court. No exceptions were taken to the general charge which is quite full and covers all the law of the case. Neither were any exceptions taken to the special instruction asked and given on the part of the plaintiffs, while the court gave all but three of the eighteen special requests of the defendant. The third and twelfth instructions refused are obviously open to the criticism passed upon them by the counsel for the plaintiffs. Manifestly the question was not, whether the defendant company had any reasonable or probable ground to expect an accident to a passenger properly descending from the steps of the cars on to the platform at Hanover Junction; or whether the defendant had, for a very long period of time prior to the accident, used the platform at that station, in the same precise condition and position in which it was at the time of the accident in connection with the same car from which Mrs. Delamatyr was attempting to alight. But the question was, had the company provided a sufficient platform to enable passengers to descend from the cars without danger; and had the cars been drawn up to this platform so that persons might with safety, while exercising such care and prudence as prudent persons ordinarily use under similar circumstances, descend from them! Of course, it is the duty of the company to afford passengers reasonable facilities for alighting from the cars, both by a reasonable safe platform and by stopping the train in such a manner that they may avail themselves of it without unnecessary exposure. And, under the directions of the court, the jury must have found, upon the evidence, that the platform was not a proper one, or that it was not sufficiently near the steps of the car from which Mrs. Delamatyr was attempting to alight, to make the descent a safe one. And if the jury found either fact against the company it would show negligence on its part, for which it would be liable to the party injured, unless there was contributory negligence. And this seems to be the only question in the case, whether really Mrs. Delamatyr was not herself guilty of negligence in attempting to alight from the cars at the place and in the manner she did. Now on the part of the company it

is insisted, that the testimony discloses a clear case of negligence on her part; that she did not descend the steps of the car, steadying herself down by the aid of the iron railing at the end of the car, and properly using the means the company had furnished for her to alight in safety, but jumped from the cars under circumstances which her own judgment told her rendered it rash and dangerous.

In answer to this argument we observe, in the first place, that it was purely a question of the jury to find, in view of all the facts, whether Mrs. Delamatyr was guilty of any negligence in descending the steps or jumping from the cars, in the manner she did. As a matter of law, the court surely cannot say that she was careless or reckless in her conduct. It appears by incontestable evidence, that the train had stopped, and that she was told by the brakeman to go through the next car and get off there. She says, that, in obedience to these directions of the brakeman, she went through the next car, walked down the corner steps of the platform; saw that the place was a difficult one to alight from, because the steps were not opposite the platform, and were some two or three feet above it, and that she would have to jump obliquely to alight upon the platform, saw that her sister-in-law had landed safely, gave her left hand to her sister and attempted to jump upon the platform. This is the substance of her testimony. Now, as a matter of law, to characterize this conduct of hers as careless, and negligent, would seem to be manifestly unwarranted. The rule that contributory negligence on her part would prevent a recovery, was stated in various propositions by the court in the general charge and requests given. The jury were told that it was the duty of Mrs. Delamatyr in descending from the car to the landing place, to use in a proper manner the steps of the car, and also the railing if necessary, to steady herself in descending the steps of the car to the platform; and that if, by reason of any improper or careless way of descending from step to step or from the lower step to the platform, or if by any act of negligence on her part, the injury happened, then there could be no recovery. Thus it will be seen that the court left to the jury the question, whether, upon the facts disclosed, Mrs. Delamatyr was guilty of negligence, and we think that pre-eminently that was a question for the jury to decide, and not one for the court.

In the seventeenth special request asked by the defendant, and refused, the court was asked to charge, that if the jury should find from the evidence that there was any danger in Mrs. Delamatyr attempting to jump from the steps of the car, she was as much bound to avoid the accident as the company was, and not by her conduct to contribute to its occurence. And the argument is, that it appears from her own testimony that the place was a difficult one to get down, and that she would encounter some danger in attempting to jump in an oblique manner that distance to the platform; and that by so doing she made what she saw and knew to be a dangerous experiment, and resolved to take the responsibility of the act, and thereby received the injury complained of. The company therefore, it is said, should not be responsible, if she saw fit to imperil her life or limb, and made a jump which under the circumstances her own senses told her was dangerous. The case of Siner vs. Great Western Railroad Company (3 Law Reports Exchequer p. 150,) is relied on in support of this position. In that case an excursion train in which the plaintiffs (husband and wife) were passengers to Rhyl, arrived at Rhyl station, and the train being a long one, the carriage in they were, overshot the platform. It was then daylight. The passengers were not warned to keep their seats, nor was any offer made to back the train to the platform, nor was it, in fact, ever so backed, nor did it move until it started for Bangor. After waiting awhile the husband following the example of other passengers, alighted, without any request to the company's servant to back the train or any communication with them. The wife, standing on the iron steps of the carriage, took both his hands and jumped down and in so doing strained her knee. There was a foot-board between the iron step and the ground, which she did not use, but there was no evidence of any carelessness or awkwardness in the manner of descent, except such as might be inferred from the above facts. The court held that there was no evidence for the jury of the negligence on the part of the company; that the accident was entirely the result of the plaintiff's own acts; and that it was the duty of the passengers, if the place was in fact dangerous, to request that the train might be put back, but not to attempt to alight in the manner they did. Kelley C. B., gave a dissenting opinion in which he makes use of the following remarks, which we consider sound and quite apposite to the case at bar. He says: "It is said that the cause of the accident was not the distance, but the awkward and careless mode in which the plaintiff jumped down. This again was for the jury; but the fair result of the evidence is, that though an adult male could have jumped down easily, yet a female passenger would encounter some danger in descending, but then the alternative is presented that if it was dangerous to descend she ought to have returned to her place in the carriage. I am clearly of opinion, however, that a railway company are not entitled to expose any passengers to the necessity of choosing between two alternatives neither of which he could lawfully be called on to choose: namely, either to go on to Bangor, or to take his chance of danger and jump out, and if they do so, the choice is made at their peril. I agree that if it can be clearly seen by the passenger that the act must be attended with injury, it may then be fairly contended that he is not entitled to choose this obviously and certainly dangerous alternative. But what were the facts of the case? The distance to be descended was three feet, and a lady might very reasonably say she would encounter the risk. Nine out of ten might have done it with safety; but on the other hand there was some danger, and such danger as the defendants were not entitled to expose her to. Although if the danger were certain, as from a pit or a stream of water lying below a passenger who alighted in the face of the risk would be the author of his own evil, yet, when he is called upon to choose between two evils, to which the neglect of the company has exposed him, and one of which presents some degree of danger, but such as he may not without imprudence encounter if in consequence of his adopting that alternative he suffers an injury, that injury is the proper subject of an action against the company.

It appears to us that this view of that case, taken by the Chief Baron, is far more sensible and satisfactory than the one held by the majority of the court. And it certainly furnishes all the answer necessary to be given to the argument we have been considering. For Mrs. Delamatyr, though she saw the place was dangerous, yet knew that her sister had alighted in safety; and she might naturally suppose that she could do the same. And her effort to jump upon the platform from the step of the cars ought not, under the circumstances to be imputed to her as an act of negligence. See the case of Fay vs. Railway Company, 114 Com. Bench 225, which is quite in point.

On the whole record we think the judgment is right and that it must be affirmed.

Judgment affirmed.

Imports of Iron and Steel.

We have a request from Cliff street firm to publish the total imports into the United States of certain descriptions of iron during the last year. The details of this class of imports are not divided in the official reports as we should arrange them, but we have made up a table giving particulars of each item furnished by the statistical bureau, so that our correspondent will have all that can be gathered from the government record. We have extended it over each of the last two calendar years, and have included both quantity and value where these are recorded:

Imports into the United States of iron and steel and their manufacturers for the twelve months ending December 31:

	1869.		1870.	
	Quantity.	Value.	Quantity.	Value.
Pig iron, lbs.	360,269,170	$2,484,173	314,630,384	$2,401,998
Castings, lbs.	1,201,906	27,767	4,328,095	32,006
Bar iron, lbs.	186,119,940	8,664,445	171,578,066	3,416,718
Boiler iron, lbs.	1,167,401	33,148	2,003,134	48,866
Band, hoop and scroll, lbs.	15,557,751	315,522	14,651,896	308,385
Railroad bars or rails, lbs.	628,826,597	9,092,343	798,300,761	18,322,170
Sheet iron, lbs.	27,395,521	1,098,000	22,586,563	662,210
Old and scrap iron, tons	149,391	8,025,131	150,194	8,471,590
Hardware		293,606		164,118
Anchors, cables and chains, lbs.	12,719,656	489,376	10,388,618	431,272
Machinery		1,086,208		909,141
Muskets, pistols and guns.		472,205		805,359
Steel ingots, bars, sheets and wire		1,769,140		3,310,686
Cutlery		1,731,182		1,755,499
Files		607,267		559,248
Saws and tools		155,077		220,733
Miles iron and steel, not specified	5,496,350		5,001,310	

The value given is the foreign gold cost, freight and duty not included.—*Journal of Commerce.*

☞ The Little Falls *Courier* says that the New York, Utica and Ogdensburg Railroad Company have just let the contract for grading of their road from Utica to Cooperstown; Also to extend the Cooperstown road to the Charlotte river in Delaware county, to connect with the Rondout and Oswego road.

Grand Trunk Railway of Canada.

REPORT OF THE DIRECTORS FOR THE HALF-YEAR ENDING DEC. 31ST, 1870.

The gross receipts upon the whole undertaking, including the Buffalo and Champlain lines have been		£793,740
Deduct ordinary working expenses (being at the rate of 67.12 per cent., against 61.25 of the corresponding half of last year)		£532,762
The renewals, &c., of the permanent way and works in the half-year debited to revenue.	136,101	
		668,863
Leaving an available balance earned in the half-year of		124,877
Deduct loss on American currency		8,284
Balance		£116,593

To this sum of 116,593*l.* has to be added the balance carried from the net revenue account of last half-year of 8,639*l.*, making a total balance of 125,232*l.* From this, however, has to be deducted the amount of postal and military revenue due for the half-year to the Postal bondholders of 16,981*l.*, leaving the balance of 108,251*l.* applicable for the following payments, viz:

Interest, &c., paid on lands	£1,602
On mortgage to Bank of Upper Canada	4,423
On loans, bankers' balances, promissory notes, European exchange, &c.	563
On British American Land Company's debentures	616
On Montreal Seminary debentures	616
On Island Pond debentures	2,700
Half-yearly instalment on Portland Sinking Fund	1,271
	£11,794

Atlantic and St. Lawrence lease (in full)	£28,399	
Detroit lease (in full)	11,250	
Montreal and Champlain	7,572	
Buffalo and Lake Huron	25,000	
		72,222
1st equipment bond interest		15,000
2d " "		8,115
Balance carried forward		1,118
		£108,250

Comparing this half-year with the corresponding period of 1869, the gross receipts show an increase of only 2,646*l.*, although there were carried 34,912 more passengers and 79,492 more tons of freight. It was almost entirely in consequence of the lowness of rates, that, while the passenger traffic increased in numbers 5 per cent. and the freight traffic in quantity 13 per cent., the increase in the money received during the half-year was only one third per cent.

The average receipt per passenger was for this reason 5s. 11d. against 6s. 3d., and per ton of goods 14s. against 15s. 7d.; and it will be seen from the following table that the fares and rates were lower than they had ever been since 1862, when the line was fully opened for "through traffic:"

	Per ton.	Per passen.
1870, June	14s. 6d.	6s. 5d.
" Dec	14 0	5 11
1869, June	16 0	6 9
" Dec	15 7	6 3
1868, June	16 1	6 8
" Dec	16 3	6 9
1867, June	15 1	6 8
" Dec	15 4	6 10
1866, June	15 4	7 0
" Dec	15 5	7 2
1865, June	16 11	6 3
" Dec	15 5	7 2
1864, June	16 3	6 0
" Dec	16 1	6 6
1863, June	17 3	6 0
" Dec	15 1	6 5
1862, June	15 9	6 10
" Dec	17 7	5 7

As a further illustration of these reductions in the rates, it may be mentioned that taking flour as a standard for the freight, the rates from Chicago to Portland were—

In 1870	$1.10 per barrel
In 1869	1.40 "
In 1868	1.70 "

and, as regards passengers, the rates were 25 per cent. lower in 1870 than they were in 1869. To this cause is to be mainly attributed, not only the small increase in the gross receipts, but also the heavier per centage for working expenses.

The ordinary expenses for the half-year amounted to 528,762*l.*, or 67.12 of the receipts, being 48,191*l.*, or 5.87 per cent. in excess of the expenses for the corresponding six months of 1869. A reference to the reports and tabular statements shows that the train mileage for the last half-year was 3,193,290, as against 2,962,101 for the corresponding six months of 1869, or an increase of 230,389 miles. The mileage of cars in the same period was 40,687,258, as against 37,060,788, or an increase of 3,616,470 miles. The "renewal" expenditure also for the half-year was unusually heavy, having amounted to 136,100*l.*, against 73,745*l.* charged in the December half of 1869; but it will be remebered that for the latter half-year 36,343*l.* was charged to capital for the improvements of permanent way, extra weight of rails, &c. In the present half-year's accounts no such items are charged to capital. In accordance with the promise made by the directors in their report of April last, these items have all been brought into the revenue accounts. They then stated "that all outlay in substitution or renewal of the permanent way and its accessories, and of bridges and works of art, however much they may improve or give increased solidity and value to the railway, the directors purpose henceforth to charge to revenue." The laying of steel rails, under these circumstances, with a view to future economy, will increase in the meantime the charge for renewals, as the extra cost of steel rails, as compared with new English iron rails, is about 4*l.* per ton, and as compared with Toronto re-rolled rails, about 2*l.* 10s. per ton. In three or four years, however, from the present time, the company will be receiving the benefit of this extra outlay for putting down steel in place of iron rails.

The total number of miles relaid during the past half-year was 108½, of which 33½ were laid with steel. 490,697 new ties were put into the track, and 125 miles of the line were ballasted. The steel rails which were laid in the track during the past season have given great satisfaction. They were exposed to the severity of the coldest winter which has been experienced in Canada during the past twenty years, and, with three exceptions in first laying, not a single steel rail has broken or shown any sign of fracture or wear.

The loss upon the conversion of American currency compares favorably with that shown in the accounts for the December half-year of 1869—the saving amounting to nearly 25,000*l.*

[A table here shows the gross and net earnings from January 1861 to December 1870 inclusive, in mixed currency and gold, the expenditure on renewals, and the direct loss sustained by the depreciation of American currency.]

The charges to capital for the half-year are fully set forth in the accounts. Out of the total of 508,134*l.*, 410,098*l.* is for the capitalised interest on the preference bonds and stocks for the year 1870, and the remainder is for new works, ballasting, land claims, &c.

The capital required for the International Bridge at Buffalo has now been provided, and the bridge will, it is hoped, be opened for traffic in the course of next year.

The low fares and rates referred to in the report for the half-year ending June 1870 continued for five out of the remaining six months of the year; and, while the permanent way and the rolling stock were being carefully prepared for a better condition of affairs, the heavy work which was performed was not, in the meantime, attended with proportionate profit. It will be obvious to the proprietors that while, on the one hand, low rates have *pro tanto* the double effect, for a given amount of work, of reducing the gross receipts and of raising the per centage of working expenses; so, on the other hand, improved rates must have the opposite tendency of simultaneously reducing the per centage of working expenses and also increasing the gross receipts. The relative proportions of working expenses and of net profit depend, therefore, upon the rates. Whether the rates be high or low, the same cost is incurred in the transport of the same quantities of passengers and produce. A rise of 20 per cent. in the rates, means, therefore, a much greater proportionate increase of net profit. A half-year so exceptional as that under review, during which the rates have been literally at the lowest point since the line was first opened in 1862 for through traffic cannot be taken to be a guide for the future. Since last December, when a partial cessation of competition for Western traffic between the railways of the United States took place, a great improvement has been manifested. A continuance, even of the existing fares and rates, will bring about an important change. The working of the current half-year has already resulted in an increase (including one extra day's traffic) of 58,000*l.*, or an average for the twelve weeks, since the 1st of January, of about 5,000*l.* per week. The company is free from debt, and in the possession of means for all necessary purposes. The completion of the International Bridge over the Niagara river is secured. The Intercolonial is being rapidly constructed, and other enterprises of importance are projected in the Dominion which cannot fail to give an increased stimulus to the trade and commerce of the country. At the rates which ruled in 1869, the traffic which was carried last half-year would have yielded an increase of 16,173*l.* in the passenger traffic, and 54,500*l.* in the freight traffic, which two sums, amounting together to 70,674*l.*, would have been more than sufficient to pay interest in full for the half-year on the first preference bonds. Since the commencement of the current year, the rates, though not yet equal to those of 1869, have resulted in the increase of 58,000*l.* for the past twelve weeks, and the directors feel, therefore, that they may look forward with some confidence to results of the present year's traffic.

Certificates for the interest to be capitalised on the 1st, 2d, 3d, and 4th preference bonds and stocks will be issued shortly after the meeting. The directors who retire by rotation are Lord Wolverton, Mr. Baring, Mr. Brydges, and Mr. Gillespie. They are eligible and offer themselves for re-election accordingly. Mr. Angus C. Hooper, who has been acting as auditor in Canada in the place of the late Mr. Morland offers himself for election as Canadian auditor.

DIRECTORS.—Richard Potter, Esq., Standish-house, Gloucester, President. Thomas Baring, Esq., M. P., Bishopsgate street, E. C.; Charles John Brydges, Esq., Montreal; Hon. James Ferrier, Montreal; Robert Gillespie, Esq., Gravenhurst, Bolney, Sussex; Kirkman Daniel Hodgson, Esq., M. P. Bishopsgate street; Grosvenor Hodgkinson, Esq., M. P. Newark; Graham Menzies, Esq., 58 Westbourne-terrace, W.; William Molson, Esq., Montreal; John Swift, Esq., Portland-place, London; Captain Tyler, High Elms, Hampton-court; Lord Wolverton, 67 Lombard street, E. C. Auditors—Angus C. Hooper, Esq., Montreal, *pro tem.*; William Newmarch, Esq., F. R. S., London; J. G. T. Child, Esq, Manchester.

☞ The new railroad from the Air Line at Colchester, Ct., to the New London Northern road above Norwich will be fifteen miles in length, and will be comparatively an easy one to build. It will open to market the large cotton factories at Bozrahville and Fitchville.

☞ Forty thousand feet of rails, for the Dunkirk, Warren and Pittsburg road, have arrived at

Albany. They came from England by the ship Hibernia.

Safety Railroad Switch.

BOTH RAILS of the main track absolutely immovable, continuous and unmutilated.

This Switch provides perfect safety for both the main track and the side track, besides removing all switches from the main track as effectually as if there were no sidings on the whole line.

They have been in use on various important Railroads for over two years, and have repeatedly saved passenger trains from destruction, when running at high speed, (from 30 to 45 miles per hour,) at places where by accident the Switch had been left set for the siding.

Rolling Mill Property
FOR SALE,
OPPOSITE NEW YORK CITY.

The well-known North River or Durbin Rolling Mill, situated at Prospect and North 5th St., Jersey City, New Jersey. The Real Estate consists of sixteen city lots, 25x100 feet each, with two large Dwelling Houses, well built and in good order. Also a large building occupying two lots, suitable for a Machine Shop or other purposes, a Stable, &c.

The Rolling Mill was built for the manufacture of Locomotive and other descriptions of Boiler Tank and Plate Irons, contains a heavy Roll Train, Engines, Furnaces, Machinery, &c. to suit, in good order. It can be seen running, and has been successfully run from its establishment in 1855. Situated near the Hudson River, a short and nearly equal distance from all the New Jersey Railroad Depots and Ferries, the Erie Depots and Ferries and the Hoboken or Delaware & Lackawanna Depots and Ferries, from its proximity to the New York Market, the large Locomotive and Railroad Shops of the City and Paterson, the facilities for forwarding to all points by water or railroad, it cannot be surpassed.

The Real Estate is rapidly increasing in value the vast R. R. Interests and dock improvements mentioned having taken up almost the entire River front and space below the mill property from the Cortland St. to Hoboken ferries. The reputation and business established The Proprietor intends retiring from the business, and for further particulars can be addressed or seen daily at the

Office, 140 HUDSON STREET,
Jersey City N. J.,
In the First National Bank Building.

Propositions for Lease or Selling the Machinery for removal entertained.

Map can be seen and General Information may be obtained also of Wm. H. Wallace & Co., Corner of Liberty and Washington Streets, N. Y., City Agents; and R. R. Chrisman, Supt. Central Iron Works, Harrisburgh, Pa. (formerly a Proprietor.)

RAILROAD IRON.

THE undersigned, agents for the manufacturers are prepared to make **CONTRACTS FOR RAILS** delivered free on board at ports in England, or exship at ports in the United States.

New York Saturday, May 13, 1871.

Trial of "The Wharton Safety Railroad Switch."

On Friday of last week, some twenty-five or more gentlemen, actively engaged in railroad operation and management, witnessed an experimental trial of "THE WHARTON SAFETY RAILROAD SWITCH" on the track of the Boston and Providence Railroad, through the courtesy of Mr. A.A. Folsom, the Superintendent. The trial took place in the yard near the passenger station, and MR. WHARTON, who was present, explained the operation of the device. The Switch is by no means unknown in other sections of the country, through comparatively unknown in New England. Prominent railroads of the largest traffic in Pennsylvania, like the Pennsylvania Central, the Philadelphia and Reading, and others, after giving this Switch an exhaustive and practical trial in the track, have now adopted it for their entire lines, in preference to all other devices, and long experience has convinced the managers of these roads that it meets all the requirements of a *safety* switch.

The arrangement of this Switch is such that *both rails of the main track are left entirely undisturbed at all times*, and trains can come off from or pass into the sidings without in any way interfering with the line as a through route; and even should the Switch be left wrong, no accident can happen to the trains by it. In fact, on double track roads there is no need for target signals to indicate the position of the Switch, and on single track roads the Switch will not remain set for the sidings, even should the switchman neglect his duty. One objection to the Tyler Switch has been the distance which the wheels fall in passing through it, and the consequent hard pounding given to the wheel and rail; and while we have passed through these switches, set wrong, on a locomotive going at pretty sharp speed with entire safety, yet we have always felt that these blows were hazardous, to say the least, and impaired the value of that well known device. With "THE WHARTON SWITCH" there is no pounding of the wheels and rail, and, in fact, the movement is hardly perceptible. At the trial in question, the trains were run through this Switch set at different angles, and the result was uniformly the same—great ease and freedom of movement, no pounding or blows of any kind. We think this freedom from hammering of the wheel and rail will be thought a quite important matter with those who are responsible for the rolling stock; and the absolute protection which the Switch gives the trains on the main tracks, under all circumstances, weigh very strongly in favor of its general adoption. The wearing parts of the Switch are made of *solid steel*, and therefore will last for a long term of years without repair; and its general simplicity of character will recommend it to all who have an opportunity of witnessing its operation. Any one desirous of fully understanding the details of this Switch can address the WHARTON R. R. SWITCH CO., No. 28 South Third street, Philadelphia, Penn.—*Am. (Boston) Railway Times, May 6.*

Pennsylvania Railroad.

The Pennsylvania Railroad Company gives notice to shareholders that they will have the privilege of subscribing for new stock at par, in the proportion of one share for every six as registered in their name, April 30, 1871. Holders of less than six shares will be entitled to subscribe for a full share, and those holding more than a multiple of six shares will be entitled to an additional share. Subscriptions will be received and first instalment of fifty per centum will be payable between the 22d day of May and 22d day of June, 1871. Second instalment of fifty per centum will be payable between the 22d day of November and 22d day of December, 1871. If stockholders prefer, the whole amount can be paid at the time of subscription. No subscription will be received after June 22d, 1871.

Canada Southern Railroad.

TO THE EDITOR OF THE RAILROAD JOURNAL:

The prospectus of this railroad, which has appeared in the public prints, is an interesting document; but as there are some very important points connected with that scheme not referred to in the prospectus I propose to supply them.

The *prospectus* refers to an *entire line from Buffalo to Chicago*, but contains the financial scheme only for the *portion in Canada*. If the Canada portion is laid and the Michigan portion collapses, the line in Canada having no connection would necessarily be a local line only—out in the cold.

But let us take it for granted, for argument's sake, that the entire scheme from Buffalo to Chicago will be completed. It will then simply mean a new railway which will run alongside the new Air Line of the Great Western, in Canada, and the old line of the Michigan Southern, in Michigan, and therefore have to compete for every pound of not only its through traffic but its local traffic also.

It would, if completed, be 50 miles longer from Chicago to New York than the Pennsylvania Central, and would be only 7 miles difference in distance from the Michigan Central and Great Western. But in addition to the Pennsylvania Central and the North Shore routes, it would have a most formidable competitor in the Lake Shore and its New York Central connection, besides the outside lines, such as the Baltimore and Ohio and the Grand Trunk, which, being long lines, always cut the rates on the shorter lines, as, not being able to make *the time*, they have to give an advantage by charging *less money*.

The claim, therefore, that the Canada Southern will be 28 miles shorter than the North Shore (the Michigan Central and Great Western) is an entire mistake. In Canada the new Air Line which the Great Western is constructing will be close alongside the proposed Canada Southern, and will be

only 227 miles long; and as the shortest possible Air Line that can be built through Canada would be 225 miles, it is out of the question to admit that the Canada Southern can shorten the distance.

Now let us look at the prospect for profit of the Canada Southern. For its whole distance from Buffalo to Chicago it will meet the competition of the Great Western in Canada and the Michigan Southern in Michigan, for every pound of its local business. But the local business which all the great railroad lines consider their salvation, is looked upon in the Canada Southern prospectus as of no value. I think most of the railroad men engaged on the great east and west lines would be likely to tell you that without a good local business they could not possibly carry the through traffic at the ruinously low rates now obtained; but the Canada Southern expects to live entirely on such sustenance.

Now as to the estimated earnings, which they make $5,000,000 per annum. I think $1,500,000 would be nearer the mark, and my reasons for arriving at this conclusion I will give. I go so far as to take it for granted that the Michigan portion of the line to Chicago may be built; without it of course they could have no through traffic, as the Lake Shore will never work against itself at Detroit; as well might we expect the Pennsylvania to divert its through traffic north at Crestline to go by the Michigan Southern, as expect the Lake Shore to divert its traffic north from Toledo to go *via* this Canada Southern when it has its own line through to Buffalo—and the Michigan Central is virtually one with the Great Western, with their extended alliance. To return to the figures:

The Great Western in the year 1870 earned	$4,000,000
Fifty-five per cent. of this was through and 45 per cent. local. These are the figures published in their reports.	
Fifty-five per cent. of $4,000,000 equals	$2,200,000
Half to Canada Southern	$1,100,000
Forty-five per cent. of $4,000,000 equals $1,800,000; one-fourth to Canada Southern	450,000
Total to Canada Southern	$1,550,000

Now no reasonable man will claim that the Great Western with its two through lines (one connecting at Niagara Falls, the other at Buffalo) will not earn half the through traffic across Canada, which, as shown by the published reports of the Great Western, is, as stated, $2,200,000. The moonshine of anticipated increases of $1,000,000 per annum in this prospectus is dispelled, when it is found by the reports of the Great Western Company that this through traffic in the year 1870 yielded just $20,000 less money than it did in 1869. So much for allowing the Canada Southern half the through business—a very liberal estimate.

Then as to the local traffic. I give them one-fourth of that, and base this calculation on the fact that the Great Western has 350 miles to earn its local traffic of $1,800,000 upon, while the Canada Southern has only 287 miles; and the Great Western runs through and serves every large city and town in Ontario, while the Southern, in its whole distance, does not go through or near a single town of 1,000 inhabitants except St. Thomas (with its 1,700), which will also be served by the Air Line of the great Western.

These reasons will amply justify the estimate I have made, that the total earnings of this line, if built, will not exceed $1,500,000, 75 per cent. of which would be through business carried at about one cent per ton per mile. At this rate I claim, and I think it will be confirmed by any railway man, that the Canada Southern's working expenses cannot be less than 60 per cent. The statement would then stand:

Earnings	$1,550,000
Expenses	930,000
Net	$620,000

which would yield a dividend of *less than four per cent.* on the proposed amount of the capital of the line, $16,000,000, as shown by the prospectus. Why, if we give the Canada Southern credit for double the figures herein shown, they cannot earn the interest on the eight millions of bonds they propose to issue.

A few words about the St. Clair Branch, which it is proposed to run from St. Clair, alongside the poor-paying Grand Trunk, to Detroit, and then to enter the city of Detroit over the Detroit and Milwaukee, a line owned by the Great Western! This is about as weak as the balance of the scheme.

I think the foregoing a fair and liberal estimate of what the future of the Canada Southern is likely to be, if ever built through to Chicago; but what would be the position of the bondholders, if the Michigan section of this scheme collapsed? Why, they would be in about the same predicament as the unfortunate English shareholders of the Grand Trunk Railway are in.

MAY 11, 1871. VINDEX.

New York and New Haven Railroad.

The income of this company for the years ending March 31, 1870 and 1871, was as follows:

	1870.	1871.
From passengers	$1,715,544 40	$1,750,641 42
" freight	415,059 56	438,346 63

Deduct taxes and interest		237,432 36
Leaving		$825,909 26

The resources for the past year and the disposition of the same have been as follows;

RESOURCES.

Cash on hand April 1st, 1870	$564,626 22
Materials on hand April 1st, 1870	211,607 02
Second installment on additional capital, (25 per cent.)	750,000 00
Transportation earnings	1,063,341 62
Total	$2,589,574 86

PAYMENTS.

Dividends (two of 5 per cent. each)	$675,000 00
Taxes	159,995 09
Interest	77,437 27
Additional real estate	10,932 66
Balance of cost Cos Cob Iron Bridge	241 94
On account of new bridge over Housatonic river, new bridge at Norwalk, new depots, lands, &c	31,091 23
Decrease in accounts payable	257,921 91
Materials for coming season	217,549 00
Cash on hand, and due from agents and corporations, April 1st, 1871	1,159,405 76
Total, as above	$2,589,574 86

The following is an exhibit in condensed form of the business of the past year:

Receipts for transportation, &c		$2,313,949 99
Transportation exp.	$1,250,608 37	
Taxes	159,995 09	
Interest	77,437 27	
		1,488,040 73
To profit and loss		$825,909 26

EXPENDITURES ON ACCOUNT OF NEW CAPITAL.

Additional real estate	$255,516 58
Steel rails	346,575 31
New land and shops, New Haven	386 399 70
Bridgeport bridge	46,499 21
Cos Cob bridge	76,279 63
New equipment	48,000 00
On account of new depots and depot grounds at New Rochelle and Port Chester, and new bridges at South Norwalk and Housatonic River	52,435 35
Total	$1,211,705 78

From the foregoing accounts it will be seen that the gross receipts from the transportation business of the company for the past year have been $51,983.18, and the net earnings, after paying taxes, interest, &c., $62,609.10, more than for the year preceding. The road has been operated with the usual regularity and freedom from accidents. The improvements inaugurated three years ago have been carried steadily forward. About two-thirds of the road is now relaid with solid steel rails; the remaining part will be completed by the close of the year 1872. New double track iron bridges are now in process of construction across Norwalk harbor and Housatonic river, and will be completed during the present year. The entire cost of the steel rails laid during the past year, as well as the expenditures for additional equipment and many other improvements, have been charged to operating expenses.

Since the last annual report, a contract has been entered into between this company and the Hartford and New Haven R. R. Co., by which all the property of both companies has become joint property, under the control and management of a Board of ten managers, selected equally from the Board of Directors of each corporation. This Board of managers was organized on the 27th day of September, 1870, and Wm. D. Bishop was appointed President, and Wm. P. Burrall, Vice President of the same. Under the above contract, this company is entitled to receive annually, 57-100ths of the net earnings of both roads, and the remaining 43-100ths will belong to the Hartford and New Haven R. R. Co. Each company's share of the net earnings will be paid over from time to time, to their Treasurer, to be divided among their stockholders, or otherwise disposed

of, as may be determined by their Board of Directors.

Your Directors are satisfied that this contract for the complete union of property and interests, will prove advantageous to the stockholders of both companies, as well as to the general public.

On the first of November last, your Board of Directors, under and pursuant to a written request of the Board of Managers, and for their account, entered into a contract with the Shore Line Railway, for a perpetual lease of their railroad, extending from New Haven to New London, at an annual rent of $100,000. The result of the operation of said road during the first five months of the lease, will be seen from the statement accompanying this report.

It is not probable that the earniags of the Shore Line road for the first two or three years of the lease, will be sufficient to pay the annual rent, as considerable outlays must be made in rebuilding bridges, and improving the roadway and equipment. The Board of Managers will cause this road to be gradually relaid with steel rails, and placed in all respects in a condition to compare favorably with the main lines, with the full expectation that the increased facilities and additional improvements will add materially to the business of the road.

Hereafter, the annual report to the stockholders of this Company, will be a report of the business of the entire lines subject to the control of the Board of Managers. The propriety of this is manifest, in view of the contract with the Hartford and New Haven R. R. Co.

The company have 36 engines, of which 29 are in good order, 4 in running order, and 3 in shop for general repairs. The number of miles run by engines has been 824,963, at a cost for repairs of 7.8 cents per mile run—which also includes the cost of rebuilding one engine (all new)—and 12 cents per mile run, for fuel. Two new engines are now being constructed at the Rogers Locomotive and Machine Works, Paterson, N. J., which are to be delivered this month. These, and the amount expended upon the repair of engines during the year, places the engine power in excellent condition for the business of the coming season.

The company have also 74 passenger, 17 baggage, 426 freight, and 30 gravel cars, besides 74-234ths of 49 passenger cars, of which 10 are sleeping, and 9 are drawing-room cars, 12 baggage, 4 express freight, and 3 postal cars, belonging to the New York and Boston Express Line; and 74 232nds of 4 passenger and 2 baggage cars, belonging to the New York and Boston Shore Line, which are all in excellent condition.

The amount of this company's proportion of 6 passenger, 4 drawing-room, 2 baggage, and 3 sleeping cars (all new) belonging to the New York and Boston Express Line, and the cost of building 3 passenger and 30 gravel cars, has been charged in the item of "Car Repairs," which accounts for the increased amount of the same. The superintendent in his report says:

We have placed in the track during the past year 38,658 cross-ties, and have laid in the main track 1,300 tons steel rails with "PRATT'S PATENT COMPENSATING FISH JOINT." There was a great delay in the delivery of our steel rails during the past season, as but about one-half of our order arrived in time to be laid last fall, consequently were not placed in the track until the present time. These, with the steel rails under contract for delivery during the coming season, when laid, and also with the amount of material supplied by the gravel train last season, and to be supplied the coming season, will render your roadway equal to what you have promised already, viz: "one of the best in country." Cattle-guards and other masonry on the line of the road, have been very much improved during the past season, and the cost of this extra labor with that of running the gravel train has been charged to "Repairs of Roadway," making that item quite large. It will also be necessarily large during the coming season; after that time it can doubtless be greatly reduced.

After the new double track iron bridges at Norwalk and Housatonic river are completed, the item of "Repairs of Bridges" will be greatly diminished. All the bridges are in good order and condition at the present time.

Depot buildings, engine houses, &c., are all in excellent condition. During the past year a new, substantial engine house has been completed at Stamford, which will accommodate eight engines. The depot building at Port Chester has been very much enlarged and improved. A new depot building is nearly completed at Stratford, and at several places on the line where the present buildings are quite too small to accommodate the business, arrangements are being made to either remodel the same or build new ones.

There have passed over the road during the year, 9,492 passenger, and 2,504 freight trains, exclusive of gravel and construction trains. The number of passengers transported during the same time is 2,551,656, and during the past fifteen years, ending March 31st, 1871, 23,587,002 passengers have been transported over the New York and New Haven Railroad, without any accident to any train, while on that road, that caused the loss of a single life, or limb, to any passenger, so transported.

President.—WM. D. BISHOP.

Directors.—Wm. D. Bishop, Bridgeport; George B. Carhart, George N. Miller, Abraham R. Van Nest, James J. Roosevelt, Wilson G. Hunt, New York; Ezekiel H. Trowbridge, New Haven; Jonathan Godfrey, Southport; Nathan A. Baldwin, Milford; Nathaniel Wheeler, Bridgeport.

Treasurer.—JOHN T. SHELTON.

Secretary.—EDWARD I. SANFORD.

Superintendent.—JAMES H. HOYT.

☞ Mr. A. H. Wright of Greenfield, Mass., has taken of Dillon & Clyde, the original contractors, the contract for laying the track on the Connecticut Valley Railroad from Hartford to Saybrook, a distance of fifty miles, and will push the work to completion in August.

Chicago, Danville and Vincennes Railroad.

The construction of this road is progressing with great rapidity; the rails for the balance of the line have been purchased and paid for, and the Company has in its Treasury all the money required for the completion of the whole road.

A large amount of equipment has been contracted for, and if weather permits, the company are confident of extending the track to Danville by August 15th, when the road will be immediately opened for through business.

This is unquestionably one of the most important roads in Illinois; it passes through a very fine and well settled agricultural country, and as it connects directly with the Black Coal fields of Indiana, it will furnish Chicago with an abundant supply of cheap fuel of the very best quality for manufacturing and domestic purposes.

☞ The Camden and Amboy Railroad Company, having bonded their line, agreeably to regulations of the Treasury Department, are now prepared to transport merchandise from New York to Philadelphia "without appraisement and liquidation of duties" at the former port, under the provisions of an act approved July 14, 1870. For the convenience of merchants and importers, and in order to facilitate transactions under the law, Mr. George B. Raymond, the agent of the Camden and Amboy Railroad Co. at New York, has consented to act as consignee for transhipment of merchandise destined to Philadelphia.

☞ The Hempfield Railroad Company was reorganized on the 3d inst., under the name of the "Wheeling, Pittsburg and Baltimore Railroad Company." A full board of directors was elected with Wm. O. Hughart as President and John H. Page as Secretary. The rest of the officers will be the general officers of the Baltimore and Ohio R. R. Co. We understand that the required 28 miles to complete the connection between this road and the Pittsburg and Connellsville railroad will be constructed without delay.

☞ The associated railways of Germany on January 1, 1871, consisted of seventy-eight companies, owning 19,145 miles of road against 17,178 miles on January 1, 1870. Of these companies, forty-nine, owning 11,835 miles of road, were in Germany; twenty-four, owning 5,960 miles were in Austria and Hungary, and five owning 1,350 miles, were in Holland. During 1870 the German lines had built 884 miles of road, the Austro-Hungarian, 1,013 miles, and the Dutch 70 miles, making a total of 1,967 miles.

☞ The Launceston and Western railway, the first railway ever constructed in Tasmania, was formally opened by his Excellency the Governor in February. The line is 43 miles in length; it connects Launceston with the rich agricultural district of Deloraine, and its whole cost is £450,000.

☞ The following gentlemen were elected directors of the Camden and Amboy Railroad Company on the 10th inst.: William H. Gatzmer, Benjamin Fish, Cambridge Livingston, Ashbel Welsh, Samuel Welsh, Charles McAllister and William G. Cook.

☞ The stockholders of the Nashville and Decatur Railroad have ratified the lease of their road to the Louisville and Nashville Railroad by a large majority.

Cincinnati, Hamilton and Dayton R. R.

At the annual meeting of the stockholders of this company in Cincinnati on the 9th inst., the following gentlemen were elected directors for the ensuing year: Daniel McLaren, John Young, S. S. L'Hommedieu, William Goodman, George T. Stedman, Samuel Fosdick, H. D. Huntington, Lowell Fletcher and Charles W. West. The reports of the officers were of an encouraging nature. The gross earnings for the year ending March 31, were $1,270,621; transportation expenses, $627,295, leaving a balance for interest on bonds, taxes and dividends of $643,376; number of passengers carried, 753,787; tons of freight moved on the narrow gauge cars, 48,603. The net earnings have been 12.68 per cent., out of which two cash dividends of four per cent. each have been paid the stockholders. The surplus account now is $539,874.

North Eastern (S. C.) Railroad.

The earnings of this road for the years ending February 28, 1870 and 1871, were as follows:

	1870.	1871.
From passengers	$87,667 31	$101,710 48
" freight	172,465 83	200,472 22
" express	4,327 04	3,768 89
" mails	15,637 45	15,600 00
	$280,097 63	$321,551 59
Expenses, viz.:		
Maintenance of road	$40,399 05	$61,241 78
Motive power	33,118 65	64,462 44
Repairs of cars	16,535 99	47,606 18
Transportation	54,520 02	42,447 75
Salaries & general exp.	14,986 52	14,989 17
	$159,560 23	$230,747 31
Net earnings	$120,537 41	$90,804 28
Add amount to credit of profit and loss February 28, 1870		45,662 37
Since carried to credit of same from dividend on Cheraw Bridge stock		667 83
		$137,134 48
Less interest paid on bonds	$67,057 70	
Interest accrued on preferred stock November 1, 1870	12,400 00	
Interest accrued on certificates of indebtedness January 1, 1871	7,631 87	
Interest accrued on past due coupons	23,637 50	
Current interest	10,947 50	
Losses sustained during the war, and various pending claims settled, legal claims, expenses, etc.	10,647 24	
		132,321 61
Carried to credit of profit and loss February 28, 1871		$4,812 87

Compared with the previous year, the gross earnings show an increase of $41,453 96; with an increase in expenses of $71,187 08—making a decrease in net earnings of $29,733 12. The President in his report says:

Reviewing the above, you will observe a general increase in our receipts of nearly fifteen per cent. over those of the previous year. From an examination of the Superintendent's Report, and the accompanying tabular statements, showing the departments in which this increase has occurred, it will appear to have been equally distributed throughout our passenger service, while a marked difference is noticeable in our freight service.

Thus we find that the up freights have ruled on a parity with those of the previous year, while the down freights have exceeded those of the same period nearly thirty-six per cent. This indicates both an increase of production over consumption, and a curtailment of the wants of the planting community, corresponding with the reduced values of their products—conditions which are, certainly, favorable to our anticipations of an increased business in the future.

During the year we have moved 34,529 bales of cotton, 65,946 barrels naval stores, 3,387,690 feet of Lumber, and 11,895 tons phosphate rock, as against 22,850 bales, 50,709 barrels, 3,896,000 feet and 3,270 tons the previous year. With reference to the travel, the policy has been adhered to of issuing commutation tickets, without restrictions, at 2½ cents per mile; second class at 3½ cents per mile; first class at 5 cents, and through tickets to remote points, at 3 cents per mile. Any reduction upon these rates would be impolitic. The effect of low fares in stimulating travel is well understood, but their application should be measured by the density of the population to be operated upon, and where from the numbers who might thus be induced to travel, an aggregate revenue would be derived in excess of that which would otherwise accrue.

We regret to state our failure to realize the benefit which was anticipated from the re-opening of the Savannah and Charleston Road. This has been due to the incompleteness of our connection with it, and the absence, up to that time, of a double daily service over that road. The first is now maintained by the use of an omnibus and a ferry steamer across the Ashley River, appendages to which the traveling public of the present day seriously object, and which it will, if possible, avoid by taking competing and even longer routes without these drawbacks. From Charleston Northward, and from Savannah Southward, a double daily service (Sundays excepted,) has been established by the main roads forming the Atlantic Coast Line, while over the Savannah Road but a single daily service has, so far, been adopted, the result of which, especially under recent combinations, has been a considerable diversion of the travel between the important points of Florida and the North, to routes through Savannah and around Charleston, which offer closer connections.

These difficulties are, however, well understood and appreciated by the Directors of the Savannah and Charleston Road, and their removal has had, and is still having their earnest attention. With a close connection at Charleston, and one at Savannah with the Atlantic and Gulf Road, the coast line, as being the shortest and most direct, should be able to defy all competition. Through cars could then be run without change from Wilmington, N. C., to Cedar Keys, or St. Mark's, in Florida, distances of some six hundred miles.

These improvements cannot long be delayed, in view of those which are progressing around us. Arrangements are now being made for a weekly steamship service between Cedar Keys and Havana, which should in a great measure, control the Cuban travel. Better connections have been made at Savannah, through the Macon and Brunswick Railroad, with Jacksonville and other points in Florida and northward of us. That powerful corporation, the Pennsylvania Railroad Company, has recently obtained a charter for a road from Washington to Richmond to be built within the next eighteen months, and taken other measures "to secure a direct communication between the North and South," which shall be common to all, and freed of those fetters which have heretofore controlled the several routes between Weldon and Baltimore. It is not improbable that the time between Charleston and New York will be reduced to thirty-six hours. In the meanwhile, we are not to lose sight of other projects, the completion of which must, eventually, have a favorable effect upon the general business of our road.

The South Carolina Central Railroad, from its junction with ours at "Lane's" to Sumter, a distance of forty miles, we have every assurance will soon be built, which will bring Sumter within 95 miles of Charleston, as now against 130 miles via Kingville, and 141 miles via Florence. At Sumter it will connect with the extension of the Wilmington, Columbia and Augusta Railroad, to Columbia, now in progress, and which will probably be completed within the next three months. The distance to Columbia by this new line will be about four miles longer than that by the South Carolina Railroad.

Your attention has been so frequently directed to the importance and value of the Central Railroad, as a feeder to this, that further remark upon these features is unnecessary. In August last year, your Board of Directors deemed it proper to subscribe to the capital stock of that company thirty-six thousand dollars, (in addition to the fifteen thousand dollars previously subscribed) in order to secure its charter, which otherwise might have lapsed—the said subscription to be payable in the proportion of one thousand dollars per mile for every continuous mile, as completed from Lane's Turnout, and to be subject to your ratification at this meeting. The latter is now respectfully asked.

The Cheraw and Salisbury Railroad is also being built, and from the amount of work already done, and the means at command, there is every probability of its extension to Wadesboro', North Carolina, within the next year.

Our operating expenses have exceeded those of the previous year—a result which was foreshadowed in our last report, from the necessary additions and other expenditures to be incurred the ensuing year. You were then reminded that we were operating the road with very nearly the same machinery which we had in use before and during the war, the advanced age and increasing demands upon which would require the closest attention, and considerable expenditure in maintaining its efficiency. Such, is substantially the case at this time. In our operating expenses, however, are included the cost of a new first class locomotive, 30 phosphate cars, 2 new passenger coaches and other improvements, alluded to in the Superintendent's report, amounting to $36,342, which if deducted from them, would bring the per centage of our receipts upon expenses to about 60 per cent.

We question whether any material reduction of this figure, with our earnings at their present level, can be reached without detriment to the company's interest; and any more rigid economy than we have attempted to observe, might prove unwise, and be followed up by accidents, delays, losses, &c.

We are pleased at being able to report to you the generally good condition of the road and its structures. Some 350 tons rails, with improved "joints," have been supplied in the renewal of those which had become unserviceable; the bridges and trestles have received due attention, and the roadway throughout has been kept up and improved by the employment of an additional floating force, in aid of the ordinary details for that purpose.

The statements of the Treasurer, herewith submitted, will show as at the credit of profit and loss at the close of the past year | $45,662 37
Since added | 667 83
Net proceeds of transportation for 1870-'71 | 90,804 28
Total | $137,134 48

And charged with the following items:

Interest accrued on bonds, preferred stock, and other obligations of the company	$98,036 87	
Interest on overdue coup'ns	23,637 50	
Losses sustained during the war and since adjusted, legal expenses, etc.	10,647 24	
		132,321 61
Leaving at credit of profit and loss, February 28, 1871		$4,812 87

The following will appear as the indebtedness of the company on that date:

17,979 shares capital stock, at $50..	$898,950 00
1 546 new first mortgage bonds of $500 each.	773,000 00
63 old first mortgage bonds of $500 each, outstanding.	31,500 00
283 new second mortgage bonds of $500 each.	141,500 00
139 old second mortgage bonds of $500 each, outstanding	69,500 00
2,220 shares preferred stock at $50..	111,000 00
Certificates of indebtedness	109,018 23
Outstanding interest to be funded...	8,476 50
Outstanding interest due in cash....	3.796 66
Bills payable.	36,071 96
Real estate bonds.	28,000 00
Profit and loss.	4,812 87
Total	$2,215,636 22
To meet this indebtedness, we have the road, 102 miles long, with its sidelings, equipments, etc., at a cost of	$2,140,130 65
And assets as shown by the Treasurer	67,505 57
Total, as above	$2,215,636 22

The entire issue of our new first mortgage bonds, bearing 8 per cent. interest, and payable 1st September, 1899, was 1,640, of $500 each, or $820,000, of which 1,546, or $773,000, have been issued in redemption of the past due bonds and coupons, and interest thereon, leaving on hand 94 bonds, $47,000, to take up those which were then outstanding. In determining the amount of this issue, no provision was made in it for the interest which had accrued on our outstanding coupons, (as no such demand was anticipated,) and hence the charge to profit and loss of this liability, amounting to $23,637 50. On the 28th February, 1871, there were unexchanged 63 old Bonds, but the number has since been reduced to 40, or $20,000, leaving on hand at this date 71 bonds, $35,000, applicable to the retirement of those still out, say $40,000, and our real estate bonds, say $28,000. In the liquidation of this interest upon interest, we have been compelled to use a portion of the bonds intended to have been substituted for the latter, which deficiency, when required, must be supplied from other sources.

The entire issue of our new second mortgage bonds, also bearing eight per cent. interest, and payable 1st September, 1899, was 644, of $500 each, or $322,000, of which 195, or $97,500 have been issued in redemption of the past due bonds, coupons, and interest thereon; 88 of them, or $44,000 in exchange for preferred stock; 222 of them, or $111,000, have been deposited with the Trustees of the latter, and the balance, 139, or $69,500, are on hand for the redemption of that number which are still outstanding.

The amount of second mortgage bonds originally issued was $300,000, of which $145,000 were sold; the remaining $155,000 were subsequently pledged and deposited with Trustees, as a security for a corresponding amount of preferred stock. This preferred stock is then, virtually, a substitute for that amount of second mortgage bonds.

As the Bonds, of which it is the representative, now bear the same rate of interest, there was no valid objection to the reconversion of this stock into bonds, when so desired by its holders; and, accordingly, we have always complied with such requests. The preferred stock has the single advantage over the bonds, of being registered and transferable on the company's books; but many prefer to forego this, for the convenience of collecting their interest by coupons, and the greater facilities of sale, transfer, etc.

Of the general prospects of the company, we have only to remark, that they are, in a great degree, dependent upon the completion of the projected roads, and such other improvements in our connections, as have been alluded to in the foregoing reports, and not until the field of our operations can be extended by them, may we expect the remunerative results which should then be realized.

The company have 13 locomotives, 12 of which are in serviceable condition; 8 first class and 5 second class passenger cars, 5 mail and baggage, 62 box, 48 platform and 30 phosphate cars, all in running order. Number of local passengers carried, 50,609; do., through do., 15,440—total, 66,-049. Bales of cotton hauled, 34,539, of which 9,987 bales were from local stations, and 24,552 bales from other roads. Barrels naval stores 65,-946; feet of lumber, 3,387. Number of miles run by trains, 250,404. Av. receipts per mile run, $1.28; expenses do., 92 cents. Receipts per mile of road, $3,152; expenses do., $2,262.

BALANCE SHEET, February 28, 1871.

Superintendent.—S. S. SOLOMONS.

Secretary.—C. WILLIMAN.

☞ The amended Tax Law went into effect on the 1st of May, at which time the Special or License Tax required of all kinds of dealers expired, except that of tobacco and liquor dealers, which continues in force. The only Internal Revenue collected hereafter will be on incomes, stamps, spirits and tobacco.

☞ The citizens of Atlanta, Ga., have voted to subscribe $250,000 to the Atlanta and Savannah Railway.

Walkill Valley Railway.

The greatly needed want of railroad communication for the thickly populated and rich producing lower counties of this State west of the Hudson River is to be supplied by the Walkill Valley Railway, a new enterprise, which has been started under very encouraging auspices. The road will traverse a delightful section of country, including Orange, Ulster and Greene counties, which are full of diversified and profitable industry, and inhabited by wealthy and enterprising farmers. It will open a large number of thriving towns and villages, which have heretofore been cut off from direct steam communication with the large cities. The country is noted for its flourishing factories and its choice timber. The Walkill Valley Railway is now built as far as New Paltz, in Ulster County, a distance of twenty miles, connecting at the lower terminus with the Erie and the Montgomery and Erie Railways. It is under contract to be completed to Kingston next fall, and will ultimately reach to Albany. The whole distance from Albany to New York by the new route will be 147 miles—almost the identical distance by the Hudson River Railroad on the east side of the river. The entire cost of the road, equipped, is estimated at $6,000,000. The bonds of the Walkill Valley Railway Company form a very desirable security, and are now selling at 90, principal and interest payable in gold. The issue of bonds is limited to 20,000 per mile of completed road, which makes them a very desirable investment.

Illinois Central Railroad.

The statement of this Company for the month of April, 1871, is as follows:

LAND DEPARTMENT.

Acres Construction Lands Sold	3,760.26 for	$37,182 14
Acres Int. Fund Lands sold	120.00 for	1,212 20
Acres Free Lands sold..	44 53 for	930 67
Total sales during month of April, 1871	3,924.79 for	$39,275 01
To which add Town Lot Sales		464 18
Total of all	3,924.79 for	$39,739 19
Cash collected in April, 1871		$129,841 56

ESTIMATED EARNINGS—TRAFFIC DEPARTMENT.

	In Illinois 707 Miles.	In Iowa 402 Miles.	Total. 1109 Miles.
Freight	$307,489 00	$56,416 00	$363,905 00
Passengers...	118.061 52	40,319 95	158,381 47
Mails	6,375 00	3,059 33	9,434 33

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterisk* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "¶."

Years ending.	Railroad: Main Line.	Railroad: Branch Line.	Railroad: 2d Track and Sidings.	Railroad: Railroad in progress.	Companies.	Rolling Stock: Cars: Engines.	Cars: Pass.	Cars: B. M. E. American Railroad Journal.

Saturday, May 13, 1871.

Stock Exchange and Money Market.

The money movement has been in favor of the borrowing interests, all through the week. The available supply has been in excess of reduced calls from street and mercantile firms, whose wants have been quite promptly provided for, within the range of from 4@6 per cent. in a temporary form, and from 5½@7 per cent. per annum in the discount line. The tameness of speculation at the Stock and Gold Boards has been against activity in Money, and the city bank exchanges have fallen off materially within the week. The Government office has been disbursing coin and currency, quite freely, since our last. The city banks, last week, gained $210,105 of specie, $1,672,920 of legal tender notes and $5,232,315 of deposits. They enlarged their loan and discount averages $1,758,240 and reduced their circulation $67,624. The city bank exchanges, last week, averaged $115,225,550; and thus far, this week, 98 millions daily. The banks now hold $13,162,544 of specie and legal tender notes, in excess of the 25 per cent. of their liabilities required by the national banking act. The United States Sub Treasury reported a loss of $5,765,014 of coin, and of $1,534,825 in the currency balance. The receipts of the office last week were $5,408,154 in coin, and $4,262,484 in currency; payments $11,173,168 in coin, and $5,797,309 in currency. The office received $2,660,000 in coin or its equivalent, from customs; and disbursed $6,548,896 of coin interest.

The subscriptions to the new refunding Five per cent. Loan now amount to about 64 millions.

The U. S. Sub-Treasury, on Thursday morning of this week, held a balance of $7,899,830 in currency, and $61,093,322 in coin, against a balance a week previous of $7,807,565 currency, and $63,039,034 coin.

The U. S. Sub-Treasurer retired, last week, $2,322,845 of coin certificates, received for customs.

Government revenues have been on a moderate scale, during the week. The excises yielded about 2¼ millions. The customs at the port of New York, last week were $2,544,845; and at the outports, equal to about $830,000 more, all in coin, or coin certificates. The internal revenue yield thus far in the current fiscal year beginning with July 1, 1870, has been $123,810,111.

Under the Treasury programme for May, Government will sell during the month, through the Treasury office here, Gold, as follows: Thursday, May 18, two millions; Thursday, May 25, two millions. And will buy Five-Twenties as follows: Wednesday, May 17, two millions; Wednesday, May, 24, two millions; Wednesday, May 31, two millions.

Gold has attracted much less attention, especially from speculative operators, and the price has been comparatively steady, throughout the week, the extremes having been 111@111⅜; and the closing quotations on Wednesday was 111⅛, against 111¼ the preceding Wednesday. The export drain has been less extensive. The past week's shipments were $1,808,870; those of Tuesday, of the current week, $527,000; and of Wednesday, $256,553. The coin interest disbursements of the Sub Treasury have been on a reduced scale. The customs revenue of the port has been up to a moderate daily average. The Gold Exchange Bank clearances have been under 21 millions a day.

The Treasury Department reports show net receipts during the quarter ending April 1st, to be 90½ millions, against 73½ millions net expenditures.

The Treasury Department balances, on Monday morning, were $103,450,000 of coin, including $21,340,000 represented by outstanding certificates; and $8,389,000 of currency.

The customs at this port on Wednesday were $558,000.

The export drain was $1,808,870 last week, against $591,434, same week preceding year. The shipments since July 1, 1870, have been $66,846,064, against $25,369,731 same time in 1869–'70.

The customs demand for Gold last week, averaged $444,334 a day; thus far, this week, it has averaged $480,500 a day, or equal to a weekly aggregate of $2,883,000. The arrivals of specie from Europe, Havana and other foreign ports last week were $22,588, and since Jan. 1, 1871, $2,994,481, against $6,340,509 same time in 1870. The total customs revenue of the Government, in coin, at this port, since July 1, 1870, has been $127,165,561, against $115,320,343 same time in 1869–'70.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest

on the public debt since July 1, 1870, $74,260,237 against $78,314,681 same time in 1869–'70.

Foreign Exchange has been quoted very firm, on a fair average inquiry, and light offering of prime bills. Bankers' sixty day bills on London closed on Wednesday at 110⅛@110¼; sight bills on London, 110⅝@110¾.

The produce exports from this port, week ending with May 9, were to the currency value of $3,846,933.

Government securities show a further slight rise in prices, on a moderate business, checked, to some extent, by the very limited offerings of nearly all issues, especially of the six per cent. gold bearing bonds. The latest dealings showed rather less buoyancy.

On Wednesday, Government bought in two millions of Five-Twenties at 110 99@111 25, ex-interest. The amount of bonds offered was $7,437,200.

U. S. sixes of 1881 closed here on Wednesday of the current week at 116⅞@117; U. S. Five-Twenties of 1862, ex coupon 110¾@111; U. S. Five-Twenties of 1864 at 110¾@110⅞; U.S. Five-Twenties of 1865, 110¾@110⅞; U. S. Five-twenties of 1865 consolidated, 113⅛@113¼; U. S. Five Twenties of 1867, 113⅛@113¼; U. S. Five-twenties of 1868, 113¼@113⅜; U. S. Ten-forties at 109⅜@109⅝; U. S. Six per cent. currency bonds, 115¾@115⅞.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	April 26.	May 3.	May 10.
Consols	93¼	93½	93½
U.S. 5-20's of 1862	90⅛	90½	90¼
U. S. 5-20s, 1865	90	90¼	90⅛
" 1867	92¼	92½	92⅛
" 10-40s	89¼	89½	89½
Erie	18⅛@18⅜	19⅛@19⅜	....

State bonds have been in moderate demand and generally held with firmness.

Railway bonds have been in more general request for investment purposes, and quoted higher in price. Central Pacific Sixes have advanced sharply, closing strong at 102¼@102½, under an improved inquiry, largely from buyers, on foreign account, stimulated, in part, by the very favorable exhibit of the earnings of the road in April, which were $756,250 against $633,758 same month last year—making the total since January 1st $2,392,685 against $1,929,370 same time in 1870, showing an increase in the first four months of 1871, of nearly half a million dollars. The Chesapeake and Ohio R. R. First Mortgage six per cent. gold bonds have been in good demand at 90 per cent. and accrued interest. Union Pacific Sixes closed at 93⅛@93¾.

The market for Railway and miscellaneous share property has been only moder ately active in most instances, but prices have shown more firmness. The speculative spirit has not been very manifest. The latest dealings indicated a dull, but steady market.

General business has shown a moderate degree of animation in the line of domestic produce. Breadstuffs closed irregularly as to price; Provisions, more firmly; Petroleum, stronger; Naval Stores, unsettled. Middling upland cotton closed on Wednesday at 15⅛@15¼ cts. per lb. The receipts at all the ports, since Sept. 1, have been 3,621,796 bales, against 2,597,684 bales same time last year; exports 2,690,402 bales, against 1,815,855 bales same time last year; stock at the ports at latest dates, 453,982 bales, against 334,165 bales same date 1870.

At the Live Stock Markets, Beeves have been in more demand at from 10@15 cts; Veal Calves, in moderate request at 4@9 cts; Sheep at 5@8⅛ cts; Lambs at 10@16 cts; Swine, 6⅛@6⅜ cts per lb., all live weight. The week's reciepts were 7,782 Beeves, 5,584 Veal Calves, 20,015, Sheep and Lambs; and 19,342 Swine.

Ocean freights have been fairly active. Grain rates have been quoted higher.

Foreign goods have been less freely dealt in, but values have been generally fairly supported. The week's imports of foreign goods reached $7,846,227, including $2,461,531 of dry goods.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

THE GREAT NATIONAL LOANS.

☞ NEW FIVE PER CENT. BONDS OF THE UNITED STATES.

The Treasury Department is now able to promise that the registered Certificates of Stock, and a good part of the Coupon Bonds, of the New Loan of the United States, bearing Five per cent. Interest, payable quarterly in Gold, will be ready for delivery early in the present month. The Subscriptions to the Loan now amount to $62,000,000, and it is expected that the Subscriptions and Sales will progress more rapidly when the Certificates and Bonds are ready for market abroad as well as at home. The whole sum of Five per Cents offered to the public generally, and to the holders of United States 5-20 Bonds, without qualification, is $200,000,000. When this amount, to which preference is thus given, is taken up, the remainder of the Five per Cents, $300,000,000, embraced in the New Loan of July 14, 1870, for refunding the Public Debt, will be offered in connection with $300,000,000 Four and one half per Cents, and any part of $700,000,000 of Four per Cents, the one running fifteen years and the other thirty years.

The following is a copy of the New Five per Cent. Bond, under and pursuant to the New Loan Act of Congress:

FORM OF 5 PER CENT BOND.

INTEREST | FUNDED LOAN OF 1881 | 5 PER CENT.

UNITED STATES OF AMERICA

ARE INDEBTED TO THE BEARER IN THE SUM OF

..... DOLLARS.

THIS BOND is issued in accordance with the provisions of an Act of Congress entitled "An Act to authorize the refunding of the National Debt," approved July 14, 1870, amended by an Act approved January 20, 1871, and is redeemable at the pleasure of the United States, after the firs day of May, A. D. 1881, in Coin of the standard value of the United States on said July 14, 1870, with interest in such Coin, from the day of the date hereof, at the rate of FIVE PER CENTUM per annum, payable quarterly, on the first day of February, May, August, and November, in each year. The principal and interest are exempt from the payment of all Taxes or Duties of the United States, as well as from taxation in any form, by or under State, municipal or local authority.

WASHINGTON, ..., 18....

Entered ..... Recorded .....

.....

Register of the Treasury.

Registered bonds will be issued of the denominations of $50, $100, $500, $1,000, $5,000 and $10,000, and coupon bonds of each denomination except the last two. The interest will be payable in the United States at the office of the Treasurer, any Assistant Treasurer, or designated depository of the Government, quarterly, on the first days of February, May, August and November, in each year.

The Interest on the Registered Stock of this Loan, it is determined by the Treasury Department, will be paid as conveniently to the holder as on the Coupon Stock, and personal attendance, or attendance by proxy at the Treasury, to draw and receipt for the Interest will be dispensed with, *whenever the check of the United States Treasurer, mailed punctually to the address and order of each holder, on or before every quarter-day, is preferred to such attendance.* This check, payable in Gold Coin at the Treasury in New York, (or such other office as the Stock is registered at,) will be negotiable or collectable on the indorsement of the owner or owners of the Stock. In pursuance of this arrangement, the subscribers to, or purchasers of, the Stock in its registered form (which is a complete protection against theft or other losses incident to Coupon Bonds payable to Bearer) are advised to give their Post-office address in full, and to notify of any change in the address between quarter days.

The whole proceeds of the new loan will be applied to the payment or redemption and cancellation of the 5-20 years six per cent. bonds, and, in addition to these proceeds, the 5-20s are now being reduced by purchase at the rate of $10,000,000 per month.

The entire effect, therefore, of the New Loan, in connection with the existing Sinking Fund process of the Treasury, is to reduce both Principal and Interest of the Public Debt of the United States. *The Loan creates no additional supply of Government Stocks*, while the application of the surplus revenues derived in Gold from Customs is constantly lessening, as it has been doing for two years past, the Funded Stocks bearing six per cent. Gold Interest.

The 1st of May schedule of the Public Debt, which has just been published by the Secretary of the Treasury, shows a reduction in these Stocks since the April schedule of $12,215,700 and a further lessening of the yearly interest charge thereon of $732,942. This leaves the total yearly interest charge in Gold $111,982 034. In the same month the Treasury paid and canceled $4,470,000 of the Three per Cent. Currency debt, reducing the whole of this debt bearing interest to $51,023,000, and the yearly interest charge thereon to $1,587,470.

The proposed further reduction of the annual interest charge upon the Public Debt by refunding is as follows:

By exchange of $500,000,000 United States six per cents for new five per cents of 1861	$5,000,000
By exchange of $300,000,000 United States six per cents for four and a half per cents of 1866.....	4,500,000
By exchange of $700,000,000 United States six per cents for four per cents of 1901	14,000,000
Total saving per annum by refunding.	$23,500,000

The large and rapid accumulation in the last few years of private capital now retired from active business, and of the cash Savings and Life Insurance premiums deposited with or intrusted to the provident institutions of the country—all seeking the most undoubted security, pledged to be kept free of all taxes, under national or local authority, and content, provided this object be assured, with moderate rates of interest—will no doubt ultimately absorb so much of these New Stocks as may not be taken in voluntary conversion of United States 5-20s, or marketed abroad.

C. C. NORVELL,
In charge of United States Loan Advertising.

TREASURY OFFICE, NEW YORK, May 2, 1871.

PROGRESS OF REDUCTION OF THE NATIONAL DEBT.

	Debt of the U. S. less cash in the Treasury.	Decrease of debt during the preceding month.	Total decrease from March 1, 1869, to date.	Monthly interest charge.	Decrease in monthly inter't charge.

1870–'1	110,509,210

Journal of Railroad Law.

RAILROAD COMPANIES—WHEN LIABLE FOR INDEBTEDNESS OF CONTRACTOR TO HIS LABORERS—CONSTRUCTION OF STATUTE.

The facts in the late case of Cummings *vs.* The New York and Oswego Midland Railroad Company, (1 Lansing, 68,) are fully and clearly stated in the following opinion by

BALCOM, P. J.—The defendants are a railroad corporation organized in 1866, under and pursuant to chapter 140 of the Laws of 1850.

The plaintiff's claim for his own labor, and that of his team and servant, performed for a sub-contractor of the defendants, in the construction of their railroad, was made against the defendants under and by virtue of § 12 of the act under which the defendants were organized as a corporation.

The important portion of that section, so far as this case is concerned, reads as follows, viz:

"As often as any contractor for the construction of any part of a railroad which is in progress of construction, shall be indebted to any laborer, for thirty or any less number of days' labor performed in constructing said road, such laborer may give notice of such indebtedness to said company in the manner therein provided; and said company shall thereupon become liable to pay such laborer the amount so due him for such labor, and an action may be maintained against said company therefor." (Laws of 1850, p. 215.)

The plaintiff gave the proper notice, and commenced his action before the Justice, within the time prescribed by such act to entitle him to recover.

No objection was made in the County Court to a recovery on the ground that the labor was performed for a sub-contractor in the construction of the defendant's railroad. No such objection could have prevailed, as against any portion of the plaintiff's claim; for it was settled by the Court of Appeals, in Kent *vs.* The New York Central Railroad Company (2 Kern, 628), that the above mentioned § 12 extends to workmen hired by parties to whom the original contractor has sub-let a portion of the work.

The only material question in the case is whether the plaintiff was entitled to recover for labor performed on the defendants' railroad, by his team and servant, for a sub-contractor, who was constructing a portion of such road. And this is not an open question in this Court, it was decided adversely to the plaintiff's claim by the Court of Appeals, at the March Term, 1856, in the case of Atchison *vs.* The Troy and Boston Railroad Company. That case has never been reported, but we have been furnished by Mr. Kernan, the then reporter of the Court of Appeals, with a copy of the opinions of the Judges delivered in the case.

Judge Johnson said, in that case, when speaking of the act under which the plaintiff's claim is made, that, "the design of the act was, it seems to me, to give the laborer a claim upon the company, for the amount due him from his employers for thirty days' labor, performed by himself, or any number of days less than thirty. Nothing beyond this can fairly be inferred from the terms employed." He further said: "The whole object, manifestly, was to protect a class of day laborers upon works of this description, who depended mainly upon their own labor, and payments at short intervals, for a subsistence, against the failures and frauds of contractors by whom they were employed; and not those who might, for convenience or profit, employ the labor of others." And came to the conclusion that the plaintiff, in that case, could not recover for the labor of his team or hired servant. Judge Comstock said in that case: "The statute, we think, gives the remedy only to the person who labors himself for a contractor, and confines it to the price of his own labor, or of that to which the law entitles him."

The plaintiff in that case had recovered, in the Supreme Court, not only for his own labor, but for the service of a four horse team, driven by himself. The Supreme Court disallowed his claim for the wages of his hired servant, and the services of the team, driven by such servant. The Court of Appeals modified the judgment in that case, and reduced it, so that the plaintiff only recovered for his own personal labor, the price and value of which was sixty dollars.

That case is decisive of this. It shows that the plaintiff in this case was not entitled to recover for the labor of his team or servant, but only for the labor performed by himself personally.

It follows that no error was committed on the trial of this case in the County Court to the prejudice of the plaintiff; and that the order of that Court, denying the plaintiff's motion for a new trial, should be affirmed, with costs.

Judgment affirmed.

The Canada Canals.

From an official report just issued we have compiled a tabulated statement, published elsewhere, which exhibits, in a brief but comprehensive form, the length and character of our present canals. The remarkable inequality in the dimensions of the locks, and in the depth of water on the sills, show a deplorable want of uniformity, and of a well devised plan with reference to these important works.

From this table the total length of the canals, the rise of lockage and the number of locks may be deduced, as follows:

	Miles in length.	Rise of lockage, feet.	No. of locks.
St. Lawrence canals..... ..	70⅞	536½	54
Welland and branches.....	50¾	163½	32
Rideau system..... ....134⅜		358½	45
Richelieu & Lake Champl'n.	12⅛	79	10
St. Peter's, Cape Breton....	⅛	9	1
Burlington Bay.....	½	...	..
Total 269⅛		1,146½	142

The objects aimed at in these important public works we propose to state in the briefest manner possible.

In the St. Lawrence navigation the canals are for the object of enabling vessels to pass the rapids on that river. The Lachine avoids the St. Louis Rapids at Lachine; the Beauharnois carries navigation round the Cascades, the Cedars and Coteau du Lac rapids; the Cornwall avoids the Long Sault Rapids; the Farran's Point avoids the Farran's Point Rapids; the Rapide Flat overcomes the rapids of that name; the Galops avoids the Iroquois, the Cardinal and the Galops rapids. The Welland passes from Lake Erie to Lake Ontario and avoids the Falls of Niagara and the rapids above and below the cataract. The Burlington Bay Canal is cut through a sandbar at Hamilton, which enables vessels to pass from Lake Ontario into Burlington Bay. The system of navigation between Montreal and Kingston passing round by Ottawa includes the Carillon, Chute a Blonde, the Grenville, the Rideau and the

St. Anne canals, the first four of which were designed as military works; the Carillon carries navigation round the Carillon Rapids on the Ottawa River; the Chute a Blonde avoids rapids of that name on the same stream, the Grenville overcomes the Long Sault Rapids, the Rideau connects the Ottawa River with the lower end of Lake Ontario and extends from Ottawa city to Kingston; it is simply a series of works converting the Rideau and Cataraqui rivers into a continuous navigable channel. The Richelieu and Lake Champlain navigation extends from Sorrel, at the mouth of the Richelieu River, a point 46 miles below Montreal, to Lake Champlain in the State of New York. The Canadian Canals on that route are the St. Ours and the Chambly; on the American side are the Champlain and a portion of the Erie.

The reports (of the majority and the minority) of the Canal Commissioners are expected to reach the public before long, when we hope a comprehensive and intelligent scheme for more fully utilizing the existing canals will be brought forward, as well as valuable suggestions with reference to the new projects before the country. About twenty millions of dollars have been expended on canals in Canada; but that expenditure has never benefitted us as it should have done, from the want of a uniform system. We shall look with interest for the forthcoming report.—*Canadian Monetary Times.*

Lake Shore and Michigan Southern Railway.

At the annual meeting of the stockholders of this company in Cleveland on the 3d inst., the following gentlemen were elected directors for the ensuing year: Horace F. Clark, James H. Banker, Augustus Schell, Azariah Boody, New York; William Williams, Buffalo; Henry B. Payne, Amassa Stone, Jr., Stillman Witt, Cleveland; William L. Scott, Milton Courtright, John A. Tracy, Erie; Albert Keep, Chicago, William D. Bishop, Bridgeport, Conn. The officers are. President, Horace F. Clark, of New York; Vice President, Augustus Schell, of New York; Treasurer, James H. Banker, of New York; Secretary and Assistant Treasurer, George B. Ely, of Cleveland; Auditor, C. P. Leland, of Cleveland; General Manager, J. H. Devereux of Cleveland; General Superintendent, Charles F. Hatch, of Cleveland; General Freight Agent, Addison Hills, of Cleveland; Assistant General Freight Agent, Charles M. Gray, of Chicago; General Ticket Agent, J. W. Cary, of Cleveland; Chief Engineer of the Lake Shore Division, Charles Collins, of Cleveland; Chief Engineer of the Michigan Southern Division, Charles Pline, of Chicago.

Among the resolutions adopted at the meeting was one endorsing the loan for the short line between Dayton and Cincinnati, in continuation of the air line between Cleveland and Cincinnati.

The following is a synopsis of the annual report:

The first part of the report recites the organization of the company, which is a consolidation of several, forming a continuous line of railway from Buffalo to Chicago, 540 miles in length. The company owns and controls branches as follows: Elyria to Sandusky, 35 miles; Oak Harbor to Milbury, 15; Toledo to Elkhart, Ind., 133; Adrian to Jackson, Mich., 46, and Adrian to Monroe, Mich., 34 miles. The following roads are under separate organizations, but the capital stock thereof is owned wholly by this company: Detroit, Monroe and Toledo, 65 miles, and the Kalamazoo and White Pigeon, 37. The Jamestown and Franklin road, 51 miles, is operated by the company under a lease; it is contemplated at an early day to construct this line from Jamestown to Ashtabula. The Kalamazoo, Allegan and Grand Rapids road, 58 miles, is also operated under a lease. The whole number of miles owned and leased by the company is 1,014. The company has 34 miles of double track, namely, between Erie and Cleveland, and 236 miles of side track. During the past year 25 new engines and 601 cars have been added to the equipment of the road at a cost of $654,309. The present equipment consists of 299 engines, 274 passenger cars and 6,077 freight cars.

The authorized capital stock is $50,000,000, of which sum $35,000,000 has been issued to the stockholders of the various companies entering into the consolidation, leaving $15,000,000, which can be issued only by authority of a previous vote of the stockholders. The bonded debt of the company amounts to $22,283,000, the annual charge for interest on which is $1,561,810, the rate being seven per cent. on all except $200,000, which is eight per cent. Of this debt nineteen classes of bonds are secured by mortgages on distinct portions of the road. The company last July executed a consolidated mortgage, with a provision for a sinking fund, to secure the payment of bonds registered and coupons to the amount of $25 000,000, bearing seven per cent. interest. Of the bonds secured by this mortgage a sufficient amount has been set apart to secure the payment of the bonded debt at maturity, and the proceeds of the residue will be appropriated to double tracking the main line and procuring additional equipment.

The earnings for 1870 were:

From freight	$8,658,661
From passengers	4,153,512
From all other sources	645,367
Total	$13,457,540
Operating expenses, including taxes, 62 1-5 per cent.	8,368,821
Net earnings	$5,088,719
Interest on bonded debt and guaranteed stock, leases, &c	$1,777,202
Dividends—2 of 4 pr ct. each.	2,752 360
	4,529,562
Surplus for the year	$559,157

New depots and other structures have been built, at a cost of $126,567. Additional second and side tracks (thirty-four miles) have been constructed, at an expense of $314,406. The expense for bridge masonry and permanent embankment was $391,039; of miscellaneous construction, $39,449. During the year 18,661 tons of new and rerolled rails, including 3,054 tons of steel rails, have been laid. It has been determined to construct during the present year 114 miles of additional double track between Buffalo and Toledo. The Board of Directors recognize the ability and fidelity with which Mr. J. H. Devereaux, the general manager, and the other officers of the company have discharged their several duties, and attribute to their efforts the successful results of the year.

The earnings of the road for the first four months of the year 1871 show an increase of $393 000 over the corresponding period of last year.

☞ Articles of incorporation were filed at Indianapolis on the 24th of April, of the Lake Erie, Evansville and Southwestern, and the Evansville, Crawfordsville, Kokoma and Toledo Railroad. The former will be built from Evansville to the Ohio State line, connecting with the Lake Shore, Louisville and Southwestern Railroad.

☞ Mr. John Thomas has been appointed General Superintendent of the Cleveland and Pittsburg Railroad vice Mr. Wm. Stewart, resigned.

HARVEY FISK. A. S. HATCH.

FISK & HATCH,

BANKERS AND DEALERS IN GOVERNMENT SECURITIES.

No. 5 NASSAU STREET, NEW YORK, May 12, 1871.

The SIX PER CENT. GOLD BONDS of the CHESAPEAKE AND OHIO RAILROAD COMPANY are secured upon a property which, when the extension to the Ohio River, now in process of rapid construction, is completed and fully equipped, will represent a cost of nearly $30,000,000, and an actual value in road franchises, rights of way, &c., of not less than $50,000,000.

The total amount of the loan is $15,000,000, of which nearly one-half, or over $7,000,000, have already been sold.

The *Central Pacific Bonds*, negotiated by us, amounting to $25,885,000, have a ready market everywhere, being favorably known and actively dealt in at all the principal stock exchanges of this country and Europe, and are readily salable at all times at quoted market price, which is now above par.

The bonds of the CHESAPEAKE AND OHIO RAILROAD COMPANY we believe to be of equal value and security, and must in time take a like rank in market value and salable character.

Holders of five-twenty bonds desiring to fund them otherwise than in the new five per cent. government loan may do so with entire safety at a profit of about 20 per cent., and without reduction of interest, by an exchange for the bonds of the CHESAPEAKE AND OHIO RAILROAD COMPANY. Present price, 90 and accrued interest from May 1.

We also buy and sell government securities and the bonds of the Central Pacific Railroad Company, and as agents of the United States government will attend to the funding of five-twenties into the new United States bonds.

FISK & HATCH.

☞ At a meeting of the stockholders of the Louisville and Nashville railroad company on the 3d inst., the President and directors were authorized to lease the Nashville and Decatur Railroad, and make such contracts for the completion and control of the North and South Alabama as is best for the interests of the Louisville and Nashville road. A resolution was also adopted to guaranty and endorse $3,500,000 seven per cent. 30-year bonds of the Memphis and Ohio Railroad.

☞ The earnings of the Central Pacific Railroad Company in April, 1871, were $756,250, against $633,758 in April, 1870—an increase of $122,492. For the first four months of 1871, (January to April inclusive,) the earnings were $2,392,685, against $1,929,370 for the corresponding period of the previous year—an increase of $463,315.

☞ The stockholders of the Belfast and Moosehead Lake Railroad Company have voted, 5,360 to 22, to lease their road to the Maine Central Railroad Company for fifty years from the 10th of May, at an annual rent of $36,000.

☞ Articles of association were filed at the office of the Secretary of State, Indianapolis, Ind., on the 3d inst., for the Brazil and Chicago Air Line Railroad.

☞ The imports into the port of Boston for the first four months of 1871 amounted to $18,858,163, and the exports to $4,407,420.

Delaware and Hudson Canal Co.

The annual meeting of the Stockholders of the Delaware and Hudson Canal Company was held at the office of the company in this city on the 9th inst. The report of the Board of Managers, which was presented, shows a net profit from the business of the company during the past year of $1,518,828 14—a fraction over ten per cent. on the capital stock. The sales of coal during the year amounted to $9,280,332 97. The value of coal on hand at the end of the year was $372,831. The receipts from canal tolls amounted to $95,-101, and the miscellaneous profits to $319,468. The total expenditures were $8,061,284. The excessive drought seriously interfered with navigation, little business being done after 1st September, resulting in a loss of tonnage of not less than 700,000 tons, and largely increasing the cost of their coal movement in every department. The managers state that the railroads from Carbondale to Scranton, and from Susquehanna, on the Erie Railway, to Nineveh, on the Albany and Susquehanna, are under construction, and will be completed during the current year, when their line from Wilkesbarre to Albany will be continuous, and the shortest rail line from the coal fields to the North and East. The railroad from Carbondale to Susquehanna has been completed, placing them in connection with the Erie east and west. After alluding to the reduction in the wages of the miners, and the subsequent strike by that body, the managers state as their belief that if the suspension of the last two years had not taken place, the consumption of 1871 would have been equal to the productive capacity, at prices fairly compensating operator and miner, and furnishing the consumer with coal at moderate rates. The causes which led to the great strike which commenced in December last are briefly stated as follows:

During the war the rapid increase in the demand for coal stimulated production beyond precedent, forced higher rates for mining than were paid by any other branch of industry, and attracted to the mines a larger number of men than could be profitably employed when business returned to its natural channel. To maintain the then current high wages, the miners formed an association, which in a short time embraced the entire Anthracite region, and in 1869 resolved that they would not only determine the rates to be paid for labor, but that they would also control and determine the production of the mines and the value of coal to the consumer. This new and extraordinary claim was conceded by a majority of the producers, but was successfully resisted by the three Northern companies. They were compelled, however, by the action of the other regions, to make larger advances in wages than the business would warrant. With the view of bringing their business again to a proper level, and of equalizing the rates paid for labor with the other regions, the action of November was determined upon. The rates agreed upon were carefully considered, were fully equal to those of other coal producing regions, and were sufficient to yield larger average wages than can be obtained in any other branch of industry in the country. Nothing has occurred since the strike was inaugurated to change the views or the policy then entertained and determined upon. The system of suspension inaugurated by the men, for the avowed purpose of curtailing the production, is alike disastrous to the company, to the miner, and to the consumer, as no temporary advance in the price of the product will compensate either the operator or the miner for the great losses entailed during periods of suspension, while the consumer bears the burden of enforced high prices, and the risk of having the supply cut off at any moment. The only question involved in the issue is whether the property shall be controlled and the policy of the company determined by the owners, or whether it shall be committed to the care and direction of an irresponsible organization, and in determining this question the managers are strong in the belief that the stockholders can have but one opinion.

The following gentlemen were re-elected managers for the ensuing year: Charles N. Talbot, Edward J. Woolsey, Geo. Talbot Olyphant, Abiel A. Low, Robert Lenox Kennedy, James M. Halsted, Le Grand B. Cannon, James R. Taylor, Thomas Dickson, John Jacob Astor, Thomas Cornell, Wm. J. Hoppin and Isaac N. Seymour.

Steel Rails.

The directors of the Grand Trunk Railway of Canada, in their recent report to the shareholders, say:

The total number of miles relaid during the past half-year was 108½, of which 38½ were laid with steel. The steel rails which were laid in the track during the past season have given great satisfaction. They were exposed to the severity of the coldest winter which has been experienced in Canada during the past twenty years, and, with three exceptions in first laying, not a single steel rail has broken or shown any sign of fracture or wear.

The President of the Central Railroad Company of New Jersey, in his annual report for 1870, says:

The company have decided to begin at once relaying the main tracks with steel rails, with the intention of continuing the work till such rails have entirely taken the place of iron in all tracks exposed to heavy wear and traffic. As the business of the road has increased, the iron rails, though selected with the utmost care and from the best manufacturers, have been found to fail with still greater rapidity, till the addition made thereby to the expense of keeping the roadway in repair has become a very serious matter. The Board have ordered 5,000 tons for use the present year, partly American and partly foreign, mostly entirely steel, but part steel capped; and hope, within a few years to see large reductions in the expenses resulting from the substitution.

At the half-yearly general meeting of the Grand Trunk Railway Company of Canada, in London, on the 20th ult., the Chairman, Mr. Richard Potter, said "it has occurred to me if it were possible for the Proprietors of the Grand Trunk of Canada to renew the whole of their line by one *coup*, and to substitute steel rails for iron rails at an expenditure of something like £1,000,000, which, allowing for the price we could sell the old rails at, would renew the whole line, it would not only pay something like 7 per cent. on that million, but we would certainly reduce our permanent expenditure from £341,000 to £200,000."

There have been placed in the track of the New York and New Haven Railroad during the past year 1,300 tons of Steel Rails, with "Pratt's Patent Compensating Fish Joint." About two-thirds of the road is now re-laid with Solid Steel Rails, and the remaining part will be completed by the close of the year 1872.

Steel rails are being laid on the Morris and Essex Railroad from Orange westward. During the season, it is proposed to lay thirty miles double track with these rails. The rails are of Scotch manufacture, and two cargoes of them have already been received.

During the past year 18,661 tons of new and rerolled rails, including 3,054 tons of Steel Rails, have been laid on the Lake Shore and Michigan Southern Railroad. It has been determined to construct during the present year 114 miles of additional double track between Buffalo and Toledo.

The President of the Chicago and Alton Railroad Company, in his report for 1870, says: "Experience has shown that economy requires the use of steel rails on portions of your line which are subjected to the heaviest traffic. We have nine miles of steel rail track now in use, to which it is expected that at least twenty miles will be added during the present year."

Vicksburg and Meridian Railroad.

At the annual meeting of the stockholders of this company held in Vicksburg, Miss., on the 1st inst. The following gentlemen were elected directors for the ensuing year: Morris Emanuel, A. B. Reading, Thomas Rigby, Peter Anderson, Wm. E. Morris, Wm. Crutcher, John A. Klein, John C. Stanton, Thomas M. Smedes, Thomas S. Dabney, James R. McDowell.

The officers are: Morris Emanuel, President; Thomas Rigby, Vice President; N. J. Bryson, Secretary and Treasurer. Executive Committee—M. Emanuel, Thomas Rigby, Wm. E. Morris and Wm. Crutcher.

☞ Contracts have been executed for the remaining portions of the Canada Southern Railway between Amherstburg, on the Detroit River, and Buffalo, the work to be vigorously prosecuted over all sections of the line, simultaneously. The line is to be opened for travel January 1st, 1873.

☞ The following gentlemen were elected directors of the Delaware and Raritan Canal Company on the 10th inst.: Robert F. Stockton, John S. Conover, William W. Shippen, Albert W. Markey, John Jacob Astor and G. Morris Dorrance.

☞ The Central Railroad Company of New Jersey have taken a perpetual lease of the Newark and New York Railroad. The lessees pay seven per cent. per annum, semi-annually, on the entire cost of the road.

☞ Mr. Daniel Torrence, of New York, has been elected President of the Ohio and Mississippi railroad company, vice Mr. Wm. D. Griswold, resigned.

☞ Daniel McLaren, Esq., has been elected President and Superintendent of the Cincinnati, Hamilton and Dayton Railroad.

☞ The survey for the railroad between Wellfleet and Provincetown (Mass.) has been begun.

Rolling Mill Property
FOR SALE,
OPPOSITE NEW YORK CITY.

The well-known North River or Durbin Rolling Mill, situated at Prospect and North 5th St., Jersey City, New Jersey. The Real Estate consists of sixteen city lots, 25x100 feet each, with two large Dwelling Houses, well built and in good order. Also a large building occupying two lots, suitable for a Machine Shop or other purposes, a Stable, &c.

The Rolling Mill was built for the manufacture of Locomotive and other descriptions of Boiler Tank and Plate Irons, contains a heavy Roll Train, Engines, Furnaces, Machinery, &c. to suit, in good order. It can be seen running, and has been successfully run from its establishment in 1855. Situated near the Hudson River, a short and nearly equal distance from all the New Jersey Railroad Depots and Ferries, the Erie Depots and Ferries and the Hoboken or Delaware & Lackawanna Depots and Ferries, from its proximity to the New York Market, the large Locomotive and Railroad Shops of the City and Paterson, the facilities for forwarding to all points by water or railroad, it cannot be surpassed.

The Real Estate is rapidly increasing in value the vast R. R. Interests and dock improvements mentioned having taken up almost the entire River front and space below the mill property from the Cortland St. to Hoboken ferries. The reputation and business established. The Proprietor intends retiring from the business, and for further particulars can be addressed or seen daily at the

Office, 140 HUDSON STREET,
Jersey City N. J.,
In the First National Bank Building.

Propositions for Lease or Selling the Machinery for removal entertained.

Map can be seen and General Information may be obtained also of Wm. H. Wallace & Co., Corner of Liberty and Washington Streets, N. Y., City Agents; and R. E. Chrisman, Supt. Central Iron Works, Harrisburgh, Pa. (formerly a Proprietor.)

American Railroad Journal.

New York Saturday, May 20, 1871.

Tennessee and Pacific Railroad.

We acknowledge receipt of the First Annual Report of this Company, which is one of the new enterprises prompted by the rapidly growing interests of the country, and confess to having considered it with much satisfaction.

The Report bears date the first of January past; and the subject road is located entirely in the State of Tennessee: its object being the continuation of rail line from Memphis *via* Nashville, the State Capital, directly eastward, through connections at Knoxville, to the Atlantic seaboard—lessening distance materially from the two first named cities, and the country tributary to them, to all the Atlantic ports from Norfolk northwards. Its local importance to the State through which it passes is most conclusively stated; but beyond this, the report of the President, who seems fully alive to the great truth of the times—that all lines are largely, if not absolutely, dependent on connections for strength and value—introduces topics in this particular which will prove of great interest to other, even remote, portions of the country. The line in charge is, with much tact and we must say with most forcible reasoning too, strongly commended as a link of what is now beyond comparison the leading enterprise of the South, if not of the Continent—The Texas Pacific Railroad, recently subsidized by Congress. In the advocacy of this, the filling up of intervals between lines now constructed, so as to combine with it completion of a continuous and direct trunk from New York to New Orleans and other Gulf ports: a project of its own importance worthy the most serious consideration, is so tersely and cogently presented that we feel our columns well used with the following extracts:

Finally, a Southern Pacific Railroad is now rapidly assuming definite shape for prompt construction. Parties, with ample private means for its completion, are in organization, with a President selected, whose sagacity and success through life afford every guarantee against its failure when undertaken. Nor will the immense interests involved be ultimately content with less than control of a consolidated line, from New York to San Diego. With location of this already absolute along the northern margin of Texas, the route reaching there from New York, becomes a subject of profoundest interest, not only to your enterprise, but to all Tennessee.

Prolongation of constructed roads, from Chambersburg, Pa., in southwestern direction through the valley of South Branch of the Potomac, and parallel with the Alleghanies; or through that of the Shenandoah, upon same parallel, to a common junction at head waters of Clinch river, in Southwestern Virginia; and down the valley of this and Tennessee river, to various completed connections, reaching all Gulf ports, affords a line which, with advantages of valley location, in main, is no where opposed by obstacles seriously formidable; and, besides, joining most directly of any attainable, the cities and chief trade points of the middle south and southwest, to those of the east and northeast Atlantic seaboard, crosses every trunk reaching eastward from the populous west and fertile southwest, shortening distance over them all, to the commercial and money centre, New York. This fact singly imparts to the line a strength in connections unsurpassed, if equalled by another's on the continent; and with its construction invited by cheapness, and immense earning power assured alike by strength of connections, and multitude accommodated, completion of this great southwestern trunk, through the one or other indicated tributary valleys of the Potomac, may be accepted as a result near at hand.

In conclusion, the Report of President Maney from beginning to end must in justice be pronounced one of marked ability, and we are confident will command for him a cordial welcome to the brotherhood of energetic and thinking men, whose task is the advancement and development of the great material interests of the country.

Rondout and Oswego Railroad.

Messrs. EDWARD HAIGHT & Co, No. 9 Wall st., this city, offer for sale at 90, *in currency*, the First Mortgage Seven per cent. *Gold* Bonds of the Rondout and Oswego Railroad Company; interest payable semi-annually in *Gold*. The road of this company covers 100 miles of the most direct possible line between the Great Lakes and deep water navigation on the Hudson River, the whole line of which will be completed and in operation on or before Oct. 1, 1872, and give a new route to Lake Ontario and the West, twenty-five miles shorter than any line that can be found.

The traffic between the East and West by way of the great lakes will necessarily furnish considerable revenues to this road. The question of the price of freights, never an unimportant one, presses home more closely in seasons of sharp competition in business. Such seasons we are likely to have now continuously, and everything which reduces expenses will be welcomed by merchants and shippers.

Probably merchandise from New York and New England, and agricultural products from the Great West, can be forwarded *via* Hudson River, the Rondout and Oswego Railroad and Lake Ontario, say as far west as Buffalo, at rates much less than those now paid to railroads for similar service. It may be urged that a reshipment of goods is required at Rondout. But it must be remembered that the transfer on the wharf of freight from steamboat to railway car, and *vice versa*, is very easily and inexpensively accomplished. This is demonstrated each spring on the opening of navigation of the Hudson River. No sooner does this take place than the Albany and Troy steamers go each trip filled with freight, taking so much daily from the traffic of the present railway lines. And so far from doing this merchandise transportation at non-paying rates, quite the contrary is the case. It is said that the

entire cost of running and maintaining the Hudson river steamboats is paid from the net receipts for carrying freight, leaving the passenger-fares and table and sleeping-room receipts as profit.

But it is not alone upon the river as an adjunct in cheap transportation that the Rondout and Oswego Railroad will rely. By the time fixed for its own completion, October, 1872, or even before, the West Shore Railway line will be in operation between New York and Albany, intersecting the Rondout and Oswego Railroad at Kingston. These roads will be operated together as a through trunk line, and as such will form a most formidable competitor for the vast and profitable transportation business between this city and the Great West.

The road passes through the cement, flag-stone and lumber region of Ulster county and the rich agricultural bottoms of Delaware and Greene counties, all of which have not heretofore been reached by railroad facilities, and from which sections the formation of the country prevents the construction of a competing line. The thirty-six miles of road operated for three months is already paying net earnings equivalent to seven per cent. gold on its cost of construction and equipments.

For further information in reference to the road, and the bonds, which have 30 years to run, and are limited to $20,000 per mile of *completed* road, address Messrs. EDWARD HAIGHT & Co., Financial Agents of the Company, No. 9 Wall st., New York.

Lehigh Coal and Navigation Company.

At the annual meeting of the stockholders of this company in Philadelphia on the 2d inst., the following gentlemen were elected managers for the ensuing year: E. W. Clark, President; Francis R. Cope, Francis C. Yarnall, Fisher Hazard, Charles Parrish, George F. Tyler, Phillip C. Garrett, Charles Wheeler, George Whitney, Alexander Biddle, John Leisenring, Samuel Thomas. The report of the Board of Managers for the year 1870, which was presented, is as follows:

The profits of the year from all sources were:

Net profits on railroads, including car service		$819,815 88
Net profits on Lehigh Canal		177,637 92
Net profits on coal—		
Summit mines	$26,402 49	
Newport mines	15,454 20	
		41,856 69
Net profits on real estate sold		82,206 37
Net profits from rents		57,004 39
Miscellaneous receipts		21,538 96
		$1,200,060 21
Less general expenses	$122,245 18	
Taxes chargeable to railroad	24,833 24	
Taxes chargeable to Lehigh Canal	6,362 39	
Taxes chargeable to Delaware Div. Canal	3,633 86	
Taxes chargeable to coal	49,778 38	
Taxes on interest and capital stock	101,564 37	
Taxes on landed property and improvements	8,471 98	
Balance of interest account for 1870	1,054,341 52	
Loss on Delaware Division Canal	127,020 61	
		1,497,751 78
Deficit		$297,691 52

The past year has been one of the most unsatisfactory in the experience of the company since the disasters of 1862. Our profits are dependent almost entirely on the general condition of the coal trade, which, during the last year, was unremunerative to nearly every company and operator engaged in it. With low rates on the railroad, frequent breaks in the canals during the spring, and a six months' suspension at our mines, we find full reason for the small amount of our net receipts.

RAILROAD.

The amount of coal transported by the railroad shows an increase of 585,264 tons over the previous year, or, after deducting deliveries to the canal and to points and railroads above Mauch Chunk, the increase was 186,791 tons. While the gross receipts derived from all of the traffic of the roads were larger by 9-17 per cent. than in 1869, the expenses were increased 18¼ per cent., and the net earnings, after deducting taxes and half of the general expenses, were $734,359.85, or 33 8-10 per cent. of the gross receipts, against $812,802.94, or 39¼ per cent. in 1869, which difference is accounted for by the charge on coal being 1 65-100c. per ton per mile in 1870, against 2c. in 1869, while the number of trains was considerably increased. The low rate was caused by the low prices prevailing for coal at New York tide, to which point we transported largely, the charge being based on the prices realized. The auction sales of Scranton coal averaged $4 52 from April 1 to December 1, ranging between $4 14 and $4 77. The coal from the Wyoming region, while realizing somewhat higher prices, fluctuated to nearly the same extent.

CANALS.

The Delaware Division Canal was not ready for business until 16th of April, and the freshet two days later carried away a portion of the guard wall at Easton, and business was not resumed until 10th of May. Again, on the 13th of May a break interrupted business for two weeks, so that until after 27th of May the company derived no considerable revenue from its canals, and when freshets ceased to trouble us, the amount of coal offered fell far short of our means of transportation, as our own miners had not then resumed work. No further freshet interrupted business until 12th of August, and the canals were open again on 20th of August.

The amount of coal transported on the canals was 789,111 tons, giving a small amount of net earnings after paying the expenses of repairs, renewals, operation of the canals and rent of the Delaware Division Canal.

The items of expense and rent are not materially increased by a large business over what they are when the tonnage is small, and the net revenue derived from the canals in ordinary seasons is the amount of toll collected on the coal transported in excess of 600,000 or 700,000 tons. As that excess was small last year, the revenue was also smaller. With the company's mines at work, during an entire season, and with connections now made with the various coal fields, there should be from 1,000,000 to 1,200,000 tons transported on the canals, and this can be done without an increase in the canal equipment.

Both canals are in good condition, considerable expenditures having been made during this year to strengthen and protect them at various points.

COAL.

The suspension at our Lehigh mines on Feb. 12, referred to in the supplementary report submitted last year, was followed by a suspension at our Newport mines, the miners there acting in concert with those at Summit Hill. Work was resumed in both places on the 10th of August, the demands of the company having been acceded to.

During the suspension the amount of money paid out for the necessary labor and other expenses connected with our mining interest was $168,682, which represents but a small portion of the loss to the company resulting from the strike. The position assumed in this contest was not determined upon by the managers until after full deliberation, and it had been ascertained that if the demands of the men were yielded to it would be followed by demands from other branches of the service, and seriously embarrass the future operations of the company. So that, notwithstanding the prospect of a serious loss from a long suspension, it was thought better to suspend operations for the year, if necessary, than to fasten a policy upon the company which would subject its property to the demands of others, and result in the employment of its whole capital solely for the benefit of hostile organizations.

NESQUEHONING VALLEY RAILROAD.

The road was delivered to us early in May, and passenger and freight trains were run in connection with the Catawissa Railroad for the remainder of the year. A branch line into the Beaver Meadow coal field has been constructed, and we expect to transport a large amount of coal from that region during the coming season. Work upon the tunnel is progressing satisfactorily.

By order of the Board of Managers of the Lehigh Coal and Navigation Company.

E. W. CLARK, President.

PHILADELPHIA, January 1, 1871.

The coal tonnage on the Lehigh and Susquehanna Railroad and Lehigh Canal, compared with that of 1869, was as follows.

	1869. Tons	Cwts.	1870. Tons.
From the Wyoming region	841,719	18	1,247,809
From the Upper Lehigh region	77,261	17	157,582
From the Hazleton region	120,938	02	319,324
From the Beavor Meadow region	98,113	17	146,331
From the Mahony region	2,705	07	3,099
From the Lehigh Coal and Navigation Co.'s Lehigh mines	450,350	12	269,036
Other shippers	6,562	02	
Total	1,597,651	15	2,143,131

Distributed as follows:

	1869. Tons.	Cwts.	1870. Tons.
Delivered east of Mauch Chunk by railroad	933,569	06	1,120,360
Delivered east of Mauch Chunk by canal	605,143	16	789,079
Consumed along the line above Mauch Chunk	33,901	02	49,425
Delivered to connecting lines in Wyoming Valley	25,037	11	184,267
Total	1,597,651	15	2,143,131
There was an increase on the railroad tonnage of			362,470
There was increase on the canal tonnage of			183,935
Showing an increase of			546,405

The production of the company's mines was as follows:

	1869. Tons.	1870. Tons.
Shipped by railroad	204,872	130,687
Shipped by canal	189,079	109,793
Sold at Mauch Chunk	5 938	6,436
Sold at Summit Hill	1,028	2,162
Used at planes for engines, &c.	11,692	7,994
In stock at Summit Hill	.....	4,115
Total from Summit mines	412,609	261,187
Room Run mines	56,401	27 616
Newport mines	26,502	58,358
Sugar Notch mines, under lease	95 002	112,440
Greenwood mines, under lease	3,400	8,671
Total	563,914	468,272

SUPPLEMENTARY REPORT.

The most important event that has transpired in the affairs of the company since the opening of

the present year, is the lease of our railroads to the Central Railroad Company of New Jersey, which was confirmed at a meeting of the stockholders, held March 28. This company is to receive as rent one-third of the gross receipts derived from all the business of the leased roads, the equipment and machinery employed to be furnished and maintained by the lessees at their own cost. In comparing this percentage with that realized during the past two years, namely 39½ per cent. of the gross receipts in 1869, and 33 8-10 per cent in 1870, there must be deducted from the latter the interest and depreciation on the equipment, which cost us more than 15 per cent. of the gross receipts during the two years, and is likely to cost the lessees at least 12½ per cent. By working the two roads as one line, and using the power of each to develope the trade of the other, they can reduce the expenses of both roads, and can well afford to pay as rent all we could make out of the roads under favorable circumstances.

In addition to the reasons stated at the special meeting, as among those which induced the managers to enter into negotiations for the lease, may be added the difficulty of carrying our large and increasing floating debt. The railroads were making constant demands on our resources for additional sidings, tracks, buildings, and equipment, and by leasing them we are not only relieved from all demands for equipment, and any present demands for money for additions to the road, but have also secured financial aid which will enable us to pay off a portion of the floating debt and fund the remainder. The sale to the Central Company of materials, machinery and securities, including a million of bonds of our new general mortgage, will give us $1,500,000, and this amount with our net receipts during the first four months after resumption of work at the mines will reduce our floating debt to less than one million of dollars.

This sum we expect to provide for hereafter by the sale of bonds. Under the authority of the act of the Legislature, accepted at the recent meeting of stockholders, we propose to execute a new general mortgage for $15,000,000

And to reserve for the payment of, at or before maturity, the 1864 mortgage, due 1884	$6,635,000	
The railroad mortgage, 1867 mortgage due 1897	2,000,000	
And the gold 1867 mortgage, due 1897 (the payment of the remainder of the five millions having been assumed by the Central R. R. Co. of New Jersey)...	2,690,000	
		10,325,000
		$4,675,000
Of which we shall sell to the Central Railroad Company of New Jersey...		1,000,000
Leaving		$3,675,000

After providing for the extinguishment of the floating debt, by a sale of a part of these bonds, there remains ample provision for our further wants.

The remaining obligations of the company are:—Convertible loan, 1867, due 1877, $1,496,879.18; do. 1869, due 1894, gold interest, $1,970,000. (After deducting the bonds held in the sinking fund.)

Of the last-named issue the company controls a considerable part, and it is proposed to cancel $970,000, leaving outstanding $1,000,000, which will be retired rapidly by the sinking fund, and some portion may, perhaps, be converted into stock within a few years. The convertible loan due in 1877 can be provided for out of the proceeds of the general mortgage bonds, if not converted into stock.

It is proposed to issue no more than five millions of the bonds at the present time, and those to be in $1,000 registered certificates, 7 per cent. interest in currency, principal redeemable in forty years.

The remaining ten millions will only be issued as old bonds are retired, and will be in all respects, similar to the first issue, unless at the time of issue it shall be for the interest of the company that the period of maturity be extended and the rate of interest diminished.

It is very desirable to have the bonds uniform, and no change will be made without substantial reasons. While it is desirable to be relieved from floating debt at an early day, it is not proposed to offer any of the new bonds for sale until it has been demonstrated that the earnings of the company are likely in any probable event to exceed the interest on all of its indebtedness, at which time the new bonds will, no doubt, command a good price in the market. The process of bringing the indebtedness all under one general mortgage must necessarily be slow, and it is not proposed to hasten it by offering the inducement of an increased rate of interest to holders of old bonds to exchange them for those of the new issue. Probably no considerable amount of the first mortgage will be converted previous to maturity, in 1884.

COAL INTERESTS.

The organization of the miners and laborers employed in the coal regions, known as the Workingmen's Benevolent Association, after failing in several attempts since their first success, in May, 1869, succeeded in December last, by the men employed by the three large companies in Luzerne county having previously suspended work, in uniting all the anthracite regions under the control of their executive board or general council, and that body issued an order for a general suspension of the men working in the remainder of the coal regions, which was enforced on the 10th of January last. The avowed purpose was to advance the price of coal, and thereby increase their wages. Resumption was ordered for the 15th of February, but the corporations and individual operators, who had patiently submitted for two years to acts hardly less arbitrary, met for conference, and decided that the wages demanded as a condition of resumption must be reduced, and that the men must relinquish all claim to control the working of the mines.

The offers then made were rejected, and work has not yet been resumed. The stubborn resistance of the men shows the power of their organization, which has thus far held them together so that no region, or any considerable portion, has yet yielded to the demands for a reduction of wages. Arbitration of all the matters in dispute were early tendered by operators in the Schuylkill and Lehigh regions, and after some considerable delay, the men, in return, offered general arbitration for all the regions. At the meeting in Mauch Chunk, on the 18th of April, only the regions working on the sliding scale, or basis system, were represented. Judge W. L. Elwell, of Columbia county, was selected as umpire, and the question of interference with the working of the mines was referred to him. The question of wages could not be submitted, because two out of three of the delegates of the Lehigh region were instructed to withdraw if any attempt was made to arbitrate or reduce wages there, so that the only result of the attempts at general arbitration was the decision of an able and impartial umpire: that certain customs, heretofore prevailing at the mines, and which the men insisted they would never abandon, were unlawful and censurable, and should not be done or allowed.

This is a step in the right direction and there is some hope that local arbitration will settle the other matters in dispute which prevent resumption.

The operators are still firm, and united by the conviction that their property is valueless if subjected to the control of a secret and irresponsible board, controlling and directing their employees, having the power, and exercising it, of ordering the suspension of work for indefinite periods at times when there are no contests or differences between the operator and his men, and when both operator and men are opposed to the suspension.

This was the case at our mines and many others at the time the general suspension was ordered. Whenever we gain control over our own property and can manage it according to our own judgment, we can soon demonstrate its value. With regularity in the supply, and low prices for a few months, the demands of the market will be sufficiently increased to absorb the surplus production of coal. Until that time we must be satisfied with small profits. The superior quality of our coal, and its nearness to market, gives us advantages over others, which we have lost latterly by being under the control of an organization which would not permit our miners to work, although having a demand for the product, because some other operators more distant from the market could not sell their coal.

The anthracite coal interest has now for four years been unremunerative, but we think we see indications of a brighter future. Our railroad, canal and mines are all dependent on coal, and we require only a moderate degree of prosperity in that interest to yield large returns on our capital. Years of depression have not destroyed our faith in the future value of anthracite coal property.

NESQUEHONING TUNNEL.

The engineer's report for the Nesquehoning Tunnel shows the two headings to have been seven hundred and ninety-two feet apart on the 29th of April. He confidently expects the workings to meet early in August, and assures us that we may expect to pass trains through before the close of this year.

By order of the Board of Managers of the Lehigh Coal and Navigation Company.

E. W. CLARK, President.

Philadelphia, May 2, 1871.

Pittsburgh and Connellsville Railroad.

The Pittsburgh *Leader*, of 5th inst., says that surveyors will soon commence the work of surveying a road to connect the Pittsburgh and Connellsville railroad with the Allegheny river. The oute selected is by way of Negley's run. The Monongahela and Allegheny river branch will leave the Connellsville railroad at Salt Works station, or where the Nine-Mile run flows into the Monongahela, and following the valley in a northwardly direction will strike the Pennsylvania railroad at a point between Wilkinsburg and Brushton stations. It leaves the Nine-Mile valley before reaching the tracks of the Pennsylvania Railroad, and passes over a mile or more of flat country, when it enters into the valley of Negley's run, which it follows to the Allegheny river. The branch will be six and a half miles in length, and will cost (including rights of way) about $250,000.

The American Chemist.

The *American Chemist* has been purchased by Professors C. F. CHANDLER and W. H. CHANDLER of the School of Mines of Columbia College, and will in future be issued from that institution. These gentlemen founded the *American Chemist* in connection with W. Baldwin & Co., the publishers, and have edited it from the beginning. They now assume the entire management.

☞ A new railroad company has been organized in Jamestown, to be called the Jamestown Railroad, with a capital stock of $100,000. The amount required by law has been subscribed, ten per cent. paid in, and the articles of association forwarded to Albany to be recorded. It is to connect with the Dunkirk, Warren and Pittsburg Railroad, near Worksburg, and will be about three miles long.

Baltimore and Ohio Railroad.

The regular monthly meeting of the directors of this company was held in Baltimore on the 10th inst., J. W. Garrett, Esq., President, in the chair.

After the transaction of the usual business, the president made the following remarks to the board:

Gentlemen: The rapid increase of business, the necessity for taking charge of additional branches, and the expansion of the connections of the Baltimore and Ohio Company for some years past, have made the duties of the general officers of the company exceedingly onerous. The vice-president (Mr. King) has labored with great energy ability and effectiveness as the assistant of the president, but the constant enlargement of the sphere of operations of the company causes, with the greatest diligence and thoroughness, the necessity for more aid.

In addition to other palpable causes, the recent completion of the highly important Pittsburg, Washington and Baltimore road and the pressure for rapid movements to ensure the early construction of the Baltimore, Pittsburg and Chicago road, the great line from Pittsburg, through Ohio, Indiana and Illinois to Chicago, imperatively require the appointment of an additional vice-president. Under these circumstances the president was gratified to be able to state that Mr. William Keyser, had assented to accept such a position. Although Mr. Keyser was quite a young man, being but thirty-five years of age, he had already achieved a reputation for superior business qualifications, for diligence, for integrity and appreciation of the interests of the public which made it needless for the chair to express its judgment as to the value of the services which he would be able to render to the company and the community in the proposed position.

Great enthusiasm existed throughout the northwest to secure in the interests of those vast regions the advantages of the Pittsburg, Baltimore and Chicago line—as a grand competing route against the high charges and greater distances to New York—to Baltimore, their natural and most economical port on the Atlantic. Under the organization proposed, immediate and effective steps would be taken to decide upon the route, and secure the early construction of the road.

The chief engineer of the Pittsburg, Washington and Baltimore road (B. H. Latrobe, Esq.,) had recently submitted a report in regard to the various lines that had been proposed in the interests of the several sections which are pressing for the selection of their respective routes. This report is highly favorable as to the low cost and large advantages, of several of the proposed lines.

As it will be the policy of the Baltimore and Ohio Company to make a large cash subscription to the stock of this road, and as it has been indicated that the remainder of the capital required could be promptly secured, the enterprise promised not only great advantages to the terminal cities and the intermediate and adjacent cities and territories, but the most remunerative financial results, especially in view of the very limited cost of the line when compared with the roads with which it would be brought into competition. It is therefore eminently judicious, in every aspect of the enterprise, that arrangements should be perfected to secure the great fruitions which will flow from the early completion of the work.

At the close of the president's remarks Mr. Johns Hopkins offered a resolution that the office of second vice-president of the Baltimore and Ohio Company should be created, which was adopted. Mr. Hopkins then nominated Mr. Wm. Keyser to fill that office. This motion was seconded by Mr. Wm. W. Taylor, who expressed, from his intimate knowledge of Mr. K. for many years, his confidence in his abilities, and his satisfaction that his services could be procured by the company. The nomination was then acted upon, and Mr. Keyser was elected by the unanimous vote of the board.

Morris Canal and Banking Co.

We have the report of this company for the fiscal year ending February 28, 1871. From this we learn that the income of the company from tolls and other sources during the year was:

From tolls		$365,585 77
" rents		16,690 68
" water rents		2,476 00
" other sources		6,797 31
		$391,549 76

And the disbursements were:

Repairs of canal & works	$125,657 85	
Operating canal	57,278 82	
Salaries, law and other expenses	21,055 34	
Transportation expenses	4,481 40	
		208,473 41
Balance—profits of the business		$183,076 35
Balance at credit February 27, 1870		63,226 36
Total		$246,302 71

Thus accounted for:

Dividends on preferred stock	$58,750 00
Interest on mortgage bonds	47,100 00
" boat loan	16,717 41
" dividend scrip	7,359 96
Depreciation of boat stock	7,255 10
Bad debts	853 45
State of New Jersey	25,000 00
U. S. tax on surplus profits of 1869	1,263 10
Balance, February 28, 1871	82,003 69
Total, as above	$246,302 71

Compared with the previous year, the gross income shows a decrease of $39,696 04; with a decrease in expenses of $37,923 68—making the decrease in net income, $1,772 36. The report says:

Navigation was continued thirty-eight weeks during the year; and was maintained in excellent order, and without serious interruption, and was closed in December.

We discontinued loading at Manch Chunk on November 25th; at Port Delaware on December 3d; and at Port Washington on December 7th.

The total tonnage for the year was: Eastward 462,352 tons; Westward 245,220 tons; making a total of 707,572 tons, and being equivalent to 45,190,455 tons carried one mile.

For the first time in the history of the coal trade, the rates of transportation on coal declined as the season advanced, and on the 1st of December the rates were reduced to $1.06 per ton from Phillipsburg to tide, or 64 cents per ton less than at corresponding date the previous year, and although our tonnage was 57,372 tons in excess of 1869, our receipts were $39,696 04 less, Our expenses were, however, $37,923 68 less, leaving our net income about the same as for that year (1869.)

The general work of improvement and repairs has been done the past winter, and as far as possible, with the view of increasing, at no distant day, the depth of our canal to six feet, that we may carry cargoes of one hundred tons.

We have laid one hundred tons "Bessemer" Steel Rails upon four Planes, and have completed a railroad connection with all the railroad companies at Phillipsburg, N. J., which will enable us to receive ore and freight going West and reload the same in cars.

We have increased the machinery and other facilities at our boat yards, so that we can build and repair our boats with greater despatch and less cost than formerly.

We have just purchased one hundred and five western mules, which gives us a total of two hundred and seventy five mules and horses for towing boats, most of which are young and able bodied.

The canal is now in better condition and repair than ever before, and we have been ready since the 25th ultimo to resume navigation, but by reason of the general strike of the miners which commenced about the 1st of December last, and is yet in continuance, we have not received any shipments of coal.

At a meeting of Directors on the 20th ultimo, which was called to "consider the acceptance of the supplement to our charter, recently passed, authorizing the company to lease, &c., &c.; and to take action in regard to leasing the canal; and any other business which may be brought before the board," an offer was received from the Lehigh Valley Railroad Company to lease to that company for nine hundred and ninety-nine years our entire works and franchises, which was accepted, subject to ratification by a majority in interest of the stock of the company as required in the supplement named.

In view of the probabilities of our works passing into other management, and of being enlarged and thereby made a still more important avenue of trade, it is proper here to make record.—That the present Morris Canal and Banking Company, organized in 1844 by the purchase of the works and franchises of the old company, has thus far performed the purposes which are laid down for it in the preamble to its charter, viz: "To secure to the State a great public work, to be a great public benefit and advantage to the people of New Jersey."

GENERAL STATEMENT, FEB. 28, 1871.

Cost of 'Canal' and appurtenances		$3,391,213 82

President and Sup't.—JACOB F. RANDOLPH.
Vice-President.—BLAKELEY WILSON
Secretary.—JOHN R. BURNETT.

Metropolitan Branch Railroad.

A letter from Point of Rocks, Md., to the Washington *Chronicle* speaks encouragingly of the progress of the work on the Metropolitan Branch of the Baltimore and Ohio Railroad, which, as is well known, is a direct line from Point of Rocks to Washington city. Mr. Randolph, the engineer in charge of the work, thinks that before the 1st of January next the entire line will be completed and in good running order. Large numbers of cross-ties are being distributed along the line, and 1,500 men and more than 300 horses are pushing the work through. Soon the iron will be brought on, and the work of laying the track commenced. Some difficulty is experienced in getting cut stone for bridges, but all streams will be trestled until stone can be obtained, so as not to delay the work. The best of iron will be laid

upon this route so as to make it first-class in all respects.

Charlotte, Columbia and Augusta Railroad.

The earnings of this road for the fiscal year ending December 31, 1870, were $560,474.05, and the operating expenses and taxes, both Federal and State, were $289,542.70, leaving a balance of $270,931.35. From this should be deducted interest on notes and coupons paid, amounting to $129,109.77—leaving the net balance $141,821.58, which is nearly 5½ per cent. on the capital stock of the company, amounting to $2,571,299.99. This balance has been expended in completing the grading on the Augusta Division of the road, the bridge across the Savannah river, enlarging and building depots, in the construction of freight cars and passenger coaches, and in paying for new locomotives. The President in his report says:

The consolidation of the two companies, making the Charlotte, Columbia and Augusta Railroad Company, was effected on the 8th of July, 1869. The Savannah river bridge was finished and used on the 1st of August, 1870. The earnings for this year being, as stated, $560,474.05, and those of 1869, $403,785.49, shows an increase of $159,688.56 for the past over the previous year.

This large increase of income, nearly forty per centum, has more than realized the expectations of the most sanguine. With the Macon and Augusta Railroad finished, and the double daily connections with Savannah and Atlanta, you can reasonably calculate on an income of $600,000 during the present year.

The entire bond debt of the company on the first of January, 1871, was $1,229,500, of which $786,000 were Charlotte, Columbia and Augusta bonds, and $371,500 Columbia and Augusta bonds, and $71,000 Charlotte and South Carolina bonds. On the first of March, 1871, after the issue of $30,000 of bonds in payment of depot lot and buildings in Augusta, this debt amounted to $1,252,000; of which $50,500 were Charlotte and South Carolina, $205,500 of Columbia and Augusta, and $996,000 of Charlotte, Columbia and Augusta bonds—showing that within two months $186,500 of the old bonds were funded or redeemed. The bonds of the two former companies have been very generally exchanged for the consolidated bonds. Under this mortgage the issue is limited to $2,000,000, leaving still for exchange and for the purpose of funding the floating debt $1,004,000. The entire floating debt on the 1st of January was $741,301.62, while on the first of March it was $721,118.62, to which add fractional bonds, $3,684.56 outstanding same date, makes $724,802.18. This amount deducted from the 1st mortgage bonds unsold, leaves $279,197.82, to be exchanged for $256,000 old bonds still outstanding, giving an excess over all liabilities of $23,197.82.

It is the policy of the Board of Directors to sell these bonds as fast as there is a fair demand for them, and discharge the floating debt, or a greater portion thereof, but not to force them on the market at ruinous rates of discount, and thereby entail a greater rate of annual interest for twenty-four years upon the company than money may command within a short period. These bonds mature on the 1st of January, 1895, and bear 7 per centum interest, payable semi-annually, and it is deemed a better policy to pay a higher rate of interest temporarily on a portion of the floating debt, than submit to a heavy discount on them, thus imposing a higher rate of interest for a long period of time, while the tendency of the rate of interest is to decline. The net income of the road is now monthly reducing this floating debt, and during the year it can be thus materially reduced, even without an active demand in market for the mortgage bonds. This floating debt, or the greater portion thereof, has been carried for more than two years at a comparatively low rate of interest. About $170,000 has been at seven per centum, over $200,000 has been eight and a half per centum, and much of the balance has been borrowed from the friends and patrons of the road along its line as permanent loans at ten per centum per annum, while from $50,000 to $80,000 has been obtained from banks at about 1 per cent. per month, and occasionally in the fall at a higher rate for a short time. Thus the debt has cost an average rate of less than nine per centum for the past two years.

To meet the demands of the growing business of the road by next fall, two more locomotives, two more passenger coaches, and about thirty cars additional will be required to complete its equipment. Greater conveniences for passengers will be required at Columbia, Chester and Charlotte, which, with a substantial brick building in Columbia for offices, will complete the outfit and equipment of the road.

It is gratifying to report that the Atlantic, Tennessee and Ohio Railroad is making fair progress, and is expected to be finished from Charlotte to Statesville in July next, a distance of forty-six miles. This connection with the Western North Carolina Railroad, now finished to within twenty five miles of Asheville, will make an outlet over our road for a large portion of Western North Carolina with its varied products, which, since the war, have generally found a market in other directions. When the W. N. C. Railroad is finished to Paint Rock, on the State line, the connection with Morristown, on the Tennessee and Virginia railroad, will be, over your road *via* Asheville, shorter to Charleston than any other rail route, and will bring the vast grain and stock region of East Tennessee more than 150 miles nearer to Columbia than by any existing route.

It is also a matter of congratulation that the charter of the Dan River Coal Field Railroad has been secured from Statesville to Danville, Va., there to connect with the Richmond and Danville Railroad, as well as the road now building from Lynchburg to Danville. If this road is constructed, it makes two through competing lines from Charlotte to Washington city, and opens a shorter route *via* Lynchburg than that by Richmond; while it renders all Middle and West Virginia more accessible to the Northern terminus of your road, and points ultimately through the Chesapeake and Ohio Railroad, and the James River and Kanawha Canal, to a connection with the valley of the Ohio river.

Southern Pacific Road.

Those of our friends who went North to attend the meeting of the corporators to organize the great enterprise of constructing a railroad from this city *via* Marshall, Texas, to the Pacific, return with strong assurances of the earnestness and firm purpose to set that great undertaking on foot at an early day. Encouraged by the aid of the Federal Government, capitalists of very large resources have taken the matter in hand very zealously. It is to be no mere speculating venture or stock-jobbing concern, but one in which only persons of real capital and credit are invited to participate. The system of organizing corporations, so common in this country, composed of persons who constitute only influence and talk, with the object of attracting a few men of capital—to bear all the burden and all the risks—the execrable system of preferred stockholders or of corporators who receive large amounts of stocks for their names and their supposed franchises—has not been adopted on this occasion. It is quite fresh in the memories of our people how the first great Pacific railroad enterprise was defeated by this mode of making up the capital, when men of no means or credit put their names down for millions of stock. No one understood this better than Mr. Marshall O. Roberts, who consented to engage his large credit and capital in the present enterprise. We are not surprised, therefore, to learn that when approached by political jobbers and speculators, with the request to admit them into partnership with him in his gigantic undertaking, his invariable reply was, "Very cheerfully, sir, provided you can contribute $500,000 to carry forward in the enterprise." "But," expostulated an ambitious ex-member of Congress from one of the Southern States, "do you not want brains and influence, as well as money, to put so large a scheme in operation?" "Undoubtedly; but we flatter ourselves that we have these, too, or we can easily command them with the money." Great was the disappointment of not a few of the corporators named in the bill creating the company, when they were called on to ante the ten per cent. in cash on their subscriptions, and Mr. Roberts led off by counting his one hundred and ten thousand dollars of new crisp thousand dollar notes. Many had the money at home, and could draw for it. Others wanted to go on Wall street to raise it. But the inflexible rule was cash down, those not prepared to comply therewith were requested to give way to those who had the stamps. Thus the first instalment was quickly collected and the money paid into the treasury, whence it will not be drawn, except to be expended for the immediate object in view, to wit: The construction of a continuous railroad from this city to California across the great State of Texas, and through a far more eligible railroad country than the North or Union Pacific, and by a route at least two-thirds shorter.

This route will quickly attract the greater portion of the travel from the Atlantic to the Pacific. The vast importance of the enterprise to the whole country, and especially to our own section, renders it quite unimportant by whom and whose means it may be accomplished. Those, therefore, who murmur at the large amount of stock appropriated by Mr. Roberts and his associates, will have little sympathy from any quarter. Our people have not the capital to conduct such great undertakings, but they ought to be very grateful to those who, having the capital, are willing to embark so large a share thereof in schemes whose results will be so enormously beneficial to us.—*New Orleans Times.*

Railroads in Minnesota.

At the close of 1870 there were 1,087 miles of completed railroad in Minnesota, of which 330 miles were built within the year. This year 549 miles more are under contract to be completed before winter, as follows:

	Miles.
Northern Pacific	180
St. Paul and Pacific, main line	80
St. Paul and Pacific, Brainard branch	70
St. Paul and Sioux City	60
Chicago and St. Paul	41
Hastings and Dakota	20
Winona and St. Peter	30
Minnesota and Northwestern	47
St. Paul, Stillwater and Taylor's Falls	18
Minneapolis and White Bear	13
Total	549

Chesapeake and Ohio Railroad.

We learn from a Cincinnati paper that the line of the road by which it is proposed to connect Cincinnati with the Chesapeake and Ohio railroad, via Hillsboro, has been run through, by the Symmes Creek route, to the Ohio river, near Ironton; but additional surveys have been made, and nothing can or will be determined as to the route on the Ohio side until all the surveys are complete and maps, profiles and estimates drawn. It is claimed that this trunk line for fifty miles, through the mineral belt of Southern Ohio, commanding three of smelting and superior parlor coals. In one hundred and two and one-half miles there will be a grade of only thirty feet; and it is claimed that they will be able to bring coals to Cincinnati at from eight to ten cents per bushel, according to the price of mining.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "†."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "1."

American Railroad Journal.

Saturday, May 20, 1871.

Stock Exchange and Money Market.

The Money market has steadily favored borrowers since our last on an increased offering on both bank and private account, which has had the effect of depressing call loan rates to 3@5 per cent, and rates on strictly prime to good discounts to 5½@7 per cent. per annum. At these figures the supply has been in excess of the requirements of the market, and balances have been carried over from day to day that could not be placed advantageously at even the reduced quotations. Speculation at the Stock Board has not been very brisk though the dealings toward the close indicated some revival in the demand. At the Gold Exchange there has been rather more activity, with a buoyant temper in values. The mercantile classes report an average trade in most lines, without any special pressure for pecuniary aid, apart from the accommodation extended by the city banks to their regular customers. The city banks, last week, gained $289,229 of specie, $2,158,082 of legal tender notes and $4,374,478 of deposits. They reduced their loan and discount averages $81,487 and reduced their circulation $72,826. The city bank exchanges, last week, averaged $98,271,331: and thus far, this week, 100 millions daily. The banks now hold $14,629,442 of specie and legal tender notes, in excess of the 25 per cent. of their liabilities required by the national banking act. The United States Sub Treasury reported a loss of $2,041,818 of coin, and with a gain of $530,152 in the currency balance. The receipts of the office last week were $5,085,338 in coin, and $5,373,404 in currency; payments $7,127,156 in coin, and $4,843,253 in currency. The office received $2,990,000 in coin or its equivalent, from customs; and disbursed $3,572,336 of coin interest.

The specie reserve of the city banks according to the latest return is $16,196,523, against $32,453,906 same time last year. The city bank deposits are now $231,956,018 against $232,442,819 week ending May 14, 1870. The legal tender reserve amounts to $64,252,293 against $57,947,095 same time last year. The circulation now stands at $31,321,479, against $33,293,980 same time last year. The loans are now $289,231,291, against $278,883,314 at this date last year.

The subscriptions to the new refunding Five per cent. Loan now amount to abont 65⅛ millions.

The U. S. Sub-Treasury, on Thursday morning of this week, held a balance of $7,292,460 in currency, and $58,846,833 in coin, against a balance a week previous of $7,899,830 currency, and $61,093,322 coin.

The U. S. Sub-Treasurer retired, last week, $2,643,859 of coin certificates, received for customs.

Government revenues were on a moderate scale again last week. The excises yielded about 2⅛ millions. The customs at the port of New York, last week were $2,887,859; and at the outports, equal to about $950,000 more, all in coin, or coin certificates. The internal revenue yield thus far in the current fiscal year beginning with July 1, 1870, has been $125,989,126.

Under the Treasury programme for May, Government will sell during the month, through the Treasury office here, Gold, as follows: Thursday, May 25, two millions. And will buy Five-Twenties as follows: Wednesday, May 24, two millions; Wednesday, May 31, two millions.

The Gold speculation has shown more animation, and the price has advanced rather sharply, he range of the week having been from 111⅛@112, and the closing quotation on Wednesday 111⅞, against 111⅛ the preceding Wednesday. The export demand has been more active, the outflow, last week, having been up to $2,883,236; on Tuesday of this week to $1,245,000, and on Wednesday, to $510,000. The Gold Exchange Bank clearances have been 29⅜ millions a day. Tuesday's clearances were up to nearly 51¼ millions, as against 29⅛ millions on Monday.

The Treasury Department balances, on Monday morning, were $98,781,000 of coin, including $19,691,000 represented by outstanding certificates; and $9,412,000 of currency.

The customs at this port on Wednesday were $360,000.

The export drain was $2,883,236 last week, against $801,127, same week preceding year. The shipments since July 1, 1870, have been $69,674,237, against $26,170,858 same time in 1869–'70.

The customs demand for Gold last week, averaged $498,334 a day; thus far, this week, it has averaged $525,500 a day, or equal to a weekly aggregate of $3,153,000. The arrivals of specie from Europe, Havana and other foreign ports since Jan. 1, 1871, have been $2,994,481,

against $6,340,509 same time in 1870. The total customs revenue of the Government, in coin, at this port, since July 1, 1870, has been $130,158,568, against $117,906,734 same time in 1869–'70.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt since July 1, 1870, $77,833,178 against $80,567,902 same time in 1869–'70.

Foreign Exchange has advanced sharply, owing in part to the inadequate supply of coins, available, without serious loss, for shipment. The demand for prime bills has been more active, and the market closed firmly. Bankers' sixty day bills on London closed on Wednesday at 110⅜@110½; sight bills on London, 110⅞@111.

The produce exports from this port, week ending with May 16, were to the currency value of $4,306,896.

Government securities have been in better request and quoted a fraction dearer, on a very scant offering of the older coin bearing bonds. Some of the new five per cent. refunding Loan bonds were delivered to city subscribers on Wednesday.

On Wednesday, Government bought in two millions of Five-Twenties at 111 23@111 49, ex-interest. The amount of bonds offered was $4,877,050.

U. S. sixes of 1881 closed here on Wednesday of the current week at 117¼@117⅜; U. S. Five-Twenties of 1862, 111½@111⅝; U. S. Five-Twenties of 1864 at 111½@111⅝; U. S. Five-Twenties of 1865, 111½@111⅝; U. S. Five-twenties of 1865 consolidated, 113¾@113⅞; U. S. Five Twenties of 1867, 113¾@113¾; U. S. Five-twenties of 1868, 113¾@114; U. S. Ten-forties at 109¾@109⅞; U. S. Six per cent. currency bonds, 115½@115¾.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	May 3.	May 10.	May 17.
Consols	93½	93½	93⅜
U. S. 5-20's of 1862	90½	90¼	90⅜
U. S. 5-20s, 1865	90¼	90⅛	90⅛
" 1867	92½	92½	92⅜
" 10-40s	89½	89½	89¼
Erie	19¼@19¼	....	....

State bonds have been in fair demand at generally firm prices.

Railway bonds have been in good demand on investment account, and quoted stronger in price. Central Pacific Sixes closed firmly at 101¾@102. The Chesapeake and Ohio R. R. First Mortgage six per cent. gold bonds have been in more request at the advanced rate of 91 per cent. and accrued interest. Fully one-half of this Loan has already been marketed, and with such promptness and success that, under orders from the Board of Directors, the Financial Agents of the Company have made the advance in the price of the bonds. Union Pacific Sixes closed at 93⅛@93¾.

Business in Railway and miscellaneous share property showed a more confident and buoyant temper toward the close, though the very latest dealings showed considerable irregularity in values.

General business has been fairly active in the line of Cotton and Breadstuffs, but slow in most other kinds of Produce. Middling upland cotton closed on Wednesday at 15⅛@15¼ cts. per lb. The receipts at all the ports, since Sept. 1, have been 3,665,765 bales, against 2,636,661 bales same time last year; exports 2,766,359 bales, against 1,866,088 bales same time last year; stock at the ports at latest dates, 407,884 bales, against 312,846 bales same date 1870.

Foreign goods have been less active and values have shown less firmness. The week's imports of foreign goods reached $6,561,621, including $1,795,842 of dry goods.

At the Live Stock Markets, Beeves have been in moderate demand at from 10@15 cts; Veal Calves, in moderate request at 4@9 cts; Sheep at 5@8½ cts; Lambs at 10@15 cts; Swine, 6@6¼ cts per lb., all live weight. The week's reciepts were 7,886 Beeves, 5,981 Veal Calves, 18,273, Sheep and Lambs; and 20,296 Swine.

Ocean freights have been more active and Grain rates have been again quoted higher.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—North Carolina 6s, special tax, 21; do. Fund Act, 1868, 30; South Carolina 6s, old, 74; do. new, Jan. and July, 64½; do. THE GREAT NATIONAL LOANS.

☞ NEW FIVE PER CENT. BONDS OF THE UNITED STATES.

The Treasury Department is now able to promise that the registered Certificates of Stock, and a good part of the Coupon Bonds, of the New Loan of the United States, bearing Five per cent. Interest, payable quarterly in Gold, will be ready for delivery early in the present month. The Subscriptions to the Loan now amount to $62,000,000, and it is expected that the Subscriptions and Sales will progress more rapidly when the Certificates and Bonds are ready for market abroad as well as at home. The whole sum of Five per Cents offered to the public generally, and to the holders of United States 5-20 Bonds, without qualification, is $200,000,000. When this amount, to which preference is thus given, is taken up, the remainder of the Five per Cents, $300,000,000, embraced in the New Loan of July 14, 1870, for refunding the Public Debt, will be offered in connection with $300,000,000 Four and one half per Cents, and any part of $700,000,000 of Four per Cents, the one running fifteen years and the other thirty years.

The following is a copy of the New Five per Cent. Bond, under and pursuant to the New Loan Act of Congress:

FORM OF 5 PER CENT BOND.

INTEREST | FUNDED LOAN OF 1881 | 5 PER CENT.

UNITED STATES OF AMERICA

ARE INDEBTED TO THE BEARER IN THE SUM OF .... DOLLARS.
